Contexts of Violence in Comics Ian Hague,Ian Horton,Nina Mickwitz,2019-08-01 This book is part of a nuanced two-volume examination of the ways in which violence in comics is presented in different texts, genres, cultures and contexts. Contexts of Violence in Comics asks the reader to consider the ways in which violence and its representations may be enabled or restricted by the contexts in which they take place. It analyzes how structures and organising principles, be they cultural, historical, legal, political or spatial, might encourage, demand or prevent violence. It deals with the issue of scale: violence in the context of war versus violence in the context of an individual murder, and provides insights into the context of war and peace, ethnic and identity-based violence, as well as examining issues of justice and memory. This will be a key text and essential reference for scholars and students at all levels in Comics Studies, and Cultural and Media Studies more generally.

Tieta Jorge Amado,2003 Banished for promiscuity, Tieta returns to the seaside village of Agreste after twenty-six years. Thinking she is now a rich, respectable widow, her mercenary family welcomes her with open arms. But Tieta is forced to reveal her true identity in order to save the town's beautiful beaches from ugly development. For the only way she can stop the factory is to call upon her close connections in Sao Paulo's highest political and financial circles--as only the Madam of the city's ritziest bordello can.

Multiethnic American Literatures Helane Adams Androne,2014-11-24 This book provides original essays that suggest ways to engage students in the classroom with the cultural factors of American literature. Some of the essays focus on individual authors' works, others view American literature more broadly, and still others focus on the application of culturally based methods for reading. All suggest a closer look at how ethnicity, culture and pedagogy interact in the classroom to help students better understand the complexity of works by African Americans, Native Americans, Asian Americans, Latinos and several other sometimes overlooked American cultural groups. Instructors considering this book for use in a course may request an examination copy here.

Making Waves Anniversary Volume Ann Davies,Parvathi Kumaraswami,Claire Williams,2021-02-10 Gender and women's studies have formed part of the academic landscape for many years, but while the field is now established enough to have developed in depth and perspectives, there remain many areas of significance yet to be explored--most significantly, much of the work carried out has remained rooted in the Anglo-American context. Those working outside this context are increasingly aware of the need to understand women in different cultural contexts in order to determine whether, to what extent and how representations of women and cultural contexts are interactive and dynamic concepts. The current volume contributes to the growing interest in the field of women and culture in the Hispanic and Lusophone worlds and shows how women writers, researchers, teachers and students have always made waves to counteract the complacency, prejudice and tradition that threatens to ignore or subsume them. The volume draws on literary study--the starting point for much of the early work on gender in Spain, the Lusophone world and Latin America--but also goes beyond it, to discuss women's interaction not only with literature but also with art, and language itself, in the Hispanic and Lusophone contexts. It acts as a showcase for contemporary scholarship undertaken in Hispanic and Lusophone gender studies, developing earlier insights and forging new ones, to refine the debate continuing in the subject. The contributors include both established scholars with a proven track record and promising newcomers to the field. The volume arises from the individual research projects and sustained discussions of Women in Spanish, Portuguese and Latin American Studies (WiSPs), an organisation that exists to promote scholarship by and about women in the field of Iberian, Lusophone and Latin American Studies. This volume celebrates the first seven years of WiSPs's life and presents some of the research presented under its auspices at annual conferences and study days.

**Kids Like Me** Terri Lapinsky,2006-03-21 Whether fleeing the ravages of war or coming in search of opportunities, the story of immigration remains the principal narrative of our times. As our neighborhoods grow more diverse, a splendid variety of cultures, values and traditions become an important part of our classrooms and schools. In Kids Like Me, 26 personal narratives celebrate the experience of young people making a new home in a strange community--finding common ground as they make new friends, learn English, share their cultural identities, their challenges, successes and dreams. Kids Like Me provides a youthful perspective on the important themes of crossing cultures, immigration and citizenship and learning to appreciate differences. These stories are intended to foster intercultural awareness and sensitivity and encourage individual and community action to assist newcomers in their adjustment. While written to help youth understand their classmates and friends, Kids Like Me also includes discussion questions, self-directed activities and research ideas for teachers and other mentors that can be used in classrooms, youth clubs and community settings. Richly illustrated with photos and maps of each home country, the text presents countless opportunities to explore and understand different cultures and new friends. Young people who have come from all over the world share their stories and invite their new neighbors to see that in so many ways these kids are just like me.

