**Egyptian Gods & Goddesses** Britannica Educational Publishing,2014-01-01 Gods and goddesses—in human, animal, and other forms—were central to the ancient Egyptian way of life. Identified with the natural world, daily living, and the afterlife, they maintained order and prevented chaos from permeating the human world. The figures documented in ancient hieroglyphics are given dimension in this absorbing volume, which examines the characteristics and significance of many of the Egyptian gods and goddesses and also looks at related topics such as ancient symbols and the influence of Egyptian mythology on other cultures and belief systems.

**War Without End** Michael Schwartz,2016-12-05 Michael Schwartz gets behind the headlines, revealing the real dynamics of the Iraq debacle and its legacy.

The New Confessions of an Economic Hit Man John Perkins,2016-02-09 Featuring 15 explosive new chapters, this new edition of the New York Times bestseller brings the story of Economic Hit Men up-to-date and, chillingly, home to the U.S.—but it also gives us hope and the tools to fight back. The previous edition of this now-classic book revealed the existence and subversive manipulations of economic hit men. John Perkins wrote that they are highly paid professionals who cheat countries around the globe out of trillions of dollars. Their tools include fraudulent financial reports, rigged elections, payoffs, extortion, sex, and murder. In Perkins's case the tool was debt-convincing strategically important countries to borrow huge amounts of money for enormous, development projects that served the very rich while driving the country deeper into poverty and debt. And once indebted, these countries could be controlled. In this latest edition, Perkins provides revealing new details about how he and others did their work. But more importantly, in an explosive new section he describes how the EHM tools are being used around the world more widely than ever—even in the U. S. itself. The cancer has metastasized, yet most people still aren't aware of it. Fear and debt drive the EHM system. We are hammered with messages that terrify us into believing that we must pay any price, assume any debt, to stop the enemies who, we are told, lurk at our doorsteps. The EHM system—employing false economics, bribes, surveillance, deception, debt, coups, assassinations, unbridled military power—has become the dominant system of economics, government, and society today. It has created what Perkins calls a Death Economy. But Perkins offers hope: he concludes with dozens of specific, concrete suggestions for actions all of us can take to wrest control of our world away from the economic hit men, and help give birth to a Life Economy.

**The Red and the Black** David Featherstone,Christian Høgsbjerg,2021-08-10 The Russian Revolution of 1917 was not just a world-historical event in its own right, but also struck powerful blows against racism and imperialism, and so inspired many black radicals internationally. This edited collection explores the implications of the creation of the Soviet Union and the Communist International for black and colonial liberation struggles across the African diaspora. It examines the critical intellectual influence of Marxism and Bolshevism on the current of revolutionary 'black internationalism' and analyses how 'Red October' was viewed within the contested articulations of different struggles against racism and colonialism. Challenging European-centred understandings of

the Russian Revolution and the global left, *The Red and the Black* offers new insights on the relations between Communism, various lefts and anti-colonialisms across the Black Atlantic – including Garveyism and various other strands of Pan-Africanism. The volume makes a major and original intellectual contribution by making the relations between the Russian Revolution and the Black Atlantic central to debates on questions relating to racism, resistance and social change.

**Civilian Warriors** Erik Prince, 2014-10-28 The founder of Blackwater offers the gripping true story of the world's most controversial military contractor. In 1997, former Navy SEAL Erik Prince started a business that would recruit civilians for the riskiest security jobs in the world. As Blackwater's reputation grew, demand for its services escalated, and its men eventually completed nearly 100,000 missions for both the Bush and Obama administrations. It was a huge success except for one problem: Blackwater was demonized around the world. Its employees were smeared as mercenaries, profiteers, or worse. And because of the secrecy requirements of its contracts with the Pentagon, the State Department, and the CIA, Prince was unable to correct false information. But now he's finally able to tell the full story about some of the biggest controversies of the War on Terror, in a memoir that reads like a thriller.

**The Mask of Normalcy** George Serban, 2017-07-05 Psychologists view well-adjusted behaviour as conformity?the ability to navigate relationships and events within a framework of societal rules and regulations. George Serban argues that a better test is how well an individual is able to navigate adverse situations by handling conformity's ambiguities and incongruities. He uses clinical findings and content analysis to explore the interface between social conformity and nonconformist behaviours. The definition of the normal is itself problematic, since society's expectations are sometimes controversial, arbitrary, or equivocal. As a result, people who have problems coping with social conformity choose between degrees of nonconformity or hiding under what Serban calls a mask of normalcy. Further complicating matters is that some nonconformist attitudes are now seen as normal, supported by governmental policies tacitly favouring moral relativism. A multicultural society is crisscrossed by shades of controversial values and mores. New social codes of correct conduct blur the distinction between true and false, right and wrong; and social conflict simmers as a result. What society perceives as well adjusted may even change within a society over time, depending on prevailing social values. Some noticeable variations have been within male-female relationships and sexual morality. Serban ultimately concludes that those who have learned how to manipulate social situations are viewed as well adjusted. Those who have not are seen as struggling or maladjusted.

