*Looking North, Looking South* brings together the work of leading China, Taiwan, and Pacific politics specialists to analyse a topic of growing importance: China and Taiwan's ever-growing involvement in the South Pacific. China is on the rise in Asia, Africa, South America, the Caribbean, even Antarctica and the Arctic. China's activities in the South Pacific are part of this rise. *Looking North, Looking South* locates China's involvement in the South Pacific within the context of China's wider foreign policy and the challenges it poses to the traditional dominant powers of the region. The China-Taiwan rivalry has helped to seriously alter the balance of traditional influence in the South Pacific. China is now one of the largest aid donors in the region, squeezing out Australia, New Zealand, and the United States both in terms of funding and influence.

**Sisterhood, Interrupted** Deborah Siegel, 2007-05-15

Contrary to clichés about the end of feminism, Deborah Siegel argues that younger women are reliving the battles of its past, and reinventing it—with a vengeance. From feminist blogging to the popularity of the WNBA, girl culture is on the rise. A lively and compelling look back at the framing of one of the most contentious social movements of our time, *Sisterhood, Interrupted* exposes the key issues still at stake, outlining how a twenty-first century feminist can reconcile the personal with the political and combat long-standing inequalities that continue today.

Katie Edward Klein, 2008-09-16 New York Times Bestseller A no-holds-barred account of the rise—and dramatic stumble—of a media icon. In this probing portrait of a struggling news queen, bestselling author Edward Klein rips away the mask that has

hidden the many faces of Katie Couric: the strong, independent woman and the needy wife and lover; the grieving widow famed for her kindness to others and the fiercely competitive diva; the consummate television interviewer and the stumbling network anchor. Drawing from scores of interviews with people who have never spoken openly about Couric before, Katie: The Real Story absorbingly chronicles Katie's rise to the top—from her early days at CNN to her nightly spot on CBS. You'll read about: Katie and her husband, Jay Monahan: "Jay had come to believe that the only thing that stood between Katie and divorce was her fear of negative publicity." Katie's diva behavior at CBS: "A technical problem left Katie standing without a script. . . . As soon as the red light on the top of the camera went off, she screamed. One of the executives said, 'Just a minute, Katie; the reason you make \$15 million a year is to carry off these little glitches like a pro.'" Katie and her parents: "She constantly sought [their] approval, but . . . [they] were better at telling her what she had done wrong than what she had done right." Katie and Matt Lauer: "Matt had privately told several executives at NBC that he would quit his job if they signed up Katie for another four years."

Chapter topics span from religious symbolism to natural history cabinets, from hunting laws to animal rights, from economic history to formalist views on art. In other words, the book asks why artists have represented animal death in visual culture, maintaining that the practice has, through the whole era, been a crucial part of the understanding of our relation to the world and our identity as humans. This is the first truly integrative book-length examination of the depiction of dead animals in Western art. The book will be of interest to scholars working in art history, animal studies, and cultural history.

*Minitel* Julien Mailland, Kevin Driscoll, 2017-06-23 The first scholarly book in English on Minitel, the pioneering French computer network, offers a history of a technical system and a cultural phenomenon. A decade before the Internet became a medium for the masses in the United States, tens of millions of users in France had access to a network for e-mail, e-commerce, chat, research, game playing, blogging, and even an early form of online porn. In 1983, the French government rolled out Minitel, a computer network that achieved widespread adoption in just a few years as the government distributed free terminals to every French telephone subscriber. With this volume, Julien Mailland

and Kevin Driscoll offer the first scholarly book in English on Minitel, examining it as both a technical system and a cultural phenomenon. Mailland and Driscoll argue that Minitel was a technical marvel, a commercial success, and an ambitious social experiment. Other early networks may have introduced protocols and software standards that continue to be used today, but Minitel foretold the social effects of widespread telecomputing. They examine the unique balance of forces that enabled the growth of Minitel: public and private, open and closed, centralized and decentralized. Mailland and Driscoll describe Minitel's key technological components, novel online services, and thriving virtual communities. Despite the seemingly tight grip of the state, however, a lively Minitel culture emerged, characterized by spontaneity, imagination, and creativity. After three decades of continuous service, Minitel was shut down in 2012, but the history of Minitel should continue to inform our thinking about Internet policy, today and into the future.

**Katie Mitchell** Benjamin Fowler, 2020-12-30 Katie Mitchell: *Beautiful Illogical Acts* offers the first comprehensive study of Britain's most internationally recognised, influential, and controversial theatre director. It examines Mitchell's innovations in fourth-wall realism, opera, and Live Cinema across major British and European institutions, bringing three decades of practice vividly to life. Informed by first-hand rehearsal observations and in-depth conversations with the director and her collaborators, Fowler investigates the intense and immersive qualities of Mitchell's distinctive theatrical realism and challenges mainstream narratives about realism as a defunct or inherently conservative genre. He explores Mitchell's theatre—and its often polarised reception—to question familiar assumptions governing contemporary performance criticism, including common binaries that pit realism against radical experimentation, auteurs against texts, feminists against Naturalism, and Britain against Europe. By examining a career

trajectory that intersects with huge cultural change, Fowler places Mitchell at the centre of urgent contemporary debates about cultural transformation and its genuinely inclusive potential. This is an essential book for those interested in Katie Mitchell, British theatre, directing, the transformative power of realism and feminism in contemporary theatre practice, and challenges to hierarchical distributions of power inside the mainstream.
