Scott Westerfeld

The Secret Hour Scott Westerfeld, 2012-08-01 Now in paperback--the first volume in a mesmerizing new trilogy which introduces a group of teens, who call themselves Midnighters, living in a world that is frozen in time and inhabited by dark creatures that lurk in the shadows.

The 2030 Spike Colin Mason, 2013-06-17 The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, The 2030 Spike serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.

Retail Market Study 2014 Marc-Christian Riebe,2014-02-01 The Retail Market Study 2014 of The Location Group is the one and only study of its kind with 150 of the most notable international cities of the fashion and retail world and 3'000 store openings on 1,500 pages. Over 1,000 retailers, 800 shopping streets and 500 shopping centers were analyzed. The study reached more than 100,000 readers worldwide so far.

Regime Change in the Yugoslav Successor States Mieczysław P.

Boduszyński,2010-04-26 In the 1990s, amid political upheaval and civil war, the Socialist Federal Republic of Yugoslavia dissolved into five successor states. The subsequent independence of Montenegro and Kosovo brought the total number to seven. Balkan scholar and diplomat to the region Mieczyslaw P. Boduszynski examines four of those states—Croatia, Slovenia, Macedonia, and the Federal Republic of Yugoslavia—and traces their divergent paths toward democracy and Euro-Atlantic integration over the past two decades. Boduszynski argues that regime change in the Yugoslav successor states was powerfully shaped by both internal and external forces: the economic conditions on the eve of independence and transition and the incentives offered by the European Union and other Western actors to encourage economic and political liberalization. He shows how these factors contributed to differing formulations of democracy in each state. The author

engages with the vexing problems of creating and sustaining democracy when circumstances are not entirely supportive of the effort. He employs innovative concepts to measure the quality of and prospects for democracy in the Balkan region, arguing that procedural indicators of democratization do not adequately describe the stability of liberalism in post-communist states. This unique perspective on developments in the region provides relevant lessons for regime change in the larger post-communist world. Scholars, practitioners, and policymakers will find the book to be a compelling contribution to the study of comparative politics, democratization, and European integration.

The Social Media Reader Michael Mandiberg, 2012-03 The first collection to address the collective transformation happening in response to the rise of social media With the rise of web 2.0 and social media platforms taking over vast tracts of territory on the internet, the media landscape has shifted drastically in the past 20 years, transforming previously stable relationships between media creators and consumers. The Social Media Reader is the first collection to address the collective transformation with pieces on social media, peer production, copyright politics, and other aspects of contemporary internet culture from all the major thinkers in the field. Culling a broad range and incorporating different styles of scholarship from foundational pieces and published articles to unpublished pieces, journalistic accounts, personal narratives from blogs, and whitepapers, The Social Media Reader promises to be an essential text, with contributions from Lawrence Lessig, Henry Jenkins, Clay Shirky, Tim O'Reilly, Chris Anderson, Yochai Benkler, danah boyd, and Fred von Loehmann, to name a few. It covers a wide-ranging topical terrain, much like the internet itself, with particular emphasis on collaboration and sharing, the politics of social

media and social networking, Free Culture and copyright politics, and labor and ownership. Theorizing new models of collaboration, identity, commerce, copyright, ownership, and labor, these essays outline possibilities for cultural democracy that arise when the formerly passive audience becomes active cultural creators, while warning of the dystopian potential of new forms of surveillance and control.

What Color is Your Aura? Barbara Bowers, 1989-12-15 From Simon & Schuster, *What Color Is Your Aura?: Personality Spectrums for Understanding and Growth* describes the colored bands of light that surround everyone's body. *What Color Is Your Aura?* is the only book available that will tell readers what color their aura is and what it reveals about their personality, emotions, talents and potential.

