The Changing Face of Portrait Photography, 2011-10-18 A richly illustrated volume examines the portrait work of Dorothea Lange, Richard Avedon, Robert Weingarten, George K. Warren, Julia Margaret Cameron, the Barr & Wright Studio, Gertrude Käsebier, Nicholas Muray, Henry Horenstein, and Lauren Greenfield. The Changing Face of Portrait Photography explores the power of the portrait and the role it plays in our personal and national identities. The Changing Face of Portrait Photography explores ten groups of portraits selected from within the Smithsonian National Museum of American History's Photographic History Collection. The selections represent work by specific photographers with diverse relationships to portraiture, and through their sampling take a focused look at changing convention, theory, and technologies.

Virginia Politics & Government in a New Century Jeff Thomas, 2016-10-24 The modern political landscape of Virginia bears little resemblance to the past. The commonwealth is a nationally influential swing state alongside stalwarts like Florida or Ohio. But with increased power comes greater scrutiny--and corruption. Governor Bob McDonnell received a jail sentence on federal corruption charges, later vacated by the U.S. Supreme Court. Corporate influence on the state legislature and other leaders resulted in numerous ethics violations. Scandal erupted at the prestigious University of Virginia when the school ousted its president amid political drama and intrigue. Author Jeff Thomas reveals the intersection of money, power and politics and the corrosive effect on government in a new era.

Will & Whit Laura Lee Gulledge, 2013-05-07 Will, a creative soul struggling to come to terms with a family tragedy, crafts whimsical lamps, in part to deal with her fear of the dark, which she is forced to confront when a hurricane blows through her town at the end of a summer.

Do Babies Matter? Mary Ann Mason, Nicholas H. Wolfinger, Marc Goulden, 2013-06-13 The new generation of scholars differs in many ways from its predecessor of just a few decades ago. Academia once consisted largely of men in traditional single-earner families. Today, men and women fill the doctoral student ranks in nearly equal numbers and most will experience both the benefits and challenges of living in dual-income households. This generation also has new expectations and values, notably the desire for flexibility and balance between careers and other life goals. However, changes to the structure and culture of academia have not kept pace with young scholars' desires for work-family balance. *Do Babies Matter?* is the first comprehensive examination of the relationship between family formation and the academic careers of men and women. The book begins with graduate students and postdoctoral fellows, moves on to early and mid-career years, and ends with retirement. Individual chapters examine graduate school, how recent PhD recipients get into the academic game, the tenure process, and life after tenure. The authors explore the family sacrifices women often have to make to get ahead in academia and consider how gender and family interact to affect promotion to full professor, salaries, and retirement. Concrete strategies are suggested for transforming the university into a family-friendly environment at every career stage. The book draws on over a decade of research using unprecedented data resources, including the Survey of Doctorate Recipients, a nationally representative panel survey of PhDs in America, and multiple surveys of faculty and graduate students at the ten-campus University of California system..

Tech to Table Richard Munson, 2021-09-23 Imagine eating a burger grown in a laboratory, a strawberry picked by a robot, or a pastry created with a 3-D printer. You would never taste the difference, but these inventions might just save your health and the planet's. Today, landmark technological advances are driving solutions to the biggest problems created by industrialized food. Tech to Table introduces readers to twenty-five of the most creative entrepreneurs innovating these solutions. They come from various places and professions, identities and backgrounds. But they share an outsider's perspective and an idealistic, often disruptive, ambition to reinvent the food system. The pace and breadth of change is astonishing, as investors pump billions of dollars into ag-tech. Not every innovator will prosper long-term, but each marks a fundamental change in our approach to feeding a growing population--sustainably.

The Business of Higher Education [3 volumes] John C. Knapp Ph.D., David J. Siegel, 2009-10-22 At a time of great economic uncertainty, The Business of Higher Education looks at the pros and cons of colleges and universities taking a more business-like approach to fulfilling their missions. How can colleges and universities navigate their way between shrinking commitments and the increasing expectations of their students? Does the answer lie in taking a more business-like approach? This extraordinary resource considers the costs and benefits to both public and private institutions and to society when academe embraces business models for improving cost-efficiency, marketing, hiring practices, and customer service. Bringing together a diverse team of contributors from the academic and business worlds, The Business of Higher Education offers 35 essays in three volumes. The first volume explores issues of leadership and culture, the second focuses on management and fiscal strategies, and the third volume takes up issues of marketing and consumer interests. Throughout, the work balances the contrasting perspectives of those within the academy and those outside of it, as it considers whether higher education and the public interest are ultimately helped or harmed by the application of business methods to essential academic functions.

