**Partisan Journalism** Jim A. Kuypers, 2013-11-21 In *Partisan Journalism: A History of Media Bias in the United States*, Jim A. Kuypers guides readers on a journey through American journalistic history, focusing on the warring notions of objectivity and partisanship. Kuypers shows how the American journalistic tradition grew from partisan roots and, with only a brief period of objectivity in between, has returned to those roots today. The book begins with an overview of newspapers during Colonial times, explaining how those papers openly operated in an expressly partisan way; he then moves through the Jacksonian era's expansion of both the press and its partisan nature. After detailing the role of the press during the War Between the States, Kuypers demonstrates that it was the telegraph, not professional sentiment, that kicked off the movement toward objective news reporting. The conflict between partisanship and professionalization/objectivity continued through the muckraking years and through World War II, with newspapers in the 1950s often being objective in their reporting even as their editorials leaned to the right. This changed rapidly in the 1960s when newspaper editorials shifted from right to left, and progressive advocacy began to slowly erode objective content. Kuypers follows this trend through the early 1980s, and then turns his attention to demonstrating how new communication technologies have changed the very nature of news writing and delivery. In the final chapters covering the Bush and Obama presidencies, he traces the growth of the progressive and partisan nature of the mainstream news, while at the same time explores the rapid rise of alternative news sources, some partisan, some objective, that are challenging the dominance of the mainstream press. This book steps beyond a simple charge-counter-charge of political bias in the news in that it offers an argument that the press in America, except for a brief period, was essentially partisan from its inception and has returned with a vengeance to its original roots. The final argument presented in the book is that this new development may actually be healthy for American Democracy.

**The Honorable Elijah Leonard** Elijah Leonard, 189?

A Measure Taken Marla Fair,

*Natural Medicines Comprehensive Database*, 1999 A fresh new look for the best-selling series from America's number-one inspirational novelist, Karen Kingsbury. Fans will enjoy a personal note from Karen and Gary Smalley as well as discussion questions for book group use. Revisit the Baxter family in all their life-changing events, or share the series with someone who hasn't discovered it yet. The Redemption series won Christian Retailing's 2005 Retailer's Choice Award for Best Series! When Kari Baxter Jacobs finds out that her husband is involved in an adulterous relationship and wants a divorce, she decides she will love him and remain faithful to her marriage at all costs. This book shows how God can redeem seemingly hopeless relationships, and it illustrates one of Gary Smalley's key messages: Love is a decision. Redemption is the first book in the five-book Redemption series that Gary and Karen will write about the Baxter family—their fears and desires, their strengths and weaknesses, their losses and victories. Each book explores key relationship themes as well as the larger theme of redemption, both in characters' spiritual lives and in their relationships.

**Letters from the Sphinx** Paul C. Rollins, 2021-04-13 Spanning one hundred years and three continents, *Letters from the Sphinx* tells the story of the William Allens, an Old World family swept up in a New World sea of change. Incorporating sources from the United Kingdom and Egypt; previously unpublished diaries, photographs, and letters held in private collections; and journals housed at the Huntington Library, the biography describes one man's desperate pursuit of self that takes him from England to Egypt and back again before he sets sail, sick and alone, for Southern California. His story—and that of his wife and children—unfolds in unexpected ways against the backdrop of the San Gabriel Valley at a time when the foothills were a riot of golden poppies and the earth was untilled and bursting with opportunity.

**African Americans in Sports** David K. Wiggins, 2015-03-26 This two-volume set features 400 articles on African-Americans in sports, including biographical entries as well as entries on events, tournaments, leagues, clubs, films, and associations. The entries cover all professional, amateur, and

European Security in a Global Context Thierry Tardy, 2010-06-09 This new edited volume examines contemporary European security from three different standpoints. It explores security dynamics, first, within Europe; second, the interaction patterns between Europe and other parts of the world (the United States, Africa, the Middle East, China and India); and, finally, the external perceptions of European security. The first part of the book analyses the European security landscape. The roles of EU, NATO and the OSCE are given particular attention, as is the impact of their evolution- or enlargement- on the European security architecture and European security dynamics. In this context, Russia's repositioning as a major power appears as a shaping factor of contemporary European geopolitics. The second part presents European security from an external perspective and considers interactions between Europe and other states or regions. Security trends and actors in Europe are examined from an American, Chinese, and Indian perspective, while Europe--Africa and Europe--Middle East relations are also addressed. This book will be of great interest to students of European Security, European politics and IR in general.

