Knowledges Born in the Struggle Boaventura de Sousa Santos,Maria Paula Meneses,2019-10-17 In a world overwhelmingly unjust and seemingly deprived of alternatives, this book claims that the alternatives can be found among us. These alternatives are, however, discredited or made invisible by the dominant ways of knowing. Rather than alternatives, therefore, we need an alternative way of thinking of alternatives. Such an alternative way of thinking lies in the knowledges born in the struggles against capitalism, colonialism, and patriarchy, the three main forms of modern domination. In their immense diversity, such ways of knowing constitute the Global South as an epistemic subject. The epistemologies of the South are guided by the idea that another world is possible and urgently needed; they emerge both in the geographical north and in the geographical south whenever collectives of people fight against modern domination. Learning from and with the epistemic South suggests that the alternative to a general theory is the promotion of an ecology of knowledges based on intercultural and interpolitical translation.

*International Bibliography of Sikh Studies* Rajwant Singh Chilana,2006-01-16 The International Bibliography of Sikh Studies brings together all books, composite works, journal articles, conference proceedings, theses, dissertations, project reports, and electronic resources produced in the field of Sikh Studies until June 2004, making it the most complete and up-to-date reference work in the field today. The growing interest in Sikh Studies has resulted in an avalanche of literature, which is now for the first time brought together in the International Bibliography of Sikh Studies. This monumental work lists over 10,000 English-language publications under almost 30 subheadings, each representing a subfield in Sikh Studies. The Bibliography contains sections on a wide variety of subjects, such as Sikh gurus, Sikh philosophy, Sikh politics and Sikh religion. Etgar Keret's Literature and the Ethos of Coping with Holocaust Remembrance Yael Seliger,2024-01-16 This book highlights the need for a shift from thinking in terms of memories of traumatic events, to changeable modes of remembrance. The call for a fundamental change in approaches to commemorative remembrance is exemplified in literature written by the internationally acclaimed writer, Etgar Keret. Considered the most influential Israeli voice of his generation, Keret's storytelling is in congruence with postmodern thinking. Through transferring remembrance of the Holocaust from stagnant Holocaust commemoration—museums and commemorative ceremonies—to unconventional settings, such as youngsters playing soccer or being forced to venture outdoors in a COVID-19 pandemic environment, Keret's storytelling ushers in a unique approach to coping with remembrance of historical catastrophes. The book is a valuable resource for students and scholars interested in pursuing the subjects of Etgar Keret's artistry, and literature written in a post modern, post Holocaust milieu about personal and collective traumatic remembrance.

*More Than Bollywood* Gregory D. Booth,Bradley Shope,2014 This is the first book to tackle the diverse styles and multiple histories of popular musics in India. It brings together fourteen of the world's leading scholars on Indian popular music to contribute chapters on a range of topics from the classic songs of Bollywood to contemporary remixes, summarized by a reflective afterword by popular music scholar Timothy Taylor. The chapters in this volume address the impact of media and technology on contemporary music, the variety of industrial developments and contexts for Indian popular music, and historical trends in popular music development both before and after the Indian Independence in 1947. The book identifies new ways of engaging popular music in India beyond the Bollywood musical canon, and offers several case studies of local and regional styles of music. The contributors address the subcontinent's historical relationships with colonialism, the transnational market economies, local governmental factors, international conventions, and a host of other circumstances to shed light on the development of popular music throughout India. To illustrate each chapter author's points, and to make available music not easily accessible in North America, the book features an Oxford web music companion website of audio and video tracks.

