Worship Your Food Quinn Montana, 2010-05-27 From out of nowhere, one voice will shake you out of our national post-lunch food coma. It has become necessary that we rethink our very way of life in order to reclaim our health. Within these pages you will find the tools to begin. While working jobs as diverse as teacher, computer animator or cross-country truck driver, the author managed to maintain her 90/10 rule: eating a diet consisting of 90% organic foods. This book grew from a desire to help others realize that eating well was not only possible but necessary. *Worship Your Food* serves up food for thought and then maps out the means to put those thoughts into action.

The Ethics of What We Eat Peter Singer, Jim Mason, 2007-03-20 Peter Singer, the groundbreaking ethicist whom The New Yorker calls the most influential philosopher alive teams up again with Jim Mason, his coauthor on the acclaimed *Animal Factories*, to set their critical sights on the food we buy and eat: where it comes from, how it is produced, and whether it was raised humanely. *The Ethics of What We Eat* explores the impact our food choices have on humans, animals, and the environment. Recognizing that not all of us will become vegetarians, Singer and Mason offer ways to make healthful, humane food choices. As they point out: You can be ethical without being fanatical.