*There's a Place For Us: The Musical Theatre Works of Leonard Bernstein* Helen Smith, 2017-07-05 Leonard Bernstein was the quintessential American musician. Through his careers as conductor, pianist, teacher and television personality he became known across the US and the world, his flamboyance and theatricality making him a favourite with audiences, if not with critics. However, he is perhaps best remembered as a composer, particularly of the musical *West Side Story*, and for songs such as 'America', 'Tonight' and 'Somewhere'. Dr Helen Smith takes an in-depth look at all eight of Bernstein's musical theatre works, from the early *On the Town* written by the 26-year-old composer at the start of his career, to his second and last opera *A Quiet Place* in 1983; in between these two pieces he composed music for *Trouble in Tahiti*, *Wonderful Town*, *Candide*, *West Side Story*, *Mass* and *1600 Pennsylvania Avenue*. These works are analysed and considered against a background of musical and social context, as well as looking at Bernstein's other orchestral, choral and chamber works. One important aspect examined is Bernstein's use of motifs in his theatre compositions, which takes them out of the realms of Broadway and into the sphere of symphonic writing. Smith provides an indispensable overview of the musical theatre works of an eclectic composer, and shows what it is that constitutes the Bernstein 'sound'.

**Leonard Bernstein and His Young People's Concerts** Alicia Kopfstein-Penk, 2015-01-22 Leonard Bernstein touched millions of lives as composer, conductor, teacher, and activist. He frequently visited homes around the world through the medium of television, particularly through his fifty-three award-winning Young People's Concerts (1958-1972), which at their height were seen by nearly ten million in over forty countries. Originally designed for young viewers but equally attractive to eager adults, Bernstein's brilliance as a teacher shined brightly in his televised presentations. And yet, despite the light touch of the "maestro," the innocence of his audience, and the joyousness of each show's topic, the turbulence of the times would peek through. In this first in-depth look at the series, Alicia Kopfstein-Penk's *Leonard Bernstein and His Young People's Concerts* illustrates how the cultural, social, political, and musical upheavals of the long sixties impacted Bernstein's life and his Young People's Concerts. Responding to trends in corporate sponsorship, censorship, and arts programming from the Golden Age of Television into the 1970s, the Young People's Concerts would show the impact of and reflect the social and cultural politics of the Cold War, Vietnam, the Civil Rights and Women's Movements, and the Counterculture. Bernstein cheerfully bridged classical and popular tastes, juxtaposing the Beatles with Mozart even as he offered personal, televised pleas for peace and unity. At the same time, the concerts reflect Bernstein's troubled relationship as a professional musician with the dominance of atonality and his quest to nurture American music. Anyone who enjoys the oeuvre of Leonard Bernstein, has watched his Young People's Concerts, or is passionate about the history of the long sixties will find in *Leonard Bernstein and His Young People's Concerts* a story of all three captured in this monumental study.

New Perspectives on the Relationship between Pain, Suffering and Metaphor Nate Hinerman,2019-01-04

*Combat Journal for Place d'Armes* Scott Symons,2010-03-01 Originally published in 1967, *Combat Journal for Place d'Armes*, set in Montreal, was initially met with shock and anger by most reviewers. As D.H. Lawrence's *Lady Chatterley's Lover* once had, it challenged the attitudes and morals held by most people in its time regarding life and literature. Despite this initial reaction, the novel earned author Scott Symons the Beta Sigma Phi Best First Canadian Novel Award and went on to be regarded as one of the most important statements about Canadian imaginative life in the 1960s. Both a study of the emergence of a character's true self through his homosexual experiences and his critical examination of Canadian, and especially French-Canadian, culture and traditions, *Place d'Armes* was named one of the top hundred most important books in Canadian history. Peter Buitenhuis, the late author and former head of Simon Fraser University's English department, has written that Symon's novel is a defiant assault on the Canadian Bourgeois mentality that celebrates human sexuality and spirituality with all the gusto that language can command.

