Legacy of Grace Brenda Jean Hubbard, 2021-01-20 *Legacy of Grace, Musings on the Life and Times of Wheeling Gaunt*, by Brenda Jean Hubbard chronicles the true life and times of a formerly enslaved Black man named Wheeling Gaunt who purchased his own freedom and through hard work, diligence and disciplined real estate investment slowly built his fortune. Moving with his wife Amanda to the Village of Yellow Springs, Ohio in 1864, Mr. Gaunt became an important village leader and philanthropist as he continued his real estate investments. Upon his death in 1894 he gifted both family and community with impressive and substantial gifts including a sizable bequest to Wilberforce University. He is perhaps most famous for his creation of The Poor Widows Fund gifting flour and sugar to older women in the village each Christmas, a tradition the village still observes. The land that he gave to the village is known today as Gaunt Park and houses Gaunt Park Pool and adjacent sports fields. Through an exploration of the times in which he lived, Mr. Gaunt's remarkable story of achievement is investigated. Author Brenda Jean Hubbard was born and raised in Yellow Springs where her family lived for over 50 years. She is donating all money raised in the sale of this book to The Yellow Springs 365 Project, a vital non-profit organization committed to racial justice and education. Hubbard says, "Growing up in Yellow Springs was a true blessing. I was privileged to experience the unique joys and many benefits of knowing diverse, amazing, accomplished and distinguished people from many walks of life. This gifted me with a lifelong passion to celebrate diversity and a heart for social justice. Writing this book is my small attempt to honor the impressive people, history and accomplishments of the Black community while also conveying important and timely history."

Identity Technologies Anna Poletti, Julie Rak, 2014-01-31 *Identity Technologies* is a substantial contribution to the fields of autobiography studies, digital studies, and new media studies, exploring the many new modes of self-expression and self-fashioning that have arisen in conjunction with Web 2.0, social networking, and the increasing saturation of wireless communication devices in everyday life. This volume explores the various ways that individuals construct their identities on the Internet and offers historical perspectives on ways that technologies intersect with identity creation. Bringing together scholarship about the construction of the self by new and established authors from the fields of digital media and auto/biography studies, *Identity Technologies* presents new case studies and fresh theoretical questions emphasizing the methodological challenges inherent in scholarly attempts to account for and analyze the rise of identity technologies. The collection also includes an interview with Lauren Berlant on her use of blogs as research and writing tools.

Ohio under COVID Katherine Sorrels, Lora Arduser, Danielle Bessett, Vanessa Carbonell, Michelle McGowan, Edward Wallace, 2023-04-05 In early March of 2020, Americans watched with uncertain terror as the novel coronavirus pandemic unfolded. One week later, Ohio announced its first confirmed cases. Just one year later, the state had over a million cases and 18,000 Ohioans had died. What happened in that first pandemic year is not only a story of a public health disaster, but also a story of social disparities and moral dilemmas, of lives and livelihoods turned upside down, and of institutions and safety nets stretched to their limits. *Ohio under COVID* tells the human story of COVID in Ohio, America's bellwether state. Scholars and practitioners examine the pandemic response from multiple angles, and contributors from numerous walks of life offer moving first-person reflections. Two themes emerge again and again: how the pandemic revealed a deep tension between individual autonomy and the collective good, and how it exacerbated social inequalities in a state divided along social, economic, and political lines. Chapters address topics such as mask mandates, ableism, prisons, food insecurity, access to reproductive health care, and the need for more Black doctors. The book concludes with an interview with Dr. Amy Acton, the state's top public health official at the time COVID hit Ohio. *Ohio under COVID* captures the devastating impact of the pandemic, both in the public discord it has unearthed and in the unfair burdens it has placed on the groups least equipped to bear them.

Cleveland and the Civil War W. Dennis Keating, 2022-02 Though removed from the frontlines, Cleveland played an active role in national events before, during, and after the Civil War. President Lincoln visited this abolitionist hotbed after his 1860 election. Following his assassination five years later, his funeral train made a stop there. Cleveland and Cuyahoga County sent over 9,000 troops to war. More than 1,700 never returned. Born just outside Cleveland, James Garfield emerged from the war to become President of the United States. Most vitally, the economic prosperity of the war years began the transformation of this small but thriving village into a future manufacturing powerhouse. Author W. Dennis Keating, member and past president of the Cleveland Civil War Roundtable, creates a panoramic view of the city through one of the nation's most troubled times.

The Hospital Brian Alexander, 2021-03-09 USA Today's 5 BOOKS NOT TO MISS Alexander nimbly and grippingly translates the byzantine world of American health care into a real-life narrative with people you come to care about. —New York Times Takes readers into the world of the American medical industry in a way no book has done before. —Fortune With his signature gut-punching prose, Alexander breaks our hearts as he opens our eyes to America's deep-rooted sickness and despair by immersing us in the lives of a small town hospital and the people it serves. —Beth Macy, bestselling author of *Dopesick* By following the struggle for survival of one small-town hospital, and the patients who walk, or are carried, through its doors, *The Hospital* takes readers into the world of the American medical industry in a way no book has done before. Americans are dying sooner, and living in poorer health. Alexander argues that no plan will solve America's health crisis until the deeper causes of that crisis are addressed. Bryan, Ohio's hospital, is losing money, making it vulnerable to big health systems seeking domination and Phil Ennen, CEO, has been fighting to preserve its independence. Meanwhile, Bryan, a town of 8,500 people in Ohio's northwest corner, is still trying to recover from the Great Recession. As local leaders struggle to address the town's problems, and the hospital fights for its life amid a rapidly consolidating medical and hospital industry, a 39-year-old diabetic literally fights for his limbs, and a 55-year-old contractor lies dying in the emergency room. With these and other stories, Alexander strips away the wonkiness of policy to reveal Americans' struggle for health against a powerful system that's stacked against them, but yet so fragile it blows apart when the pandemic hits. Culminating with COVID-19, this book offers a blueprint for how we created the crisis we're in.

