The Accidental Hero Joshua Graham,2010 A ruthless hitman confronts his destiny in a startling tale of redemption.

Examining Billy Graham's Theology of Evangelism Thomas P. Johnston,2003-03-12 'Examining Billy Graham's Theology of Evangelism' was written to advance an unbiased understanding of Billy Graham's theology and practice. Theological examination of Graham's sermons revealed four distinct eras in his theology and practice: -The Early-Early Graham (pre-1949) -The Early Graham (1949-1955) -The Middle Graham (1955-1965) -The Later Graham (1965-present) In each of these eras Graham portrayed a discernible and distinct approach to defining evangelism, theological nomenclature, and cooperative strategy. No literature on Billy Graham discusses, in combination, this evolution in Graham's theology and practice. You are invited to take a fresh look at the teaching and practice of this man who has touched millions of lives through the proclamation of the Gospel of Jesus Christ.

Lost and Stranded Sprinkle Timothy,2017-11-14 For anyone who spends time in the backcountry, understanding not only what sorts of dangers you can run into out there but also exactly what those risks can do to you is part of being a smart, well informed outdoor traveler. In *Lost and Stranded*, author Timothy Sprinkle breaks down the perils that can befall hikers, hunters, and other outdoor enthusiasts. There are animal encounters, weather events (lightning strikes), parasites (giardia), biting insects (bees/wasps), winter hazards (avalanches), natural disasters (forest fires), hypothermia, dehydration, disorientation, and much, much more to worry about. Although these risks are generally well known, what's less understood by many adventurers is what exactly happens to you when, say, you become malnourished in the backcountry. What does it feel like? How does the condition progress? How long do you generally have before the body shuts down? What helps or hurts when you're fighting for survival? *Lost and Stranded* will answer these questions and many more by taking an inside look at more than two dozen outdoor hazards. Each one will include a narrative section that dramatizes the experience of a certain situation based on real-world events. From there, information from expert sources—medical doctors, first responders, wildlife experts, and others—will fill in the details around exactly how each scenario plays out on the ground, followed by suggestions on how to avoid or survive each risk factor, making this book is a vital resource for outdoor travelers.

Secret History Nick Redfern,2015-04-20 History is written by the winners—and the powerful—but how much of it is fiction? And who is really in control today? From the dawn of civilization to the 21st century, from ancient aliens to the New World Order, *Secret History: Conspiracies from Ancient Aliens to the New World Order* examines, explores, and uncovers the hidden, overlooked, and buried history of mankind. The book moves from biblical, Egyptian, Mayan, Greek, and early mysteries of antiquity to the clandestine doings of the Nazis and the Masons and assassination plots of the more recent past to the surveillance, monitoring, mind-control, and secret schemes of today. Researcher Nick Redfern investigates the stories, mythologies, lore behind incredible events and clandestine groups of yesterday and today. More than 60 entries dig deep into the manipulation of events by influential groups, including ... • Historical riddles—alien visitations, space gods, and human-alien crossbreeding. • Government cover ups—mind control, murders, scientists, and secret agents. • Powerful groups and intended consequences—9-11, new world order, bird-flu, and chemtrails. Tracing the chilling and lasting effects of conspiracies, cabals, and plots, *Secret History: Conspiracies from Ancient Aliens to the New World Order* exposes their deep reach in shaping today's world.

My Adventures with Your Money George Graham Rice,1913

Hold Your Friends Close Sarah Logan,2022-11-11 When we think of counterterrorism we often think of coercive measures, including expanded policing powers, extraordinary rendition, increased jail sentences, and no-fly lists. Yet, several countries also use surprisingly soft methods to deal with the rising problem of homegrown extremism—from debate training and sports competitions to citizenship education and information campaigns. Given the violent aims of homegrown extremists, why do states opt for this softer approach? In *Hold Your Friends Close*, Sarah Logan provides the first exploration of counter-radicalization policy and homegrown extremism through a theoretical and historical lens. Logan contends that unlike traditional counterterrorism, counter-radicalization is generally informed by ideals of

citizenship and allegiance to the state as a panacea for the violence of homegrown extremism. Because the radicals these policies target are not loyal to their own state, but rather to the idea of a non-state based political or religious community, winning them back to their home state is the primary aim of counter-radicalization efforts. While there are some basic similarities in approach across countries, there are important divergences too. Logan argues that this stems from different ideas about the nature of citizenship and national belonging. To that end, Logan compares the different approaches of the UK and US, showing how they differ in important ways despite a basic focus on solidifying the target subject's allegiance to their home state. Providing the first detailed policy history of counter-radicalization in the US and the UK, as well as a comprehensive overview of counter-radicalization policies globally, *Hold Your Friends Close* is an essential read for scholars and policymakers who work on terrorism and its sources.

The Law that Changed the Face of America Margaret Sands Orchowski, 2015-09-01 The year 2015 marks the 50th anniversary of the passage of the Immigration and Nationality Act (INA) of 1965—a landmark decision that made the United States the diverse nation it is today. In *The Law that Changed the Face of America*, congressional journalist and immigration expert Margaret Sands Orchowski delivers a never before told story of how immigration laws have moved in constant flux and revision throughout our nation's history. Exploring the changing immigration environment of the twenty-first century, Orchowski discusses globalization, technology, terrorism, economic recession, and the expectations of the millennials. She also addresses the ever present U.S. debate about the roles of the various branches of government in immigration; and the often competitive interests between those who want to immigrate to the United States and the changing interests, values, ability, and right of our sovereign nation states to choose and welcome those immigrants who will best advance the country.

Evaluation of the New York City Police Department Firearm Training and Firearm-Discharge Review Process Bernard D. Rostker, Lawrence M. Hanser, William M. Hix, Carl Jensen, Andrew R. Morral, 2008-06-09 In January 2007, New York City Police Commissioner Raymond W. Kelly asked the RAND Corporation to examine the quality and completeness of the New York City Police Department's firearm-training program and identify potential improvements in it and in the police department's firearm-discharge review process. This monograph reports the observations, findings, and recommendations of that study.

Megatrends in Global Interaction Bertelsmann Foundation (ed.), 2012-07-16 We inhabit an increasingly interconnected world, yet too often policymakers and advisors view each issue in a vacuum, focusing primarily on short-term impacts. All of us – policymakers, citizens, and local and global communities – must begin to consider how the major trends that shape our world are likely to develop, and how they will intersect and influence one another. This volume is designed to explore and discuss correlations between these global trends, or megatrends: Global Governance, Demographic Change and Migration, Energy and Natural Resources, Global Security, Biodiversity, and Economic Globalization. The book's primary focus is to provide a qualitative overview of the trends, and to analyze their intersections and interdependencies in the 21st century. The authors hope it will help define some of the complex challenges and exciting opportunities to shaping a world of sustainable economies and societies.

Boots on the ground: Troop Density in Contingency Operations John J. McGrath, 2006 This paper clearly shows the immediate relevancy of historical study to current events. One of the most common criticisms of the U.S. plan to invade Iraq in 2003 is that too few troops were used. The argument often fails to satisfy anyone for there is no standard against which to judge. A figure of 20 troops per 1000 of the local population is often mentioned as the standard, but as McGrath shows, that figure was arrived at with some questionable assumptions. By analyzing seven military operations from the last 100 years, he arrives at an average number of military forces per 1000 of the population that have been employed in what would generally be considered successful military campaigns. He also points out a variety of important factors affecting those numbers—from geography to local forces employed to supplement soldiers on the battlefield, to the use of contractors—among others.