The Assassination of Gaitán Herbert Braun,2003-10-15 Drawn in part from personal interviews with participants and witnesses, Herbert Braun's analysis of the riot's roots, its patterns and consequences, provides a dramatic account of this historic turning point and an illuminating look at the making of modern Colombia. Braun's narrative begins in the year 1930 in Bogotá, Colombia, when a generation of Liberals and Conservatives came to power convinced they could keep the peace by being distant, dispassionate, and rational. One of these politicians, Jorge Eliécer Gaitán, was different. Seeking to bring about a society of merit, mass participation, and individualism, he exposed the private interests of the reigning politicians and engendered a passionate relationship with his followers. His assassination called forth urban crowds that sought to destroy every visible evidence of public authority of a society they felt no longer had the moral right to exist. This is a book about behavior in public: how the actors--the political elite, Gaitán, and the crowds--explained and conducted themselves in public, what they said and felt, and what they sought to preserve or destroy, is the evidence on which Braun draws to explain the conflicts contained in Colombian history. The author demonstrates that the political culture that was emerging through these tensions offered the hope of a peaceful transition to a more open, participatory, and democratic society. "Most Colombians regard Jorge Eliécer Gaitán as a pivotal figure in their nation's history, whose assassination on April 9, 1948 irrevocably changed the course of events in the twentieth century. . . . As biography, social history, and political analysis, Braun's book is a tour de force."--Jane M. Rausch, *Hispanic American Historical Review*

The first part explores the history of the group and its relation to the Latin American literary tradition, while the second part is devoted to the critical analysis of the works of each of the authors: Ricardo Chávez Castañeda, Ignacio Padilla, Pedro Ángel Palou, Eloy Urroz and Jorge Volpi. The volume is further enriched by the inclusion, in the appendix, of the two manifestos of the group: the Crack Manifesto and the Crack Postmanifesto (1996-2016). *Protecting Immigrant Rights in Mexico* Laura Valeria Gonzalez-Murphy,2013-10-28 The state-civil society relationship to migration policy is an area both largely unexplored and little understood in current scholarly literature. Laura González-Murphy offers a timely analysis of the changing role played by civil society in the formulation and implementation of government policies in general and migration policy in particular. Using Mexico as her primary case study because of the recent impact of immigrants on its legislation and the historical evolution of its institutions, González-Murphy details the ways that civil society has become a participant in immigration policy changes, including Mexico's new migration law. Mexico's experience is also closely compared with countries presently experiencing similar immigration and political dynamics, such as Spain and Italy. The extensive interviews with Mexican civil society actors and government officials that González-Murphy has conducted during the last few years enable her thorough understanding of the state-civil society relationship in Mexico. The book closes with an examination of what the Mexican experience contributes to our understanding of the actors, processes, issues, and obstacles involved in migration policy development. Protecting Immigrant Rights in Mexico will offer scholars as well as policy makers and civil society actors a greater understanding of the domestic and international political issues and constraints that shape immigration policy making and its implementation.

**India in the Era of China's Belt and Road Initiative** Anil Sigdel,2020-10-19 Anil Sigdel dives into some of the most interesting trends in international relations, such as the rising influence of China and the instruments it uses to advance its interests worldwide, chiefly among them the Belt and Road Initiative(BRI) and the interplay between China and India, and what means New Delhi employs to come after China in the wider world. To this end, Sigdel takes both a geographic view by analyzing China's and India's relations with key regions - South East to Central Asia, Indian Ocean Region and Africa - and a functional view scrutinizing issues of relevance to the main topic - from cultural ties to infrastructure investment and maritime security. In his incisive analysis, Sigdel provides rich details on how India's partnership is shaping with the major stakeholders in the Indo-Pacific region such US, Japan and France, and how India is balancing these partnerships vis-à-vis the one with Russia. The conclusions point to interesting prospects for the future - China challenge has, in a way, helped India further advance its own ambition of becoming a separate pole or leading power, therefore, India is likely to pursue that status by aligning issue-wise with all the powers.

*Surveying the Avant-Garde* Lori Cole,2018-05-24 Surveying the Avant-Garde examines the art and literature of the Americas in the early twentieth century through the lens of the questionnaire, a genre as central as the manifesto to the history of the avant-garde. Questions such as "How do you imagine Latin America?" and "What should American art be?" issued by avant-garde magazines like Imán, a Latin American periodical based in Paris, and Cuba's Revista de Avance demonstrate how editors, writers, and readers all grappled with the concept of "America," particularly in relationship to Europe, and how the questionnaire became a structuring device for reflecting on their national and aesthetic identities in print. Through an analysis of these questionnaires and their responses, Lori Cole reveals how ideas like "American art," as well as "modernism" and "avant-garde," were debated at the very moment of their development and consolidation. Unlike a manifesto, whose signatories align with a single polemical text, the questionnaire produces a patchwork of responses, providing a composite and sometimes fractured portrait of a community. Such responses yield a self-reflexive history of the era as told by its protagonists, which include figures such as Gertrude Stein, Alfred Stieglitz, Jean Toomer, F. T. Marinetti, Diego Rivera, and Jorge Luis Borges. The book traces a genealogy of the genre from the Renaissance paragone, or "comparison of the arts," through the rise of enquêtes in the late nineteenth century, up to the contemporary questionnaire, which proliferates in art magazines today. By analyzing a selection of surveys issued across the Atlantic, Cole indicates how they helped shape artists' and writers' understanding of themselves and their place in the world. Based on extensive archival research, this book reorients our understanding of modernism as both hemispheric and transatlantic by narrating how the artists and writers of the period engaged in aesthetic debates that informed and propelled print communities in Europe, the United States, and Latin America. Scholars of modernism and the avant-garde will welcome Cole's original and compellingly crafted work.