**El camino a la publicación** María Antonia de Miquel, 2020-07-16 Después de meses o años de arduo trabajo, por fin has completado tu primera novela. Ahora te preguntas: ¿qué hago con ella? Publicar no es fácil, y para un autor que empieza aún menos. Esta guía analiza todos aquellos aspectos que la mayoría de escritores primerizos desconocen: cómo funciona una editorial; cuál es el papel de un editor y el de un agente literario; cómo enviarles tu obra (y tener posibilidades de que la lean). Analiza los pasos del proceso de edición, sin olvidar las nuevas posibilidades que se abren hoy en día ante los autores, desde la autopublicación al micromecenazgo. Y, no menos importante, se ocupa del marketing del escritor, para que este aprenda a identificar su público potencial, cultive su presencia digital y saque el máximo provecho de las redes sociales. El camino a la publicación es un manual utilísimo, animoso y a la vez, realista, escrito desde la larga experiencia profesional de su autora, un completo kit de herramientas para hacer realidad el sueño de publicar.

Hacker, Hoaxer, Whistleblower, Spy Gabriella Coleman, 2015-10-06 The ultimate book on the worldwide movement of hackers, pranksters, and activists collectively known as Anonymous—by the writer the Huffington Post says “knows all of Anonymous’ deepest, darkest secrets” “A work of anthropology that sometimes echoes a John le Carré novel.” —Wired Half a dozen years ago, anthropologist Gabriella Coleman set out to study the rise of this global phenomenon just as some of its members were turning to political protest and dangerous disruption (before Anonymous shot to

fame as a key player in the battles over WikiLeaks, the Arab Spring, and Occupy Wall Street). She ended up becoming so closely connected to Anonymous that the tricky story of her inside-outside status as Anon confidante, interpreter, and erstwhile mouthpiece forms one of the themes of this witty and entirely engrossing book. The narrative brims with details unearthed from within a notoriously mysterious subculture, whose semi-legendary tricksters—such as Topiary, tflow, Anachaos, and Sabu—emerge as complex, diverse, politically and culturally sophisticated people. Propelled by years of chats and encounters with a multitude of hackers, including imprisoned activist Jeremy Hammond and the double agent who helped put him away, Hector Monsegur, Hacker, Hoaxer, Whistleblower, Spy is filled with insights into the meaning of digital activism and little understood facets of culture in the Internet age, including the history of “trolling,” the ethics and metaphysics of hacking, and the origins and manifold meanings of “the lulz.”

Como Se Hace Un Crimen De Estado Kris Hollington, 2009

*Concepts éthiques et moraux* Marie-Sol Ortola, Guy Achard-Bayle, 2015 Au IX<sup>e</sup> siècle, la tradition arabe de l'adab parvient en Espagne en al-Andalus, plaque tournante où s'échangent les savoirs venus d'Orient. Ils passent aux royaumes chrétiens de la Péninsule, en partie, grâce au rôle de relais pour l'Occident que jouent, dès le XI<sup>e</sup> siècle, les centres monacaux du nord de l'Espagne. L'adab rencontre en al-Andalus la tradition sapientielle juive de la littérature midrashique. Des recueils sont composés, des oeuvres originales produites aux Xe et XI<sup>e</sup> siècles et, à partir du XII<sup>e</sup> siècle, les recueils d'exempla et de dits des philosophes sont traduits en hébreu (Provence), en latin, en langues romanes. Cet héritage complexe se retrouve en bonne part dans la littérature espagnole des XVI<sup>e</sup> et XVII<sup>e</sup> siècles et dans les proverbiars espagnols, judéo-espagnols et maghrébins contemporains. Si les grandes lignes de ces échanges sont connues, on ne sait rien de précis de la circulation effective de ces énoncés sapientiels brefs (notre unité de travail), des choix successifs faits par les traducteurs, des réinterprétations culturelles, ni du poids d'un emprunt par rapport à un autre. Les filiations des textes de sagesse et l'ordre des traductions sont sujets à caution, a fortiori celui des énoncés sapientiels brefs qu'ils contiennent. Ces énoncés sapientiels brefs n'ont pas fait l'objet d'une étude d'ensemble qui retrace leur circulation à travers les différentes langues (savantes et vernaculaires) de la Péninsule Ibérique, qui reconstruise les cheminements des textes et des traductions, les transformations des unités sapientiellles qui en résultent, et qui rende compte, enfin, de leurs sources et de leur postérité. Le projet ALIENTO entend répondre à ces questions : il vise donc à calculer les concordances partielles ou totales des textes, leurs connections proches et éloignées afin de réévaluer les relations intertextuelles, en confrontant une ;t'aride quantité d'unités et en croisant des textes écrits dans des langues différentes. Le projet repose sur une collaboration interdisciplinaire étroite entre les chercheurs informaticiens (ATILF) et les spécialistes des textes et linguistes (Université de Lorraine, MSH Lorraine, INALCO et leur réseau international de collaborateurs). La collection ALIENTO met à la disposition des chercheurs les travaux effectués lors des rencontres annuelles et les Chient au courant de l'avancée du projet à travers la publication régulière des résultats obtenus. Ce numéro est consacré à une réflexion sur l'interprétation/réinterprétation, circulation, formulation/reformulation, traduction des concepts éthiques et moraux et leur utilisation dans la littérature sapientielle. La dernière section porte, plus spécifiquement, sur la sémantique des énoncés parémiques.--P. [4] of cover.
