A Walk in the Woods Bill Bryson, 2012-05-15 God only knows what possessed Bill Bryson, a reluctant adventurer if ever there was one, to undertake a gruelling hike along the world's longest continuous footpath—The Appalachian Trail. The 2,000-plus-mile trail winds through 14 states, stretching along the east coast of the United States, from Georgia to Maine. It snakes through some of the wildest and most spectacular landscapes in North America, as well as through some of its most poverty-stricken and primitive backwoods areas. With his offbeat sensibility, his eye for the absurd, and his laugh-out-loud sense of humour, Bryson recounts his confrontations with nature at its most uncompromising over his five-month journey. An instant classic, riotously funny, *A Walk in the Woods* will add a whole new audience to the legions of Bill Bryson fans.

More Everyday Wisdom Karen Berger, 2002 Want to know why a forest smells different before it starts to rain? Or how long a pair of hiking boots should actually last? Find these answers and more in this pack-perfect book. *More Everyday Wisdom* provides brilliant improvisations for worst-case scenarios and advice to avoid the most common (and obscure) problems. These backcountry basics will help you plan your trips, become a better problem-solver, and learn to how to stay comfortable.

Planning Ideas That Matter Bishwapriya Sanyal, Lawrence J. Vale, Christina D. Rosan, 2012-07-13 Leading theorists and practitioners trace the evolution of key ideas in urban and regional planning over the last hundred years

Driven Wild Paul S. Sutter, 2009-11-23 In its infancy, the movement to protect wilderness areas in the United States was motivated less by perceived threats from industrial and agricultural activities than by concern over the impacts of automobile owners seeking recreational opportunities in wild areas. Countless commercial and government purveyors vigorously promoted the mystique of travel to breathtakingly scenic places, and roads and highways were built to facilitate such travel. By the early 1930s, New Deal public works programs brought these trends to a startling crescendo. The dilemma faced by stewards of the nation's public lands was how to protect the wild qualities of those places while accommodating, and often encouraging, automobile-based tourism. By 1935, the founders of the Wilderness Society had become convinced of the impossibility of doing both. In *Driven Wild*, Paul Sutter traces the intellectual and cultural roots of the modern wilderness movement from about 1910 through the 1930s, with tightly drawn portraits of four Wilderness Society founders--Aldo Leopold, Robert Sterling Yard, Benton MacKaye, and Bob Marshall. Each man brought a different background and perspective to the advocacy for wilderness preservation, yet each was spurred by a fear of what growing numbers of automobiles, aggressive road building, and the meteoric increase in Americans turning to nature for their leisure would do to the country's wild places. As Sutter discovered, the founders of the Wilderness Society were driven wild--pushed by a rapidly changing country to construct a new preservationist ideal. Sutter demonstrates that the birth of the movement to protect wilderness areas reflected a growing belief among an important group of conservationists that the modern forces of capitalism, industrialism, urbanism, and mass consumer culture were gradually eroding not just the ecology of North America, but crucial American values as well. For them, wilderness stood for something deeply sacred that was in danger of being lost, so that the movement to protect it was about saving not just wild nature, but ourselves as well.

Best Hikes with Dogs Georgia & South Carolina Steve Goodrich, Ashley Goodrich, 2007-03-05 [CLICK HERE](#) to download two free hikes from *Best Hikes with Dogs Georgia & South Carolina* * Guidebook to 54

dog-suitable hikes accessible from Atlanta, Charlotte/Rock Hill, Columbia/coastal Carolina, Greenville/Spartanburg, and south Georgia * A trail-finder chart helps you choose just the hike you're looking for * Trails rated 1 to 4 paws to indicate difficulty for both you and your dog * Tips on hiking with dogs, their special needs, and more One cold November night in the Blood Mountain Wilderness in north Georgia, Steve Goodrich and his wife, Ashley, had to wrap themselves around their yellow lab, Rebel, under one sleeping bag. It was the last time they would fail to anticipate their dog's special needs on the trail. Since then, Rebel and the Goodriches have hiked thousands of miles together in Georgia and South Carolina to select the best dog-friendly, dog-fun, and dog-safe trails in the region. Most hikes in Best Hikes with Dogs Georgia & South Carolina are on lightly traveled trails with few horses, bicycles, or motorized vehicles. Hikes avoid steep, rocky terrain and many offer lakes or streams as rewards. Potential dog hazards such as alligators or snakes are noted in the hike descriptions. Advice on hiking with dogs includes what to pack for your pooch -- the Ten Canine Essentials and a doggy first-aid kit. A Hike Summary chart in the front of the book indicates trail length, water features, loop hikes, whether best for fit dogs, and more.