The American Yawp Joseph L. Locke, Ben Wright, 2019-01-22 I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world.—Walt Whitman, *Song of Myself*, *Leaves of Grass* *The American Yawp* is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. *The Yawp* highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and

explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

The Search for a Nonviolent Future Michael N. Nagler, 2010-10-01 Beginning with the achievements of Mahatma Gandhi, and following the legacy of nonviolence through the struggles against Nazism in Europe, racism in America, oppression in China and Latin America, and ethnic conflicts in Africa and Bosnia, Michael Nagler unveils a hidden history. Nonviolence, he proposes, has proven its power against arms and social injustice wherever it has been correctly understood and applied. Nagler's approach is not only historical but also spiritual, drawing on the experience of Gandhi and other activists and teachers. Individual chapters include *A Way Out of Hell*, *The Sweet Sound of Order*, and *A Clear Picture of Peace*. The last chapter includes a five-point blueprint for change and study circle guide. The foreword by Arun Gandhi, the grandson of Mahatma Gandhi, is new to this

edition.

Africa's Informal Workers Ilda Lindell, 2013-04-04 Africa's Informal Workers is a vigorous examination of the informalization and casualization of work, which is changing livelihoods in Africa and beyond. Gathering cases from nine countries and cities across sub-Saharan Africa, and from a range of sectors, this volume goes beyond the usual focus on household 'coping strategies' and individual agency, addressing the growing number of collective organizations through which informal workers make themselves visible and articulate their demands and interests. The emerging picture is that of a highly diverse landscape of organized actors, providing grounds for tension but also opportunities for alliance. The collection examines attempts at organizing across the formal-informal work spheres, and explores the novel trend of transnational organizing by informal workers. Part of the ground-breaking Africa Now series, Africa's Informal Workers is a timely exploration of deep, ongoing economic, political and social transformations.

Destination Branding Nigel Morgan, Annette Pritchard, Roger Pride, 2007-06-07 In today's highly competitive market, many destinations - from individual resorts to countries - are adopting branding techniques similar to those used by 'Coca Cola', 'Nike' and 'Sony' in an effort to differentiate their identities and to emphasize the uniqueness of their product. By focusing on a range of global case studies, Destination Branding demonstrates that the adoption of a highly targeted, consumer research-based, multi-agency 'mood branding' initiative leads to success every time.

Transanal Minimally Invasive Surgery (TAMIS) and Transanal Total Mesorectal Excision (taTME) Sam Atallah, 2019-04-23 This book captures cornerstone developments in a new

body of knowledge and provides an expert resource on a “hot topic” in rectal surgery. Transanal minimally invasive surgery (TAMIS) was designed for local excision of select rectal neoplasms, however soon it became realized that the TAMIS technique could be used for applications beyond local excision, most notably for transanal total mesorectal excision (taTME). This new operative technique has revolutionized our approach to the distal rectum by allowing for improved access, especially in obese male patients with an android pelvis, and by minimizing abdominal wall access trauma. The endpoints of improved oncologic resection, as defined by mesorectal envelope completeness, negative circumferential resection margins, and negative distal margin, are assessed. This book details controversies, pitfalls, and future directions of taTME and TAMIS. Chapters are authored by those on the forefront of innovation with TAMIS and taTME, and each is considered an authority on the topic. Transanal Minimally Invasive Surgery (TAMIS) and Transanal Total Mesorectal Excision (taTME) is a must-have reference for surgeons who are performing this operation and fellows in training who want to completely understand the various nuances of TAMIS and taTME.

Yes, Africa Can Punam Chuhan-Pole, Manka Angwafo, 2011-06-24 Takes an in-depth look at twenty-six economic and social development successes in Sub-Saharan African countries, and addresses how these countries have overcome major developmental challenges.

The Fire Next Door Ted Galen Carpenter, 2012-10-09 Since the Mexican government initiated a military offensive against its country’s powerful drug cartels in December 2006, some 50,000 people have perished and the drugs continue to flow. In *The Fire Next Door*,

Ted Galen Carpenter boldly conveys the growing horror overtaking Mexico and makes the case that the only effective strategy for the United States is to abandon its failed drug prohibition policy, thus depriving drug cartels of financial resources.

