Unveiling the Magic of Words: A Review of "**Jazirah.htm**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**Jazirah.htm**," a mesmerizing literary masterpiece penned by way of a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book's central themes, examine its distinctive writing style, and assess its profound affect on the souls of its readers.

**Hamis** Matthew Levitt 2008-10-01 How does a group that operates terror cells and espouses violence become a ruling political party? How is the world to understand and respond to Hamas, the militant Islamist organization that Palestinian voters brought to power in the stunning election of January 2006? This important book provides the most fully researched assessment of Hamas ever written. Matthew Levitt, a counterterrorism expert with extensive field experience in Israel, the West Bank, and Gaza, draws aside the veil of legitimacy behind which Hamas hides. He presents concrete, detailed evidence from an extensive array of international intelligence materials, including recently declassified CIA, FBI, and Department of Homeland Security reports. Levitt demolishes the notion that Hamas' military, political, and social wings are distinct from one another and catalogues the alarming extent to which the organization's political and social welfare leaders support terror. He exposes Hamas as a unitary organization committed to a militant Islamist ideology, urges the international community to take heed, and offers well-considered ideas for countering the significant threat Hamas poses.

**International Perspectives on Family Violence and Abuse** Kathleen Malley-Morrison 2012-12-06 In this book, in which definitions and examples of abuse from men and women from every continent and a very diverse set of backgrounds are considered. The volume provides information on the extent to which family violence is a recognized

problem in each country, research findings available on different forms of family violence, and information on governmental responses to family violence. Finally, the value of an international human rights approach to abuse and violence in families is considered. The book presents an unparalleled international coverage, addressing all forms of family violence in Australia and at least two countries from every other continent. Each chapter begins by describing the cultural context in which family violence and abuse take place. These sections emphasize the role of women and children in the country. Providing a multitude of voices, each chapter includes fascinating and often dramatic definitions and examples of abuse from ordinary citizens of the country. The concluding chapter elaborates on the appropriateness of a human rights approach in addressing family violence cross-nationally and cross-culturally; and provides an excellent integration of much of the material from the previous chapters. The book is intended for advanced undergraduates and graduate students in psychology and sociology, as well as pre-professionals and professionals in medicine, law, and social services. It has strong relevance and value to individuals training in counseling (counselor education) and clinical psychology. Because of its readable style and extensive use of quotations from citizens of the countries studied for the book, it may also appeal to a much broader audience, including a lay audience.

*The Battle for Saudi Arabia* As'Ad Abukhalil 2011-01-04 In *The Battle for Saudi Arabia*:

Royalty, Fundamentalism, and Global Power , Professor As`ad AbuKhalil confronts the contradictory nature of Saudi Arabia—questions that both the Saudi government, long shrouded in mystery, and the United States government, ever protective of its own interests, seem unwilling to answer. In this unsparing probe into the history and power structure of the kingdom, Professor AbuKhalil, author of Bin Laden, Islam, and America's New "War on Terrorism", affords the reader unique insight into the intense friction that underlies the increasingly precarious balance between the Saudi royal family and the fundamentalist clerical establishment.

**Hope in Troubled Times** Bob Goudzwaard 2007-05-01 We want to have it all: financial strength, secure homes, clean air and water for our children. With the latest technological advances available, we deserve to have every dilemma resolved. Isn't that the way it's supposed to work? Hope in Troubled Times dares to say "no." Poverty, terrorism, and overtaxed land are planetary problems that make even believers despair. But the authors point to Christ as the source of hope. Our choice is obvious. We work together, learning to live unselfishly, or we watch civilization sink further into the abyss. With a foreword by renowned human rights activist Archbishop Desmond Tutu, Hope in Troubled Times provides real-world solutions to life-threatening problems. The authors show that with God's guidance we can knock down the idols that stunt clear thinking.