*From Apartheid to Democracy* Katherine Elizabeth Mack,2015-06-18 South Africa's Truth and Reconciliation Commission (TRC) hearings can be considered one of the most significant rhetorical events of the late twentieth century. The TRC called language into action, tasking it with promoting understanding among a divided people and facilitating the construction of South Africa's new democracy. Other books on the TRC and deliberative rhetoric in contemporary South Africa emphasize the achievement of reconciliation during and in the immediate aftermath of the transition from apartheid. *From Apartheid to Democracy*, in contrast, considers the varied, complex, and enduring effects of the Commission's rhetorical wager. It is the first book-length study to analyze the TRC through such a lens. Katherine Elizabeth Mack focuses on the dissension and negotiations over difference provoked by the Commission's process, especially its public airing of victims' and perpetrators' truths. She tracks agonistic deliberation (evidenced in the TRC's public hearings) into works of fiction and photography that extend and challenge the Commission's assumptions about truth, healing, and reconciliation. Ultimately, Mack demonstrates that while the TRC may not have achieved all of its political goals, its very existence generated valuable deliberation within and beyond its official process.

A Broken Hallelujah: Rock and Roll, Redemption, and the Life of Leonard Cohen Liel Leibovitz,2014-04-14 This meditation on the life of the Canadian singer-songwriter, musician, poet and novelist discusses his performing career, which began despite his crippling stage fright, to his induction into the Rock and Roll Hall of Fame. 13,000 first printing.

*Crossing Boundaries* Patrick M. Green,Mathew Johnson,2023-07-03 Are there better ways to address community challenges than expending funds

on international service-learning? In attempting to wed learning and service, are we exploiting the “other” for new, or recycled, aims? As these questions attest, of all types of service-learning, international service-learning (ISL) most starkly illuminates the tensions between the liberatory and oppressive potentials of practice. This book explores the ramifications of realizing a new age of service-learning that pushes beyond single episodic course-based projects to rebalance student learning and community outcome priorities, and provides insight into what it looks like in its execution. In describing eleven international programs designed to achieve reciprocal, sustained relationships in which learning is co-created, the contributors reveal their struggles to change the balance of power relationships and move to a more transformative practice. Common themes are the developmental nature of this work; the recognition that it takes multiple attempts, often over years, for an individual or an institution to get this work even nearly right; that resolving the challenges of unequal resources, power, and privilege can never be completely erased; and that attention has to be given to the micro-level details. What emerge are seven guiding principles that define the nature of partnerships in liberatory practice, and that apply to all forms of service learning. They must be: strategic--linked to the mission and expertise of the institution; long-term; multifaceted--allowing both partners to play a multiplicity of roles; developmental in building capacities; contextualized in historic and cultural understanding; fully reciprocal; and create the potential for community-driven change. In addressing the problematic nature of ISL, and of service-learning in general, this book interrogates whether its experiences create the necessary conditions for the formation of individual values, convictions, and action; and whether their pivotal teaching and learning moments are indeed replicable and transferable across individual, institutional and even cultural contexts. Its conclusions and insights will be of intense interest to administrators and practitioners alike.

Crosscurrents and Crosscutting Themes Kagendo Mutua, Cynthia S Sunal, 2006-08-01 In this Third Volume of the series, Research on Education in Africa, the Caribbean and the Middle East, the volume continues with the previously established overarching purpose of publishing chapters that are based upon research conducted in those regions by scholars, many of whom are indigenous to the regions they write about and are, therefore, able to provide cultural insights about relevant issues, as well as nonindigenous scholars who have conducted their studies in countries within the regions or about those regions. This mixture of indigenous scholarship offering emic perspectives and outside scholarship offering etic perspectives continues to be a relative strength and uniqueness of this book series. In addition, several chapters in the current volume constitute collaborations between the authors etic and emic to the contexts about which they write. This bifocality in the gaze cast upon issues covered in this book series has been well received by readers of earlier volumes of the series.
