It includes biographical information and a discussion of her intellectual interests and positions. Ginsburg was born in 1933 in Brooklyn to a Russian Jewish immigrant family. Women and Citizenship in Central and Eastern Europe Jasmina Lukić, Joanna Regulaska, Darja Zaviršek, 2006 The essays debate women's active citizenship in Central and Eastern Europe in light of transformations in the region since the fall of communism at the end of the 1980s. Case studies show that social and political discrimination between genders still exists.

Appified Jeremy W Morris, Sarah Murray, 2018-10-23 Snapchat. WhatsApp. Ashley Madison. Fitbit. Tinder. Periscope. How do we make sense of how apps like these-and thousands of others-have embedded themselves into our daily routines, permeating the background of ordinary life and standing at-the-ready to be used on our smartphones and tablets? When we look at any single app, it's hard to imagine how such a small piece of software could be particularly notable. But if we look at a collection of them, we see a bigger picture that reveals how the quotidian activities apps encompass are far from banal: connecting with friends (and strangers and enemies), sharing memories (and personally identifying information), making art (and trash), navigating spaces (and reshaping places in the process). While the sheer number of apps is overwhelming, as are the range of activities they address, each one offers an opportunity for us to seek out meaning in the mundane. Appified is the first scholarly volume to examine individual apps within the wider historical and cultural context of media and cultural studies scholarship, attuned to issues of politics and power, identity and the everyday.

Survivor Injustice Kylie Cheung, 2023-08-15 Journalist and Jezebel staff writer Kylie Cheung exposes the insidious--and often unseen--connections

among domestic abuse, state-based violence, political disenfranchisement, and the carceral state. An astonishingly original, powerfully honest vision for true survivor justice. —Kirkus, starred review For readers of *The Revolution Starts at Home*, *Feminism for the 99%*, and *Good and Mad*. Incisive, urgent, and written exactly for our post-Roe times, *Survivor Injustice* is the feminist frame-changing read we need now--for each of us, and for all that's at stake. With an abolitionist lens, journalist and Jezebel staff writer Kylie Cheung shows how domestic abuse and state violence are systemic and interconnected. She shatters the harmful and convenient narrative that abuse is a "private matter" perpetrated by individual bad actors--and situates popular understandings of domestic abuse in an indictment of the racism, misogyny, and carcerality baked into U.S. culture and politics. Cheung explores: The links between capitalism and domestic abuse: how late-stage capitalism colludes with the state to incentivize forced birth and reproductive coercion Intimate partner violence as a tool of political silence and social control America's tacit acceptance of sexual assault, from the home to the White House The interplay of race, power, gender, and sexuality in state-based violence How the United States runs on carcerality, and what that means for victims The way we view survival crimes, and our complicity in defining which acts are "violent" and whose actions are "criminal" How white feminism and carceral feminism fail us all Cheung plainly names all that goes unsaid when we, as a culture, talk about abuse: How state and society criminalize women,

girls, and gender-oppressed people of color. That what happens behind closed doors affects whose voices we hear at the ballot box. What it means when we put predators--from every party--up for vote. That sex workers are more likely to be victimized by law enforcement than "saved" by them. That this is all by design. And that ultimately--with organizing, abolition, and beyond-the-ballot action--we can change it all for good.

US Foreign Policy in the Middle East Kylie Baxter, Shahram

Akbarzadeh, 2012-08-21 Over the last sixty years, Washington has been a major player in the politics of the Middle East. From Iran in the 1950s, to the Gulf War of 1991, to the devastation of contemporary Iraq, US policy has had a profound impact on the domestic affairs of the region. Anti-Americanism is a pervasive feature of modern Middle East public opinion. But far from being intrinsic to 'Muslim political culture', scepticism of the US agenda is directly linked to the regional policies pursued by Washington. By exploring critical points of regional crisis, Kylie Baxter and Shahram Akbarzadeh elaborate on the links between US policy and popular distrust of the United States. The book also examines the interconnected nature of events in this geo-strategically vital region. Accessible and easy to follow, it is designed to provide a clear and concise overview of complex historical and political material. Key features include: maps illustrating key events and areas of discontent text boxes on topics of interest related to the Arab/Israeli Wars, Iranian politics, foreign interventions in Afghanistan and Iraq, the wars of

the Persian Gulf, September 11 and the rise of Islamist movements further reading lists and a selection of suggested study questions at the end of each chapter.

War and Peace in Somalia Michael Keating, Matt Waldman, 2019-01-01 For the last thirty years Somalia has experienced violence and upheaval. Today, the international effort to help Somalis build a federal state and achieve

stability is challenged by deep-rooted grievances, local conflicts and a powerful insurgency led by Al-Shabaab. Consisting of forty-four chapters by conflict resolution specialists and the world's leading experts on Somalia, this volume constitutes a unique compendium of insights into the insurgency and its impact. War and Peace in Somalia explores the legacies of past violence, especially impunity, illegitimacy and exclusion, and the need for national reconciliation. Drawing on decades of experience and months of field research, the contributors throw light on diverse forms of local conflict, its interrelated causes, and what can be done about it. They share original research on the role of women, men and youth in the conflict, and present new insight into Al-Shabaab--particularly the group's multi-dimensional strategy, the motivations of its fighters, their foreign links, and the prospects for engagement. This ground-breaking volume illuminates the war in Somalia, and sets out what can and should be done to bring it to an end. For policymakers and researchers covering Somalia, East Africa, extremism or conflict resolution, this is a must-read.

Hegemony Richard Howson, Kylie Smith, 2008-05 The originality and depth of Gramsci's theory of hegemony is now evidenced in the wide-ranging intellectual applications within a growing corpus of research and writings that include social, political and cultural theory, historical interpretation, gender and globalization. The reason that hegemony has been so widely and diversely adopted lies in the unique way that Gramsci

formulated the 'problematics' of structure/superstructure, coercion/consensus, materialism/idealism and regression/progression within the concept hegemony. However, in much of the contemporary literature the full complexity of hegemony is either obfuscated or ignored. Hegemony, through comprehensive and systematic analyses of Gramsci's formulation, a picture of hegemony as a complex syncretism of these dichotomies. In other words, hegemony is presented as a concept that is as much about aspiration and progressive politico-social relations as it is about regressive and dominative processes. Thus, the volume recognises and presents this complexity through a selection of contemporary theoretical as well as historico-social investigations that mark a significantly innovative moment in the work on hegemony.

This book gives the history of America's classic races from the inaugural Belmont Stakes in 1867 through 2013, identifying which equine participants were truly worthy of lasting acclaim and which were one-hit wonders.
