Language, Canonization and Holy Foolishness Per-Arne Bodin, 2009 What happens when the Russian Orthodox tradition meets post-Soviet Russia? This is the general question which will be in the focus in this study of the Orthodox discourse in post-Soviet Russian culture. It will be analyzed both in its own right and as a constituent of memory, a conservative or imperialist political attitude and postmodernism. One issue addressed in the debate over the use of Church Slavonic as the liturgical language. Another involves the nature of the canonizations that have taken place in the Orthodox Church in recent years and attempts to canonize the soldier Evgenij Rodionov and Stalin. A third topic is *jurodstvo*, or holy foolishness, for centuries a special and recurring theme in the Orthodox Church that has re-emerged after the fall of the Soviet Union. A chapter is devoted to Ksenija of Petersburg, a peculiar and much beloved holy fool of that city. A final issue concerns the significance of the Orthodox tradition in recent Russian art and poetry.

**Consumer Behavior and Marketing Strategy** J. Paul Peter, Jerry

Corrie Olson,1996 This work shows how the various elements of consumer analysis fit together in an integrated framework, called the Wheel of Consumer Analysis. Psychological, social and behavioural theories are shown as useful for understanding consumers and developing more effective marketing strategies. The aim is to enable students to develop skills in analyzing consumers from a marketing management perspective and in using this knowledge to develop and evaluate marketing strategies. The text identifies three groups of concepts - affect and cognition, behaviour and the environment - and shows how these they influence each other as well as marketing strategy. The focus of the text is managerial, with a distinctive emphasis on strategic issues and problems. Cases and questions are included in each chapter.

**Trade and Markets in Byzantium** Cécile Morrisson,2012 How are markets in antiquity to be characterized? As comparable to modern free markets? As controlled by the State? Or in completely different terms, as free but regulated? Here, scholars address these and related questions by reexamining and reinterpreting records from Byzantium and its hinterland for local, regional, and interregional trade.

**Masculinity and Irish Popular Culture** Conn Holohan,Tony Tracy,2014-02-20 Masculinity and Irish Popular Culture: Tiger's Tales is an interdisciplinary collection of essays by established and emerging scholars, analysing the shifting representations of Irish men across a

range of popular culture forms in the period of the Celtic Tiger and beyond.

**Sexual Violence Against Men in Global Politics** Marysia

Zalewski, Paula Drumond, Elisabeth Prugl, Maria Stern, 2018-05-11

Sexual violence against men is an under-theorised and under-noticed topic, though it is becoming increasingly apparent that this form of violence is widespread. Yet despite emerging evidence documenting its incidence, especially in conflict and post-conflict zones, efforts to understand its causes and develop strategies to reduce it are hampered by a dearth of theoretical engagement. One of the reasons that might explain its empirical invisibility and theoretical vacuity is its complicated relationship with sexual violence against women. The latter is evident empirically, theoretically, and politically, but the relationship between these violences conjures a range of complex and controversial questions about the ways they might be different, and why and how these differences matter. It is the case that sexual violence (when noticed at all) has historically been understood to happen largely, if not only, to women, allegedly because of their gender and their ensuing place in gender orders. This begs important questions regarding the impact of increasing knowledge about sexual violence against men, including the impact on resources, on understandings about, and experiences of masculinity, and whether the idea and practice of gender hierarchy is outdated. This book engages this diverse set of questions and offers fresh analysis on the

incidences of sexual violence against men using both new and existing data. Additionally, the authors pay close attention to some of the controversial debates in the context of sexual violence against men, revisiting and asking new questions about the vexed issue of masculinities and related theories of gender hierarchy. The book will be of great interest to students and scholars of sex, gender, masculinities, corporeality, violence, and global politics, as well as to practitioners and activists.

**Irish Sign Language** Lorraine (University of Dublin Trinity College Dublin) Leeson, 2012-05-31 As the only book of its kind, this book describes the social and historical background of this signed language and places Irish Sign Language in a world context. The Signs of Ireland corpus is used to introduce phonology, morphology, syntax, semantics and pragmatics. It also examines the key influences driving signed language linguistics in the past decade, including: recognition of the role of gesture; the influence of cognitive linguistics; the complexities of iconic representation in signing space; the role of simultaneous construction; and the grammar of ISL. All examples listed are drawn from the Signs of Ireland corpus, one of the largest digital corpora of a signed language in Europe, and are included on the accompanying DVD. An essential resource for sign language teachers and interpreters, students of sign linguistics, and learners of ISL in Ireland, this book offers new insights into the role of gesture, spatial models, iconicity, metaphor, and metonymy in ISL grammar, vocabulary and discourse.

