Rethinking State Politics in India Ashutosh Kumar, 2016-12-16. Political Regimes and Economic Reforms: A Study of Bihar and Madhya Pradesh -- Notes on Contributors -- Index

Jammu and Kashmir Rekha Chowdhary, 2015-10-05 This book provides a comprehensive and up-to-date analysis of the complex conflict situation in Kashmir. Through an internal perspective, it charts the shift in the Kashmiri response towards the Centre and offers a detailed examination of the background in which separatist politics took roots in Kashmir, and the way it changed its nature in the militancy and post-militancy period. The volume shows how separatism and armed militancy, as manifest in the Valley in the late 1980s, (though augmented by external factors) have been internal responses to the changing nature of Kashmiri identity politics. It explores how the ideas central to Indian nationalist politics — especially democracy and secularism — echoed in Kashmir and were instrumental in dismantling the feudal structure and negotiating an autonomous space within the framework of asymmetrical federalism. Seamlessly blending facts and incisive analyses, this book raises new questions about the nature of conflict and contestation in the region. It will be of great interest to researchers and scholars of Indian politics, especially on Jammu and Kashmir, and sociology, as well as government bodies, think tanks and the interested general reader.

India's Spatial Imaginations of South Asia Shibashis Chatterjee, 2018-12-14 Since India attained independence, its foreign policy discourse has imagined its South Asian neighbourhood through the politics of realism. This imagination explicates state interest in South Asia by establishing it as a space of sovereign territoriality. Even today, India's foreign and security policies are primarily shaped by geopolitical centrism, and remain unaffected by economic prosperity and community concerns. As a part of the Oxford International Relations in South Asia series, this volume examines alternative conceptions of South Asian space in terms of geo-economics and community, and justifies why they have been unable to replace its dominant understanding, irrespective of the political regime. This volume probes reasons behind the relevance of differentiated cartography of territorial nationalism in our shared understanding of space, politics, society, and the community.

India and the Patent Wars Murphy Halliburton, 2017-11-15 India and the Patent Wars contributes to an international debate over the costs of medicine and restrictions on access under stringent patent laws showing how activists and drug companies in low-income countries seize agency and exert influence over these processes. Murphy Halliburton contributes to analyses of globalization within the fields of anthropology, sociology, law, and public health by drawing on interviews and ethnographic work with pharmaceutical producers in India and the United States. India has been at the center of emerging controversies around patent rights related to pharmaceutical production and local medical knowledge. Halliburton shows that Big Pharma is not all-powerful, and that local activists and practitioners of ayurveda, India's largest indigenous medical system, have been able to undermine the aspirations of multinational companies and the WTO. Halliburton traces how key drug prices have gone down, not up, in low-income countries under the new patent regime through partnerships between US- and India-based companies, but warns us to be aware of access to essential medicines in low- and middle-income countries going forward.

Vision, Courage and Service Brigadier Satish K. Issar, 2021-06-15 Born in a traditional Indian middle-class family in 1921, Tapishwar Narain (Tappy) Raina rose to the pinnacle of the Indian Army in 1975. A decorated and battle-hardened soldier, Tappy Raina proved also to be a visionary Army Chief. He pushed through ground-breaking initiatives both for making the Indian Army future-ready and for the welfare of its officers and men. Equally, his quiet but firm stand against the Indian Army being drawn into the maelstrom of Indian politics during the period of Emergency was a truly signal service to India's democracy. Tappy Raina was pitched into the 2nd World War at the very outset of his army career and saw action in the Middle East, Burma and the Far East. During this period he was wounded and lost his right eye but never let this early setback affect him professionally. His finest hour as a soldier came during India's war with China in 1962. Amidst the ruins elsewhere along the borders, Brigadier Raina won laurels as a battlefield commander in Ladakh, where Indian Army blunted the Chinese PLA in the battle of Chushul. For this exemplary military leadership, Tappy Raina

was conferred the country's second highest gallantry award, the Maha Vir Chakra (MVC). Later, for his contribution in the war against Pakistan in 1971, then Lt General Raina was conferred the award of Padma Bhushan. Not even sixty yet, General Raina passed away in 1980 with his boots on while serving in India's High Commissioner in Canada. Interspersed in the book are notes by Tappy Raina's wife, Ninette, which etch out some personal facets of his life and reveal his innate decency, modesty and compassion. General T. N. Raina's was an inspiring life of outstanding service to the nation, embodying vision, professional excellence and courage.