Ecosystem Management Gary Meffe, Larry Nielsen, Richard L. Knight, Dennis Schenborn, 2012-08-31 Today's natural resource managers must be able to navigate among the complicated interactions and conflicting interests of diverse stakeholders and decisionmakers. Technical and scientific knowledge, though necessary, are not sufficient. Science is merely one component in a multifaceted world of decision making. And while the demands of resource management have changed greatly, natural resource education and textbooks have not. Until now. Ecosystem Management represents a different kind of textbook for a different kind of course. It offers a new and exciting approach that engages students in active problem solving by using detailed landscape scenarios that reflect the complex issues and conflicting interests that face today's resource managers and scientists. Focusing on the application of the sciences of ecology and conservation biology to real-world concerns, it emphasizes the intricate ecological, socioeconomic, and institutional matrix in which natural resource management functions, and illustrates how to be more effective in that challenging arena. Each chapter is rich with exercises to help facilitate problem-based learning. The main text is supplemented by boxes and figures that provide examples, perspectives, definitions, summaries, and learning tools, along with a variety of essays written by practitioners with on-the-ground experience in applying the principles of ecosystem management. Accompanying the textbook is an instructor's manual that provides a detailed overview of the book and specific guidance on designing a course

around it. Ecosystem Management grew out of a training course developed and presented by the authors for the U.S. Fish and Wildlife Service at its National Training Center in Shepherdstown, West Virginia. In 20 offerings to more than 600 natural resource professionals, the authors learned a great deal about what is needed to function successfully as a professional resource manager. The book offers important insights and a unique perspective derived from that invaluable experience.

The Indian Ocean in World History Edward A. Alpers, 2014 The Indian Ocean in World History explores the cultural exchanges that took place in this region from ancient to modern times.

Water Societies and Technologies from the Past and Present Mark Altaweel, Yijie Zhuang, 2018-11-26 Today our societies face great challenges with water, in terms of both quantity and quality, but many of these challenges have already existed in the past. Focusing on Asia, *Water Societies and Technologies from the Past and Present* seeks to highlight the issues that emerge or re-emerge across different societies and periods, and asks what they can tell us about water sustainability. Incorporating cutting-edge research and pioneering field surveys on past and present water management practices, the interdisciplinary contributors together identify how societies managed water resource challenges and utilised water in ways that allowed them to evolve, persist, or drastically alter their environment. The case studies, from different periods, ancient and modern, and from different regions, including Egypt, Sri Lanka, Cambodia, Southwest United States, the Indus Basin, the Yangtze River, the Mesopotamian floodplain, the early Islamic city of Sultan Kala in Turkmenistan, and ancient Korea, offer crucial empirical data to readers interested

in comparing the dynamics of water management practices across time and space, and to those who wish to understand water-related issues through conceptual and quantitative models of water use. The case studies also challenge classical theories on water management and social evolution, examine and establish the deep historical roots and ecological foundations of water sustainability issues, and contribute new grounds for innovations in sustainable urban planning and ecological resilience.

Crowning the Nice Girl Christine R. Yano, 2006-06-30 After World War II, Japanese Americans in Hawai'i sought to carve a positive niche of public citizenship in the community. In 1953 members of the Honolulu Japanese Junior Chamber of Commerce and their wives created a beauty contest, the Cherry Blossom Festival (CBF) Queen Pageant, which quickly became an annual spectacle for the growing urban population of Honolulu. *Crowning the Nice Girl* analyzes the pageant through its decades of development to the present within multiple frameworks of gender, class, and race/ethnicity. Drawing on extensive archival research; interviews with CBF queens, contestants, and organizers; and participant observation in the Fiftieth Annual Festival as a volunteer, Christine Yano paints a complex portrait of not only a beauty pageant, but also a community. The study begins with the subject of beauty pageants in general and Asian American beauty pageants in particular, interrogating the issues they raise, embedding them within their histories, and examining them as part of a global culture that has taken its model from the Miss America contest. Yano follows the pageant throughout the decades into the 1990s, adding corresponding herstories—extensive narratives drawn from interviews with CBF queens. She concludes by framing issues of race, ethnicity, spectacle, and community within the

intertwined themes of niceness and banality.