**Persian Gulf 2013** P. R. Kumaraswamy 2013-10-30 Persian Gulf 2013 looks at the growing relationship between India and the countries of the Persian Gulf region, which has assumed greater importance in the recent years and hence demands greater attention. The book covers India's bilateral relations in 2012 with nine Persian Gulf countries, namely, Bahrain, Iran, Iraq, Kuwait, Oman, Qatar, Saudi Arabia, UAE and Yemen as well as the Gulf Cooperation Council (GCC). The Gulf region accounts for about two-thirds of India's oil imports and is home to about six million-strong Indian expatriate workforce. It is also India's important sub-regional trading partner. Despite its importance, there is a lack of

adequate understanding of the various facets of the relations between India and the Gulf region. This book serves precisely this function—to fill in the policy lacuna and attitude of New Delhi towards this region.

**New Military Strategies in the Gulf** Jean-Loup Samaan 2023-07-13 In the last decade, rulers in Gulf regimes have aspired to greater strategic autonomy and distance from the West. Coined the "Gulf moment" by local commentators, this regional trend reflects a redistribution of power in the Arab world. This is the first book to examine the military dimensions of these shifts. Gulf military strategy has prioritised the improvement of local armed forces and the diversification of defence partnerships towards countries such as Russia, Turkey or China. However, this book shows how this has led to the militarisation of Gulf societies, the further erosion of multilateral initiatives - including the Gulf Cooperation Council - and the Gulf's perilous involvement in the war in Yemen. The book also highlights enduring reliance on the West. Each chapter covers a key aspect of defence policy from governance of armed forces, military education and power projection capabilities to regional security cooperation and lessons from warfighting experiences. Close attention is paid to Saudi Arabia, the United Arab Emirates and Qatar, countries that have enjoyed prominent roles in the region's security affairs during the last ten years. The research is based on extensive fieldwork and interviews with major decision-makers, officials, and diplomatic and military representatives. It is also uses recently declassified official documents to gain rare insight into what Gulf countries intend for their defence policies.

**Historiography in Saudi Arabia** Jörg Matthias Determann 2013-10-25 Saudi Arabia is generally and justifiably viewed as a country with the fewest democratic institutions and the weakest traditions of pluralism in the world. It is therefore surprising to learn that at least in one corner of the Saudi world, there is a plurality voices. Jörg Matthias from [www.forumswindows8.com](http://www.forumswindows8.com) on 2023-08-02 by guest

Determann brings this element to light by analysing an important field of cultural activity in Saudi Arabia: historical writing. By exploring the emergence of a plurality of historical narratives in the absence of formal political pluralism, Determann seeks to paint a more nuanced picture of Saudi Arabia than has previously been drawn. Since the 1920s local, tribal, Shi'i and dynastic histories have contributed to a growing plurality of narratives, diverging from and contesting the histories which focus on the royal family. Instead, they have emphasized the communities' historical independence from the House of Saud or asserting the communities' importance in Saudi national history. In addition to this, during the 1970s, distinct social and economic histories began to be developed, new narratives which have described important historical events evolving from wider social and economic factors rather than resulting from the actions of individual rulers or communities. Paradoxically, this happened because of the expansion of the Saudi state, including state-provision of mass education. A variety of previously illiterate and relatively poor sections of Saudi society, including former Bedouin, were thus empowered to produce histories which, while conformist for the most part, also provided a vehicle for dissenting voices. Furthermore, Determann argues that this proliferation of alternative histories is also due to globalizing processes, such as the spread of the internet. It is through this phenomenon that narrative plurality has been facilitated, by putting Saudi historians in contact with different ideologies, methodologies and source material from abroad. In challenging the widely-held perception of Saudi Arabia as an irredeemably closed and monolithic society, Historiography in Saudi Arabia provides a deeper understanding of modern Arab historiography, the Saudi state, and education and scholarship in the Middle East.

**The Clerics of Islam** Nabil Mouline 2014-01-01 Followers of Muhammad b. 'Abd al-Wahhab, often considered to be Islam's Martin Luther, shaped the political and religious identity of the Saudi state while also enabling the significant worldwide expansion of Salafist Islam. Studies of the movement he inspired, however, have often been limited by scholars' insufficient access to key sources within Saudi Arabia. Nabil Mouline was granted rare interviews and admittance to important Saudi archives in preparation for this groundbreaking book, the first in-depth study of the Wahhabi religious movement from its founding to the modern day. Gleaning information from both written and oral sources and employing a multidisciplinary approach that combines history, sociology, and Islamic studies, Mouline presents a new reading of this movement that transcends the usual resort to polemics.

