*Family Wars* Grant Gordon, Nigel Nicholson, 2010-03-03 Many of the world's most successful businesses are family owned. With this comes the threat of family bust-ups, sibling rivalry and petty jealousies. Family Wars takes you behind the scenes on a rollercoaster ride through the ups and downs of some of the biggest family-run companies in the world, showing how family in-fighting has threatened to bring about their downfall. Whether it's the Redstone's courtroom battles or the feud over Henry Ford's reluctance to let go of the reigns, the book reveals the origins, the extent and the final resolution of some of the most famous family feuds in recent history. Names you'll recognise include: the Gallo Family; the Guinness story; the Pathak family; and the Gucci family. An astonishing exposé of the way families do business and how arguments can threaten to blow a business apart, Family Wars also offers valuable advice on how such problems can be contained and solved.

**Breakthrough Marketing Plans** Tim Calkins, 2016-04-30 Almost every company creates a marketing plan each year, and many spend hundreds of employee hours researching, preparing and presenting their tomes to senior executives. But most marketing plans are a waste of time; they are too long, too complicated and too dense. They end up sitting on a shelf, unread and unrealized. Breakthrough Marketing Plans is an essential tool for people who create marketing plans and people who review them. The book provides simple, clear frameworks that are easy to apply, and highlights why marketing plans matter, where they go wrong and how to create a powerful plan that will help build a strong, profitable business.

**Animal Bodies, Human Minds: Ape, Dolphin, and Parrot Language Skills** W.A. Hillix, Duane Rumbaugh, 2013-04-17 Several books chronicle attempts, most of them during the last 40 years, to teach animals to communicate with people in a human-designed language. These books have typically treated only one or two species, or even one or a few research projects. We have provided a more encompassing view of this field. We also want to reinforce what other authors, for example Jane Goodall, Sue Savage-Rumbaugh, Penny Patterson, Birute Galdikas, and Roger and Deborah Fouts, so passionately convey about our responsibility for our closest animal kin. This book surveys what was known, or believed about animal language throughout history and prehistory, and summarizes current knowledge and the controversy around it. The authors identify and attempt to settle most of the problems in interpreting the animal behaviours that have been observed in studies of animal language ability.

**The Ku Klux Klan in Mississippi** Michael Newton, 2009-12-21 Since 1866 the Ku Klux Klan has been a significant force in Mississippi, enduring repeated cycles of expansion and decline. This is the definitive history of the KKK in Mississippi, long recognized as one of the group's most militant and violent realms. The campaigns of terrorism by the Klan, its involvement in politics and religion, and its role as a social movement for marginalized poor whites are fully explored.

*Indigenous Invisibility in the City* Deirdre Howard-Wagner,2022-05 Indigenous Invisibility in the City contextualises the significant social change in Indigenous life circumstances and resurgence that came out of social movements in cities. It is about Indigenous resurgence and community development by First Nations people for First Nations people in cities. Seventy-five years ago, First Nations peoples began a significant post-war period of relocation to cities in the United States, Canada, Australia, and Aotearoa New Zealand. First Nations peoples engaged in projects of resurgence and community development in the cities of the four settler states. First Nations peoples, who were motivated by aspirations for autonomy and empowerment, went on to create the foundations of Indigenous social infrastructure. This book explains the ways First Nations people in cities created and took control of their own futures. A fact largely wilfully ignored in policy contexts. Today, differences exist over the way governments and First Nations peoples see the role and responsibilities of Indigenous institutions in cities. What remains hidden in plain sight is their societal function as a social and political apparatus through which much of the social processes of Indigenous resurgence and community development in cities occurred. The struggle for self-determination in settler cities plays out through First Nations people's efforts to sustain their own institutions and resurgence, but also rights and recognition in cities. This book will be of interest to Indigenous studies scholars, urban sociologists, urban political scientists, urban studies scholars, and development studies scholars interested in urban issues and community building and development. This book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com). *Science in Popular Culture* A. Bowdoin Van Riper,2002-05-30 Spaceships travel through time at lightspeed, piloted by human clones and talking animals. Serious injuries are healed with the wave of a medical gizmo. The media makes it all look easy. Can scientists hope to accomplish such amazing feats in the real world, or are they merely flights of fancy? This book is a fun look at what can, and can't, be achieved with current technology in today's laboratory experiments. Fans of the Jetsons, Star Trek, and Star Wars will learn the facts behind the fiction through entires that describe the scientific inventions and procedures on the screen, and how they differ from the reality. Van Riper shows us who innovators like Charles Darwin, Benjamin Franklin, and Isaac Newton really were before they were mythologized. He discusses how animals such as chimpanzees, dolphins, and elephants are portrayed in books and films, and what we really know about animal intelligence. This book lifts the curtain on science fiction, revealing how and where scientific laws have been discarded for the sake of a good plot.

