Environmentalism and Economic Justice Laura Pulido,1996-02 Ecological causes are championed not only by lobbyists or hikers. While mainstream environmentalism is usually characterized by well-financed, highly structured organizations operating on a national scale, campaigns for environmental justice are often fought by poor or minority communities. Environmentalism and Economic Justice is one of the first books devoted to Chicano environmental issues and is a study of U.S. environmentalism in transition as seen through the contributions of people of color. It elucidates the various forces driving and shaping two important examples of environmental organizing: the 1965-71 pesticide campaign of the United Farm Workers and a grazing conflict between a Hispano cooperative and mainstream environmentalists in northern New Mexico. The UFW example is one of workers highly marginalized by racism, whose struggle--as much for identity as for a union contract--resulted in boycotts of produce at the national level. The case of the grazing cooperative Ganados del Valle, which sought access to land set aside for elk hunting, represents a subaltern group fighting the elitism of natural resource policy in an effort to pursue a pastoral lifestyle. In both instances Pulido details the ways in which racism and economic subordination create subaltern communities, and shows how these groups use available resources to mobilize and improve their social, economic, and environmental conditions. Environmentalism and Economic Justice reveals that the environmental struggles of Chicano communities do not fit the mold of mainstream environmentalism, as they combine economic, identity, and quality-of-life issues. Examination of the forces that create and shape these grassroots movements clearly demonstrates that environmentalism needs to be sensitive to local issues, economically empowering, and respectful of ethnic and cultural diversity.

*Suspicion* Laura Grimaldi,2003-09-11 In the shadow of the Monster of Florence, a serial murderer who has terrorized Italy for seventeen years, Laura Grimaldi sets her tense psychological thriller Suspicion—a noir mystery of a city transformed by fear, and of friendships and family ties twisted by uncertainty and dark speculation. Grimaldi, whose hardboiled mysteries of the 1950s earned her the title Italy's queen of crime, turns here to the deeper, more elusive and disturbing questions that haunt human affairs. For years Matilde, the widow of a prominent Florentine doctor, has lived alone with her eccentric middle-aged son, Enea. When the police pay a call, the balance between mother and son is shifted just subtly enough to make Matilde prey to suspicions and doubts that grow ever more corrosive, ever harder to conceal and more dangerous to reveal. In the literary tradition of such mystery writers as Patricia Highsmith and Ruth Rendell, Grimaldi creates an atmosphere charged with suspense as the daily lives and routines of her characters, infected with suspicion, begin to rearrange themselves around a few frightening facts and infinite monstrous possibilities. Matilde's efforts to decipher Enea's secretive movements and occupations appear perfectly sensible and defensible through Grimaldi's deft shifts between mother and son—and another, chillingly detached perspective on the gruesome murders. Grimaldi's readers will find themselves as subject to misinterpretation and doubt, to sympathies and suspicions as her Florentine characters, and spellbound until the book's final page.

Care Work and Care Jobs for the Future of Decent Work Laura Addati,International Labour Office,2018 The report analyses the ways in which unpaid care work is recognised and organised, the extent and quality of care jobs and their impact on the well-being of individuals and society. A key focus of this report is the persistent gender inequalities in households and the labour market, which are inextricably linked with care work. These gender inequalities must be overcome to make care work decent and to ensure a future of decent work for both women and men. The report contains a wealth of original data drawn from over 90 countries and details transformative policy measures in five main areas: care, macroeconomics, labour, social protection and migration. It also presents projections on the potential for decent care job creation offered by remedying current care work deficits and meeting the related targets of the Sustainable Development Goals.

**The Education of Little Tree** Forrest Carter,2001-08-31 The Education of Little Tree tells of a boy orphaned very young, who is adopted by his Cherokee grandmother and half-Cherokee grandfather in the Appalachian mountains of Tennessee during the Great Depression. Little Tree as his grandparents call him is shown how to hunt and survive in the mountains, to respect nature in the Cherokee Way, taking only what is needed, leaving the rest for nature to run its course. Little Tree also learns the often callous ways of white businessmen and tax collectors, and how Granpa, in hilarious vignettes, scares them away from his illegal attempts to enter the cash economy. Granma teaches Little Tree the joys of reading and education. But when Little Tree is taken away by whites for schooling, we learn of the cruelty meted out to Indian children in an attempt to assimilate them and of Little Tree's perception of the Anglo world and how it differs from the Cherokee Way. A classic of its era, and an enduring book for all ages, The Education of Little Tree has now been redesigned for this twenty-fifth anniversary edition.

*Laura Secord* Peggy Dymond Leavey,2012-05-12 2013 Speaker's Book Award — Shortlisted Laura Secord is now famous for her singular feat of bravery during the War of 1812, but did she warn the British and help defeat the American invaders as her legend says? After dragging her injured husband off the battlefield during the War of 1812, Laura Secord (1775-1868) was forced to house American soldiers for financial support while she nursed him back to health. It was during this time that she overheard the American plan to ambush British troops at Beaver Dams. Through an outstanding act of perseverance and courage in 1813, Laura walked an astonishing 30 kilometers from her home to a British outpost to warn Lieutenant James FitzGibbon. Despite facing rough terrain, the ever-present danger of being caught by American troops, and rather delicate encounters with Native forces, Laura reached FitzGibbon just in time for the British to prepare and execute an ambush on American military nearby, forcing the U.S. general to surrender. Laura lived a very long time, dying at the age of 93. In her lifetime the government never formally recognized her singular feat of bravery, and much controversy still envelopes her legacy.