Philanthropy in the Muslim World Shariq A.

Siddiqui 2023-06-01 Philanthropy plays an essential role in Muslim practice around the world. Using a new framing, *Philanthropy in the Muslim World* contributes to the literature by adding Muslim-majority countries that have not been previously included in cross national philanthropy volumes as well as countries that have important Muslim minority communities.

**Armed Groups** Jeffrey H. Norwitz 2008-08-05 Product Description: Discussion of armed groups which are considered to include classic insurgents, terrorists, guerrillas, militias, police agencies, criminal organizations, war-lords, privatized military organizations, mercenaries, pirates, drug cartels, apocalyptic religious extremists, orchestrated rioters and mobs, and tribal factions. To study armed groups use of history, political science, anthropology, sociology, theology, and economics are traditional areas of research. The book also delves into matters of ethics, technology, intelligence, education, the law, diplomacy, military science, and even mythology. The book is divided into five sections: History and armed groups, Present context and environment, Religion and inspiration, thinking differently about armed groups, the shape of things to come.

2019-09-04 In recent years, an internal debate has arisen in Saudi Arabia on the legitimacy of Saudi religion and the foundations of Islam. Sparked by concerns such as the absence of divine intervention in the Syrian civil war, the question of the Muslim monopoly on heaven, and politically subversive differentiations between "Saudi religion" and Islam, the challenge within Saudi Arabia to religious orthodoxy has never been greater. *Tweeted Heresies* explores the emergence of these patterns of non-belief and the responses to them from the Salafi-Wahhabi religious institutions. Previous studies have focused on formal institutions and their role in religious change. Abdullah Hamidaddin focuses on individuals who took advantage of social media during a period of relative freedom of expression to criticize religion and question the most fundamental aspects of Saudi society: its politics, religion, social justice, gender and sexual relations, and the future of the country. These individuals mounted a direct challenge to religious orthodoxy, whether through calls for religious reform or, even more provocatively, debates over concepts of deity, morality, and duty to Allah. For the foreseeable future criticism is limited to virtual spaces, and the conversation was especially active on Twitter. *Tweeted Heresies* examines a large body of tweets, as well as interviews with Saudis about how their understanding and critique of religion have developed over the course of their lives. The result is a uniquely revealing portrait of an otherwise hidden current of religious change that promises to ultimately transform Saudi society.

**Riyadh** Yasser Elsheshtawy 2021-09-27 Riyadh has set its sights on becoming a world city befitting the twenty-first century. To that end it has embarked on a massive construction drive evidenced in the proliferation of proposals for high-end districts, giga-developments and elaborate infrastructures. An urban vision seemingly dedicated to attracting global capital. Yet such a narrative can be misleading. A 'humanization programme', initiated during the tenure of its former mayor Abdulaziz bin Ayyaf, has complemented the city's rapid rise by providing spaces catering for the everyday needs

of its inhabitants. Yasser Elsheshtawy, in this richly illustrated book, targets these people-centred settings. It is a compelling counter-narrative interweaving critical theoretical insights, personal observations, and serendipitous encounters. He deftly demonstrates how Riyadh thrives through the actions of its people. As the world moves towards an urban model that is resilient and humane, the humanizing efforts of an Arab city are worthy of our attention. Riyadh's premise is perhaps best captured in the cover image depicting the desert riverbed of Wadi Sulai, filled with rainwater, making its way towards the Saudi capital. Along its banks there will be dedicated public pathways and urban parks. It is a vision of an urbanity where both the spectacular and the everyday coexist. A city that is not just dedicated to the few, but one that serves the many.