**Atlantis** Christos A. Djonis,2021-06-11 Never before has there been a real discovery where all the physical characteristics of a proposed location matched Plato's description of Atlantis. Not even the original Santorini hypothesis could sufficiently meet the given criteria. After years of extensive research, in conjunction with new archeological evidence, and with the aid of satellite technology, Christos A. Djonis credibly reveals that Plato based his story of Atlantis on a real prehistoric setting, now beneath 400 feet of water. We now have a real discovery where all the physical characteristics, along with Plato's given chronology, flawlessly match, and they are precisely in the exact order as Plato depicted. Moreover, DNA and archaeological evidence of an advanced Neolithic civilization occupying the prehistoric submerged island, at around 9600 BC, further confirm a perfect case scenario. "Finally, a study that gives a logical and well-supported documentation for the existence of Plato's Atlantis! I was totally enthralled with this exciting piece of history..." **New Deal Art in North Carolina** Anita Price Davis,2008-10-29 As the people and economy of the United States struggled to recover during the Great Depression, 42 towns in North Carolina would benefit directly from the $83 million the federal government allocated for public art as part of the New Deal. The result was some of the state's most memorable murals, sculptures, reliefs, paintings, oils, and frescoes, most of which were installed in post offices and courthouses. This book is the only record of all of the North Carolina public art works under the program. It provides in-depth accounts of the works themselves and the artists who created them. Photographs of all of the buildings that originally received the art, the works themselves, and almost all of the 41 artists are provided. An appendix describes federal art projects, 1933-1943. There are detailed footnotes, an extensive bibliography, and an index.

*1000 и одна микронтроллерная схема. Выпуск 3* Сергей Рюмик,2022-01-29 Книга является третьей частью авторского издания под общим титульным названием «1000 и одна микроконтроллерная схема». Ранее в издательстве «Додэка-XXI» вышли в свет две книги из данной серии: «Выпуск 1» (2010 г.) и «Выпуск 2» (2011 г.). Новая книга «Выпуск 3» служит их логическим продолжением и дополнением. В ней содержатся электрические схемы сопряжения микроконтроллеров с внешними устройствами. Основной упор, в отличие от аналогичных по тематике изданий, делается на рассмотрение небольших, конструктивно завершённых, схемных узлов.В книге освещается работа базовых микроконтроллерных подсистем, в частности ввода и вывода сигналов, питания, тактирования, сброса, программирования. Уделяется должное внимание популярным интерфейсам: USB, SPI, RS-485, I2C, 1-Wire. Приводятся схемы электрической «обвязки» для популярных плат Arduino, которые тоже содержат микроконтроллеры.Книгу можно считать справочником типовых решений, поскольку все электрические схемы систематизированы по разделам и снабжены краткими пояснениями о назначении элементов.Ссылки на дополнительные материалы и литературу даны в конце каждого из разделов. В общей сумме в трёх книгах «Выпуск 1...3» насчитывается около 3000 схем.В книге содержится мини-курс, посвящённый компьютерному моделированию. Приводится методика анализа небольших узлов, подключаемых к выводам микроконтроллеров. С помощью моделирования можно

заранее спрогнозировать результат работы устройства без паяльника и без макетирования «в железе».Книга будет полезна разработчикам электронной аппаратуры, радиолюбителям (в том числе начинающим), студентам, а также всем неспециалистам в области электроники, самостоятельно осваивающим микроконтроллеры.

**The Materiality of the Past** Anne Murphy,2012-11-29 Anne Murphy offers a groundbreaking exploration of material representations of the Sikh past, showing how objects, as well as historical sites, and texts, have played a vital role in the production of the Sikh community as an evolving historical and social formation from the eighteenth century to the present. Drawing together work in religious studies, postcolonial studies, and history, Murphy explores how 'relic' objects such as garments and weaponry have, like sites, played dramatically different roles across political and social contexts-signifiers of authority and even sovereignty in one; collected, revered, and displayed with religious significance in another-and are connected to a broader engagement with the representation of the past that is central to the formation of the Sikh community. By highlighting the connections between relic objects and historical sites, and how the status of sites changed in the colonial period, she also provides crucial insight into the circumstances that brought about the birth of a new territorial imagination of the Sikh past in the early twentieth century, rooted in existing precolonial historical imaginaries centered in place and object. The life of the object today and in the past, she suggests, provides unique insight into the formation of the Sikh community and the crucial role representations play in it.
