Boxing is no Cakewalk! Botchway, De-Valera NYM, 2019-07-17 *Boxing is no cakewalk!* Azumah 'Ring Professor' Nelson in the *Social History of Ghanaian Boxing* explores the social history of boxing in Ghana and its interesting nexus with the biography of Azumah Nelson, unquestionably Ghana's most celebrated boxer. The book posits that sports constitute more than mere games that people play. They are endowed with enormous political, cultural, economic and social power that can influence people's lives in various ways. *Boxing is no cakewalk!* interrogates the social meaning and impact of boxing within the colonial and postcolonial milieux of popular culture in Ghana. Consequently, it reconsiders the prevailing conception of boxing as adversative to 'enlightened' human culture by arguing that it is a positive formulator of individual and national identities. The historicising of sports and the lives of sportspersons in Ghana provides an eloquent backdrop for an understanding of the past social dynamics and their effect in the present. The book's analytical narrative offers an intellectual contribution to the promising areas of social and cultural history in Ghana's historiography and the scholarly discourse on identity formation and social empowerment through the popular culture of sports.

The Making of an Ordinary Saint Nathan Foster, 2014-09-30 Nathan Foster was just a child when his father's classic *Celebration of Discipline* brought the spiritual disciplines into the popular evangelical consciousness. More than thirty years later, Nathan made his own journey into the spiritual disciplines. As he sought day by day to develop habits that would enable him to live more like Jesus, he encountered problems both universal and unique. In this engaging narrative, he draws insights from saints of old to uncover fresh ways of living for the contemporary, postmodern Christian. Through his successes, struggles, and failures, Foster invites readers on a journey of freedom, pain,

frustration, and ultimately joy as he learns to rise above selfish desires, laugh at his own failures, and fall in love with God. Those who have read *Celebration of Discipline* will find in Nathan's book creative new ways to practice the disciplines that have been so formative in their lives. Those who are new to the spiritual disciplines will find that developing a vital, interactive, conversational relationship with God is within their grasp. As a result, the holy habits of love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, and self-control are truly possible for all. Includes chapter openings and a foreword from Richard J. Foster.

Changed for Good Stacy Wolf, 2011-07-07 In this lively book, Stacy Wolf illuminates the women of American musical theater--performers, creators, and characters--from the start of the cold war to the present day, creating a new feminist history of the genre. Moving from decade to decade, Wolf highlights the assumptions that circulated about gender and sexuality at the time and then looks at the leading musicals, stressing the aspects of the plays that relate to women. The musicals discussed here are among the most beloved in the canon--*West Side Story*, *Guys & Dolls*, *Cabaret*, and many others--with special emphasis on *Wicked*.

Global Crime [2 volumes] Philip L. Reichel, 2019-07-08 A definitive resource for understanding such far-reaching and often interconnected crimes as cyber theft, drug trafficking, human smuggling, identity theft, wildlife poaching, and sex tourism. While many international corporations have benefited from the global economy and distribution of information, globalization has also had serious negative consequences. This important reference work offers students and general readers a critical understanding of how technology, governments, political unrest, war, and economic strife contribute to an increase in global crime. This A-Z encyclopedia covers key people, events, and organizations

and includes key documents that will help readers to understand the numerous problems created by the many transnational crimes that are growing in severity and frequency around the world. Entries address perpetrators and their methods; victims; who really profits; and law enforcement responses. In addition to cyber theft and sales of weapons and narcotics, the set provides a detailed look at global crimes not typically covered, such as corruption, fraudulent medicine, illegal sports betting, organ trafficking, maritime piracy, trafficking in cultural property, and wildlife and forest crime. Although some historical events and people are included, the focus is on recent and contemporary topics.

A Companion to Literature, Film, and Adaptation Deborah Cartmell, 2012-08-03 This is a comprehensive collection of original essays that explore the aesthetics, economics, and mechanics of movie adaptation, from the days of silent cinema to contemporary franchise phenomena. Featuring a range of theoretical approaches, and chapters on the historical, ideological and economic aspects of adaptation, the volume reflects today's acceptance of intertextuality as a vital and progressive cultural force. Incorporates new research in adaptation studies Features a chapter on the Harry Potter franchise, as well as other contemporary perspectives Showcases work by leading Shakespeare adaptation scholars Explores fascinating topics such as 'unfilmable' texts Includes detailed considerations of Ian McEwan's *Atonement* and Conrad's *Heart of Darkness*

