**New Deal Art in Alabama** Anita Price Davis, Jimmy S. Emerson, 2015-08-01 As the United States struggled to recover from the Great Depression, 24 towns in Alabama would directly benefit from some of the \$83 million allocated by the Federal Government for public art works under the New Deal. In the words of Harold Lloyd Hopkins, administrator of the Federal Emergency Relief Act, “artists had to eat, too,” and these funds aided people who needed employment during this difficult period in American history. This book examines some of the New Deal art—murals, reliefs, sculptures, frescoes and paintings—of Alabama and offers biographical sketches of the artists who created them. An appendix describes federal art programs and projects of the period (1933–1943).

Absolute Power: Unlock Potential. Fulfill Your Destiny. John Hagee, 2021-06-01 ABSOLUTE POWER can transform every one of your problems into an opportunity for success. ABSOLUTE POWER will birth a new dawn of hope to help you realize your goals and dreams with confidence, personal potential, wealth, and communication. ABSOLUTE POWER will make the impossible

possible: sorrow becomes joy, defeat becomes victory, stress becomes peace, and doubt becomes faith in God.

**Teaching to Change the World** Jeannie Oakes, Martin Lipton, Lauren Anderson, Jamy Stillman, 2018-01-29 *Teaching to Change the World* is an up-to-the-moment, engaging, social justice-oriented introduction to education and teaching, and the challenges and opportunities they present. Both foundational and practical, the chapters are organized around conventional topics but in a way that consistently integrates a coherent story that explains why schools are as they are. Taking the position that a hopeful, democratic future depends on ensuring that all students learn, the text pays particular attention to inequalities associated with race, social class, language, gender, and other social categories and explores teachers' role in addressing them. This thoroughly revised fifth edition remains a vital introduction to the profession for a new generation of teachers who seek to become purposeful, knowledgeable practitioners in our ever-changing educational landscape—for those teachers who see the potential for education to change the world. Features and Updates of the New Edition: • Fully

updated Chapter 1, The U.S. Schooling Dilemma, reflects our current state of education after the 2016 U.S. presidential election. • First-person observations from teachers, including first-year teachers, continue to offer vivid, authentic pictures of what teaching to change the world means and involves. • Additional coverage of the ongoing effects of Common Core highlights the heated public discourse around teaching and teachers, and charter schools. • Attention to diversity and inclusion is treated as integral to all chapters, woven throughout rather than tacked on as separate units. • Digging Deeper resources on the new companion website include concrete resources that current and future teachers can use in their classrooms. • Tools for Critique provides instructors and students questions, prompts, and activities aimed at encouraging classroom discussion and particularly engaging those students least familiar with the central tenets of social justice education.

*Global Crime and Justice* David A. Jenks, John Randolph Fuller, 2016-12-08 *Global Crime and Justice* offers a truly transnational examination of both deviance and social controls around the world. Unlike comparative textbooks detailing the criminal justice systems of a few select nations, or

cataloging types of international crimes that span multiple legal jurisdictions, Global Crime and Justice provides a critical and integrated investigation into the nature of crime and how different societies react to it. The book first details various types of international crime, including genocide, war crimes, international drug and weapons smuggling, terrorism, slavery, and human trafficking. The second half covers international law, international crime control, the use of martial law, and the challenges of balancing public order with human and civil rights. Global Crime and Justice is suitable for use in criminology and criminal justice departments, as well as in political science, international relations, and global studies programs. It will appeal to all who seek an academically rigorous and comprehensive treatment of the international and transnational issues of crime and social order.

Insignificant Events in the Life of a Cactus Dusti Bowling, 2017-09-05 “Aven is a perky, hilarious, and inspiring protagonist whose attitude and humor will linger even after the last page has turned.”  
—School Library Journal (Starred review) Aven Green loves to tell people that she lost her arms in an alligator wrestling match, or a wildfire in Tanzania, but the truth is she was born without them. And

when her parents take a job running Stagecoach Pass, a rundown western theme park in Arizona, Aven moves with them across the country knowing that she'll have to answer the question over and over again. Her new life takes an unexpected turn when she bonds with Connor, a classmate who also feels isolated because of his own disability, and they discover a room at Stagecoach Pass that holds bigger secrets than Aven ever could have imagined. It's hard to solve a mystery, help a friend, and face your worst fears. But Aven's about to discover she can do it all . . . even without arms. Secret Phoenix: A Guide to the Weird, Wonderful, and Obscure Christine K. Bailey, 2017-08-15

Whether you are exploring the rabbit warren of rooms that comprise Mystery Castle, hiking the steep, jagged face of Piestewa Peak named after the country's first female Native American killed in combat, or standing among the towering saguaro cacti found only in the Sonoran Desert, it is hard to avoid adventure with a copy of Secret Phoenix: A Guide to the Weird, Wonderful, and Obscure in your

backpack. This book traverses the historical, geographical and cultural landscape of an unlikely city that has risen from the dust of an ancient civilization to be the sixth largest city in the U.S. From the native peoples who first established the vital canals of yore to the lungers plagued with tuberculosis who flocked to the dry, dry desert to find some relief to the builders, engineers and architects who created the highways and skyline you see today, the city's story is one of survival, innovation and rugged determination. A new and eager city bent on growth, Phoenix has often eschewed history for the sake of progress and over time has lost too much of its heritage; however, for those who look closely, ask the probing questions and choose to explore, there is a history (and a future) to be found. From Glendale to Tempe, Scottsdale to Goodyear, Chandler to Carefree, this book is an examination of metropolitan Phoenix through the bits and pieces left behind and the new spaces and places just beginning to take shape.

