The Catholic Sexual Abuse Scandal Jerry J. Paresa, 2021-09-23 An enduring solution starts with the correct diagnosis... The Catholic Clergy Sexual Abuse Scandal has haunted the lives of its victims and the Catholic community at large for decades. Even today, it continues to undermine the credibility of the Church and dishearten its faithful. Catholics remain rightfully frustrated and disappointed as Church leaders try to move beyond this ugly chapter without creating a cohesive plan to address the underlying issues that contributed to the scandal in the first place. Media coverage has often oversimplified these contributing factors, leaving many with the impression that simplistic solutions can fix the Church's problems. This is not the case. Written from an insider's perspective, this book strives to dispel unhelpful caricatures and more fully examine the broad contextual and aggravating factors that make the Catholic Clergy Sexual Abuse Scandal. It is heavily researched work designed to help parishioners, priests, and Church leaders more clearly consider the complexities of the

crisis so that they may continue to make informed, concrete, and effective steps to heal the Church and its people.

Urban Regeneration Management John Diamond, Joyce Liddle, Alan Southern, Philip Osei, 2010-07-15 This book was born out of the need to 'capture' the experience and understanding of the regeneration management process that is neither UK centric nor centred exclusively on urban areas. Written by experts working in the USA, Holland, Greece, Jamaica, Turkey, Spain, Trinidad and the Czech Republic, this book seeks to locate the issue of regeneration in a context which will enable the reader to reflect upon practices which are 'local' but are shaped by international processes. As well as providing an accessible review of the theoretical literature on globalisation and its impact upon managing regeneration initiatives, this book also illustrates these theoretical debates with specific examples which provide insight to both urban and rural developments. This book will be of great interest to students, researchers and practitioners engaged in regeneration management, providing a thematic exploration and examination of the 'global' regeneration experience.

The Downfall of America Jake Klausner, 2022-07-20 Far too often, people are introduced to a caricature of the conservative movement before they've actually heard what the average conservative has to say. In *The Downfall of America*, Jake Klausner presents a conservative perspective on the forces currently working to tear down long-standing American traditions and institutions. The book outlines the ways in which

the Left has waged war against traditional American values and even reality itself. In an age of emotional appeals, it makes the conservative argument using logic and statistics. The challenge conveyed to the reader is simple, but critical: "Don't let freedom be extinguished in your lifetime; make sure that it's still there for your kids and theirs."

A Level Playing Field Jane Fowler

Morse,2012-02-01 Examines the legal and political details of school funding reform in New York, Vermont, and Ontario.

The End of America Naomi Wolf,2007-09-05 In a stunning indictment of the Bush administration and Congress, best-selling author Naomi Wolf lays out her case for saving American democracy. In authoritative research and documentation Wolf explains how events of the last six years parallel steps taken in the early years of the 20th century's worst dictatorships such as Germany, Russia, China, and Chile. The book cuts across political parties and ideologies and speaks directly to those among us who are concerned about the ever-tightening noose being placed around our liberties. In this timely call to arms, Naomi Wolf compels us to face the way our free America is under assault. She warns us—with the straight-to-fellow-citizens urgency of one of Thomas Paine's revolutionary pamphlets—that we have little time to lose if our children are to live in real freedom. "Recent history has profound lessons for us in the U.S. today about how fascist, totalitarian, and other repressive leaders seize and maintain power, especially in what were once democracies. The secret is that these leaders all tend to take very similar, parallel steps. The

Founders of this nation were so deeply familiar with tyranny and the habits and practices of tyrants that they set up our checks and balances precisely out of fear of what is unfolding today. We are seeing these same kinds of tactics now closing down freedoms in America, turning our nation into something that in the near future could be quite other than the open society in which we grew up and learned to love liberty," states Wolf. Wolf is taking her message directly to the American people in the most accessible form and as part of a large national campaign to reach out to ordinary Americans about the dangers we face today. This includes a lecture and speaking tour, and being part of the nascent American Freedom Campaign, a grassroots effort to ensure that presidential candidates pledge to uphold the constitution and protect our liberties from further erosion. The End of America will shock, enrage, and motivate—spurring us to act, as the Founders would have counted on us to do in a time such as this, as rebels and patriots—to save our liberty and defend our nation.

The Irony of Barack Obama R. Ward Holder, Peter B. Josephson, 2016-03-09 Drawing on the political theology of Reinhold Niebuhr, described by Barack Obama as 'one of my favourite philosophers', this book assesses the challenges facing the President during his first term. It evaluates his success in adhering to Niebuhr's path of 'Christian realism' when faced with the pragmatic demands of domestic and foreign affairs. In 2008 Candidate Obama used the ideas of 'Hope' and 'Change' to inspire voters and secure the presidency. Obama promised change

not only regarding America's policies, but even more fundamentally in the nation's political culture. Holder and Josephson describe the foundations of President Obama's Christian faith and the extent to which it has shaped his approach to politics. Their book explores Obama's journey of faith in the context of a broadly Augustinian understanding of faith and politics, examines the tensions between Christian realism and pragmatic progressivism, explains why a Christian realist interpretation is essential to understanding Obama's presidency, and applies this model of understanding to considerations of foreign and domestic policy. By combining this theological and political analysis the book offers a special opportunity to reflect on the relationship between Christian faith and statesmanship, reflections that are missing from current popular discussions of the Obama presidency. Through consideration of Niebuhr's models of the prophet and the statesman, and the more popular alternative of the political evangelist, Holder and Josephson are better able to explain the president's successes and his failures, and to unveil the Augustinian limits of the political life.