REMEX Amy Sara Carroll, 2017-12-15 REMEX presents the first comprehensive examination of artistic responses and contributions to an era defined by the North American Free Trade Agreement (1994–2008). Marshaling over a decade's worth of archival research, interviews, and participant observation in Mexico City and the Mexico-US borderlands, Amy Sara Carroll considers individual and collective art practices, recasting NAFTA as the most fantastical inter-American allegory of the turn of

the millennium. Carroll organizes her interpretations of performance, installation, documentary film, built environment, and body, conceptual, and Internet art around three key coordinates—City, Woman, and Border. She links the rise of 1990s Mexico City art in the global market to the period's consolidation of Mexico-US border art as a genre. She then interrupts this transnational art history with a sustained analysis of chilanga and Chicana artists' remapping of the figure of Mexico as Woman. A tour de force that depicts a feedback loop of art and public policy—what Carroll terms the “allegorical performative”—REMEX adds context to the long-term effects of the post-1968 intersection of D.F. performance and conceptualism, centralizes women artists' embodied critiques of national and global master narratives, and tracks post-1984 border art's “undocumentation” of racialized and sexualized reconfigurations of North American labor pools. The book's featured artwork becomes the lens through which Carroll rereads a range of events and phenomenon from California's Proposition 187 to Zapatismo, US immigration policy, 9/11 (1973/2001), femicide in Ciudad Juárez, and Mexico's war on drugs.

Professors and Their Politics Neil Gross, Solon Simmons, 2014-07-15 Despite assumptions in some quarters of widespread academic radicalism, professors are politically liberal but on the whole democratically tolerant and are focused more on the business of research and teaching than on trying to change the world. *Professors and Their Politics* tackles the assumption that universities are ivory towers of radicalism with the potential to corrupt conservative youth. Neil Gross and Solon Simmons gather the work of leading sociologists, historians, and other researchers interested in the relationship between politics and higher education to present evidence to the contrary. In eleven meaty chapters, contributors describe the political makeup of American academia today, consider the causes of its liberal tilt, discuss the college experience for politically conservative students, and delve into

historical debates about professorial politics. Offering readable, rigorous analyses rather than polemics, *Professors and Their Politics* yields important new insights into the nature of higher education institutions while challenging dogmas of both the left and the right.

The Psychopath Test Jon Ronson, 2011-06-03 What if society wasn't fundamentally rational, but was motivated by insanity? This thought sets Jon Ronson on an utterly compelling adventure into the world of madness. Along the way, Jon meets psychopaths, those whose lives have been touched by madness and those whose job it is to diagnose it, including the influential psychologist who developed the Psychopath Test, from whom Jon learns the art of psychopath-spotting. A skill which seemingly reveals that madness could indeed be at the heart of everything . . . Combining Jon Ronson's trademark humour, charm and investigative incision, *The Psychopath Test* is both entertaining and honest, unearthing dangerous truths and asking serious questions about how we define normality in a world where we are increasingly judged by our maddest edges. 'The belly laughs come thick and fast - my God, he is funny . . . provocative and interesting' - Observer

The Frugal Editor Carolyn Howard-Johnson, 2007 There are gremlins out there determined to keep your work from being published, your book from being promoted. They -- resolved to embarrass you before the gatekeepers who can turn the key of success for you -- lurk in your subconscious and the depths of your computer programs. Whether you are a new or experienced author, **BEST BOOK FORWARD: HOW TO MAKE A SPOTLESS FIRST IMPRESSION WITH EVERYTHING YOU WRITE** (This is the back of book, second subtitle) will help you present whistle-clean copy (whether it's a one-page cover letter or your entire manuscript) to those who have the power to say Yea or Nay.

Posthumanism and Higher Education Carol A. Taylor,Annouchka Bayley,2019-04-17 This book explores ways in which posthumanist and new materialist thinking can be put to work in order to reimagine higher education pedagogy, practice and research. The editors and contributors illuminate how we can move the thinking and doing of higher education out of the humanist cul-de-sac of individualism, binarism and colonialism and away from anthropocentric modes of performative rationality. Based in a reconceptualization of ontology, epistemology and ethics which shifts attention away from the human towards the vitality of matter and the nonhuman, posthumanist and new materialist approaches pose a profound challenge to higher education. In engaging with the theoretical twists and turns of various posthumanisms and new materialisms, this book offers new, experimental and creative ways for academics, practitioners and researchers to do higher education differently. This ground-breaking edited collection will appeal to students and scholars of posthumanism and new materialism, as well as those looking to conceptualize higher education as other than performative practice.

