Clinical Case Studies for the Family Nurse Practitioner Leslie Neal-Boylan, 2011-11-28 Clinical Case Studies for the Family Nurse Practitioner is a key resource for advanced practice nurses and graduate students seeking to test their skills in assessing, diagnosing, and managing cases in family and primary care. Composed of more than 70 cases ranging from common to unique, the book compiles years of experience from experts in the field. It is organized chronologically, presenting cases from neonatal to geriatric care in a standard approach built on the SOAP format. This includes differential diagnosis and a series of critical thinking questions ideal for self-assessment or classroom use.

HTML and CSS Jon Duckett, 2011-11-08 A full-color introduction to the basics of HTML and CSS! Every day, more and more people want to learn some HTML and CSS. Joining the professional web designers and programmers are new audiences who need to know a little bit of code at work (update a content management system or e-commerce store) and those who want to make their personal blogs more attractive. Many books teaching HTML and CSS are dry and only written for those who want to become programmers, which is why this book takes an entirely new approach. Introduces HTML and CSS in a way that makes them accessible to everyone—hobbyists, students, and professionals—and it's full-color throughout Utilizes information graphics and lifestyle photography to explain the topics in a simple way that is engaging Boasts a unique structure that allows you to progress through the chapters from beginning to end or just dip into topics of particular interest at your leisure This educational book is one that you will enjoy picking up, reading, then referring back to. It will make you wish other technical topics were presented in such a simple, attractive and engaging way! This book is also available as part of a set in hardcover – Web Design with HTML, CSS, JavaScript and jQuery, 9781119038634; and in softcover – Web Design with HTML, CSS, JavaScript and jQuery, 9781118907443.

The Black Man's President Michael Burlingame, 2021-11-02 Frederick Douglass called the martyred president emphatically the black man's president” as well as “the first who rose above the prejudice of his times and country.” This narrative history of Lincoln’s personal interchange with Black people over the course his career reveals a side of the sixteenth president that, until now, has not been fully explored or understood. In a little-noted eulogy delivered shortly after Lincoln's assassination, Frederick Douglass called the martyred president emphatically the black man's president, the first to show any respect for their rights as men.” To justify that description, Douglass pointed not just to Lincoln's official acts and utterances, like the Emancipation Proclamation or the Second Inaugural Address, but also to the president’s own personal experiences with Black people. Referring to one of his White House visits, Douglass said: In daring to invite a Negro to an audience at the White House, Mr. Lincoln was saying to the country: I am President of the black people as well as the white, and I mean to respect their rights and feelings as men and as citizens.” But Lincoln’s description as “emphatically the black man’s president” rests on more than his relationship with Douglass or on his official words and deeds. Lincoln interacted with many other African Americans during his presidency His unfailing cordiality to them, his willingness to meet with them in the White House, to honor their requests, to invite them to consult on public policy, to treat them with respect whether they were kitchen servants or leaders of the Black community, to invite them to attend receptions, to sing and pray with them in their neighborhoods—all those manifestations of an egalitarian spirit fully justified the tributes paid to him by Frederick Douglass and other African Americans like Sojourner Truth, who said: I never was treated by any one with more kindness and cordiality than were shown to me by that great and good man, Abraham Lincoln.” Historian David S. Reynolds observed recently that only by examining Lincoln’s “personal interchange with Black people do we see the complete falsity of the charges of innate racism that some have leveled against him over the years.”

Reciting the Goddess Jessica Vantine Birkenholtz, 2018-03-01 Reciting the Goddess presents the first critical study of the Svasthanivratakatha (SVK), a sixteenth-century Hindu narrative textual tradition. The extensive SVK manuscript tradition offers a rare opportunity to observe the making of a specific, distinct Hindu religious tradition. Jessica Vantine Birkenholtz argues that the SVK serves as a lens through which we can observe the creation of modern 'Hinduism' in the Himalayas, as the text both mirrored and informed key moments in the self-conscious creation of Nepal as the 'world's only Hindu kingdom' in the late medieval and early modern period. Birkenholtz mines the literary historiography that is contained within the SVK text itself, chronicling the text's literary and narrative development as well as the development of the Svasthani goddess tradition. She outlines the process whereby the SVK gradually transformed into a Purana text, and became a critical source

for Nepali Hindu belief and identity. She also examines the elusive character of the goddess Svasthani whose identity is tied to the pan-Hindu goddess tradition, and the representation of women in the SVK and the ways in which the text influenced local and regional debates on the ideal of Hindu womanhood. Reciting the Goddess presents Nepal's celebrated SVK as a micro-level illustration of the powerful ways in which people, place, and literature intersect to produce new ideas and concepts of identity and place, even in a historically non-literate culture.

Qualitative Methods in Tourism Research Wendy Hillman, Kylie Radel, 2018-01-05 This volume seeks to expose and illustrate new approaches and thinking in qualitative methods that are being developed and implemented in tourism research. The contributions bring together various qualitative methods and approaches while also providing suggestions for the juxtaposition of qualitative and quantitative methods in mixed methods research. The book has been written with a cross-disciplinary approach which provides an insight into the art of research development from business, sociology and tourism perspectives. The chapters provide readers with a context and practical application examples for each method. They present a distinctive opportunity for social researchers from a range of disciplines, in particular tourism, to examine how to adapt the wide variety of qualitative approaches to their particular research needs.

