The Language of Heresy in Late Medieval English Literature Erin K. Wagner, 2024-04-22 Vernacular writers of late medieval England were engaged in global conversations about orthodoxy and heresy. Entering these conversations with a developing vernacular required lexical innovation. The Language of Heresy in Late Medieval English Literature examines the way in which these writers complemented seemingly straightforward terms, like heretic, with a range of synonyms that complicated the definitions of both those words and orthodoxy itself. This text proposes four specific terms that become collated with heretic in the parlance of medieval English writers of the 14th and 15th centuries: jangler, Jew, Saracen, and witch. These four labels are especially important insofar as they represent the way in which medieval Christianity appropriated and subverted marginalized or vulnerable identities to promote a false image of unassailable authority.

Galatians Witherup, Ronald D., 2019 Examines Galatians section-by-section, with attention both to expounding the text and to pointing out many background aspects that help understand it.

Dante's Sacred Poem Sheila J. Nayar, 2014-08-28 Arguing that the consecrated body in the Eucharist is one of the central metaphors structuring *The Divine Comedy*, this book is the first comprehensive exploration of the theme of transubstantiation across Dante's epic poem. Drawing attention first to the historical and theological tensions inherent in ideas of transubstantiation that rippled through Western culture up to the early fourteenth century, Sheila Nayar engages in a Eucharistic reading of both the flesh allusions and metamorphosis motifs that thread through the entirety of Dante's poem. From the cannibalistic resonances of the Ugolino episode in the *Inferno* to the Corpus Christi-like procession seminal to Purgatory, Nayar demonstrates how these sacrifice- and Host-related metaphors, allusions, and tropes lead directly and intentionally to the *Comedy's* final vision, that of the Eucharist itself. Arguing that the final revelation in Paradise is analogically the Bread of Life, Nayar brings to the fore Christ's centrality (as sacrament) to *The Divine Comedy*-a reading that is certain to alter current-day thinking about Dante's poem.

Data Privacy During Pandemics Benjamin Boudreaux, Matthew A. DeNardo, Sarah W. Denton, Ricardo Sanchez, Katie Feistel, Hardika Dayalani, 2020-07-30 As part of the response to the COVID-19 pandemic, governments worldwide have deployed mobile phone surveillance programs to augment public health interventions. However, these programs raise privacy concerns. The authors of this report examine whether two goals can be achieved concurrently: the use of mobile phones as public health surveillance tools to help manage COVID-19 and future crises, and the protection of privacy and civil liberties.

A Short History of Medieval Christianity G.R. Evans, 2017-05-02 What did people really believe in the Middle Ages? Much of our sense of the medieval period has come down to us from the writings of the learned: the abbots, priors, magnates, scholastic theologians and others who between them, and across Christendom, controlled the machinery of church and state. For G R Evans too much emphasis has been placed on a governing elite and too little on those - the great mass of the semi-literate and illiterate, and the emergent middle classes - who stood outside

the innermost circles of ecclesiastical power, privilege and education. Her book finally gives proper weight to the neglected literature of demotic religion: the lives of saints; writings by those - including lay women - who had mystical experiences; and lively texts containing stories for popular edification. Ranging widely, from the fall of Rome to the ideas of the Reformation, the author addresses vital topics like the appeal of monasticism, the lure of the Crusades, the rise of the friars and the acute crisis of heresy. As Evans reveals, medieval Christianity was shaped above all by its promise of salvation or eternal perdition.

Paradox and Representation Machiko Ishikawa, 2020-03-15 How can the voiceless voice be represented? This primary question underpins Ishikawa's analysis of selected work by Buraku writer, Nakagami Kenji (1946-1992). In spite of his Buraku background, Nakagami's privilege as a writer made it difficult for him to hear and represent those voices silenced by mainstream social structures in Japan. This paradox of representing the silenced voice is the key theme of the book. Gayatri Spivak theorizes the (im)possibility of representing the voice of subalterns, those oppressed by imperialism, patriarchy and heteronormativity. Arguing for Burakumin as Japan's subalterns, Ishikawa draws on Spivak to analyze Nakagami's texts. The first half of the book revisits the theme of the transgressive Burakumin man. This section includes analysis of a seldom discussed narrative of a violent man and his silenced wife. The second half of the book focuses on the rarely heard voices of Burakumin women from the Akiyuki trilogy. Satoko, the prostitute, unknowingly commits incest with her half-brother, Akiyuki. The aged Yuki sacrifices her youth in a brothel to feed her fatherless family. The mute Moyo remains traumatized by rape. Ishikawa's close reading of Nakagami's representation of the silenced voices of these sexually stigmatized women is this book's unique contribution to Nakagami scholarship.