**Writing Themselves in Again** Lynne Hillier, Anne Mitchell, Alina Turner, 2005 [This] is the follow up report to a similar study conducted in 1998. This earlier report documented the experiences of 750 young people at home, at school and in the community and revealed a

number of negative experiences and concerning health outcomes for these young people. The dissemination of this research was at least partially responsible for a number of positive changes in support for same sex attracted young people (SSAY) in the following years. The purpose of repeating the survey in 2004 was to explore the extent to which these changes have made a difference. In all 1749 young people aged between 14 and 21 successfully completed the survey....--P. vii.

Wordless Diagrams Nigel Holmes,2005-04-11 The former graphics director of TIME magazine offers a unique look at everyday activities, depicting them through clear and precise step-by-step pictures that shed fascinating new light on common actions. 50,000 first printing.

*Torture Porn* Steve Jones,2013-07-09 The first monograph to critically engage with the controversial horror film subgenre known as 'torture porn', this book dissects press responses to popular horror and analyses key torture porn films, mapping out the broader conceptual and contextual concerns that shape the meanings of both 'torture' and 'porn'.

**Maureen Birnbaum, Barbarian Swordsperson** George Alec Effinger,1993 Maureen Muffy Birnbaum is a young woman swept away from prep school to partake in a series of adventures in locations that seem extremely strange to her, but are readily familiar to science fiction fans. Muffy has visited Barsoom, Sherwood Forest, the Moon, and many other fantastic venues. She doesn't mind being sent to these outlandish worlds, because she usually meets a really cute boy while she's there.

Information Graphics Robert L. Harris,2000-01-06 This beautifully illustrated book is the first complete handbook to visual information. Well written, easy to use, and carefully indexed, it describes the full range of charts, graphs, maps, diagrams, and tables used daily to

manage, analyze, and communicate information. It features over 3,000 illustrations, making it an ideal source for ideas on how to present information. It is an invaluable tool for anyone who writes or designs reports, whether for scientific journals, annual reports, or magazines and newspapers.

*Russia and the West* Anthony Charles Kevin, Tony Kevin, 2019  
RUSSIA AND THE WEST: THE LAST TWO ACTION-PACKED YEARS 2017-19 TONY KEVIN  
With a new Author Preface  
What has happened to Australia's former well-deserved reputation as a liberal democracy open to the free discussion of ideas? What happens to an established Australian non-fiction author whose literary work strays outside Noam Chomsky's spectrum of permitted issues for public discussion? Tony Kevin's challenging new book offers a vivid account of how he was 'de-platformed', that is to say, effectively excluded from the public marketplace in ideas, during the two years following publication of his controversial fifth book, *Return to Moscow* (UWA Publishing, 2017). His new book poses the question, how free actually is Australia's publishing and mainstream media world, when it becomes so difficult for a writer to challenge established anti-Russian false public narratives, without suffering covert retaliation and silent exclusion? In reviewing major events and issues in Russia-West relations over the past two tumultuous years, Tony Kevin explores how deliberate Western disinformation campaigns - on issues like the war in Ukraine, Syria, the Skripals Affair, and Russiagate - are now at the centre of Western policy efforts to try to demoralise and weaken the great nation which they have chosen to frame as their existential adversary. Possibilities for East-West dialogue and relaxation of tensions are being rejected, in the interests of maintaining a Western perception of Russia as an enemy state. In Australia at least, such

disinformation efforts have borne poisonous fruit - as Tony Kevin's troubling experience as a writer increasingly excluded from the public space shows.

**An Introduction to Architectural Theory** Harry Francis Mallgrave, David J. Goodman, 2011-03-16 A sharp and lively text that covers issues in depth but not to the point that they become inaccessible to beginning students, *An Introduction to Architectural Theory* is the first narrative history of this period, charting the veritable revolution in architectural thinking that has taken place, as well as the implications of this intellectual upheaval. The first comprehensive and critical history of architectural theory over the last fifty years surveys the intellectual history of architecture since 1968, including criticisms of high modernism, the rise of postmodern and poststructural theory, critical regionalism and tectonics Offers a comprehensive overview of the significant changes that architectural thinking has undergone in the past fifteen years Includes an analysis of where architecture stands and where it will likely move in the coming years