Stateless Literature of the Gulf Tareq Alrabei 2021-09-23 The "Bidun" ("without nationality") are a stateless community based across the Arab Gulf. There are an estimated 100,000 or so Bidun in Kuwait, a heterogeneous group made up of tribes people who failed to register for citizenship between 1959 and 1963, former residents of Iraq, Saudi and other Arab countries who joined the Kuwait security services in '60s and '70s and the children of Kuwaiti women and Bidun men. They are considered illegal residents by the Kuwaiti government and as such denied access to many services of the oil-rich state, often living in slums on the outskirts of Kuwait's cities. There are few existing works on the Bidun community and what little research there is is grounded in an Area Studies/Social Sciences approach. This book is the first to explore the Bidun from a literary/cultural perspective, offering both the first study of the literature of the Bidun in Kuwait, and in the process a corrective to some of the pitfalls of a descriptive, approach to research on the Bidun and the region. The author explores the historical and political context of the Bidun, their position in Kuwaiti and Arabic literary history, comparisons between the Bidun and other stateless writers and analysis of the key themes in Bidun literature and their relationship to the Bidun struggle for recognition and citizenship.

## Contemporary Debates in Social Sciences

Esma Torun Çelik 2018-09-30

### Beyond Sunni and Shia

Frederic Wehrey 2018-02-01 This collection seeks to advance our understanding of intra-Islamic identity conflict during a period of upheaval in the Middle East. Instead of treating distinctions between and within Sunni and Shia Islam as primordial and immutable, it examines how political economy, geopolitics, domestic governance, social media, non- and sub-state groups, and clerical elites have affected the transformation and diffusion of sectarian identities. Particular attention is paid to how conflicts over distribution of political and economic power have taken on a sectarian quality, and how a variety of actors have instrumentalized sectarianism. The volume, covering Syria, Iraq, Lebanon, Saudi Arabia and the Gulf, Iran, and Egypt, includes contributors from a broad array of disciplines including political science, history, sociology, and Islamic studies. Beyond Sunni and Shia draws on extensive fieldwork and primary sources to offer insights that are empirically rich and theoretically grounded, but also accessible for policy audiences and the informed public.

**Adab and Modernity** Cathérine Mayeur-Jaouen 2019-12-09 Adab is a concept situated at the heart of Arabic and Islamic civilization. What became of it, towards modernity? The question of the civilising process (Norbert Elias) helps us reflect on this story.

**Iranian-Saudi Rivalry since 1979** Talal Mohammad 2022-08-11 The fraught relationship between Saudi Arabia and Iran is usually attributed to sectarian differences, even by the states' own elites. However, this book shows that in their official speeches, newspaper editorials and Friday sermons, these elites use sectarian and nationalist references and tropes to denigrate each other and promote themselves in the eyes of their respective constituencies in the region. Talal Mohammad, who is fluent in both Arabic and Persian, examines Saudi-Iranian rivalry using discourse analysis of these religious, political and journalistic sources. Tracing what has been produced since 1979 in parallel, he argues for a consistent pattern of mutual misrepresentation, whereby each frames its counterpart as the

'Other' to which a specific political agenda can be justified and advanced. The book covers key events including the Iranian Revolution, the invasion of Kuwait in 1990, the Taliban war, the fall of Saddam, the Arab Spring, the rise of Mohammed bin Salman, and the war on ISIS. While until now Saudi-Iranian rivalry has been understood in primarily sectarian or geopolitical terms, the author argues here that the discursive othering serves as a propagandist function that supports more fundamental political and geopolitical considerations.

**Transcontinental Strategies for Industrial Development and Economic Growth** Christiansen, Bryan 2017-03-03 In contemporary society, it is vital for countries to consistently seek new ways to provide stable growth for their increasing populations. As such, it is important to stay on top of the most current strategies and trends that promote strong industrial and economic development. *Transcontinental Strategies for Industrial Development and Economic Growth* provides a comprehensive examination of the latest strategies and techniques for growing and maintaining an economically-sound community. Highlighting innovative research on relevant topics such as budget preparation processes, management philosophies, and global competitiveness, this publication is an ideal resource for all professionals, practitioners, business owners, and researchers who are seeking advanced academic perspectives on strategies for industrial development and economic growth.

**Die Europäische Union, Russland und Eurasien** Winfried Schneider-Deters 2008-01-01 *Accusations of Unbelief in Islam* Camilla Adang 2015-10-20 The present volume offers nineteen studies of takfir: accusations of unbelief, covering different periods and parts of the Muslim world. Takfir was and is an effective instrument to delegitimize one's opponents, who may face social exclusion or even persecution.

