E. Badian

A Treatise on the Law of Property in Intellectual Productions in Great Britain and the United States Eaton Sylvester Drone, 1879

From Plataea to Potidaea E. Badian, 1993 From the Greek victory over Persian forces on the field of Plataea to the Athenian blockade of the rebel city of Potidaea - key events in the Persian and Peloponnesian wars, respectively - the half-century of Greek history known as the Pentecontaetia is an era for which sources are few and interpretation is controversial. Now, eminent historian E. Badian brings together six essays - one new and five revised for this volume - that shed new light on one of the key periods in the history of the ancient world. How was the Persian War finally settled, and what was the nature of the relationship that emerged between the two great powers of the Aegean, Athens and Persia? Is it possible to determine the sequence of events of the half-century between Xerxes' retreat and the outbreak of the Peloponnesian War? Should the general picture of Thucydides as the objective and scientific historian be revised, at least as far as this period is concerned? In addressing these and other questions, E. Badian provides the penetrating insights and rigorous scholarly argument, to which his readers have become accustomed.

Early Greece Oswyn Murray, 1993 Murray traces the emergence of urbanisation and social and political structures from the Mycenaean and legendary origins of Greece through to the Persian Wars.

The General Onasander, 2020-07-04 Strategikos, or The General, is a how-to manual written by the the Greek Philosopher Onasander to any would be General. Containing deep insights into the intricacies of warfare, this work has been used by Emperors and Kings stretching thousands of years. The work stands as a window into the mind of an general of antiquity. Though the work was completed in the first century AD, the wisdom of Onasander holds weight even to this day. This is Strategikos.

Regimes of Memory Katharine Hodgkin, Susannah Radstone, 2003-09-02 A focus on memory has come to prominence across a wide range of disciplines. History, literature, philosophy, anthropology, and cultural studies have placed memory at the heart of their interrogations of subjectivity, narrative, time and imagination. At the same time, memory has emerged as a central theme and preoccupation in popular literature, film and television, and the emergence of memory as an academic theme cannot be separated from its prominence in the wider culture. This volume represents, explores and interrogates the current developments, engaging directly with the place of memory in culture, and with memory's meaning's and history.
