A Santal Dictionary P. O. Bodding, 1998-03 Santali, or the language of the Santhals, is spoken by the sons of the soil in a large territory spread over Bihar, West Bengal, Orissa and North-Eastern India. Apart from Santhals several other tribes also use Santali as their dialect. Though several dictionaries on the Santali language have been compiled by earlier Christian missionaries to spread the message of Bible in the local idiom, Bodding's remains the most exhaustive, most elaborate and most acceptable of all the lexicons. The entries carry not only the meaning and usage but also ethnological description. The reason is to help all readers who use the dictionary for clearer understanding of what each word stands for or refers to. With parantheses at the end of each article some etymological matter has been added. Foreign words which have been assimilated into Santali are included. In all, the dictionary is the only complete and authoritative reference work for those who want to use Santali either as mother tongue or neighbouring or foreign language.

Hints from Horace Lord Byron, 2015-07-19 Byron was an English poet and a leading figure in the Romantic movement. Among Byron's best-known works are the lengthy narrative poems Don Juan and Childe Harold's Pilgrimage and the short lyric She Walks in Beauty. Byron is regarded as one of the greatest British poets, and remains widely read and influential. He travelled widely across Europe, especially in Italy where he lived for seven years. Later in life, Byron joined the Greek War of Independence fighting the Ottoman Empire, for which many Greeks revere him as a national hero. He died one year later at age 36 from a fever contracted while in Messolonghi in Greece. Often described as the most flamboyant and notorious of the major Romantics, Byron was both celebrated and castigated in life for his aristocratic excesses, including huge debts, numerous love affairs with people of both sexes, rumours of a scandalous liaison with his half-sister, and self-imposed exile.

Global Corruption Report: Sport Transparency

International, 2016-02-05 Sport is a global phenomenon engaging billions of people and generating annual revenues of more than US\$ 145 billion. Problems in the governance of sports organisations, fixing of matches and staging of major sporting events have spurred action on many fronts. Yet attempts to stop corruption in sport are still at an early stage. The Global Corruption Report (GCR) on sport is the most comprehensive analysis of sports corruption to date. It consists of more than 60 contributions from leading experts in the fields of corruption and sport, from sports organisations, governments, multilateral institutions, sponsors, athletes, supporters, academia and the wider anti-corruption movement. This GCR provides essential analysis for understanding the corruption risks in sport, focusing on sports governance, the business of sport, planning of major events, and match-fixing. It highlights the significant work that has already been done and presents new approaches to strengthening integrity in sport. In addition to measuring transparency and accountability, the GCR gives priority to participation, from sponsors to athletes to supporters an essential to restoring trust in sport.

Together, the sixteen writers included here give us an imaginative depiction of the experiences of their people across a span of fifty years--the hopes, aspirations and frustrations of life in colonial Trinidad and Guyana, the post-independence tribulations of third-world citizens, and the quest for meaning and identity in the second migration to Canada, the United States, and Britain.

Space and Place in Children's Literature, 1789 to the Present Maria Sachiko Cecire,Hannah Field,Malini Roy,2016-03-09 Focusing on questions of space and locale in children's literature, this collection explores how metaphorical and physical space can create landscapes of power, knowledge, and identity in texts from the early nineteenth century to the present. The collection is comprised of four sections that take up the space between children and adults, the representation of 'real world' places, fantasy travel and locales, and the physical space of the children's book-as-object. In their essays, the contributors analyze works from a range of sources and traditions by authors such as Sylvia Plath, Maria Edgeworth, Gloria Anzaldúa, Jenny Robson, C.S. Lewis, Elizabeth Knox, and Claude Ponti. While maintaining a focus on how location and spatiality aid in defining the child's relationship to the world, the essays also address themes of borders, displacement, diaspora, exile, fantasy, gender, history, home-leaving and homecoming, hybridity, mapping, and metatextuality. With an epilogue by Philip Pullman in which

he discusses his own relationship to image and locale, this collection is also a valuable resource for understanding the work of this celebrated author of children's literature.

Envisioning the Future of Online Learning Johan Eddy Luaran, Janudin Sardi, Anealka Aziz, Nor Aziah Alias, 2016-06-10 This book shares insights into the various ways technology can be used for educational purposes, utilizing an approach suitable for both novice and advanced practitioners in this niche area. Competition Law in Malaysia Nasarudin Abdul Rahman, Haniff Ahamat, 2020-09-22 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of competition law and its interpretation in Malaysia covers every aspect of the subject-the various forms of restrictive agreements and abuse of dominance prohibited by law and the rules on merger control; tests of illegality; filing obligations; administrative investigation and enforcement procedures; civil remedies and criminal penalties; and raising challenges to administrative decisions. Lawyers who handle transnational commercial transactions will appreciate the explanation of fundamental differences in procedure from one legal system to another, as well as the international aspects of competition law. Throughout the book, the treatment emphasizes enforcement, with relevant cases

analysed where appropriate. An informative introductory chapter provides detailed information on the economic, legal, and historical background, including national and international sources, scope of application, an overview of substantive provisions and main notions, and a comprehensive description of the enforcement system including private enforcement. The book proceeds to a detailed analysis of substantive prohibitions, including cartels and other horizontal agreements, vertical restraints, the various types of abusive conduct by the dominant firms and the appraisal of concentrations, and then goes on to the administrative enforcement of competition law, with a focus on the antitrust authorities' powers of investigation and the right of defence of suspected companies. This part also covers voluntary merger notifications and clearance decisions, as well as a description of the judicial review of administrative decisions. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Malaysia will welcome this very useful guide, and academics and researchers will appreciate its value in the study of international and comparative competition law.

Badfellas John Sugden, Alan Tomlinson, 2003 World football's governing body FIFA has claimed credit for the success of one of the world's greatest and most lucrative sporting spectacles, the football World Cup, and the expansion of the world game more generally. Yet, as Asia stages its first World Cup, behind the scenes the administration of the world game is in shambles. Though the President of FIFA, Joseph Sepp Blatter, secured a second term at a heated FIFA Congress on the eve of Japan/Korea 2002, internecine rivalries persist at the heart of the

Organization, and FIFA finances continue to be veiled in secrecy. In *Badfellas*, the tale of FIFA's expanding fortunes, recurrent crises and internal rivalries is told, from the growth of the World Cup from its politically driven origins in Uruguay in 1930 to its status as one of the world's most lucrative media spectacles. It details how the interests of small third-world countries have been betrayed as the FIFA family expanded and reveals how an organization founded by seven European nations has come to control the future of the game in more than 200 countries in the post-colonial world.