Interpreting Art in Museums and Galleries Christopher Whitehead, 2011-12-02 In this pioneering book, Christopher Whitehead provides an overview and critique of art interpretation practices in museums and galleries. Covering the philosophy and sociology of art, traditions in art history and art display, the psychology of the aesthetic experience and ideas about learning and communication, Whitehead advances major theoretical frameworks for understanding interpretation from curators' and visitors' perspectives. Although not a manual, the book is deeply practical. It presents extensively researched European and North American case studies involving interviews with professionals engaged in significant cutting-edge interpretation projects. Finally, it sets out the ethical and political responsibilities of institutions and professionals engaged in art interpretation. Exploring the theoretical and practical dimensions of art interpretation in accessible language, this book covers: The construction of art by museums and galleries, in the form of collections, displays, exhibition and discourse; The historical and political dimensions of art interpretation; The functioning of narrative, categories and chronologies in art displays; Practices, discourses and problems surrounding the interpretation of historical and contemporary art; Visitor experiences and questions of authorship and accessibility; The role of exhibition texts, new interpretive technologies and live interpretation in art museum and gallery contexts. Thoroughly researched with immediately practical applications, *Interpreting Art in Museums and Galleries* will inform the practices of art curators and those studying the subject.

Publishing and Culture Dallas John Baker, Donna Lee Brien, 2019-04-10 Publishing is currently going through dramatic changes, from globalisation to the digital revolution. A whole culture of events, practices and processes has emerged centred around books and writing, which means that scholars of publishing need to understand it as a social and cultural practice as much as it is a business. This book explores the culture, practice and business of book production, distribution, publication and reception. It discusses topics as diverse as emerging publishing models, book making, writers' festivals, fan communities, celebrity authors, new publishing technologies, self-publishing, book design and the role of class, race, gender and sexuality in publishing or book culture. This volume will be of interest to those in the disciplines of publishing studies, creative writing, English literature, cultural studies and cultural industries.

Advances in Applied Sport Psychology Stephen Mellalieu, Sheldon Hanton, 2008-12-10 *Advances in Applied Sport Psychology* aims to bridge the gap between research and practice in contemporary sport psychology. Now available in paperback, the book draws together reviews of cutting edge research in key areas of applied sport psychology, assesses the implications of this research for current practice, and explores future avenues of research within each thematic area. This book surveys the scientific literature underpinning the most important skills and techniques employed in contemporary sport psychology, examining key topics such as: imagery goal setting self-talk stress management team building efficacy management attention control emotion regulation mental toughness. Representing the most up-to-date review of current scientific research, theory and practice in sport psychology, this book is a vital resource for all advanced students, researchers and practitioners working with athletes and sports performers.

The Velizh Affair Eugene M. Avrutin, 2018 The Velizh case was the longest ritual murder investigation in the modern world. Drawing on newly discovered trial records, historian Eugene M. Avrutin looks beyond antisemitism as the single most important factor in understanding ritual murder accusations, and in the process, provides an intimate glimpse of small-town life in eastern Europe.

US Foreign Policy in the Middle East Kylie Baxter, Shahram Akbarzadeh, 2012-08-21 Over the last sixty years, Washington has been a major player in the politics of the Middle East. From Iran in the 1950s, to the Gulf War of 1991, to the devastation of contemporary Iraq, US policy has had a profound impact on the domestic affairs of the region. Anti-Americanism is a pervasive feature of modern Middle East public opinion. But far from being intrinsic to 'Muslim political culture', scepticism of the US agenda is directly linked to the regional policies pursued by Washington. By exploring critical points of regional crisis, Kylie Baxter and Shahram Akbarzadeh elaborate on the links between US policy and popular distrust of the United States. The book also examines the interconnected nature of events in this geo-strategically vital region. Accessible and easy to follow, it is designed to provide a clear and concise overview of complex historical and political material. Key features include: maps illustrating key events and areas of discontent text boxes on topics of interest related to the Arab/Israeli Wars, Iranian politics, foreign interventions in Afghanistan and Iraq, the wars of the Persian Gulf, September 11 and the rise of Islamist movements further reading lists and a selection of suggested study questions at the end of each chapter.

Beauty and Misogyny Sheila Jeffreys, 2005-05-31 Should western beauty practices, ranging from lipstick to labiaplasty, be included within the United Nations understandings of harmful traditional/cultural practices? By examining the role of common beauty practices in damaging the health of women, creating sexual difference, and enforcing female deference, this book argues that they should. In the 1970s feminists criticized pervasive beauty regimes such as dieting and depilation, but some 'new' feminists argue that beauty practices are no longer oppressive now that women can 'choose' them. However, in the last two decades the brutality of western beauty practices seems to have become much more severe, requiring the breaking of skin, spilling of blood and rearrangement or amputation of body parts. *Beauty and Misogyny* seeks to make sense of why beauty practices are not only just as persistent, but in many ways more extreme. It examines the pervasive use of makeup, the misogyny of fashion and high-heeled shoes, and looks at the role of pornography in the creation of increasingly popular beauty practices such as breast implants, genital waxing and surgical alteration of the labia. It looks at the cosmetic surgery and body piercing/cutting industries as being forms of self-mutilation by proxy, in which the surgeons and piercers serve as proxies to harm women's bodies, and concludes by considering how a culture of resistance to these practices can be created. This essential work will appeal to students and teachers of feminist psychology, gender studies, cultural studies, and feminist sociology at both undergraduate and postgraduate levels, and to anyone with an interest in feminism, women and beauty, and women's health.
