Iranian-Saudi Rivalry since 1979 Talal Mohammad, 2022-08-11 The fraught relationship between Saudi Arabia and Iran is usually attributed to sectarian differences, even by the states' own elites. However, this book shows that in their official speeches, newspaper editorials and Friday sermons, these elites use sectarian and nationalist references and tropes to denigrate each other and promote themselves in the eyes of their respective constituencies in the region. Talal Mohammad, who is fluent in both Arabic and Persian, examines Saudi-Iranian rivalry using discourse analysis of these religious, political and journalistic sources. Tracing what has been produced since 1979 in parallel, he argues for a consistent pattern of mutual misrepresentation, whereby each frames its counterpart as the 'Other' to which a specific political agenda can be justified and advanced. The book covers key events including the Iranian Revolution, the invasion of Kuwait in 1990, the Taliban war, the fall of Saddam, the Arab Spring, the rise of Mohammed bin Salman, and the war on ISIS. While until now Saudi-Iranian rivalry has been understood in primarily sectarian or geopolitical terms, the author argues here that the discursive othering serves as a propagandist function that supports more fundamental political and geopolitical considerations.

Women Suicide Bombers V. G. Julie Rajan, 2011-08-26 This book offers an evaluation of female suicide bombers through postcolonial, Third World, feminist, and human-rights framework, drawing on case studies from conflicts in Palestine, Sri Lanka, and Chechnya, among others. *Women Suicide Bombers* explores why cultural, media and political reports from various geographies present different information about and portraits of the same women suicide bombers. The majority of Western media and sovereign states engaged in wars against groups deploying bombings tend to focus on women bombers' abnormal mental conditions; their physicality—for example, their painted fingernails or their beautiful eyes; their sexualities; and the various ways in which they have been victimized by their backward Third World cultures, especially by Islam. In contrast, propaganda produced by rebel groups deploying women bombers, cultures supporting those campaigns, and governments of those nations at war with sovereign states and Western nations tend to project women bombers as mythical heroes, in ways that supersedes the martyrdom operations of male bombers. Many of the books published on this phenomenon have revealed interesting ways to read women bombers' subjectivities, but do not explore the phenomenon of women bombers both inside and outside of their militant activities, or against the patriarchal, Orientalist, and Western feminist cultural and theoretical frameworks that label female bombers primarily as victims of backward cultures. In contrast, this book offers a corrective lens to the existing discourse, and encourages a more balanced evaluation of women bombers in contemporary conflict. This book will be of interest to students of terrorism, gender studies and security studies in general.

Saudi Arabia and Nuclear Weapons Norman Cigar, 2016-03-10 Nuclear proliferation in the Middle East remains an issue of concern. Saudi Arabia's actions will largely rest on Iran's decisions, and discussions and preparations within Saudi Arabia would suggest that it is ready to react to potential shifts in the region's nuclear powers. *Saudi Arabia and Nuclear Weapons* uses an inside out approach that emphasises the Saudis' own national interests in relation to the nuclear threat, and their understanding of the

role of nuclear weapons in defense, foreign policy and the concept of deterrence. It is the first study with comprehensive use of the local Arabic language military and civilian media to provide this understanding of official thinking and policy. The Saudi case study is contextualised against the prevailing proliferation models, to conclude that the Saudi case shares both commonalities and elements of uniqueness with other proliferation cases, implying the need for a 'multi-causal' approach. Its comparative analysis also suggests potential implications applicable more broadly to the issue of nuclear proliferation. A comprehensive study of Saudi Arabia's attitude to nuclear weapons, this book offers an exploration of nuclear proliferation that would interest students, scholars and policymakers working in Middle East studies, as well as Military and nuclear proliferation studies.