Street Design Victor Dover, John Massengale, 2013-12-31 The best streets in the world's villages, towns, and cities—whether modest or grand—continually remind one that simplicity is part of the recipe for success in this art. The advice of Victor Dover and John Massengale, their historic examples and their own designs, reflect that simplicity. —From the Foreword by HRH The Prince of Wales “Street Design is a lucid, practical and altogether indispensable guide for envisioning and creating vibrant 21st century towns and cities. It should be required reading for every local political leader, planner, architect, real estate developer and engaged urban citizen in America. —Kurt Andersen, host of Studio360 and author of True Believers We are going to start walking around the places we live again, and as that occurs and becomes normal, we will rapidly redevelop a demand for higher quality in building at the human scale. —From the Afterword by James Howard Kunstler “Your charrette traveling library must include the important Street Design book by Victor Dover and John Massengale.” —Bill Lennertz, Executive Director, National Charrette Institute “What an amazing resource! For those who wish that my book, Walkable City, had pictures, this is the book for you. If either your work or your play includes the making of places, you will find Street Design to be an invaluable tool.” —Jeff Speck, AICP, CNU-A, LEED-AP, Hon. ASLA Written by two accomplished architects and urban designers, this user-friendly street design manual shows both how to design new streets and enhance existing ones. It offers step-by-step instruction and shares examples of excellent streets, examining the elements that make them successful as well as how they were redesigned and created. Topics also include strategies for shaping space in the public right-of-way through correct building height to street width ratios, terminated vistas, landscaping, and street geometry. This book is a valuable resource for urban designers, planners, architects, and engineers. With guest essays from: Kaid Benfield, David Brussat, Javier Cenicacelaya, Hank Dittmar, Andres Duany, Douglas Duany, Emily Glavey, Chip Kaufman, Ethan Kent, Marieanne Khoury-Vogt, Léon Krier, Gianni Longo, Thomas Low, Laura Lyon, Chuck Marohn, Paul Murrain, John Norquist, Stefanos Polyzoides, Gabriele Tagliaventi and Erik Vogt.

Green Infrastructure Mark A. Benedict, Edward T. McMahon, Mark A. The Conservation Fund, 2012-09-26 With illustrative and detailed examples drawn from throughout the country, Green Infrastructure advances smart land conservation: large scale thinking and integrated action to plan, protect and manage our natural and restored lands. From the individual parcel to the multi-state region, Green Infrastructure helps each of us look at the landscape in relation to the many uses it could serve, for nature

and people, and determine which use makes the most sense. In this wide-ranging primer, leading experts in the field provide a detailed how-to for planners, designers, landscape architects, and citizen activists

Managing Cover Crops Profitably (3rd Ed.) Andy Clark, 2008-07 Cover crops slow erosion, improve soil, smother weeds, enhance nutrient and moisture availability, help control many pests and bring a host of other benefits to your farm. At the same time, they can reduce costs, increase profits and even create new sources of income. You'll reap dividends on your cover crop investments for years, since their benefits accumulate over the long term. This book will help you find which ones are right for you. Captures farmer and other research results from the past ten years. The authors verified the info. from the 2nd ed., added new results and updated farmer profiles and research data, and added 2 chap. Includes maps and charts, detailed narratives about individual cover crop species, and chap. about aspects of cover cropping.

City on a Hill Alex Krieger, 2019 From the pilgrims to Las Vegas, hippie communes to the smart city, utopianism has shaped American landscapes. The Puritan small town was the New Jerusalem. Thomas Jefferson dreamed of rational farm grids. Reformers tackled slums through crusades of civic architecture. To understand American space, Alex Krieger looks to the drama of utopian ideals.

Super-Scenic Motorway Anne Mitchell Whisnant, 2006-10-02 The most visited site in the National Park system, the 469-mile Blue Ridge Parkway winds along the ridges of the Appalachian mountains in Virginia and North Carolina. According to most accounts, the Parkway was a New Deal Godsend for the needy, built without conflict or opposition by landscape architects and planners who traced their vision along a scenic, isolated southern landscape. The historical archives relating to this massive public project, however, tell a different and much more complicated story, which Anne Mitchell Whisnant relates in this revealing history of the beloved roadway.

