**Emotions, Senses, Spaces:** Susan R. Hemer, Alison Dundon, 2016-09-15 This volume draws together three core concerns for the social sciences: the senses and embodiment, emotions, and space and place. In so doing, these collected essays consider the ways in which these core concerns are mutually constitutive. This includes how spaces evoke, constrain or are composed by the senses and emotions; the ways in which emotions are generated or transformed in certain spaces and through sensual engagement; and the processes by which embodied senses create spaces and emotions.

The Economic Accomplices to the Argentine Dictatorship Horacio Verbitsky, Juan Pablo Bohoslavsky, 2015-09-11 Much has been written on the Argentine dictatorship and the transitional justice movement that brought its members to justice. However there has been no study to date of the economic accomplices to this dictatorship and the recent advancements in Argentina towards holding these actors accountable. What was the role of banks, companies, and individuals in perpetuating a murderous regime? To what extent should they be held responsible? As the first academic study on economic complicity in Argentina, this book attempts to answer these questions. Renowned human rights scholars investigate the role played by such actors as Ford, Mercedes Benz, the press, foreign banks, and even the Catholic Church. Across numerous case studies, the authors make a compelling argument for the legal responsibility of economic accomplices. A groundbreaking interdisciplinary study, this book will be essential to anyone interested in transitional justice, business, and human rights.

**Anti-Fascism in a Global Perspective** Kasper Braskén, Nigel Copsey, David J Featherstone, 2020-09-20 This book initiates a critical discussion on the varieties of global anti-fascism and explores the cultural, political and practical articulations of anti-fascism around the world. This volume brings together a group of leading scholars on the history of anti-fascism to provide a comprehensive analysis of anti-fascism from a transnational and global perspective and to reveal the abundance and complexity of anti-fascist ideas, movements and practices. Through a number of interlinked case studies, they examine how different forms of global anti-fascisms were embedded in various national and local contexts during the interwar period and investigate the interrelations between local articulations and the global movement. Contributions also explore the actions and impact of African, Asian, Latin American, Caribbean, and Middle Eastern anti-fascist voices that have often been ignored or rendered peripheral in international histories of anti-fascism. Aimed at a postgraduate student audience, this book will be useful for modules on the extreme right, political history, political thought, political ideologies, political parties, social movements, political regimes, global politics, world history and sociology. Chapters 5 and 10 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

**Volcanic Reflections: a Bilingual Anthology of Contemporary Ecuadorian Poetry** Ronald Haladyna, 2011-08-26 Volcanic Reflections: A Bilingual Anthology of Contemporary Ecuadorian Poetry is the third in a series of books that aspires to address a dearth of information in the English-speaking world about South American poetry of the past thirty years. The nineteen outstanding poets included here represent a wide diversity of themes, styles, and perspectives in one of South America's smaller nations. All of them have published extensively, have been recognized through literary awards and inclusion in national and international anthologies, and continue writing and publishing today. For readers unfamiliar with Ecuador, the Introduction provides a brief background of its geography, history, politics, economy, and society. This is followed by an ample selection of representative poems published previously in Spanish, with translations in English on facing pages. The book concludes with a brief biographical sketch of each poet and an unprecedented bibliography of primary and secondary sources for those readers who might want to pursue further reading or research on any poet of interest. Contemporary Uruguayan Poetry: A Bilingual Anthology and Exotic Territory: A Bilingual Anthology of Contemporary Paraguayan Poetry are two companion volumes that offer similar exposure to poetry that deserves to be better known in the English-speaking world.

*Corruption in Argentina* Natalia A. Volosin, 2019-08-20 The book provides an institutional, historical, and sectorial analysis of Argentina's structural corruption. Looking back over the last 200 years, the book demonstrates that Argentina has historically addressed corruption through ineffective debates between public-private biases or a cultural-criminal approach reinforced by modernization theory, neither of which have helped tackle the problem. Instead, Volosin proposes meaningful institutional reforms to reduce opportunities for corruption and to increase monitoring incentives and capabilities. The book argues that political economy hindrances for reform are as significant as reform itself and shows that in times of crisis or scandal, the need to move quickly to satisfy citizen demands forces politicians to promote unplanned changes that lack real teeth. Moreover, the machine's reach over most public and private actors precludes regime-undermining reform, which is precisely what is needed to meaningfully attack entrenched structural corruption. In order to combat serious deficits in the public procurement regime, Volosin recommends a micro-sectorial analysis of government procurement, supported by an innovative human rights strategy to help measure and disclose corruption's hidden social cost, raise awareness, integrate vulnerability criteria into the fight against corruption, and employ local, regional, and international litigation and monitoring tools to compel the political branches to perform structural change. This innovative exploration into corruption in Argentina will be of interest to researchers working on public policy, administrative law, anticorruption studies, law and development, and governance both in Argentina, and beyond.