Rights at the Margins Virpi Mäkinen, Jonathan William Robinson, Pamela Slotte, Heikki Haara, 2020-11-04 Rights at the Margins explores the ways rights were available to those on the margins and their relationship with social justice in medieval and early modern thought. It also elaborates the relevance of some historical ideas in the contemporary context.

Hip-Hop and Spoken Word Therapy in School Counseling Ian Levy, 2021-05-26 This volume recognizes the need for culturally responsive forms of school counseling and draws on the author's first-hand experiences of working with students in urban schools in the United States to illustrate how hip-hop culture can be effectively integrated into school counseling to benefit and support students. Detailing the theoretical development, practical implementation and empirical evaluation of a holistic approach to school counseling dubbed Hip-Hop and Spoken Word Therapy (HHSWT), this volume documents the experiences of the school counsellor and students throughout a HHSWT pilot program in an urban high school. Chapters detail the socio-cultural roots of hip-hop and explain how hip-hop inspired practices such as writing lyrics, producing mix tapes and using traditional hip-hop cyphers can offer an effective means of transcending White, western approaches to counseling. The volume foregrounds the needs of racially diverse, marginalized youth, whilst also addressing the role and positioning of the school counselor in using HHSWT. Offering deep insights into the practical and conceptual challenges and benefits of this inspiring

approach, this book will be a useful resource for practitioners and scholars working at the intersections of culturally responsive and relevant forms of school counseling, spoken word therapy and hip-hop studies.

Survival Is Success Nicola Bruno,Rasmus Kleis Nielsen,2012 The economics of online news today are as challenging for new entrants as they are for industry incumbents. Though internet use and online advertising is growing rapidly across Europe, it is not clear that this alone will provide the basis for new forms of journalism. Analysis of some of the most promising new journalistic ventures shows that even the most innovative enterprises can find it as difficult to break even online as their most conservative legacy media counterparts do. That is the message of a new RISJ Challenge published today, written by the Italian journalist Nicola Bruno and the Reuters Institute Research Fellow Rasmus Kleis Nielsen. The report is the first to systematically assess how journalistic online start-ups are doing across Western Europe. Based on analysis of nine strategically chosen cases from Germany, France, and Italy—including prominent pure players like Netzeitung, MediaPart, and Lettera43—it shows that the start-up scene in Europe is still at a stage where survival must be seen as a form of success in itself

The Sacred and the Sovereign John D. Carlson,Erik C. Owens,2003-06-11 Until September 11th, 2001, few in the West fully appreciated the significance of religion in international politics. The terrible events of that day refocused our attention on how thoroughly religion and politics intermingle, sometimes with horrific results. But must this intermingling always be so deadly? *The Sacred and the Sovereign* brings together leading voices to consider the roles that religion should—and should not—play in a post-Cold War age distinguished by humanitarian intervention, terrorism, globalization, and challenges to state sovereignty. But these challenges to state sovereignty have deep and abiding roots in religion that invite us to revisit just what values we hold sacred. Offsetting the commonly shared idea that religion is politics' perennial nemesis, this volume demonstrates that religious traditions, institutions, and ideas are essential elements of the political quest for human rights, peace, order, legitimacy, and justice. *The Sacred and the Sovereign* brings distinguished scholars of religious studies, theology, and politics together with ranking members of the military and government to reflect seriously about where—and if—safe boundaries can be drawn between religion and politics in the international arena.

