**Microsound** Curtis Roads, 2001 A comprehensive presentation of the techniques and aesthetics of composition with sound particles.

Whistler V. Ruskin James McNeill Whistler, 1879

POT OF PAINT Linda Merrill, 1992-02-17 A Pot of Paint reconstructs the lost transcript and revisits the highly contested issues surrounding one of the most celebrated trials in the history of art. A libel suit brought in the London courts by American expatriate artist James McNeill Whistler against John Ruskin, England's most powerful art critic, the trial was essentially a debate of aesthetic theory conducted at a critical hour in the evolution of modern art. After viewing an 1877 exhibition that included some of Whistler's most abstract works, Ruskin declared in print that the artist had flung a pot of paint in the public's face. He called Whistler a coxcomb and said that it was the height of cockney impudence to ask two hundred guineas for a painting such as *Nocturne in Black and Gold: The Falling Rocket*. The dispute was fully covered in the popular press. Using those newspaper accounts, as well as letters, legal papers, Ruskin's instructions to his counsel, and Whistler's later rendition of events in *The Gentle Art of Making Enemies*, Linda Merrill reveals the deeply held, contrary aesthetic ideals of the two parties, and shows that, in many ways, the real litigants in *Whistler v. Ruskin* were traditional, representational art and art that tended toward abstraction. During eighteen months of pretrial delays and two days of testimony from Whistler and several well-known figures in the art world, London debated the value and the meaning of art. A Pot of Paint retrieves these debates for a society that continues to argue the merits of innovation in art and the place of art in the modern world.--BOOK JACKET. How Popular Musicians Learn Professor Lucy Green, 2013-01-28 Popular musicians acquire some or all of their skills and knowledge informally, outside school or university, and with little help from trained instrumental teachers. How do they go about this process? Despite the fact that popular music has recently entered formal music education, we have as yet a limited understanding of the learning practices adopted by its musicians. Nor do we know why so many popular musicians in the past turned away from music education, or how young popular musicians today are responding to it. Drawing on a series of interviews with musicians aged between fifteen and fifty, Lucy Green explores the nature of pop musicians' informal learning practices, attitudes and values, the extent to which these altered over the last forty years, and the experiences of the musicians in formal music education. Through a comparison of the characteristics of informal pop music learning with those of more formal music education, the book offers insights into how we might re-invigorate the musical involvement of the population.

*Treatise on Musical Objects* Pierre Schaeffer,2017-07-25 The *Treatise on Musical Objects* is regarded as Pierre Schaeffer's most important work on music and its relationship with technology. Schaeffer expands his earlier research in *musique concrète* to suggest a methodology of working with sounds based on his experiences in radio broadcasting and the recording studio. Drawing on acoustics, physics, and physiology, but also on philosophy and the relationship between subject and object, Schaeffer's essay summarizes his theoretical and practical work in music composition. Translators Christine North and John Dack present an important book in the history of ideas in Europe that will resonate far beyond electroacoustic music.