The Philosophy of Symbolic Forms, Volume 2 Ernst Cassirer,2020-09-24 The Philosophy of Symbolic Forms is one of the landmarks of twentieth century philosophy. Drawing from the influential work of Wilhelm Dilthey, it transformed neo-Kantianism into a new robust philosophy of culture. The second volume, on Mythical Thinking, analyzes the fundamental layers of perception and expression as well as the articulations with religion and the dialectic with other forms, essentially language and art. The intellectual breadth of the volume is remarkable. It initiated the debate with Martin Heidegger and prompted a long-lasting meditation by Hans Blumenberg. We are only beginning to recognize its importance for our understanding of the power of images in the construction of aesthetics, the self, and the socio-political world. It initiated a discussion within French sociology (Émile Durkheim, Marcel Mauss) that ultimately resurfaced in Pierre Bourdieu, while today it is considered as a resourceful path for cultural and critical theory (Drucilla Cornell and Kenneth M. Panfilio). Finally, this volume also offers solid grounds for a political critique of Nazism - specifically: Alfred Rosenberg's Myth of the 20th Century and Adolf Hitler's Mein Kampf - as well as the new emerging totalitarian ideologies. Fabien Capeilleres, Professor of Philosophy, editor of the French edition of Cassirer's Works. This new translation makes Cassirer's seminal work available to a new generation of scholars. Each volume includes a translator's introduction by Steve G. Lofts, a foreword by Peter E. Gordon, a glossary of key terms, and an index.

Jack and Rochelle Jack Sutin, Rochelle Sutin, 2015-07-14 The memoir of a man and woman who escaped into the forest, joined the Jewish partisans—and fell in love—as Hitler laid waste to their Polish hometowns. Jack and Rochelle first met at a youth dance in Poland before the war. They shared one dance, and Jack stepped on Rochelle’s shoes. She was unimpressed. When the Nazis invaded eastern Poland in 1941, both Jack (in the town of Mir) and Rochelle (in the town of Stolpce) witnessed the horrors of ghettoization, forced labor, and mass killings that decimated their families. Jack and Rochelle managed, in their separate ways, to escape into the forest. They reunited, against all odds, in the winter of 1942–43 and became Jewish partisans who fought back against the Nazis. The couple’s careful courtship soon blossomed into an enduring love that sustained them through the raging hatred of the Holocaust and the destruction of the lives they had known. Jack and Rochelle’s story, told in their own voices through extensive interviews with their son, Lawrence, has been in print for twenty years and is celebrated as a classic of Holocaust memoir literature. This is the first electronic edition. “A story of heroism and of touching romance in a time of fear and danger.” —USA Today

The Horned Dinosaurs Peter Dodson, 2017-03-14 The horned dinosaurs, a group of rhinoceros-like creatures that lived 100 to 65 million years ago, included one of the greatest and most popular dinosaurs studied today: Triceratops. Noted for his flamboyant appearance--marked by a striking array of horns over the nose and eyes, a long bony frill at the back of the head, and an assortment of lumps and bumps for attracting females--this herbivore displayed remarkable strength in its ability to fight off Tyrannosaurus rex. It was also among the last dinosaurs to walk the earth. In telling us about Triceratops and its relatives, the Ceratopsia, Peter Dodson here re-creates the sense of adventure enjoyed by so many scientists who have studied them since their discovery in the mid-nineteenth

century. From the badlands of the Red Deer River in Alberta to the Gobi Desert, Dodson pieces together fossil evidence to describe the ceratopsians themselves--their anatomy, biology, and geography--and he evokes the human dimension of their discovery and interpretation. An authoritative survey filled with many original illustrations, this book is the first comprehensive presentation of horned dinosaurs for the general reader. Dodson explains first the fascinating ways in which the ceratopsians dealt with their dangerous environment. There follows a lesson on ceratopsian bone structure, which enables the reader quickly to grasp the questions that still puzzle scientists, concerning features such as posture, gait, footprints, and diet. Dodson evenhandedly discusses controversies that continue, for example, over sexual dimorphism and the causes of the dinosaurs' disappearance. Throughout his narrative, we are reminded that dinosaur study is a human enterprise. We meet the scientists who charmed New York high society into financing expeditions to Mongolia, home of Triceratops' predecessors, as well as those who used their poker winnings to sustain paleontology expeditions. Rich in fossil lore and in tales of adventure, the world of the Ceratopsia is presented here for specialists and general readers alike. Originally published in 1996. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. just as you don t give affection unless your dog is
in a calm submissive state don t give food until
your dog acts calm and submissive exercise will
help the dog especially a high energy one to
achieve this state