Charles Wright in Conversation Robert D. Denham, 2014-11-21 Because Charles Wright occupies a large space in contemporary American poetry, it is only natural that his readers over the years have wanted to engage him in conversation and discover more about his career and inspirations. In this collection of richly detailed interviews conducted between 1979 and 2006, Wright eloquently discusses a range of topics, including the beginning of his poetic career in Italy, his experiences at the University of Iowa, the American and European influences on his work, contemporary poets he admires, his place in Southern literature, the art of translating poetry, and such formal matters as his lineation and rhythmic phrasing, his use of syllabics, and the development of his characteristic style. An extensive bibliography of writings by and about Wright supplements the interviews.

COVID-19 and Childhood Inequality Nazneen Khan, 2022-03-10 The COVID-19 pandemic and the global response to it have disrupted the daily lives of children in innumerable ways. These impacts have unfolded unevenly, as nation, race, class, sexuality, citizenship status, disability, housing stability, and other dimensions of power have shaped the ways in which children and youth have experienced the pandemic. COVID-19 and Childhood Inequality brings together a multidisciplinary group of child and youth scholars and practitioners who highlight the mechanisms and practices through which the COVID-19 pandemic has both further marginalized children and exacerbated childhood disparities. Featuring an introduction and ten chapters, the volume unmasks childhood inequalities through innovative, real-time research on children's pandemic lives and experiences, situating that research within established child and youth literatures. Using multiple methods and theoretical perspectives, the work provides a robust, multidisciplinary, and holistic

approach to understanding childhood inequality as it intersects with the COVID-19 pandemic, particularly in the USA. The chapters also ask us to consider pathways toward resilience, offering recommendations and practices for challenging the inequities that have deepened since the entrée of SARS-CoV-2 onto the global stage. Ultimately, the work provides a timely and vital resource for childhood and youth educators, practitioners, organizers, policymakers, and researchers. An illuminating volume, each chapter brings a much-needed focus on the varied and exponential impacts of COVID-19 on the lives of children and youth.

The Lacuna Barbara Kingsolver, 2009-11-05 **NOW INCLUDING THE FIRST CHAPTER OF DEMON COPPERHEAD** TWICE WINNER OF THE WOMEN'S PRIZE FOR FICTION FROM THE WINNER OF THE PULITZER PRIZE FOR FICTION THE MULTI-MILLION COPY BESTSELLING AUTHOR 'Lush.' Sunday Times 'Superb.' Daily Mail 'Elegantly written.' Sunday Telegraph From award-winning and internationally bestselling author of *Demon Copperhead* and *Flight Behaviour*, *The Lacuna* is the heartbreaking story of a man torn between the warm heart of Mexico and the cold embrace of 1950s America in the shadow of Senator McCarthy. Born in America and raised in Mexico, Harrison Shepherd is a liability to his social-climbing flapper mother, Salome. When he starts work in the household of Mexican artists Diego Rivera and Frida Kahlo - where the Bolshevik leader, Lev Trotsky, is also being harboured as a political exile - he inadvertently casts his lot with art, communism and revolution. A compulsive diarist, he records and relates his colourful experiences of life with Diego Rivera, Frida Kahlo and Trotsky in the midst of the Mexican revolution. A violent upheaval sends him back to America; but political winds continue to throw him between north and south, in a plot that turns many times on the unspeakable breach - the lacuna - between truth and public presumption.