Land Grabbing and Global Governance Matias E. Margulis, Nora McKeon, Saturnino M. Borras Jr., 2016-05-23 Land grabbing per se is not a new phenomenon, given its historical precedents in the eras of imperialism. However, the character, scale, pace, orientation and key drivers of the recent wave of land grabs is a distinct historical event closely tied to the changing dynamics of the global agri-food, feed and fuel complex. Land grabbing is facilitated by ever greater flows of capital, goods, and ideas across borders, and these flows occur through axes of power that are far more polycentric than the North-South imperialist tradition. Land grabs occur in the context of changes in the character of the global food regime, formerly anchored by North Atlantic empires; the integrated food-energy complex seems to be headed towards multiple centres of power, especially with the rise of the BRICS and the proliferation of middle income countries participating in many of the land transactions. *Land Grabbing and Global Governance* offers insights from leading scholars and experts on contemporary land grabs. This volume examines land grabs in direct relation to a global economy undergoing profound change and the role of new configurations of actors and power in governance institutions and practices. This book was published as a special issue of *Globalizations*.

Pirates, Terrorists, and Warlords Jeffrey H. Norwitz, 2009-07 A serious look at the enemies we face in the twenty-first...

Hamas vs. Fatah Jonathan Schanzer, 2008-11-11 In June 2007 civil war broke out in the Gaza Strip between two rival Palestinian factions, Hamas and Fatah. Western peace efforts in the region always focused on reconciling two opposing fronts: Israel and Palestine. Now, this careful exploration of Middle East history over the last two decades reveals that the Palestinians have long been a house divided. What began as a political rivalry between Fatah's Yasir Arafat and Hamas leader Sheikh Ahmed Yassin during the first intifada of 1987 evolved into a full-blown battle on the streets of Gaza between the forces of Arafat's successor, Mahmoud Abbas, and Ismael Haniyeh, one of Yassin's early protégés. Today, the battle continues between these two diametrically opposing forces over the role of Palestinian nationalism and Islamism in the West Bank and Gaza. In this thought-provoking book, Jonathan Schanzer questions the notion of Palestinian political unity, explaining how internal rivalries and violence have ultimately stymied American efforts to promote Middle East peace, and even the Palestinian quest for a homeland.

Historiography in Saudi Arabia Jörg Matthias Determann, 2013-10-25 Saudi Arabia is generally and justifiably viewed as a country with the fewest democratic institutions and the weakest traditions of pluralism in the world.

It is therefore surprising to learn that at least in one corner of the Saudi world, there is a plurality of voices. Jörg Matthias Determann brings this element to light by analysing an important field of cultural activity in Saudi Arabia: historical writing. By exploring the emergence of a plurality of historical narratives in the absence of formal political pluralism, Determann seeks to paint a more nuanced picture of Saudi Arabia than has previously been drawn. Since the 1920s local, tribal, Shi'i and dynastic histories have contributed to a growing plurality of narratives, diverging from and contesting the histories which focus on the royal family. Instead, they have emphasized the communities' historical independence from the House of Saud or asserting the communities' importance in Saudi national history. In addition to this, during the 1970s, distinct social and economic histories began to be developed, new narratives which have described important historical events evolving from wider social and economic factors rather than resulting from the actions of individual rulers or communities. Paradoxically, this happened because of the expansion of the Saudi state, including state-provision of mass education. A variety of previously illiterate and relatively poor sections of Saudi society, including former Bedouin, were thus empowered to produce histories which, while conformist for the most part, also provided a vehicle for dissenting voices. Furthermore, Determann argues that this proliferation of alternative histories is also due to globalizing processes, such as the spread of the internet. It is through this phenomenon that narrative plurality has been facilitated, by putting Saudi historians in contact with different ideologies, methodologies and source material from abroad. In challenging the widely-held perception of Saudi Arabia as an irredeemably closed and monolithic society, *Historiography in Saudi Arabia* provides a deeper understanding of modern Arab historiography, the Saudi state, and education and scholarship in the Middle East.