Mount Fuji H. Byron Earhart,2015-07-15 Illustrated with color and black-and-white images of the mountain and its associated religious practices, H. Byron Earhart's study utilizes his decades of fieldwork—including climbing Fuji with three pilgrimage groups—and his research into Japanese and Western sources to offer a comprehensive overview of the evolving imagery of Mount Fuji from ancient times to the present day. Included in the book is a link to his twenty-eight-minute streaming video documentary of Fuji pilgrimage and practice, *Fuji: Sacred Mountain of Japan*. Beginning with early reflections on the beauty and power associated with the mountain in medieval Japanese literature, Earhart examines how these qualities fostered spiritual practices such as Shugendo, which established rituals and a temple complex at the mountain as a portal to an ascetic otherworld. As a focus of worship, the mountain became a source of spiritual insight, rebirth, and prophecy through the practitioners Kakugyo and Jikigyo, whose teachings led to social movements such as Fujido (the way of Fuji) and to a variety of pilgrimage

confraternities making images and replicas of the mountain for use in local rituals. Earhart shows how the seventeenth-century commodification of Mount Fuji inspired powerful interpretive renderings of the peerless mountain of Japan, such as those of the nineteenth-century print masters Hiroshige and Hokusai, which were largely responsible for creating the international reputation of Mount Fuji. In the eighteenth and nineteenth centuries, images of Fuji served as an expression of a unique and superior Japanese culture. With its distinctive shape firmly embedded in Japanese culture but its ethical, ritual, and spiritual associations made malleable over time, Mount Fuji came to symbolize ultranationalistic ambitions in the 1930s and early 1940s, peacetime democracy as early as 1946, and a host of artistic, naturalistic, and commercial causes, even the exotic and erotic, in the decades since.

The Scale of Imprisonment Franklin E. Zimring, Gordon J. Hawkins, Gordon Hawkins, 1993-09 Two of the nation's foremost criminal justice scholars present a comprehensive assessment of the factors behind the growth and subsequent overcrowding of American prisons. By critiquing the existing scholarship on prison scale from sociology and history to correctional forecasting and economics, they both reveal that explicit policy changes have had little influence on the increases in imprisonment in recent years and analyze whether it is possible to place limits effectively on prison population. The Scale of Imprisonment has an exceptionally well designed literature review of interest to public policy, criminal justice, and public law scholars. Its careful review, analysis, and critique of research is stimulating and inventive.—American Political Science Review The authors frame our thoughts about the soaring use of imprisonment and stimulate our thinking about the best way we as criminologists can conduct rational analysis and provide meaningful advice.—Susan Guarino-Ghezzi, Journal of Quantitative Criminology Zimring and Hawkins bring a long tradition of excellent criminological scholarship to the seemingly intractable problems of prisons, prison overcrowding, and the need for alternative forms of punishment.—J. C. Watkins, Jr., Choice

Space, Imagination and the Cosmos from Antiquity to the Early Modern Period Frederik A. Bakker, Delphine Bellis, Carla Rita Palmerino, 2019-02-05 This volume provides a much needed, historically accurate narrative of the development of theories of space up to the beginning of the eighteenth century. It studies conceptions of space that were implicitly or explicitly entailed by ancient, medieval and early modern representations of the cosmos. The authors reassess Alexandre Koyré's groundbreaking work From the Closed World to the Infinite Universe (1957) and they trace the permanence of arguments to be found throughout the Middle Ages and beyond. By adopting a long timescale, this book sheds new light on the continuity between various cosmological representations and their impact on the ontology and epistemology of space. Readers may explore the work of a variety of authors including Aristotle, Epicurus, Henry of Ghent, John Duns Scotus, John Wyclif, Peter Auriol, Nicholas Bonet, Francisco Suárez, Francesco Patrizi, Giordano Bruno, Libert Froidmont, Marin Mersenne, Pierre Gassendi, Gottfried Wilhelm Leibniz and Samuel Clarke. We see how reflections on space, imagination and the cosmos were the product of a plurality of philosophical traditions that found themselves confronted with, and enriched by, various scientific

and theological challenges which induced multiple conceptual adaptations and innovations. This volume is a useful resource for historians of philosophy, those with an interest in the history of science, and particularly those seeking to understand the historical background of the philosophy of space.

