Balancing Change and Tradition in Global Education Reform Iris C. Rotberg,2010-04-16 In *Balancing Change and Tradition in Global Education Reform*, Rotberg brings together examples of current education reforms in sixteen countries, written by 'insiders'. This book goes beyond myths and stereotypes and describes the difficult trade-offs countries make as they attempt to implement reforms in the context of societal and global change. In some countries, reforms are a response to major political or economic shifts; in others, they are motivated by large upsurges in immigration and increased student diversity. Irrespective of the reasons for education reform, all countries face decisions about resource allocation, equality of educational opportunity across diverse populations, access to higher education, student testing and tracking, teacher accountability, school choice, and innovation. The essays in this volume reveal: _

Showboat Roland Lazenby,2016-10-25 The definitive portrait of Kobe Bryant, from the author of Michael Jordan. Lazenby's detailed research and fantastic writing paint a complex, engaging picture of one of the NBA's greats (Kurt Helin, NBC Sports). Eighteen-time All-Star, scorer of 81 points in a single game, MVP, and one of the best shooting guards in NBA league history: Kobe Bryant is among basketball's absolute greatest players, and his importance to the sport is undeniable. Third on the NBA career scoring list and owner of five championship rings, he is an undisputed all-time great, one deserving of this deep and definitive biography. Even within the flashiest franchise in all of sports -- the Los Angeles Lakers, where he played his entire career -- Bryant always took center stage, and his final game captivated the basketball world, indeed the country. Roland Lazenby delves deep to look behind this public image, using classic basketball reporting and dozens of new interviews to reveal the whole picture, from Bryant's childhood through his playing years. *Showboat* is filled with large personalities and provocative stories, including details of Bryant's complicated personal life and explosive relationships on the court, and is a riveting and essential read for every hoops fan.

Information Resources in Toxicology P.J. Bert Hakkinen,Asish Mohapatra,Steven G. G. Gilbert,2009-08-19 This latest version of Information Resources in Toxicology (IRT) continues a tradition established in 1982 with the publication of the first edition in presenting an extensive itemization, review, and commentary on the information infrastructure of the field. Among the "hot topics covered are Disaster Preparedness and Management, Nanotechnology, Omics, the Precautionary Principle, Risk Assessment, and Biological, Chemical and Radioactive Terrorism and Warfare are among the designated. • International in scope, with contributions from over 30 countries • Numerous key references and relevant Web links • Concise narratives about toxicologic sub-disciplines • Valuable appendices such as the IUPAC Glossary of Terms in Toxicology • Authored by experts in their respective sub-disciplines within toxicology

Beyond Fragmentation: Didactics, Learning and Teaching in Europe Meinert Meyer,Brian Hudson,2011-05-30 There is great diversity in teacher education systems and approaches to learning and teaching practice across Europe, even though the practical everyday problems of the various national education systems may be very similar. Against this background, in the field of research on didactics, learning and teaching it is important to overcome fragmentation and to find common ground. In this book the editors demonstrate how far we have come over recent years in advancing research in the field which has the ultimate aim of improving learning and teaching. The editors recognise the diverging national and local practices as a starting point in searching for common ground and in creating shared understandings. The book is organised in six parts with 26 chapters in which the authors examine whether there is a paradigmatic shift from teaching to learning, take a closer look at various teacher education models and their empirical basis, discuss the importance of subject didactics, curriculum work and lesson planning, and analyse the impact of Information and Communication Technologies on didactical design. Finally, they relate the empirical findings to theory construction and offer proposals to further advance this vital field by increasing levels of international co-operation.

Dyslexia and Inclusion Gavin Reid,2012-09-10 This book provides the teacher with an understanding of dyslexia and offers practical approaches that can be used for assessment, teaching and learning. The book aims to highlight how the needs of children with dyslexia can be met within the curriculum and within the mainstream classroom. The key theme of the book is inclusion and suggests that intervention for dyslexic children should focus on the barriers to learning, and the most prominent of these may be aspects of the curriculum and how the curriculum is presented. By understanding crucial aspects of dyslexia, teachers can be pro-active and anticipate the type of difficulties that can be experienced. The book also discusses appropriate use of resources, differentiation and learning styles. The book covers: understanding and identifying dyslexia teaching and learning approaches and classroom strategies curriculum perspectives and planning for learning dyslexia and inclusion.

Schooling the New Russians Joseph I. Zajda,2006 *Schooling the New Russians* is an important volume for specialists in Russian education and general readers alike. It places recent reforms in the context of broader historical developments, with a wealth of first-hand insight and scholarly research. Professor David Turner, Faculty of Humanities and Social Sciences, University of Glamorgan It is essential reading for anyone seeking to discover what lies below the surface of 'modernization' in Russian education. Dr. Vera Kaplan, The Cummings Center

for Russian and East European Studies, Tel Aviv University Joseph Zajda reveals in his important new book that Soviet propaganda against capitalism was largely true, given what is happening to the Russian education system today. This is a compelling and important text. Professor Peter McLaren, Graduate School of Education and Information Studies University of California, Los Angeles Few scholars worldwide possess Professor Zajda's breadth and depth of knowledge of pre and post-Soviet schooling and society. This text clearly and brilliantly elucidates the reforms, the successes, and the disappointments of schooling in the evolving New Russia. Professor Kas Mazurek, Professor, Faculty of Education, University of Lethbridge, Canada

Reflections on the Astronomy of Glasgow David Clarke,2013-06-15 This engrossing and entertaining scientific history includes the story of Glasgow's 'Big Bang' of 1863, the controversy over 'Astronomer Royal for Scotland' and a historical survey of the eight observatories that once populated Glasgow.

School Inspection & Self-Evaluation John Macbeath,2006-09-27 Written for heads and teachers, this forward-thinking book examines exactly what the relationship between inspection and self-evaluation means for schools and explores some of the underpinning issues, featuring examples of best practice from successful schools. It is full of useful advice on topics such as how schools can juggle ongoing self-evaluation with OFSTED's expectations, how to use web sources to best advantage and what can be learnt from experience to lessen the anxiety in the relationship and make it more of a friendly and formative experience for all parties. Drawing on case studies from primary, secondary and special schools, this all-round overview should be of immediate interest to practitioners while also offering students and aspiring heads and teachers a valuable source of detailed information about the processes of inspection and self-assessment.

Applied Economics: Public Financial Management and Development John Short,2022-04-29 Applied Economics: Public Financial Management and Development is focused on economics applied to public financial management and development. It charts over 50 years of the author's practical experience of economics and public policy in 60 countries on five continents, from Afghanistan to Zimbabwe. The book's main focal point is on central and local government budgeting, tracing the progress of revenue aspects and expenditure allocation over time from inputs alone to matching these inputs to achieving and measuring service delivery in programmes. It also presents the assessment instruments that measure public financial management strength and weakness, with real-life illustrations of their application. All of these instruments use examples from the countries that the author has worked in, demonstrating the conditions faced – mostly stable economic environments, but at times during periods of conflict and insecurity, as well as neighbouring geopolitical tension. These experiences have been gained from the author's resident assignments and short-term visits (mainly multiple over many years) as a consultant for the IMF, World Bank, and bilateral development programmes as well as academic research.