Palisades Robert O. Binnewies, 2021-05-11 How the famous and not-so-famous like-minded citizens all gave their time, expertise, and money to build a park legacy of incomparable benefit The Palisades park and historic site system in New York and New Jersey is a significant anchor-point for the spread of national and state parks across the nation. The challenge to protect these treasures began with a brutal blast of dynamite in the late nineteenth century and continues to this day. Palisades: The People's Park presents the story of getting from zero protected acres to the rich tapestry that is today's Palisades park system, located in the nation's most densely populated metropolitan region. This is an account of huge determination, moments of crisis, caustic resistance to the very idea of conservation, glorious philanthropy, a steep learning curve, and responsibilities for guardianship passed with care from one generation to the next. Despite the involvement of men of great wealth and fame from its earliest beginnings, the Palisades Interstate Park Commission faced an early and ongoing struggle to arrange financial support from both the New York and New Jersey state governments for a park that would cross state lines. The conflicts between developers and conservationists, industrialists and wilderness enthusiasts, with their opposing views regarding the uses of natural resources required the commissioners of the PIPC to become skilled negotiators, assiduous fundraisers, and savvy participants in the political process. The efforts to create Palisades Interstate Park was prodigious, requiring more than 1,000 real estate transactions to establish Sterling Forest, to save Storm King Mountain, to preserve Lake Minnewaska, to protect Stony Point Battlefield and Washington's headquarters, to open Bear Mountain and Harriman state parks, and to add the other sixteen parks to the Palisades Interstate Park System. Beginning with the efforts of Elizabeth Vermilye of the New Jersey Federation of Women's Clubs, who enlisted President Theodore Roosevelt's support to stop the blasting and quarrying of Palisades rock, author Robert Binnewies traces the story of the

famous, including J. P. Morgan, the Rockefellers, and the Harrimans, as well as the not-so-famous men and women whose donations of time and money led to the preservation of New York and New Jersey's most scenic and historic lands. The park experiment, begun in 1900, still stands as a dynamic model among the nation's major environmental achievements.

Grandma Gatewood Hikes the Appalachian Trail Jennifer Thermes, 2018-05-08 Emma Gatewood's life was far from easy. In rural Ohio, she managed a household of 11 kids alongside a less-than-supportive husband. One day, at age 67, she decided to go for a nice long walk . . . and ended up completing the Appalachian Trail. With just the clothes on her back and a pair of thin canvas sneakers on her feet, Grandma Gatewood hiked up ridges and down ravines. She braved angry storms and witnessed breathtaking sunrises. When things got particularly tough, she relied on the kindness of strangers or sheer luck to get her through the night. When the newspapers got wind of her amazing adventure, the whole country cheered her on to the end of her trek, which came just a few months after she set out. A story of true grit and girl power at any age, Grandma Gatewood proves that no peak is insurmountable.

Critical Regionalism Douglas Reichert Powell, 2012-09-01 The idea of region in America has often served to isolate places from each other, observes Douglas Reichert Powell. Whether in the nostalgic celebration of folk cultures or the urbane distaste for hicks, certain regions of the country are identified as static, insular, and culturally disconnected from everywhere else. In *Critical Regionalism*, Reichert Powell explores this trend and offers alternatives to it. Reichert Powell proposes using more nuanced strategies that identify distinctive aspects of particular geographically marginal communities without turning them into peculiar hick towns. He enacts a new methodology of critical regionalism in order to link local concerns and debates to larger patterns of history, politics, and culture. To illustrate his method, in each chapter of the book Reichert Powell juxtaposes widely known texts from American literature and film with texts from and about his own Appalachian hometown of Johnson City, Tennessee. He carries the idea further in a call for a critical regionalist pedagogy that uses the classroom as a place for academic writers to build new connections with their surroundings, and to teach others to do so as well.

American Wilderness Michael Lewis, 2007-03-08 This collected volume of original essays proposes to address the state of scholarship on the political, cultural, and intellectual history of Americans responses to wilderness from first contact to the present. While not bringing a synthetic narrative to wilderness, the volume will gather competing interpretations of wilderness in historical context.

Conservation of Tropical Rainforests Brian Joseph McFarland, 2017-11-14 This book critically engages with how the conservation of tropical rainforests is financed. Beginning with the context of tropical deforestation, alongside an overview of tropical ecology, global environmental policy and finance, the book reviews several conservation financing instruments. These include ecotourism and private reserves, debt-for-nature swaps and government domestic budgetary expenditures for state and national parks. Tropical

deforestation and forest degradation are serious global environmental issues, contributing to global climate change, species extinction, and threatening the livelihoods of forest-dependent communities. Yet, many leading companies, individuals and governments are making a positive impact on tropical forest conservation to mitigate greenhouse gas emissions through the use of conservation finance. Conservation of Tropical Rainforests tells the history of international conservation finance and provides a variety of options for individuals, businesses, and governments to support conservation financing projects.