China-Saudi Arabia Relations, 1990-2012 Naser M. Al-Tamimi, 2013-09-05 This book focuses on the relationship established between China, the world's second largest economy, and Saudi Arabia, the world's top oil exporter. Due to Saudi Arabia's dominance of the world oil market, China is increasingly focusing its attention on the Saudi Arabia as a reliable oil supplier while Saudi Arabia sees China as an enormous potential market and strategic trade partner. It investigates both countries' motives for establishing a strategic relationship and outlines the potential for successful co-operation between them. It then goes on to address the wider implications for the United States in the Middle East.

Women and Radicalism in Saudi Arabia Hend T. Alsudairy, 2022-03-23 This book studies the radical Islam movement in Saudi Arabia from the 1960s to 2019, and exposes the causes of female terrorism and extremism to highlight the

dark tunnel of such radicalism and to help others to recognise it before it is too late to be redeemed. It highlights radical women as having a dangerous impact on Saudi women, especially university students, showing that, although al-Qaeda was not keen on involving women in terrorist operations, that does not mean women were totally uninvolved.

Hamas Matthew Levitt, 2008-10-01 How does a group that operates terror cells and espouses violence become a ruling political party? How is the world to understand and respond to Hamas, the militant Islamist organization that Palestinian voters brought to power in the stunning election of January 2006? This important book provides the most fully researched assessment of Hamas ever written. Matthew Levitt, a counterterrorism expert with extensive field experience in Israel, the West Bank, and Gaza, draws aside the veil of legitimacy behind which Hamas hides. He presents concrete, detailed evidence from an extensive array of international intelligence materials, including recently declassified CIA, FBI, and Department of Homeland Security reports. Levitt demolishes the notion that Hamas' military, political, and social wings are distinct from one another and catalogues the alarming extent to which the organization's political and social welfare leaders support terror. He exposes Hamas as a unitary organization committed to a militant Islamist ideology, urges the international community to take heed, and offers well-considered ideas for countering the significant threat Hamas poses.

Accusations of Unbelief in Islam Camilla Adang, Hassan Ansari, Maribel Fierro, Sabine Schmidtke, 2015-10-20 The present volume offers nineteen studies of takfīr: accusations of unbelief, covering different periods and parts of the Muslim world. The Clerics of Islam Nabil Mouline, 2014-01-01 Followers of Muhammad b. 'Abd al-Wahhab, often considered to be Islam's Martin Luther, shaped the political and religious identity of the Saudi state while also enabling the significant worldwide expansion of Salafist Islam. Studies of the movement he inspired, however, have often been limited by scholars' insufficient access to key sources within Saudi Arabia. Nabil Mouline was granted rare interviews and admittance to important Saudi archives in preparation for this groundbreaking book, the first in-depth study of the Wahhabi religious movement from its founding to the modern day. Gleaning information from both written and oral sources and employing a multidisciplinary approach that combines history, sociology, and Islamic studies, Mouline presents a new reading of this movement that transcends the usual resort to polemics.

Stateless Literature of the Gulf Tareq Alrabei, 2021-09-23 The "Bidun" ("without nationality") are a stateless community based across the Arab Gulf. There are an estimated 100,000 or so Bidun in Kuwait, a heterogeneous group made up of tribes people who failed to register for citizenship between 1959 and 1963, former residents of Iraq, Saudi and other Arab countries who joined the Kuwait security services in '60s and '70s and the children of Kuwaiti women and Bidun men. They are considered illegal residents by the Kuwaiti government and as such denied access to many services of the oil-rich state, often living in slums on the outskirts of Kuwait's cities. There are few existing works on the Bidun community and what little research there is is grounded in an Area Studies/Social Sciences approach. This book is the first to explore the Bidun from a literary/cultural perspective, offering both the first study of the literature of the Bidun in Kuwait, and in the process a

corrective to some of the pitfalls of a descriptive, approach to research on the Bidun and the region. The author explores the historical and political context of the Bidun, their position in Kuwaiti and Arabic literary history, comparisons between the Bidun and other stateless writers and analysis of the key themes in Bidun literature and their relationship to the Bidun struggle for recognition and citizenship.
