Living and Leaving Donna M. Glowacki, 2015-04-02 The Mesa Verde migrations in the thirteenth century were an integral part of a transformative period that forever changed the course of Pueblo history. For more than seven hundred years, Pueblo people lived in the Northern San Juan region of the U.S. Southwest. Yet by the end of the 1200s, tens of thousands of Pueblo people had left the region. Understanding how it happened and where they went are enduring questions central to Southwestern archaeology. Much of the focus on this topic has been directed at understanding the role of climate change, drought, violence, and population pressure. The role of social factors, particularly religious change and sociopolitical organization, are less well understood. Bringing together multiple lines of evidence, including settlement patterns, pottery exchange networks, and changes in ceremonial and civic architecture, this book takes a historical perspective that naturally forefronts the social factors underlying the depopulation of Mesa Verde. Author Donna M. Glowacki shows how “living and leaving” were experienced across the region and what role differing stressors and enablers had in causing emigration. The author’s analysis explains how different histories and contingencies—which were shaped by deeply rooted eastern and western identities, a broad-reaching Aztec-Chaco ideology, and the McElmo Intensification—converged, prompting everyone to leave the region. This book will be of interest to southwestern specialists and anyone interested in

societal collapse, transformation, and resilience.

The Truth About Dinosaurs: The Witness of Creation Series Volume Five Billy Crone, 2017-10-19 Open up any children's book on dinosaurs and what do you see on the very first line of the first page? Millions of years ago, right? But have you ever stopped to think that if God created all of the life on the planet including the dinosaurs, then why doesn't it say, In the beginning God? Could it be that someone is hiding the truth from us? Could it be that we're being brainwashed with an evolutionary lie about dinosaurs so we'll never discover the Biblical truth about God? The answer is simply, yes. And that's why this series, A Fearful Creation, not only shows you the true history of dinosaurs, but it also shows you the true lesson of dinosaurs. That God is real and we really need to have a fear of Him and get right with Him before it's too late. In this study you will see such amazing evidence that answers such thought provoking questions as, Does the Bible Mention Dinosaurs? Did Man Coexist with Dinosaurs? Did a Flood Destroy the Dinosaurs? Do Dinosaurs Still Live Today?

Mill, 1998-08-22 For 170 years, Harriet Taylor Mill has been presented as a

footnote in John Stuart Mill's life. This volume gives her a separate voice. Readers may assess for themselves the importance and influence of her ideas on women's issues such as marriage and divorce, education, domestic violence, and suffrage. And they will note the overlap of her ideas on ethics, religion, arts, and socialism, written in the 1830s, with her more famous husband's works, published 25 years later.

A Successful Novel Must Be in Want of a Sequel M. Carmen Gomez-Galisteo, 2018-04-13 What happened after Mr. Darcy married Elizabeth Bennet in *Pride and Prejudice*? Where did Heathcliff go when he disappeared in *Wuthering Heights*? What social ostracism would Hester Prynne of *The Scarlet Letter* have faced in 20th century America? Great novels often leave behind great questions, and sequels seek to answer them. This critical analysis offers fresh insights into the sequels to seven literary classics, including Jane Austen's *Sense and Sensibility*, the Bronte sisters' *Jane Eyre*, Louisa May Alcott's *Little Women*, and Daphne du Maurier's *Rebecca*.

Parapsychology Etzel Cardeña, John Palmer, David Marcusson-Clavertz, 2015-07-25 Many people have experienced such unusual phenomena as dreams that later seem to correspond with unforeseeable events, thinking of a long-lost friend just before he or she unexpectedly calls, or the ability to “feel” the presence of deceased loved ones. What many do not realize is that

these types of experiences have been researched for more than a century by eminent scientists, including Nobel laureates. Most of these researchers have concluded that some of these phenomena do occur, although we are far from explaining them to everyone's satisfaction. This book is the first in almost 40 years to provide a comprehensive scientific overview of research in the field of parapsychology, explaining what we know and don't know about so-called psi phenomena, such as "telepathy," "precognition" or "psychokinesis." Contributors evaluate the evidence for these phenomena, accounting for factors such as selective memory, wish fulfillment and incorrect methods or analyses, in some cases offering psychological, physical and biological theories. Instructors considering this book for use in a course may request an examination copy here.