Proceeding of International Conference on Intelligent Communication, Control and Devices Rajesh Singh, Sushabhan Choudhury, 2016-09-17 The book presents high-quality research papers presented at the first international conference, ICICCD 2016, organised by the Department of Electronics, Instrumentation and Control Engineering of University of Petroleum and Energy Studies, Dehradun on 2nd and 3rd April, 2016. The book is broadly divided into three sections: Intelligent Communication, Intelligent Control and Intelligent Devices. The areas covered under these sections are wireless communication and radio technologies, optical communication, communication hardware evolution, machine-to-machine communication networks, routing techniques, network analytics, network applications and services, satellite and space communications, technologies for e-communication, wireless Ad-Hoc and sensor networks, communications and information security, signal processing for communications, communication software, microwave informatics, robotics and automation, optimization techniques and algorithms, intelligent transport, mechatronics system, guidance and navigation, algorithms, linear/non-linear control, home automation, sensors, smart cities, control systems, high performance computing, cognition control, adaptive control, distributed control, prediction models, hybrid control system, control applications, power system, manufacturing, agriculture cyber physical system, network control system, genetic control based, wearable devices, nano devices, MEMS, bio-inspired computing, embedded and real-time software, VLSI and embedded systems, FPGA, digital system and logic design, image and video processing, machine vision, medical imaging, and reconfigurable computing systems.

Evolutionary Computing and Mobile Sustainable Networks V. Suma, Nouredine Bouhmala, Haoxiang Wang, 2020-07-31 This book features selected research papers presented at the International Conference on Evolutionary Computing and Mobile Sustainable Networks (ICECMSN 2020), held at the Sir M. Visvesvaraya Institute of Technology on 20–21 February 2020. Discussing advances in evolutionary computing technologies, including swarm intelligence algorithms and other evolutionary algorithm paradigms which are emerging as widely accepted descriptors for mobile sustainable networks virtualization, optimization and automation, this book is a valuable resource for researchers in the field of evolutionary computing and mobile sustainable networks.

Implementing Grand Strategy Toward China Robert D. Blackwill, 2020-01-16 The Trump administration recognizes the China challenge, but it needs a grand strategy. Blackwill recommends decisive action, sustained diplomacy, collaboration among branches of the U.S. government, and working with allies in Asia and Europe, among other approaches.

Zero Oil Thali (A Complete Meal Without Oil) Dr. Bimal Chhajer, 2005

Microbial Products for Health, Environment and Agriculture Pankaj Kumar Arora, 2021-09-21 This edited volume discusses the role of various microbial products in healthcare, environment and agriculture. Several microbial products are directly involved in solving major health problems, agricultural and environmental issues. In healthcare sector, microbes are used as anti-tumor compounds, antibiotics, anti-parasitic agents, enzyme inhibitors and immunosuppressive agents. Microbial products are also used to degrade xenobiotic compounds and bio-surfactants, for biodegradation process. In agriculture, microbial products are used to enhance nutrient uptake, to promote plant growth, or to control plant diseases. The book presents several such applications of microbes in the ecosystems. The chapters are contributed from across the globe and contain up-to-date information. This book is of interest to teachers, researchers, microbiologists and ecologists. Also the book serves as additional reading material for undergraduate and graduate students of agriculture, forestry, ecology, soil science, and environmental sciences.

Ethnic Fermented Foods and Beverages of India: Science History and Culture Jyoti Prakash

Tamang,2020-03-02 This book provides detailed information on the various ethnic fermented foods and beverages of India. India is home to a diverse food culture comprising fermented and non-fermented ethnic foods and alcoholic beverages. More than 350 different types of familiar, less-familiar and rare ethnic fermented foods and alcoholic beverages are traditionally prepared by the country's diverse ethnic groups, and include alcoholic, milk, vegetable, bamboo, legume, meat, fish, and cereal based beverages. Most of the Indian ethnic fermented foods are naturally fermented, whereas the majority of the alcoholic beverages have been prepared using dry starter culture and the 'back-sloping' method for the past 6,000 years. A broad range of culturable and unculturable microbiomes and mycobiomes are associated with the fermentation and production of ethnic foods and alcoholic drinks in India. The book begins with detailed chapters on various aspects including food habits, dietary culture, and the history, microbiology and health benefits of fermented Indian food and beverages. Subsequent chapters describe unique and region-specific ethnic fermented foods and beverages from all 28 states and 9 union territories. In turn the classification of various ethnic fermented foods and beverages, their traditional methods of preparation, culinary practices and mode of consumption, socio-economy, ethnic values, microbiology, food safety, nutritional value, and process optimization in some foods are discussed in details with original pictures. In closing, the book addresses the medicinal properties of the fermented food products and their health benefits, together with corresponding safety regulations.

Power and Contestation Nivedita Menon,Aditya Nigam,2013-07-04 1989 marks the unraveling of India's 'Nehruvian Consensus' around the idea of a modern, secular nation with a self-reliant economy. Caste and religion have come to play major roles in national politics. Global economic integration has led to conflict between the state and dispossessed people, but processes of globalization have also enabled new spaces for political assertion, such as around sexuality. Older challenges to the idea of India continue from movements in Kashmir and the North-East, while Maoist insurgency has deepened its bases. In a world of American Empire, India as a nuclear power has abandoned non-alignment, a shift that is contested by voices within. *Power and Contestation* shows that the turbulence and turmoil of this period are signs of India's continued vibrancy and democracy. The book is an ideal introduction to the complex internal histories and external power relations of a major global player for the new century.