**Hamas vs. Fatah** Jonathan Schanzer 2008-11-11 In June 2007 civil war broke out in the Gaza Strip between two rival Palestinian factions, Hamas and Fatah. Middle East history over the last two decades reveals that the Palestinians have long been a house divided. What began as a political rivalry between Fatah's Yasir Arafat and Hamas leader Sheikh Ahmed Yassin during the first intifada of 1987 evolved into a full-blown battle on the streets of Gaza between the forces of Arafat's successor, Mahmoud Abbas, and Ismael Haniyeh, one of Yassin's early protégés. Today, the battle continues between these two diametrically opposing forces over the role of Palestinian nationalism and Islamism in the West Bank and Gaza. In this thought-provoking book, Jonathan Schanzer questions the notion of Palestinian political unity, explaining how internal rivalries and violence have ultimately stymied American efforts to promote Middle East peace, and even the Palestinian quest for a homeland.

**Saudi Capital Market** Bader Alkhaldi 2016-11-24

A thriving capital market, one that not only brings investment funds into a country but also distributes profits in a transparent manner, is essential for any economy, especially a rapidly developing one such as Saudi Arabia. Already a key player on the world stage, the Kingdom is going through a major planned economic transformation and diversification. In particular, a robust and transparent capital market, with a high level of integrity and sound enforcement, is well on the way to fruition. This book is the first in English to analyse and evaluate the roles of economic planning and a capital market in Saudi Arabia's economic modernization. In the process of examining the level of transparency and fairness in Saudi Arabia's capital market, the author provides detailed information and analysis of such issues and topics as the following: - market disclosure rules; - insider trading laws; - gaps in enforcement; - dispute resolution; - role of securities agencies; - Saudi Arabia's position in international organizations; and - repercussions of the 2006 Saudi stock market collapse. The author draws on a wide range of sources in both English and Arabic, and concludes with well-grounded proposals for appropriate judicial, administrative, and enforcement policies. Investors, their management and attorneys, and other advisors with an eye on trade development in the Middle

East will derive great benefit from the current and detailed information in this book. Lawyers and policymakers will discover all they need to know about the Saudi capital market, its developing trends, and applicable laws.

*Land Grabbing and Global Governance* Matias E. Margulis 2016-05-23 Land grabbing per se is not a new phenomenon, given its historical precedents in the eras of imperialism. However, the character, scale, pace, orientation and key drivers of the recent wave of land grabs is a distinct historical event closely tied to the changing dynamics of the global agri-food, feed and fuel complex. Land grabbing is facilitated by ever greater flows of capital, goods, and ideas across borders, and these flows occur through axes of power that are far more polycentric than the North-South imperialist tradition. Land grabs occur in the context of changes in the character of the global food regime, formerly anchored by North Atlantic empires; the integrated food-energy complex seems to be headed towards multiple centres of power, especially with the rise of the BRICS and the proliferation of middle income countries participating in many of the land transactions. *Land Grabbing and Global Governance* offers insights from leading scholars and experts on contemporary land grabs. This volume examines land grabs in direct relation to a global economy undergoing profound change and the role of new configurations of actors and power in governance institutions and practices. This book was published as a special issue of *Globalizations*.

*Women Suicide Bombers* V. G. Julie Rajan 2011-08-26 This book offers an evaluation of female suicide bombers through postcolonial, Third World, feminist, and human-rights framework, drawing on case studies from conflicts in Palestine, Sri Lanka, and Chechnya, among others. *Women Suicide Bombers* explores why cultural, media and political reports from various geographies present different information about and portraits of the same women suicide bombers. The majority of Western media and sovereign states engaged in wars against groups deploying bombings tend to focus on women bombers' abnormal mental conditions; their personality from

example, their painted fingernails or their beautiful eyes; their sexualities; and the various ways in which they have been victimized by their backward Third World cultures, especially by "Islam." In contrast, propaganda produced by rebel groups deploying women bombers, cultures supporting those campaigns, and governments of those nations at war with sovereign states and Western nations tend to project women bombers as mythical heroes, in ways that supersedes the martyrdom operations of male bombers. Many of the books published on this phenomenon have revealed interesting ways to read women bombers' subjectivities, but do not explore the phenomenon of women bombers both inside and outside of their militant activities, or against the patriarchal, Orientalist, and Western feminist cultural and theoretical frameworks that label female bombers primarily as victims of backward cultures. In contrast, this book offers a corrective lens to the existing discourse, and encourages a more balanced evaluation of women bombers in contemporary conflict. This book will be of interest to students of terrorism, gender studies and security studies in general.