Contemporary Urban Youth Culture in China Jing Sun, 2019-12-01 In Contemporary Urban Youth Culture in China: A Multiperspectival Cultural Studies of Internet Subcultures, Jing Sun explores contemporary Chinese urban youth culture through analyses of three Chinese Internet subcultural artifacts--A Bloody Case of a Steamed Bun, Cao Ni Ma, and Du Fu Is Busy. Using Douglas Kellner's (1995) multiperspectival cultural studies (i.e., critical theory and critical media literacy) as the theoretical framework, and diagnostic critique and semiotics as the analytical method, Sun examines three general themes--resistance, power relations, and consumerism. The power of multiperspectival cultural studies, an interdisciplinary inquiry, lies in its potentials to explore contemporary Chinese urban youth culture from multiple perspectives; explore historical backgrounds and complexity of cultural artifacts to understand contradictions and trajectories of

contemporary Chinese urban youth culture; recognize alternative medias as a space for contemporary urban Chinese youth to express frustrations and dissatisfactions, to challenge social inequalities and injustices, and to create dreams and hopes for their future; recognize that the intertextuality among cultural artifacts and subcultures creates possibilities for Chinese urban youth to invent more alternative media cultures that empower them to challenge dominations, perform their identities, and release their imagination for the future; invite Chinese youth to be the change agents for the era but not to be imprisoned by the era; and overcome misunderstanding, misrepresentation, or underrepresentation of contemporary Chinese urban youth cultural texts to promote linguistic and cultural diversity in a multicultural, multilingual, and multiracial world. Sun argues that contemporary urban youth need to obtain critical media literacy to become the change agents in contemporary China. They need to be the medium of cultural exchanges in the multicultural, multilingual, and multiracial world. In order to best assist contemporary Chinese urban youth in expressing their voices, portraying their hopes, and performing their historical responsibilities as change agents, Sun sincerely hopes more research will be done on the contemporary Chinese urban youth culture, especially on its contradictions and trajectories, with the intent to shed light on more richly textured, nuanced, and inspiring insights into the interconnection between contemporary Chinese urban youth and media power in an increasingly multicultural,

multilingual, and multiracial world.

Eyesight Alone Caroline A. Jones, 2005 Even a decade after his death, Clement Greenberg remains controversial. One of the most influential art writers of the twentieth century, Greenberg propelled Abstract Expressionist painting-in particular the monumental work of Jackson Pollock-to a leading position in an international postwar art world. On radio and in print, Greenberg was the voice of the new American painting, and a central figure in the postwar cultural history of the United States. Caroline Jones's

magisterial study widens Greenberg's fundamental tenet of opticality-the idea that modernist art is apprehended through eyesight alone-to a broader arena, examining how the critic's emphasis on the specular resonated with a society increasingly invested in positivist approaches to the world. Greenberg's modernist discourse, Jones argues, developed in relation to the rationalized procedures that gained wide currency in the United States at midcentury, in fields ranging from the sense-data protocols theorized by scientific philosophy to the development of cultural forms, such as hi-fi, that targeted specific senses, one by one. Greenberg's attempt to isolate and celebrate the visual was one manifestation of a large-scale segmentation-or bureaucratization-of the body's senses. Working through these historical developments, Jones brings Greenberg's theories into contemporary philosophical debates about agency and subjectivity. *Eyesight Alone* offers artists, art historians, philosophers, and all those interested in the arts a critical history of this generative figure, bringing his work fully into dialogue with the ideas that shape contemporary critical discourse and shedding light not only on Clement Greenberg but also on the contested history of modernism itself.

Contemporary European Crime Fiction Monica Dall'Asta, Jacques Migozzi, Federico Pagello, Andrew Pepper, 2023-05-22 This book represents the first extended consideration of contemporary crime fiction as a European phenomenon. Understanding crime fiction in its broadest sense, as a transmedia practice, and offering unique insights into this practice in specific European countries and as a genuinely transcontinental endeavour, this book argues that the distinctiveness of the form can be found in its

related historical and political inquiries. It asks how the genre's excavation of Europe's history of violence and protest in the twentieth century is informed by contemporary political questions. It also considers how the genre's progressive reimagining of new identities forged at the crossroads of ethnicity, gender, and sexuality is offset by its bleaker assessment of the corrosive effects of entrenched social inequalities, political corruption, and state violence. The result is a rich, vibrant collection that shows how crime fiction can help us better understand the complex relationship between Europe's past, present, and future.