The National Historic Preservation Act Kimball M. Banks,Ann M. Scott,2016-04-20 Assessing fifty years of the National Historic Preservation Act (NHPA), passed in 1966, this volume examines the impact of this key piece of legislation on heritage practices in the United States. The editors and contributing authors summarize how we approached compliance in the past, how we approach it now, and how we may approach it in the future. This volume presents how federal, state, tribal entities, and

contractors in different regions address compliance issues; examines half a century of changes in the level of inventory, evaluation and mitigation practices, and determinations of eligibility; describes how the federal and state agencies have changed their approach over half a century; the Act is examined from the Federal, SHPO, THPO, Advisory Council, and regional perspectives. Using case studies authored by well-known heritage professionals based in universities, private practice, tribes, and government, this volume provides a critical and constructive examination of the NHPA and its future prospects. Archaeology students and scholars, as well heritage professionals, should find this book of interest.

*It's Hard to Be Five* Jamie Lee Curtis, 2004-09-07 It's hard to be five. Just yelled at my brother. My mind says do one thing. My mouth says another. It's fun to be five! Big changes are here! My body's my car, and I'm licensed to steer. Learning not to hit? Having to wait your turn? Sitting still? It's definitely hard to be five. But Jamie Lee Curtis's encouraging text and Laura Cornell's playful illustrations make the struggles of self-control a little bit easier and a lot more fun! This is the sixth

inspired book from the #1 New York Times best-selling team of Today I Feel Silly: & Other Moods That Make My Day and I'm Gonna Like Me: Letting Off a Little Self Esteem.

**The Entrepreneurship Movement and the University** C. Sá,A. Kretz,2015-03-20 Entrepreneurship is widely embraced today in political discourse, popular culture, and economic policy prescriptions. Several groups actively promote entrepreneurial thinking and practices in higher education. This book examines how this 'Entrepreneurship Movement' impacts higher education in Canada and the United States.

**Beyond the Fields** Randy Shaw,2008 Describes the social changes Cesar Chavez and the United Farm Workers of America helped accomplish that have endured in the twenty-first century, including the building of Latino political power and the fight for environmental justice.

After America Mark Steyn,2012-09-18 Argues that President Barack Obama is a dangerous radical who wants not only big government, but the Europeanization of the United States, and explains how citizens can roll back the liberal establishment and return to fundamental American values.

**Peoples of a Sonoran Desert Oasis** Jared Orsi, 2023-10-17 In the southwestern corner of Organ Pipe Cactus National Monument, on the border between Arizona and Mexico, one finds Quitobaquito, the second-largest oasis in the Sonoran Desert. There, with some effort, one might also find remnants of once-thriving O'odham communities and their predecessors with roots reaching back at least 12,000 years—along with evidence of their expulsion, the erasure of their past, attempts to recover that history, and the role of the National Park Service (NPS) at every layer. The outlines of the lost landscapes of Quitobaquito—now further threatened by the looming border wall—reemerge in *Peoples of a Sonoran Desert Oasis* as Jared Orsi tells the story of the land, its inhabitants ancient and recent, and the efforts

of the NPS to “reclaim” Quitobaquito’s pristine natural form and to reverse the damage done to the O’odham community and culture, first by colonial incursions and then by proponents of “preservation.” Quitobaquito is ecologically and culturally rich, and this book summons both the natural and human history of this unique place to describe how people have made use of the land for some five hundred generations, subject to the shifting forces of subsistence and commerce, tradition and progress, cultural and biological preservation. Throughout, Orsi details the processes by which the NPS obliterated those cultural landscapes and then subsequently, as America began to reckon with its colonial legacy, worked with O’odham peoples to restore their rightful heritage. Tracing the building and erasing of past landscapes to make some of them more visible in the present, *Peoples of a Sonoran Desert Oasis* reveals how colonial legacies became embedded in national parks—and points to the possibility that such legacies might be undone and those lost landscapes remade.

**Emma-Jean Lazarus Fell Out of a Tree** Lauren Tarshis, 2008-05-15 A heartwarming story from the author of the *I SURVIVED* series. Emma-Jean Lazarus is the smartest and strangest girl at William

Gladstone Middle School. Her classmates don't understand her, but that's okay because Emma-Jean doesn't quite get them either. But one afternoon, all that changes when she sees Colleen Pomerantz crying in the girl's room. It is through Colleen that Emma-Jean gets a glimpse into what it is really like to be a seventh grader. And what she finds will send her tumbling out of a tree and questioning why she ever got involved in the first place.
