Hard Times and New Deal in Kentucky George T. Blakey, 2014-07-15 The Great Depression and the New Deal touched the lives of almost every Kentuckian during the 1930s. Fifty years later the Commonwealth is still affected by the legacies of that era and the policies of the Roosevelt administration. George T. Blakey has written the first full study of this turbulent decade in Kentucky, and he offers a fresh perspective on the New Deal programs by viewing them from the local and state level rather than from Washington. Thousands of Kentuckians worked for New Deal programs such as the Civilian Conservation Corps and the Works Projects Administration; thousands more kept their homes through loans from the Home Owners Loan Corporation. Tobacco growers adopted new production techniques and rural farms received their

first electricity because of the Agricultural Adjustment and Rural Electrification administrations. The New Deal stretched from the Harlan County coal mines to a TVA dam near Paducah, and it encompassed subjects as small as Social Security pension checks and as large as revived Bourbon distilleries. The impact of these phenomena on Kentucky was both beneficial and disruptive, temporary and enduring. Blakey analyzes the economic effects of this unprecedented and massive government spending to end the depression. He also discusses the political arena in which Governors Laffoon, Chandler, and Johnson had to wrestle with new federal rules. And he highlights social changes the New Deal brought to the Commonwealth: accelerated urbanization, enlightened land use, a lessening of state power and individualism, and a greater awareness of Kentucky history. *Hard Times and New Deal* weaves together private memories of older Kentuckians and public statements of contemporary politicians; it includes legislative debates and newspaper accounts, government statistics and personal reminiscences. The result is a balanced and fresh look at the patchwork of emergency and reform activities which many people loved, many others hated, but no one could ignore.

**Shit Is Fucked Up And Bullshit** Malcolm Harris, 2020-02-25 From the writer hailed for giving voice to a generation in *Kids These Days* comes a bold rejection of a society in which inequality, police violence, and exploitation have come to define our lives In these new and selected pieces, Malcolm Harris, one of our sharpest and most versatile critics, examines everything

from the lowering of wages to the rise of fascism—and the maddening cultural landscape in between. Along the way, he explores protest strategies past and present; questions the wrong (and often racist) lessons we've learned from American history; and, most comfortingly, assures us that Marx saw the necessity of a crisis moment just like the one we're in. Rarely does a writer come along who can turn our world so thoroughly upside down that we can finally understand it for what it really is, but Harris's wry and biting essays do just that, and help us laugh at what we see. Our economic situation, political discourse, and future prospects have gotten much worse since a guy brought a sign that said Shit is Fucked Up and Bullshit to the Occupy Wall Street protests. We all knew what he meant then . . . but where are we now? And how has so much happened since the so-called end of history? The over thirty pieces collected here offer compelling answers to these questions and more.

**Roman Fever** Benjamin Reilly, 2022-01-27 During the last 1500 years, Rome was the inspiration of artists, the coronation stage of German emperors, the distant desire of pilgrims, and the seat of the Roman popes. Yet Rome also lies within the northern range of *P. falciparum* malaria, the deadliest strain of the disease, against which northern Europeans had no intrinsic or acquired defenses. As a result, Rome lured a countless number of unacclimated transalpine Europeans to their deaths in the period from 500 to 1850 AD. This book examines how Rome's allure to European visitors and its resident malaria

species impacted the historical development of Europe. It covers the environmental and biological factors at play and focuses on two of the periods when malaria potentially had the greatest impact on the continent: the heyday of the medieval German Empire and its conflicts with the papacy (c. 800-1300) and the Protestant Reformation (c.1500). Through explorations into the history of religion, empire, disease, and culture, this book tells the story of how the veritable capital of the world became the graveyard of nations.