Psychiatry Thomas Szasz, 2008-09-08 For more than half a century, Thomas Szasz has devoted much of his career to a radical critique of psychiatry. His latest work, *Psychiatry: The Science of Lies*, is a culmination of his life's work: to portray the integral role of deception in the history and practice of psychiatry. Szasz argues that the diagnosis and treatment of mental illness stands in the same relationship to the diagnosis and treatment of bodily illness that the forgery of a painting does to the original masterpiece. Art historians and the legal system seek to distinguish forgeries from originals. Those concerned with medicine, on the other hand—physicians, patients, politicians, health insurance providers, and legal professionals—take the opposite stance when faced with the challenge of distinguishing everyday problems in living from bodily diseases, systematically authenticating nondiseases as diseases. The boundary between disease and nondisease—genuine and imitation, truth and falsehood—thus becomes arbitrary and uncertain. There is neither glory nor profit in correctly demarcating what counts as medical illness and medical healing from what does not. Individuals and families wishing to protect themselves from medically and politically authenticated charlatanry are left to their own intellectual and moral resources to make critical decisions about human dilemmas miscategorized as “mental diseases” and about medicalized responses misidentified as “psychiatric treatments.” Delivering his sophisticated analysis in lucid prose and with a sharp wit, Szasz continues to engage and challenge readers of all backgrounds.

Liking Ike David Haven Blake, 2016-07-28 Liking Ike reveals the prominent role that celebrities and advertising agencies played in Dwight Eisenhower's presidency. Guided by Madison Avenue executives and television pioneers, Eisenhower cultivated famous supporters as a way of building the broad-based support that had eluded Republicans for twenty years. While we often think of John F. Kennedy and his Rat Pack entourage as the beginning of presidential glamour in the United States, celebrities from Ethel Merman and Irving Berlin to Jimmy Stewart and Helen Hayes regularly appeared in Eisenhower's campaigns. Ike's political career was so saturated with stardom that opponents from the right and left accused him of being a glamour candidate. Author David Haven Blake tells the story of how Madison Avenue executives strategically brought celebrities into the

political process. Based on original interviews and long neglected archival materials, *Liking Ike* explores the changing dynamics of celebrity politics as Americans adjusted to the television age. By the 1920s, entertainers were routinely drawing publicity to their favorite candidates, but with the rise of television and mass advertising, political advisers began to professionalize the way that celebrities brought attention to presidential campaigns. In meetings, memos, and television scripts, they charted a strategy for leavening political programming with celebrity interviews, musical performances, and elaborate television spectacles. Commentators worried about the seemingly superficial values that television had introduced to political campaigns, and writers, filmmakers, and fellow politicians criticized the influence of glamour and publicity. But despite these complaints, Eisenhower's legacy would live on in the subsequent careers of John F. Kennedy and Ronald Reagan—and, ultimately, provide a template for the presidential campaigns of Barack Obama, John McCain, Donald Trump, and Hillary Clinton.

Proofs from THE BOOK Martin Aigner, Günter M. Ziegler, 2013-06-29 According to the great mathematician Paul Erdős, God maintains perfect mathematical proofs in *The Book*. This book presents the authors' candidates for such perfect proofs, those which contain brilliant ideas, clever connections, and wonderful observations, bringing new insight and surprising perspectives to problems from number theory, geometry, analysis, combinatorics, and graph theory. As a result, this book will be fun reading for anyone with an interest in mathematics.

The Medieval World John M. Thompson, National Geographic Society (U.S.), 2009 This comprehensive historical atlas concentrates on the Mediterranean world but also shows what happened across the globe between A.D. 400 and 1500—from the fall of Rome to the age of discovery. Sumptuously illustrated, it features period works of art, fascinating maps, quotes from medieval figures, close-ups of intriguing artifacts, and rich landscape photographs. For every century, a signature city is spotlighted to represent that era's developments, and time lines connect the many dramatic events that took place in these dark and exciting times.

World War II and Upcountry South Carolina Courtney L. Tollison PhD, 2009-11-01 World War II changed America, and the history of Upcountry South Carolina during this era testifies to the war's deep impact. On the homefront, Upcountry residents grew victory gardens, supported recruits at local bases and soldiers abroad, and manufactured textile goods, including uniforms and parachutes, crucial for the war effort. As thousands of young men and women came into the Upcountry to train at Spartanburg's Camp Croft and Greenville's Army Air Base, thousands more were sent to Europe, the Pacific, and beyond. More than 166,000 South Carolinians fought for the United States, including 5 Congressional Medal of Honor winners. The resulting import and export of culture through the war and long after reflects the modernization and diversification that occurred across the South. Using words and images from the men and women who lived through it all, Furman University professor and Upcountry History Museum historian Courtney Tollison examines the ways that Upcountry South Carolina affected World War II and how the war affected the region.