*Arab Cultural Studies* Tarik Sabry 2011-11-30  
'Arab Cultural Studies: Mapping the Field' is the first attempt to explore ways of conceptualising and theorising the nascent field of Arab Cultural Studies. It reflects and engages in an interdisciplinary discussion on the different facets of Arab cultural studies, including gender, economy, history, epistemology, language, method, politics, literary and cultural criticism, institutionalization, popular culture, creativity and much more. The book presents a meta-narrative about how scholars have thus far thought and re-thought the field. It brings together prominent and emerging experts, writing from both Arab and Western academia, to engage with key complex, epistemic and methodological questions and to articulate in the meantime the new kinds of language and hermeneutics necessary for the appropriation of an historically conscious and coherent field of scientific enquiry into contemporary Arab media, culture and society.  
Researching Biology and Evolution in the Gulf States Jörg Matthias Determann 2015-08-25

Officials and religious scholars in the Gulf states have repeatedly banned the teaching of the theory of evolution because of its association with atheism. But Jorg Matthias Determann argues here that, despite official prohibition, research on biological evolution has flourished, due in large part to the development of academic and professional networks. This book traces these networks through the history of various branches of biology, including botany, conservation research, ornithology and palaeontology. Typical of rentier societies, some of the scientific networks in this region consist of vertical patron-client relationships. For example, those in power who are interested in wildlife conservation have been known to offer patronage to biologists working on desert ecology. However, just as important are the horizontal links between scientists both within the Gulf region and beyond. Given the strengths and importance of these two forms of professional networks, Determann argues that we should look at the Arab world as an area interconnected with global science, and therefore fully integrated into the scientific and technological advances being pioneered worldwide."

**The World Almanac of Islamism** American Foreign Policy Council 2011-10-27  
The World Almanac of Islamism is the first comprehensive reference work to detail the current activities of radical Islamist movements worldwide. The contributions, written by subject experts, provide annual updates on the contemporary Islamist threat in all countries and regions where it exists.

**America, Islam and the War of Ideas** Larry Pintak 2006

**Saudi Arabia and Nuclear Weapons** Norman Cigar 2016-03-10  
Nuclear proliferation in the Middle East remains an issue of concern. Saudi Arabia's actions will largely rest on Iran's decisions, and discussions and preparations within Saudi Arabia would suggest that it is ready to react to potential shifts in the region's nuclear powers. Saudi Arabia and Nuclear Weapons uses an "inside out" approach that emphasises the Saudis' own national interests in relation to the nuclear threat, and their understanding of the role of nuclear weapons in defense, foreign policy and

the concept of deterrence. It is the first study with comprehensive use of the local Arabic language military and civilian media to provide this understanding of official thinking and policy. The Saudi case study is contextualised against the prevailing proliferation models, to conclude that the Saudi case shares both commonalities and elements of uniqueness with other proliferation cases, implying the need for a 'multi-causal' approach. Its comparative analysis also suggests potential implications applicable more broadly to the issue of nuclear proliferation. A comprehensive study of Saudi Arabia's attitude to nuclear weapons, this book offers an exploration of nuclear proliferation that would interest students, scholars and policymakers working in Middle East studies, as well as Military and nuclear proliferation studies.

China-Saudi Arabia Relations, 1990-2012 Naser M. Al-Tamimi 2013-09-05 This book focuses on the relationship established between China, the world's second largest economy, and Saudi Arabia, the world's top oil exporter. Due to Saudi Arabia's dominance of the world oil market, China is increasingly focusing its attention on the Saudi Arabia as a reliable oil supplier while Saudi Arabia sees China as an enormous potential market and strategic trade partner. It investigates both countries' motives for establishing a strategic relationship and outlines the potential for successful co-operation between them. It then goes on to address the wider implications for the United States in the Middle East.

