Recovering 9/11 in New York Robert

Fanuzzi, Michael Wolfe, 2014-04-23 This collection of essays offers a rich variety of approaches to how people and institutions in greater New York have sought to find meaning in the 9/11 attacks on the World Trade Center, now a decade on. The views and practices documented here join memory, recovery, and rebuilding together to form a vital new chapter in New York's metropolitan history. Contributors contest the dominant nationalist narrative about 9/11 to generate a more local and socially-engaged form of scholarship that connects directly with the experiences of people who lived or came to work in New York that fateful day and the years that followed. In doing so, these essays give academics and clinical professionals an opportunity to reflect upon and work with the people of a community – in this case, metropolitan New York – as essential partners, and even the main protagonists, in creating new paradigms to capture the significance of these events and their aftermath. The collection is comprised of sixteen essays by experts drawn from a wide range of scholarly and professional fields. They investigate how people across the New York metropolitan region initially responded to and have since remembered the events of September 11th as they rippled out into the city, the surrounding metropolitan region, and the nation at large. They engage directly with the emotional and psychological aftermath of the attacks, approaching the questions of healing and teaching from a variety of institutional, professional, and

non-professional perspectives. The volume concludes with a selection of essays that grapple with the challenge of "Representing 9/11." Contributors to this section evaluate contemporary novels and films that have risked engagement with deep narrative traditions to translate the recent memory of public events into resonant stories and imaginative language. Readers are invited to consider how all these responses – in literature, memorials, media representations, and the words and actions of diverse individuals – still contribute to the complex, yet inescapable challenge of making meaning of 9/11.

Béisbol Ilan Stavans, 2012-01-06 This insightful collection documents Latinos in baseball from an interdisciplinary perspective. From the late, great Roberto Clemente, to Giants legend Juan Marichal to Pedro Martinez, Manny Ramirez, Sammy Sosa, Alex Rodriguez, the Alou brothers, and many, many more, Latinos continue to make their mark on baseball. *Béisbol* takes an interdisciplinary look at this phenomenon, examining the impact of Latino players on the game and all that surrounds it, as well as baseball's impact on Latino players and fans. Under the expert guidance of Ilan Stavans, the book collects essays and literary pieces that offer a wide-range of assessments, from the personal to the academic, exploring the sport from historical, sociological, athletic, religious, and gender-building perspectives. Combining scholarly and literary views, *Béisbol* promotes a comprehensive understanding of the game as both an athletic activity and an entertainment form among Latinos in the Spanish-speaking world and the

United States.

Stealing Lives Arturo J. Marcano Guevara, David P. Fidler, 2002-12-09 While some Latin American superstars have overcome discrimination to strike gold in baseball's big leagues, thousands more Latin American players never make it to The Show. *Stealing Lives* focuses on the plight of one Venezuelan teenager and documents abuses that take place against Latin children and young men as baseball becomes a global business. The authors reveal that in their efforts to secure cheap labor, Major League teams often violate the basic human rights of children. As a young boy growing up in Venezuela, Alexis Quiroz dreamed of playing in the Major Leagues. Alexis's dreams were like those of thousands of other boys in the Dominican Republic and Venezuela, and Major League teams encouraged such dreams by recruiting Latin children as young as 10 and 11 years old. Determined to become a big league player, Alexis finished high school early and dedicated himself to landing a contract with a Major League team. Alexis signed with the Chicago Cubs in 1995 at age 17 and then began a harrowing ordeal of exploitation, mistreatment, and disrespect at the hands of the Chicago Cubs, including playing for the Cubs' Dominican Summer League team in appalling living conditions. Alexis's baseball career came to an abrupt end by an injury for which the Cubs provided no adequate medical treatment. The story continues, however, with Alexis's pursuit of justice in the United States to ensure that other Venezuelan and Dominican boys do not encounter similar experiences. What

happened to Alexis is not an isolated case-Major League teams routinely deny Latin children and young men the basic protections that their U.S. counterparts take for granted. This exploitation violates international legal standards on labor standards and the human rights of children. *Stealing Lives* concludes by analyzing various reforms to redress the inequities big league baseball creates in its globalization.

The Empire Strikes Out Robert Elias, 2010-01-19
Is the face of American baseball throughout the world that of goodwill ambassador or ugly American? Has baseball crafted its own image or instead been at the mercy of broader forces shaping our society and the globe? *The Empire Strikes Out* gives us the sweeping story of how baseball and America are intertwined in the export of "the American way." From the Civil War to George W. Bush and the Iraq War, we see baseball's role in developing the American empire, first at home and then beyond our shores. And from Albert Spalding and baseball's first World Tour to Bud Selig and the World Baseball Classic, we witness the globalization of America's national pastime

and baseball's role in spreading the American dream. Besides describing baseball's frequent and often surprising connections to America's presence around the world, Elias assesses the effects of this relationship both on our foreign policies and on the sport itself and asks whether baseball can play a positive role or rather only reinforce America's dominance around the globe. Like Franklin Foer in *How Soccer Explains the World*, Elias is driven by compelling stories, unusual events, and unique individuals. His seamless integration of original research and compelling analysis makes this a baseball book that's about more than just sports.