**Nuyorican Feminist Performance** Patricia Herrera, 2020-05-12 The Nuyorican Poets Café has for the past forty years provided a space for multicultural artistic expression and a platform for the articulation of Puerto Rican and black cultural politics. The Café's performances—poetry, music, hip hop, comedy, and drama—have been studied in detail, but until now, little attention has been paid to the voices of its women artists. Through archival research and interview, *Nuyorican Feminist Performance* examines the contributions of 1970s and '80s performer<sup>as</sup> and how they challenged the Café's gender politics. It also looks at recent artists who have built on that foundation with hip hop performances that speak to contemporary audiences. The book spotlights the work of foundational artists such as Sandra María Esteves, Martita Morales, Luz Rodríguez, and Amina Muñoz, before turning to contemporary artists La Bruja, Mariposa, Aya de León, and Nilaja Sun, who infuse their poetry and solo pieces with both Nuyorican and hip hop

aesthetics.

**Virginia Woolf** Lorraine Sim, 2016-02-11 In her timely contribution to revisionist approaches in modernist studies, Lorraine Sim offers a reading of Virginia Woolf's conception of ordinary experience as revealed in her fiction and nonfiction. Contending that Woolf's representations of everyday life both acknowledge and provide a challenge to characterizations of daily life as mundane, Sim shows how Woolf explores the potential of everyday experience as a site of personal meaning, social understanding, and ethical value. Sim's argument develops through readings of Woolf's literary representations of a subject's engagement with ordinary things like a mark on the wall, a table, or colour; Woolf's accounts of experiences that are both common and extraordinary such as physical pain or epiphanic 'moments of being'; and Woolf's analysis of the effect of new technologies, for example, motor-cars and the cinema, on contemporary understandings of the external world. Throughout, Sim places Woolf's views in the context of the philosophical and lay accounts of ordinary experience that dominated the cultural thought of her time. These include British Empiricism, Romanticism, Platonic thought and Post-Impressionism. In addition to drawing on the major novels, particularly *The Voyage Out*, *Mrs. Dalloway*, and *To the Lighthouse*, Sim focuses close attention on short stories such as 'The Mark on the Wall', 'Solid Objects', and 'Blue & Green'; nonfiction works, including 'On Being Ill', 'Evening over Sussex: Reflections in a Motor-car', and 'A Sketch of the Past'; and Woolf's

diaries. Sim concludes with an account of Woolf's ontology of the ordinary, which illuminates the role of the everyday in Woolf's ethics.

**YouTube** Jean Burgess, Joshua Green, 2013-04-16 YouTube is one of the most well-known and widely discussed sites of participatory media in the contemporary online environment, and it is the first genuinely mass-popular platform for user-created video. In this timely and comprehensive introduction to how YouTube is being used and why it matters, Burgess and Green discuss the ways that it relates to wider transformations in culture, society and the economy. The book critically examines the public debates surrounding the site, demonstrating how it is central to struggles for authority and control in the new media environment. Drawing on a range of theoretical sources and empirical research, the authors discuss how YouTube is being used by the media industries, by audiences and amateur producers, and by particular communities of interest, and the ways in which these uses challenge existing ideas about cultural 'production' and 'consumption'. Rich with both concrete examples and featuring specially commissioned chapters by Henry Jenkins and John Hartley, the book is essential reading for anyone interested in the contemporary and future implications of online media. It will be particularly valuable for students and scholars in media, communication and cultural studies.

*Hegemony* Richard Howson, Kylie Smith, 2008-05-01 The originality and depth of Gramsci's theory of hegemony is now evidenced in the wide-ranging intellectual applications within a growing corpus of research and writings that include social, political and cultural theory, historical interpretation, gender and globalization. The reason that hegemony has been so widely and diversely adopted lies in the unique way that Gramsci formulated the 'problematics' of structure/superstructure, coercion/consensus, materialism/idealism and regression/progression within the concept hegemony. However, in much of the contemporary literature the full complexity of hegemony is either obfuscated or ignored. Hegemony, through comprehensive and systematic analyses of Gramsci's formulation, a picture of hegemony as a complex syncretism of these dichotomies. In other words, hegemony is presented as a concept that is as much about aspiration and progressive politico-social relations as it is about regressive and dominative processes. Thus, the volume recognises and presents this complexity through a selection of contemporary theoretical as well as historico-social investigations that mark a significantly innovative moment in the work on hegemony.