Arab and Muslim Science Fiction Hosam A. Ibrahim Elzembely 2022-03-21 How is science fiction from the Arab and Muslim world different than mainstream science fiction from the West? What distinctive and original contributions can it make? Why is it so often neglected in critical considerations of the genre? While other books have explored these questions, all have been from foreign academic voices. Instead, this book examines the nature, genesis, and history of Arabic and Muslim science fiction, as well as the challenges faced by its authors, in the authors' own words. These authors share their stories and struggles with censors, recalcitrant publishers, critics, the book market, and the literary

establishment. Their uphill efforts, with critical contributions from academics, translators, and literary activists, will enlighten the sci-fi enthusiast and fill a gap in the history of science fiction. Topics covered range from culture shock to conflicts between tradition and modernity, proactive roles for female heroines, blind imitation of storytelling techniques, and language games.

Al-Jazeera Abdo Jamil Al-Mikhlaft 2006

**Women and Radicalism in Saudi Arabia** Hend T. Alsudairy 2022-03-23 This book studies the radical Islam movement in Saudi Arabia from the 1960s to 2019, and exposes the causes of female terrorism and extremism to highlight the dark tunnel of such radicalism and to help others to recognise it before it is too late to be redeemed. It highlights radical women as having a dangerous impact on Saudi women, especially university students, showing that, although al-Qaeda was not keen on involving women in terrorist operations, that does not mean women were totally uninvolved.

**Long Road from Taif to Jeddah** Askar Al-Enazy 2005-06-24 The boundary dispute between Saudi Arabia and Yemen during the past seventy years has periodically threatened regional peace and stability. This book offers the first systematic study of the resolution of this dispute. It provides a discussion of legal attempts to resolve the dispute with references to the principles of international law.

The Social Construction of Landscapes in Games Dennis Edler 2022-07-27 The book is dedicated to a compilation of diverse and creative landscapes which occur in games. Being part of a game setting, these landscapes trigger social construction processes in specific ways. A selection of twenty-four research articles addresses the social constructions of landscapes represented in analogue, digital and hybrid game formats as well as their theoretical framing and future perspectives.

Sa'udi Policies towards Migrants and Refugees Joseph A. Kéchichian 2021-09-22 A Sacred Duty sets out the Kingdom's policy toward the global issue of migrants and refugees, with special emphasis directed toward Muslim societies.

Discussion focuses on refugee communities

currently living in Saudi Arabia, some of which migrated due to war, forced displacement, environmental catastrophe, and economic hardship. Some migrants have come from bordering countries such as Iraq and Yemen; others reached the Arabian Peninsula from Africa and Asia. All have been welcomed and cared for, though settlement conditions, repatriation and deportation circumstances were not always ideal. Inevitably, and mirroring experience elsewhere in the world, there are undeniable gulfs between policies and practices. Policy shortcomings are measured against the substantive assistance planks that Riyadh espouses, including providing financial aid to refugees in third countries, over and above United Nations appeals. These acts are done without prejudice and mostly without publicity. Aid to the needy is justified by religious obligations, as well as on humanitarian grounds. Saudi Arabia's aid contributions have generally

been either overlooked or dismissed, and the religious foundations of their commitment to displaced populations has been negatively contrasted against human-rights based commitments espoused by Western states and institutions. Sa'udi Policies Towards Migrants and Refugees addresses these concerns, filling a key gap in the literature on a vital policy topic. The book refutes notions that the country discourages open research on sensitive topics and further dispels the prejudiced idea of a society closed to any kind of external influence. Saudi Arabia's granting of hospitality to refugees reinforces historic, tribal and universal norms in contrast to misplaced notions of hostility toward Western standards, which in the case of migrants and refugees has seen the application of confused and alarming standards of behaviour by a plethora of Western states. Published in conjunction with the King Faisal Center for Research and Islamic Studies (KFCRIS).
