**Rethinking State Politics in India** Ashutosh Kumar,2016-12-16. Political Regimes and Economic Reforms: A Study of Bihar and Madhya Pradesh -- Notes on Contributors -- Index

**Jammu and Kashmir** Rekha Chowdhary,2015-10-05 This book provides a comprehensive and up-to-date analysis of the complex conflict situation in Kashmir. Through an internal perspective, it charts the shift in the Kashmiri response towards the Centre and offers a detailed examination of the background in which separatist politics took roots in Kashmir, and the way it changed its nature in the militancy and post-militancy period. The volume shows how separatism and armed militancy, as manifest in the Valley in the late 1980s, (though augmented by external factors) have been internal responses to the changing nature of Kashmiri identity politics. It explores how the ideas central to Indian nationalist politics — especially democracy and secularism — echoed in Kashmir and were instrumental in dismantling the feudal structure and negotiating an autonomous space within the framework of asymmetrical federalism. Seamlessly blending facts and incisive analyses, this book raises new questions about the nature of conflict and contestation in the region. It will be of great interest to researchers and scholars of Indian politics, especially on Jammu and Kashmir, and sociology, as well as government bodies, think tanks and the interested general reader.

*India's Spatial Imaginations of South Asia* Shibashis Chatterjee,2018-12-14 Since India attained independence, its foreign policy discourse has imagined its South Asian neighbourhood through the politics of realism. This imagination explicates state interest in South Asia by establishing it as a space of sovereign territoriality. Even today, India's foreign and security policies are primarily shaped by geopolitical centrism, and remain unaffected by economic prosperity and community concerns. As a part of the Oxford International Relations in South Asia series, this volume examines alternative conceptions of South Asian space in terms of geo-economics and community, and justifies why they have been unable to replace its dominant understanding, irrespective of the political regime. This volume probes reasons behind the relevance of differentiated cartography of territorial nationalism in our shared understanding of space, politics, society, and the community.

India and the Patent Wars Murphy Halliburton,2017-11-15 India and the Patent Wars contributes to an international debate over the costs of medicine and restrictions on access under stringent patent laws showing how activists and drug companies in low-income countries seize agency and exert influence over these processes. Murphy Halliburton contributes to analyses of globalization within the fields of anthropology, sociology, law, and public health by drawing on interviews and ethnographic work with pharmaceutical producers in India and the United States. India has been at the center of emerging controversies around patent rights related to pharmaceutical production and local medical knowledge. Halliburton shows that Big Pharma is not all-powerful, and that local activists and practitioners of ayurveda, India's largest indigenous medical system, have been able to undermine the aspirations of multinational companies and the WTO. Halliburton traces how key drug prices have gone down, not up, in low-income countries under the new patent regime through partnerships between US- and India-based companies, but warns us to be aware of access to essential medicines in low- and middle-income countries going forward.

**Vision, Courage and Service** Brigadier Satish K. Issar,2021-06-15 Born in a traditional Indian middle-class family in 1921, Tapishwar Narain (Tappy) Raina rose to the pinnacle of the Indian Army in 1975. A decorated and battle-hardened soldier, Tappy Raina proved also to be a visionary Army Chief. He pushed through ground-breaking initiatives both for making the Indian Army future-ready and for the welfare of its officers and men. Equally, his quiet but firm stand against the Indian Army being drawn into the maelstrom of Indian politics during the period of Emergency was a truly signal service to India's democracy. Tappy Raina was pitched into the 2nd World War at the very outset of his army career and saw action in the Middle East, Burma and the Far East. During this period he was wounded and lost his right eye but never let this early setback affect him professionally. His finest hour as a soldier came during India's war with China in 1962. Amidst the ruins elsewhere along the borders, Brigadier Raina won laurels as a battlefield commander in Ladakh, where Indian Army blunted the Chinese PLA in the battle of Chushul. For this exemplary military leadership, Tappy Raina was conferred the country's second highest gallantry award, the Maha Vir Chakra (MVC). Later, for his contribution in the war against Pakistan in 1971, then Lt General Raina was conferred the award of Padma Bhushan. Not even sixty yet, General Raina passed away in 1980 with his boots on while serving in India's High Commissioner in Canada. Interspersed in the book are notes by Tappy Raina's wife, Ninette, which etch out some personal facets of his life and reveal his innate decency, modesty and compassion. General T. N. Raina's was an inspiring life of outstanding service to the nation, embodying vision, professional excellence and courage.

A broad range of culturable and unculturable microbiomes and mycobiomes are associated with the fermentation and production of ethnic foods and alcoholic drinks in India. *Power and Contestation* Nivedita Menon,Aditya Nigam,2013-07-04 1989 marks the unraveling of India's 'Nehruvian Consensus' around the idea of a modern, secular nation with a self-reliant economy. Caste and religion have come to play major roles in national politics. Global economic integration has led to conflict between the state and dispossessed people, but processes of globalization have also enabled new spaces for political assertion, such as around sexuality. Older challenges to the idea of India continue from movements in Kashmir and the North-East, while Maoist insurgency has deepened its bases. In a world of American Empire, India as a nuclear power has abandoned non-alignment, a shift that is contested by voices within. Power and Contestation shows that the turbulence and turmoil of this period are signs of India's continued vibrancy and democracy. The book is an ideal introduction to the complex internal histories and external power relations of a major global player for the new century.
