Multilingual La La Land Claire Hitchins Chik, 2021-09-30 Home to immigrants from more than 140 countries speaking over 180 languages, Los Angeles is a microcosm of the world. While Los Angeles' ethnic enclaves have been the subject of study by researchers from a wide range of fields, these enclaves remain under-researched from a linguistic standpoint. *Multilingual La La Land* addresses the sociolinguistic landscape of the Greater Los Angeles (GLA) area, providing in-depth accounts of the sixteen most spoken languages other than English in the region. Each chapter introduces the history of the language in the L.A. region, uses census figures and residential densities to examine location-based and network-based speech communities, and discusses the patterns of usage that characterize the language, including motivations to maintain the language. How these patterns and trends bear on the vitality of each language is a central consideration of this book.

Lehne's Pharmacotherapeutics for Advanced Practice Providers - E-Book Laura D. Rosenthal,Jacqueline Burchum,2017-02-17 Awarded second place in the 2017 AJN Book of the Year Awards in the Adult Primary Care Category and a 2019 PROSE Award finalist. Get all of the pharmacotherapeutics principles and content you need to become a safe and effective prescriber with Lehne's Pharmacotherapeutics for Advanced Practice Providers. This new text is built on the same solid foundation of clearly explained, up-to-date, and clinically current content as the undergraduate-level Lehne's Pharmacology for Nursing Care, yet carefully focuses on the specific principles and drug content needed by primary and acute care nurse practitioners, physician assistants, and clinical nurse specialists. Three introductory chapters provide foundational content in the areas of prescriptive authority, rational drug selection, prescription writing, and promoting positive outcomes of drug therapy. Core chapter content centers on the drugs that advanced practitioner prescribers will see most commonly in clinical practice. You'll also notice a sharp focus on pharmacotherapeutic decision-making along with a number of prescriber-focused pedagogical aids — including Black Box Warnings — to reinforce the most important information and help you make optimal pharmacotherapeutic decisions. Introductory chapters tailored to the specific needs of advanced practice prescribers cover topics such as prescriptive authority, rational drug selection and prescription writing, and promoting positive outcomes of drug therapy. Carefully focused pharmacotherapeutic content reflects the drugs most commonly seen and used by advanced practice

prescribers, with emphasis not on the first drug discovered or developed in each class but on the agents most often used today. Primary care drugs are addressed first in each chapter as appropriate, followed by and acute care drugs. UNIQUE! Prescriber-focused pedagogical aids further reinforce the most important information for advanced practice prescribers. Black Box Warnings alert you to special warnings and precautions related to particular drugs. Integrated coverage of Canadian trade names appears throughout the text and is highlighted with a familiar maple-leaf icon. Integrated coverage of interprofessional collaboration addresses the growing global interest in interprofessional collaboration and incorporates opportunities for interprofessional collaborative practice throughout.