Unexpected Bravery A. J. Schenkman, 2021-11-01 The American Civil War divided the United States from 1861-1865. During those years, over two million soldiers served in both the Union and Confederate Armies. What is little known is that not only the numerous children, some as young 12, enlisted on both sides, but also women who disguised themselves as men in an attempt to make a difference in the epic struggle to determine the future of the United States of America.

Unbroken (Movie Tie-in Edition) Laura Hillenbrand, 2018-08-21 #1 NEW YORK TIMES BESTSELLER • The incredible true story of survival and salvation that is the basis for two major motion pictures: 2014's *Unbroken* and the upcoming *Unbroken: Path to Redemption*. On a May afternoon in 1943, an Army Air Forces bomber crashed into the Pacific Ocean and disappeared, leaving only a spray of debris and a slick of oil, gasoline, and blood. Then, on the ocean surface, a face appeared. It was that of a young lieutenant, the plane's bombardier, who was struggling to a life raft and pulling

himself aboard. So began one of the most extraordinary odysseys of the Second World War. The lieutenant's name was Louis Zamperini. In boyhood, he'd been a cunning and incorrigible delinquent, breaking into houses, brawling, and fleeing his home to ride the rails. As a teenager, he had channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics and within sight of the four-minute mile. But when war had come, the athlete had become an airman, embarking on a journey that led to his doomed flight, a tiny raft, and a drift into the unknown. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, a foundering raft, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. In her long-awaited new book, Laura Hillenbrand writes with the same rich and vivid narrative voice she displayed in *Seabiscuit*. Telling an unforgettable story of a man's journey into extremity, *Unbroken* is a testament to the resilience of the human mind, body, and spirit. Praise for *Unbroken* "Extraordinarily moving . . . a powerfully drawn survival epic."—The Wall Street Journal "[A] one-in-a-billion story . . . designed to wrench from self-respecting critics all the blurby adjectives we normally try to avoid: It is amazing, unforgettable, gripping, harrowing, chilling, and inspiring."—New York "Staggering . . . mesmerizing . . . Hillenbrand's writing is so ferociously cinematic, the events she describes so incredible, you don't dare take your eyes off the page."—People "A meticulous, soaring and beautifully written account of an extraordinary life."—The Washington Post "Ambitious and powerful . . . a startling narrative and an inspirational book."—The New York Times Book Review "Marvelous . . . *Unbroken* is wonderful twice over, for the tale it tells and for the way it's told. . . . It manages maximum velocity with no loss of subtlety."—Newsweek "Moving and, yes, inspirational . . . [Laura] Hillenbrand's unforgettable book . . . deserve[s] pride of place alongside the best works of literature that chart the complications and the hard-won triumphs of so-called ordinary Americans and their extraordinary time."—Maureen Corrigan, *Fresh Air* "Hillenbrand . . . tells [this] story with cool elegance but at a thrilling sprinter's pace."—Time "*Unbroken* is too much book to hope for: a hellride of a story in the grip of the one writer who can handle it."—Christopher McDougall, author of *Born to Run*

American Philanthropic Foundations David C. Hammack, Steven Rathgeb Smith, 2018-04-16 Once largely confined to the biggest cities in the mid-Atlantic and Great Lakes states, philanthropic foundations now play a significant role in nearly every state. Wide-ranging and incisive, the essays in *American Philanthropic Foundations: Regional Difference and Change* examine the origins, development, and accomplishments of philanthropic foundations in key cities and regions of the United States. Each contributor assesses foundation efforts to address social and economic inequalities, and to encourage cultural and creative life in their home regions and elsewhere. This fascinating and timely study of contemporary America's philanthropic foundations vividly illustrates foundations' commonalities and differences as they strive to address pressing public problems.

School Choice Policies and Outcomes Walter Feinberg, Christopher Lubienski, 2008-10-16 Perhaps no school reform has generated as much interest and controversy in recent years as the proposal to have parents select their children's schools. Opponents of school choice fear that rolling back the government's role will lead to profit-driven financial scandals, sectarianism, and increased class and racial isolation. School choice advocates believe that state provision, oversight, and regulation stifle entrepreneurial creativity. The contributors to this volume not only provide a clear assessment of the logic and evidence supporting the different sides of the debate but also unmask the assumptions about the relationship between markets, government, and educational achievement. Their message is that neither markets nor government alone will guarantee freedom, equality, achievement, or community. If choice is to improve education and advance equality, then educational policy cannot be placed on automatic and left to the free market. Rather, choice policy must be deliberately directed toward meeting these goals, and this book shows how that could be accomplished.