**A Full Moon is Rising** Marilyn Singer, 2018-01-01 All around the world people are affected by and in awe of a full moon. In this poetic exploration of the lunar wonder, places near and far provide the backdrop for discovering celebrations, beliefs, customs and facts about the moon. Leadership in Global Institution Building Yves Tiberghien, 2013-01-21 Between 1995 and the present day, the world has undergone significant advances in international law, norms, and institutions. Progress was particularly intense in the fields of global environment, human security, cultural diversity, and human rights. This book reveals the key role played by the European Union, Japan, and Canada in this process.

**Reframing Consciousness** Roy Ascott, 1999 We are in the middle of a process of complex cultural transformation, but to what extent is this matched by the transformation in the way we see ourselves? This book covers a wide-ranging discussion on the interaction between Art, Science and Technology, and goes on to challenge assumptions about 'reality'. Loosely themed around four key elements of Mind, Body, Art and Values, the editor leads the investigation through the familiar territories of interactive media and artificial life, combining them with new and ancient ideas about creativity and personal identity. The contributing authors numb.

**Knowledge Management, Information Systems, E-Learning, and Sustainability Research** Miltiadis D. Lytras, Patricia Ordonez De Pablos, Adrian Ziderman, Alan Roulstone, Hermann Maurer, Jonathan B. Imber, 2010-10-06 It is a great pleasure to share with you the Springer CCIS 111 proceedings of the Third World Summit on the Knowledge Society--WSKS 2010--that was organized by the International Scientific Council for the Knowledge Society, and supported by the Open Research Society, NGO, (<http://www.open-knowledge-society.org>) and the International Journal of the Knowledge Society Research, (<http://www.igi-global.com/ijksr>), and took place in Aquis Corfu Holiday Palace Hotel, on Corfu island, Greece, September 22-24, 2010. The Third World Summit on the Knowledge Society (WSKS 2010) was an international scientific event devoted to promoting the dialogue on the main aspects of the knowledge society towards a better world for all. Prepare and Defend Robert L Snow, 2020-05-08 Prepare and Defend: Keep Yourself and Others Safe from Mass Murder Attacks gives readers the insider knowledge unavailable anywhere else that could ultimately save their lives. Mass murders, though they may seem to be a recent phenomenon, actually have a long history in America. Snow gives a short history of mass murders in the United States, showing while mass murders may be more common today; they were hardly unheard of in the past. Almost weekly, it seems the national news media reports another mass murder: a school shooting, a massacre at a country music concert, a rampage at a nursing home. Why is this happening; who carries out these mass murders; how can we survive if caught up in one; and what can be done by our nation to stop them? In Prepare and Defend: Keep Yourself and Others Safe from Mass Murder Attacks Robert L. Snow answers these tough questions by examining the psychological make-up of mass murderers, allowing the readers to see into the many motivations behind these crimes. He also discusses the various strategies that communities can use to lessen the chances of such events occurring, and what the United States needs to do to prevent these tragedies from continuing. An important aspect of Prepare and Defend is showing readers how to spot a likely mass murder before it happens, and how, if caught up in one, to survive it with the right tactics. Because of the increase in the number of mass murders during the past few decades, police departments everywhere have become equipped and trained on how to respond to them. Readers need to know this information as well so that they can be rescued quickly and safely if ever in the face of this kind of situation. Depending on what kind of mass murder event occurs, there are a number of strategies that can significantly lessen a person's chances of becoming a victim. With the benefit of many years as a police officer, as well as response training for mass murder episode, Snow shows readers important strategies and how to use them.

**Romiette and Julio** Sharon M. Draper, 2010-12-07 Do you feel the soul of another calling to you? Do you know in your heart that your destiny and his were meant to merge in the cosmos? We can help you find him. When Romiette Cappelle and her best friend, Destiny, decide to order The Scientific Soul Mate System from the back of Heavy Hunks magazine, they're not sure what they're getting into. But Destiny, a self-proclaimed psychic, assures Romi that for \$44.99 plus shipping and handling, it's the only way they're ever going to find out who their soul mates really are. If nothing else, maybe Romi will get some insight into that recurring dream she's been having about fire and water. But they never expect that the scented candle and tube of dream ointment will live up to their promises and merge Romiette's destiny with that of Julio Montague, a boy she's just met in the cosmos of an Internet chat room. It turns out they go to the same high school, not to mention having almost the same names as Shakespeare's famous lovers! Sweet-scented dreams of Julio have almost overtaken Romi's nightmares... ..when suddenly they return, but this time in real life. It seems the Devildogs, a local gang, violently oppose the relationship of Romiette and Julio. Soon they find themselves haunted by the purple-clad shadows of the gang, and the fire and water of Romiette's dream merge in ways more terrifying -- and ultimately more affirming -- than even Destiny could have foreseen.