Contesting Crimmigration in Post-hukou China

Tian Ma, 2022-08-11 This book focuses on the criminalization trend and process regarding the internal migration in contemporary China from the perspective Law-in-Action. In Chinese society today, internal migrants are commonly perceived as criminals. Crimmigration, a global term that communicated the convergence of the criminal legal system and the immigration enforcement system,

manifest itself in China's hukou-based (also known as the household registration system) criminal legal system. How hukou has been constructed into the concept of Crimmigration in China strikes at the core of the ultimate questions of this book: who is being criminalized, how does the political-economic-cultural institution known as 'hukou' shape the criminal justice process, and how has the role of hukou changed over time in the ever-changing process? Drawing on interviews with police, prosecutors, criminal lawyers & judges, prison staff and migrant leaders in Yangtze River Delta, China, this book reflects on a historical development on hukou and its function in social control. Each chapter contributes to an extended analysis of pragmatic aspects of decision-making moments in the criminal justice system. This book will appeal to criminology researchers and students with in interest in law, politics, migration, and citizenship in contemporary China.

Representation and Effectiveness in Latin American Democracies Moira B. MacKinnon, Ludovico Feoli, 2014-03-14 Legislatures, the judiciary and civil society are important actors in representative democracies. In what ways and how well do they represent? And how effectively do they carry out their institutional and social

roles? Both questions refer to the key dimensions of democracy analyzed in this book: representativeness and effectiveness, respectively. While they have been developed separately in scholarly work on institutions and regimes, there is little work considering them simultaneously, and on their interaction. Using quantitative and/or qualitative methods, contributions from top scholars in the field of legislatures, the judiciary and civil society examine these two concepts and their relationships in four Latin American countries: Argentina, Brazil, Chile, and Mexico. Designed to guide the reader through the complexities of this debate, each expert engages in a larger set of theoretical debates about different approaches to representation in each sphere. In doing so, they debate how effectively these spheres carry out their roles in each country: whether a congress is institutionalized, its accountability, and its performance as a lawmaker; whether a judicial system is independent, carries out oversight, and protects citizen rights; and the role of civil society in a representative democracy. Representation and Effectiveness in Latin American Democracies is a timely and welcomed contribution to the to the growing debate about the quality of democracy in Latin America, and the developing world more generally.

Approaching the European Federation? Søren Dosenrode, 2016-04-08 The European project has, within only 52 years, achieved a surprising momentum, and the European Union is now approaching full statehood. The Convention on the

Future of Europe has finished its work and handed over a proposal for a constitutional treaty to the Heads of State and Government of the EU. It is therefore the ideal time to present an integrated analysis of what appears to be the emerging European State. This key volume therefore discusses the central questions and concepts within the field of European studies, which include federalism, the relationship between statehood and constitution, integration and constitution, the regions in the 'new' Europe and the EU as an international actor. These discussions are then developed and analyzed in relation to the draft constitution. Timely and insightful, the volume is suitable for courses on European integration, federalism and international politics.

The Angola Prison Seminary Michael Hallett, Joshua Hays, Byron R. Johnson, Sung Joon Jang, Grant Duwe, 2016-08-05 Corrections officials faced with rising populations and shrinking budgets have increasingly welcomed faith-based providers offering services at no cost to help meet the needs of inmates. Drawing from three years of on-site research, this book utilizes survey analysis along with life-history interviews of inmates and staff to explore the history, purpose, and functioning of the Inmate Minister program at Louisiana State Penitentiary (aka Angola), America's largest maximum-security prison. This book takes seriously attributions from inmates that faith is helpful for surviving prison and explores the implications of religious programming for an American corrections system in

crisis, featuring high recidivism, dehumanizing violence, and often draconian punishments. A first-of-its-kind prototype in a quickly expanding policy arena, Angola's unique Inmate Minister program deploys trained graduates of the New Orleans Baptist Theological Seminary in bi-vocational pastoral service roles throughout the prison. Inmates lead their own congregations and serve in lay-ministry capacities in hospice, cell block visitation, delivery of familial death notifications to fellow inmates, sidewalk counseling and tier ministry, officiating inmate funerals, and delivering care packages to indigent prisoners. Life-history interviews uncover deep-level change in self-identity corresponding with a growing body of research on identity change and religiously motivated desistance. The concluding chapter addresses concerns regarding the First Amendment, the dysfunctional state of U.S. corrections, and directions for future research.