History and Presence Robert A. Orsi, 2018-05-11 Honorable Mention, PROSE Award A Choice Outstanding Academic Title of the Year A Junto Favorite Book of the Year Beginning with metaphysical debates in the sixteenth century over the nature of Christ's presence in the host, the distinguished historian and scholar of religion Robert Orsi imagines an alternative to the future of religion that early moderns proclaimed was inevitable. "This book is classic Orsi: careful, layered, humane, and subtle... If reformed theology has led to the gods' ostensible absence in modern religion, *History and Presence* is a sort of counter-reformation literature that revels in the excesses of divine materiality: the contradictions, the redundancies, the scrambling of borders between the sacred and profane, the dead and the living, the past and the present, the original and the imitator... *History and Presence* is a thought-provoking, expertly arranged tour of precisely those abundant, excessive phenomena which scholars have historically found so difficult to think." –Sonja Anderson, *Reading Religion* "With reference to Marian apparitions, the cult of the saints and other divine-human encounters, Orsi constructs a theory of presence for the study of contemporary religion and history. Many interviews with individuals devoted to particular saints and relics are included in this fascinating study of how people process what they believe." –Catholic Herald

Why Are So Many Americans in Prison? Steven Raphael, Michael A. Stoll, 2013-05-14 Between 1975 and 2007, the American incarceration rate increased nearly fivefold, a historic increase that puts the United States in a league of its own among advanced economies. We incarcerate more people today than we ever have, and we stand out as the nation that most frequently uses incarceration to punish those who break the law. What factors explain the dramatic rise in incarceration rates in such a short period of time? In *Why Are So Many Americans in Prison?* Steven Raphael and Michael A. Stoll analyze the shocking expansion of America's prison system and illustrate the pressing need to rethink mass incarceration in this country. Raphael and Stoll carefully evaluate changes in crime patterns, enforcement practices and sentencing laws to reach a sobering conclusion: So many Americans are in prison today because we have chosen, through our public policies, to put them there. They dispel the notion that a rise in crime rates fueled the incarceration surge; in fact, crime rates have steadily declined to all-time lows. There is also little evidence for other factors commonly offered to explain the prison boom, such as the deinstitutionalization of the mentally ill since the 1950s, changing demographics, or the crack-cocaine epidemic. By contrast, Raphael and Stoll demonstrate that legislative changes to a relatively small set of sentencing policies explain nearly all prison growth since the 1980s. So-called tough on crime laws, including mandatory minimum penalties and repeat offender statutes, have increased the propensity to punish more offenders with lengthier prison sentences. Raphael and Stoll argue that the high-incarceration regime has inflicted broad social costs, particularly among minority communities, who form a disproportionate share of the incarcerated population. *Why Are So Many Americans in Prison?* ends with a powerful plea to consider alternative crime control strategies,

such as expanded policing, drug court programs, and sentencing law reform, which together can end our addiction to incarceration and still preserve public safety. As states confront the budgetary and social costs of the incarceration boom, *Why Are So Many Americans in Prison?* provides a revealing and accessible guide to the policies that created the era of mass incarceration and what we can do now to end it.

Color in Ancient and Medieval East Asia Monica Bethe, 2015 With essays by Monica Bethe, Mary M Dusenbury, Shih-shan Susan Huang, Ikumi Kaminishi, Guolong Lai, Richard Laursen, Liu Jian and Zhao Feng, Chika Mouri, Park Ah-rim, Hillary Pedersen, Lisa Shekede and Su Bomin, Sim Yeon-ok and Lee Seonyong, Tanaka Yoko, and Zhao Feng and Long Bo Color was a critical element in East Asian life and thought, but its importance has been largely overlooked in Western scholarship. This interdisciplinary volume explores the fascinating roles that color played in the society, politics, thought, art, and ritual practices of ancient and medieval East Asia (ca. 1600 B.C.E.-ca. 1400 C.E.). While the Western world has always linked color with the spectrum of light, in East Asian civilizations colors were associated with the specific plant or mineral substances from which they were derived. Many of these substances served as potent medicines and elixirs, and their transformative powers were extended to the dyes and pigments they produced. Generously illustrated, this groundbreaking publication constitutes the first inclusive study of color in East Asia. It is the outcome of years of collaboration between chemists, conservators, archaeologists, historians of art and literature, and scholars of Buddhism and Daoism from the United States, East Asia, and Europe.

