Drosophila Neurobiology Bing Zhang,Marc R. Northern Plains Native Americans Shane Balkowitsch,2023-10-17 North Dakotan Shane Balkowitsch's quest to take 1000 Native American wet-plates portraits in the present day is one step closer with this second volume. In this series of wet-plate collodion book of portraits of Northern Plains Native Americans, the photographer/author continues with his distinctive and unique presentation that is the only one to have ever been instigated or created for this particular group of Native Americans. The technique he uses, wet-plate collodion and the eye of the author align to present a masterful, unique, and respectful array that is sumptuous and compelling. Here the subjects are presented in their native garb, giving he subjects the opportunity explore their self-image, in a safe space where who they are how they see themselves

are certain to be respected and admired. Wet-plate collodion is one of the earliest forms of photography. A wet-plate photographer makes a film based on a piece of glass or metal using collodion, submerges it in a silver nitrate solution to make it light sensitive, and then exposes the photograph usually in an old style wood bellows camera box and antique brass lens from the 1800's. The end result is a one-of-a-kind, archival object of art that will last many lifetimes. Shane and his Native American sitters have collaborated in the creation of a piece of contemporary history using classical methodology. The legacy he has created is indeed, who they were, what they were like, and what they did. There is nothing like it in the library of Native American portraiture in the modern era. The photographer's effort is to show that his subjects are still here--with their culture, dignity, and traditions.

Let's Pretend This Never Happened Jenny Lawson, 2013-03-05 The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and

hysterical look at the dark, disturbing, yet wonderful moments of our lives.

Global Applications of Multigenerational Management and Leadership in the

Transcultural Era Christiansen, Bryan,2019-09-27 While much thought has been given to how business leaders and managers can obtain the most productivity from Millennials (Generation Y) and subsequent groups such as Generation Z, the true challenge is far more complex. The workforce of the near future will be a multigenerational one, featuring members from between four and six generations in one organizational setting. This situation is made even more complex and challenging with the effect of today's globalization, which has created worldwide hypercompetition in organizations that often involves members from multiple cultures who speak different languages. How to effectively handle such a diverse population is increasingly a key concern for organizations of all types and sizes. Global Applications of Multigenerational Management and Leadership in the Transcultural Era is a pivotal reference source that provides vital research on the application of applying numerous leadership styles to effectively navigate generational compromise. While highlighting topics such as consumer behavior, leadership management, and workforce diversity, this publication is ideally designed for business scholars, managers, executives, human resources professionals, recruitment agencies, students, business professionals, and international business leaders seeking current research on communication strategies and the most effective ways to handle a diverse workforce.

Pacifism as War Abolitionism Cheyney Ryan,2024-03-12 Responding to the unprecedented violence of our times, and the corresponding interest in

nonviolent solutions, this book takes up the heart of pacifism: its critique of what pacifists have termed the war system. Pacifism as War Abolitionism provides an account of the war system that draws on contemporary sociology, history, and political philosophy. The core of its critique of that system is that war begets war, and hence war will not be ended—or even constrained—by finding more principled ways to fight war, as many imagine. War can only be ended by ending the war system, which can only be done nonviolently. This has been the message of pacifism's great voices like Gandhi, Dr. Martin Luther King, Jr., and Dorothy Day. It is the principal message of this book. Key Features Draws extensively on the sociological and historical research on war to expand the usual philosophical discussion beyond hypothetical accounts Expands the dialogues on the ethics of war beyond just war theory to its principal alternative: pacifism Engages discussion of empire and imperialism in relation to the logic and development of the war system Presents pacifism's response to the reality of war today, including the idea of never-ending war

It also examines the role of nuclear deterrence in the twenty-first century and reaches surprising conclusions.