*Water for Tomorrow* ,1974

*Running to the Fire* Tim Bascom,2015-04 In the streets of Addis Ababa in 1977, shop-front posters illustrate Uncle Sam being strangled by an Ethiopian revolutionary, parliamentary leaders are executed, student protesters are gunned down, and Christian mission converts are targeted as imperialistic sympathizers. Into this world arrives sixteen-year-old Tim Bascom, whose missionary parents have brought their family from a small town in Kansas straight into Colonel Mengistu's Marxist Red Terror. Running to the Fire focuses on the turbulent year the Bascom family experienced upon traveling into revolutionary Ethiopia. The teenage Bascom finds a paradoxical exhilaration in living so close to constant danger. At boarding school in Addis Ababa, where dorm parents demand morning devotions and forbid dancing, Bascom bonds with other youth due to a shared sense of threat. He falls in love for the first time, but the young couple is soon separated by the politics that affect all their lives. Across the country, missionaries are being held under house arrest while communist cadres seize their hospitals and schools. A friend's father is imprisoned as a suspected CIA agent; another is killed by raiding Somalis.

*Thomas Ewing Jr.* Ronald D. Smith,2008-11-03 An Ohio family with roots in the South, the Ewings influenced the course of the Midwest for more than fifty years. Patriarch Thomas Ewing, a former Whig senator and cabinet member who made his fortune as a real estate lawyer, raised four major players in the nation's

history—including William Tecumseh “Cump” Sherman, taken into the family as a nine-year-old, who went on to marry his foster sister Ellen. Ronald D. Smith now tells of this extraordinary clan that played a role on the national stage through the illustrious career of one of its sons. In Thomas Ewing Jr.: Frontier Lawyer and Civil War General, Smith introduces us to the Ewing family, little known except among scholars of Sherman, to show that Tom Jr. had a remarkable career of his own: first as a real estate lawyer, judge, soldier, and speculator in Kansas, then as a key figure in national politics. Smith takes readers back to Bleeding Kansas, with its border ruffians and land speculators, reconstructing the rough-and-tumble of its courtrooms to demonstrate that its turmoil was as much about claim-jumping as about slavery. He describes the seat-of-the-pants law practice in which Ewing worked with his brothers Hugh and Charlie and foster brother Cump. He then tells how Tom came to national prominence in the fight over the proslavery Lecompton Constitution, was instrumental in starting up the Union Pacific Railroad, and became the first chief justice of the Kansas Supreme Court. Ewing obtained a commission in the Union Army—as did his brothers—and raised a regiment that saw significant action in Arkansas and Missouri. After William Quantrill’s raid on Lawrence, Kansas, he issued the dramatic General Order No. 11 that expelled residents from sections of western Missouri. Then this confidant of Abraham Lincoln’s went on to courageously defend three of the assassination conspirators—including the disingenuous Samuel Mudd—and lobbied the key vote to block the impeachment of Andrew Johnson. Smith examines Ewing’s life in meticulous detail, mining family correspondence for informative quotes and digging deep into legal records to portray lawmaking on the frontier. And while Sherman has been the focus of most previous work on the Ewings, this book fills the gaps in an interlocking family of remarkable people—one that helped shape a nation’s development in its courtrooms and business suites. Thomas Ewing Jr.: Frontier Lawyer and Civil War General retells a chapter of Kansas history and opens up a panoramic view of antebellum America, the Civil War, Reconstruction, and the Gilded Age.