*Human Factors Considerations of Undergrounds in Insurgencies* Us Army Special Operations Command, 2017-08-31 From the preface: The 1966 'Human Factors' edition focused on the contemporary threat of Maoist insurgencies, particularly in Southeast Asia, and also drew extensively on World War II

resistance movements in Europe. Much of this information is still relevant and has been retained and integrated. In the post-Cold War world, the most important insurgencies tend to be ethnic and religious. Long-simmering conflicts, sometimes with roots in colonial policies, have become prominent; examples include the Liberation Tigers of Tamil Eelam (LTTE) in Sri Lanka, Euskadi Ta Askatasuna (Basque Homeland and Freedom or ETA) in Spain, the Hutu-Tutsi genocides, the Ushtia Qlirimtare e Kosovës (Kosovo Liberation Army, or KLA), and the Provisional Irish Republican Army (PIRA). Battle lines in these conflicts are often drawn along ethnic lines, even when land or politics are the immediate issues in contention. The other important new category is extremist religious movements, most prominently Islamic groups, including regional insurgent movements like Hizbollah and Harakat al-Muqawamah al'Islamiyyah (Islamic Resistance Movement, or HAMAS) and global movements like Al Qaeda. These present a different profile of ideology, organizational forms, and psychology than either Cold War Maoists or post-colonial ethnic insurgencies (although the Palestinian cause could be considered a post-colonial issue). Globalization has also changed underground operations in numerous ways. Insurgencies, enabled by low-cost transportation, Internet based communications, and other information technologies, can more easily recruit, communicate, and operate across borders. It is correspondingly much more difficult to contain an insurgency in a region. Global media has led to development of new tactics, in

particular new types of terrorism, designed to capture worldwide attention. Compared with what was available in the 1960s, there are orders of magnitude more academic research available relevant to this study's topics. We were able to draw on more recent work in psychology, political science, economics, sociology, organizational studies, and communications studies. Readers of this edition will, over the course of eleven chapters, get a wide exposure to basic concepts from a number of disciplines.

*Please Look After Mom* Kyung-Sook Shin, 2011-04-05 WINNER OF THE MAN ASIAN LITERARY PRIZE When sixty-nine-year-old So-nyo is separated from her husband among the crowds of the Seoul subway station, her family begins a desperate search to find her. Yet as long-held secrets and private sorrows begin to reveal themselves, they are forced to wonder: how well did they actually know the woman they called Mom? Told through the piercing voices and urgent perspectives of a daughter, son, husband, and mother, *Please Look After Mom* is at once an authentic picture of contemporary life in Korea and a universal story of family love.

*Ownership and Appropriation* Veronica Strang, Mark Busse, 2020-06-03 In a world of finite resources, expanding populations and widening structural inequalities, the ownership of things is increasingly contested. Not only are the commons being rapidly enclosed and privatized, but the very idea of what can be owned is expanding, generating conflicts over the ownership of resources, ideas, culture, people, and even parts of people. Understanding

processes of ownership and appropriation is not only central to anthropological theorizing but also has major practical applications, for policy, legislative development and conflict resolution. Ownership and Appropriation significantly extends anthropology's long-term concern with property by focusing on everyday notions and acts of owning and appropriating. The chapters document the relationship between ownership, subjectivities and personhood; they demonstrate the critical consequences of materiality and immateriality on what is owned; and they examine the social relations of property. By approaching ownership as social communication and negotiation, the text points to a more dynamic and processual understanding of property, ownership and appropriation.

**Digital Objects, Digital Subjects** David Chandler,Christian Fuchs,2019-01-29 This volume explores activism, research and critique in the age of digital subjects and objects and Big Data capitalism after a digital turn said to

have radically transformed our political futures. Optimists assert that the 'digital' promises: new forms of community and ways of knowing and sensing, innovation, participatory culture, networked activism, and distributed democracy. Pessimists argue that digital technologies have extended domination via new forms of control, networked authoritarianism and exploitation, dehumanization and the surveillance society. Leading international scholars present varied interdisciplinary assessments of such claims – in theory and via dialogue – and of the digital's impact on society and the potentials, pitfalls, limits and ideologies, of digital activism. They reflect on whether computational social science, digital humanities and ubiquitous datafication lead to digital positivism that threatens critical research or lead to new horizons in theory and society.