The Cambridge History of Medieval Monasticism in the Latin West Alison I. Beach, Isabelle Cochelin, 2020-01-09 Monasticism, in all of its variations, was a feature of almost every landscape in the medieval West. So ubiquitous were religious women and men throughout the Middle Ages that all medievalists encounter monasticism in their intellectual worlds. While there is enormous interest in medieval monasticism among Anglophone scholars, language is often a barrier to accessing some of the most important and groundbreaking research emerging from Europe. The Cambridge History of Medieval Monasticism in the Latin West offers a comprehensive treatment of medieval monasticism, from Late Antiquity to the end of the Middle Ages. The essays, specially commissioned for this volume and written by an international team of scholars, with contributors from Australia, Belgium, Canada, England, France, Germany, Italy, the Netherlands, Spain, Switzerland, and the United States, cover a range of topics and themes and represent the most up-to-date discoveries on this topic.

Nicholas of Cusa and Islam Ian Christopher Levy, Rita George-Tvrtković, Donald Duclow, 2014-06-26 To explore Christian-Muslim relations at the dawn of the modern age, this book examines Nicholas of Cusa's seminal works on the Qur'an and world religions. It also considers Muslim responses to Christianity and other Christian writings on Islam.

Schooling Hip-Hop Marc Lamont Hill, Emery Petchauer, 2015-04-26 This book brings together veteran and emerging scholars from a variety of fields to chart new territory for hip-hop based education. Looking beyond rap music and the English language arts classroom, innovative chapters unpack the theory and practice of hip-hop based education

in science, social studies, college composition, teacher education, and other fields. Authors consider not only the curricular aspects of hip-hop but also how its deeper aesthetics such as improvisational freestyling and competitive battling can shape teaching and learning in both secondary and higher education classrooms. Schooling Hip-Hop will spark new and creative uses of hip-hop culture in a variety of educational settings. Contributors: Jacqueline Celemencki, Christopher Emdin, H. Bernard Hall, Decoteau J. Irby, Bronwen Low, Derek Pardue, James Braxton Peterson, David Stovall, Eloise Tan, and Joycelyn A. Wilson “Hip hop has come of age on the broader social and cultural scene. However, it is still in its infancy in the academy and school classrooms. Hill and Petchauer have assembled a powerful group of scholars who provide elegantly theoretical and practically significant ways to consider hip hop as an important pedagogical strategy. This volume is a wonderful reminder that ‘Stakes is high!’” –Gloria Ladson-Billings, Kellner Family Chair in Urban Education, University of Wisconsin–Madison “This book is a bold, ambitious attempt to chart new intellectual, theoretical, and pedagogical directions for Hip-Hop Based Education. Hill and Petchauer are to be commended for pushing the envelope and stepping up to the challenge of taking HHBE to the next level.” –Geneva Smitherman, University Distinguished Professor Emerita, English and African American and African Studies, Michigan State University

Asian Slaves in Colonial Mexico Tatiana Seijas, 2014-06-23 During the late sixteenth and seventeenth centuries, countless slaves from culturally diverse communities in the Indian subcontinent and Southeast Asia journeyed to Mexico on the ships of the Manila Galleon. Upon arrival in Mexico, they were grouped together and categorized as *chinos*. Their experience illustrates the interconnectedness of Spain's colonies and the reach of the crown, which brought people together from Africa, the Americas, Asia and Europe in a historically unprecedented way. In time, *chinos* in Mexico came to be treated under the law as Indians, becoming indigenous vassals of the Spanish crown after 1672. The implications of this legal change were enormous: as Indians, rather than *chinos*, they could no longer be held as slaves. Tatiana Seijas tracks *chinos*' complex journey from the slave market in Manila to the streets of Mexico City, and from bondage to liberty. In doing so, she challenges commonly held assumptions about the uniformity of the slave experience in the Americas.