Eminent Indian Psychologists Braj Bhushan,2017-09-15 Highlights major milestones in the lives and the work of eminent Indian Psychologists who significantly contributed to the development of this discipline in the last 100 years

Next Generation Computing Technologies on Computational Intelligence Manish Prateek,Durgansh Sharma,Rajeev Tiwari,Rashmi Sharma,Kamal Kumar,Neeraj Kumar,2019-11-23 The 18 full and 13 short papers presented were carefully reviewed and selected from 255 submissions. There were organized in topical sections named: Image Processing, Pattern Analysis and Machine Vision; Information and Data Convergence; Disruptive Technologies for Future; E-Governance and Smart World

Microbial Biodiversity P. Ponmurugan,J. Senthil Kumar,2020-03-18 Biodiversity is among the richest treasures of the earth. Despite their small size, microbes play a vital role in environmental monitoring and making the earth sustainable. Microorganisms preserve and assist plants and animals o either directly or indirectly, and, due to their omnipresence in nature, they inhabit conditions such as extreme temperatures, water, soil, salt, medical wastes, agricultural wastes, and air. Microbes are also important in human culture and play an essential role in existence of life. They are present in food fermentation, sewage treatment, medical, agricultural, and soil waste, antibiotics, soil fertility, model organisms, and human microbiota, aid with decomposition, and are responsible for infectious diseases. This volume represents an important contribution to the field, highlighting the importance of microbial biodiversity to society.

Implementing EDI Solutions IBM Redbooks,Geert van de Putte,2003-01-01

The Vedas and Upanishads for Children Roopa Pai,2023-05-25 Three thousand years ago,

deep inside the forests of India, a great 'thought revolution' was brewing. In those forest labs, the brightest thinker-philosophers contemplated the universe, reflected on ancient texts called the Vedas and came up with startling insights into questions we still don't have final answers to, like: • What is the universe made of? • How do I know I'm looking at a tree when I see one? • Who am I? And where did they put those explosive findings? In a sprawling body of goosebumpy and fascinating oral literature called the Upanishads! Intimidated? Don't be! For this joyful, fun guide to some of India's longest-lasting secular wisdoms, reinterpreted for first-time explorers by Roopa Pai, is guaranteed to keep you turning the pages.

Assessment of Climate Change over the Indian Region R. Krishnan, J. Sanjay, Chellappan Gnanaseelan, Milind Mujumdar, Ashwini Kulkarni, Supriyo Chakraborty, 2020-06-12 This open access book discusses the impact of human-induced global climate change on the regional climate and monsoons of the Indian subcontinent, adjoining Indian Ocean and the Himalayas. It documents the regional climate change projections based on the climate models used in the IPCC Fifth Assessment Report (AR5) and climate change modeling studies using the IITM Earth System Model (ESM) and CORDEX South Asia datasets. The IPCC assessment reports, published every 6–7 years, constitute important reference materials for major policy decisions on climate change, adaptation, and mitigation. While the IPCC assessment reports largely provide a global perspective on climate change, the focus on regional climate change aspects is considerably limited. The effects of climate change over the Indian subcontinent involve complex physical processes on different space and time scales, especially given that the mean climate of this region is generally shaped by the Indian monsoon and the unique high-elevation geographical features such as the Himalayas, the Western Ghats, the Tibetan Plateau and the adjoining Indian Ocean, Arabian Sea, and Bay of Bengal. This book also presents policy relevant information based on robust scientific analysis and assessments of the observed and projected future climate change over the Indian region.

Untouchables Or the Children of India's Ghetto Bhimrao Ramji Ambedkar, 2018-10-16 Ambedkar was a prolific student, earning doctorates in economics from both Columbia University and the London School of Economics, and gained a reputation as a scholar for his research in law, economics and political science.[11] In his early career he was an economist, professor, and lawyer. His later life was marked by his political activities; he became involved in campaigning and negotiations for India's independence, publishing journals, advocating political rights and social freedom for Dalits, and contributing significantly to the establishment of the state of India. In 1956 he converted to Buddhism, initiating mass conversions of Dalits.

Integrating Omics Data George Tseng, Debashis Ghosh, Xianghong Jasmine Zhou, 2015-09-23 Tutorial chapters by leaders in the field introduce state-of-the-art methods to handle information integration problems of omics data.

Embark on a transformative journey with this captivating work, Discover the Magic in **Jyoti Bhushan.htm**.