Anarchism in Latin America Ángel J.

Cappelletti, 2018-02-13 The available material in English discussing Latin American anarchism tends to be fragmentary, country-specific, or focused on single individuals. This new translation of Ángel Cappelletti's wide-ranging, country-by-country historical overview of anarchism's social and political achievements in fourteen Latin American nations is the first book-length regional history ever published in English. With a foreword by the translator. Ángel J. Cappelletti (1927–1995) was an Argentinian philosopher who taught at Simon Bolivar University in Venezuela. He is the author of over forty works primarily investigating philosophy and anarchism. Gabriel Palmer-Fernandez is Distinguished Professor of Philosophy and Religious Studies at Youngstown State University.

The Turkish Lover Esmeralda Santiago, 2009-03-17

Enthralled admirers of Esmeralda Santiago's memoirs of her childhood have yearned to read more. Now, in *The Turkish Lover*, Esmeralda finally breaks out of the monumental struggle with her powerful mother, only to elope into the spell of an exotic love affair. At the heart of the story is Esmeralda's relationship with the Turk, a passion that gradually becomes a prison out of which she must emerge to become herself. The expansive humanity, earthy humor, and psychological courage that made Esmeralda's first two books so successful are on full display again

in *The Turkish Lover*.

When Baseball Isn't White, Straight and Male Lisa Doris Alexander, 2012-11-14 This book analyzes how sportswriters have discussed issues of race, ethnicity, nationality, sexual identity, age and class within professional baseball from 1998 to the present. Each chapter looks at the media representations of a specific controversy--the 1998 home-run chase, Alex Rodriguez's historic contract signing, Barry Bonds' home runs, Mike Piazza's I am not gay press conference, Effa Manley's Hall of Fame induction, the celebration of Jackie Robinson's legacy, as well as the various incidents involving performance-enhancing drugs. The author puts it together and reveals what messages are being conveyed by the issues.

Almost a Woman Esmeralda Santiago, 2012-06-12 Following the enchanting story recounted in *When I Was Puerto Rican* of the author's emergence from the barrios of Brooklyn to the prestigious Performing Arts High School in Manhattan, Esmeralda Santiago delivers the tale of her young adulthood, where she continually strives to find a balance between becoming American and staying Puerto Rican. While translating for her mother Mami at the welfare office in the morning, starring as Cleopatra at New York's prestigious Performing Arts High School in the afternoons, and dancing salsa all night, she begins to defy her mother's protective rules, only to find that independence brings new dangers and dilemmas.

America's Dream Esmeralda Santiago, 2009-07-01 A novel for secondary school English classes with great writing and important themes.

The Business of Sports Agents Kenneth L.

Shropshire, Timothy Davis, N. Jeremi Duru, 2016-03-22

Successful sports agents are comfortable with high finance and intense competition for the right to represent talented players, and the most respected agents are those who can deal with the pressures of high-stakes negotiations in an honest fashion.

But whereas rules and penalties govern the playing field, there are far fewer restrictions on agents.

In *The Business of Sports Agents*, Kenneth L.

Shropshire, Timothy Davis, and N. Jeremi Duru, experts in the fields of sports business and law, examine the history of the sports agent business and the rules and laws developed to regulate the profession. They also consider recommendations for reform, including uniform laws that would apply to all agents, redefining amateurism in college sports, and stiffening requirements for licensing agents. This revised and expanded third edition brings the volume up to date on recent changes in the industry, including: –the emergence and dominance of companies such as Creative Artists Agency and Wasserman Media Group –high-profile cases of agent misconduct, principally Josh Luchs, whose agent certification was revoked by the NFLPA –legal challenges against the NCAA that may fundamentally change the definition of amateurism –changes to agent regulations resulting from new collective bargaining agreements in all of the major professional sports –evaluation of the effectiveness of the Uniform Athlete Agents Act (2000) to regulate agent conduct –issues faced by the increasing number of agents representing athletes who work abroad as well as athletes from

abroad who work in the United States. Whether aspiring sports agent, lawyer, athlete seeking an agent, or simply interested in understanding the world of sports representation, the reader will find in *The Business of Sports Agents* the most comprehensive overview of the industry as well as a straightforward analysis of its problems and proposed solutions.

Decentralization and Local Democracy in the World United Cities and Local Governments (UCLG), 2008-11-04 'Decentralization and Local Democracy in the World' constitutes a global reference on decentralization by presenting the contemporary situation of local governments in all regions of the world. The report analyzes local authorities in each continent under three main themes: the evolution of territorial structures; responsibilities and power, management and finances; and local democracy. An additional chapter is dedicated to the governance of large metropolises, where rapid growth presents major challenges, in particular in the fast-developing countries of the South. This report also offers a comparative overview of the different realities concerning the state of decentralization, and how the basic indispensable mechanisms for local democracy do, or do not exist in some countries. Relationships between the state and local authorities are evolving toward innovative forms of cooperation. In this context, the role of local authorities in the development of global policies is increasingly recognized. The first Global Observatory on Local Democracy and Decentralization (GOLD) Report is one of the main

products of United Cities and Local Governments (UCLG). The GOLD Report is the first of what will be a triennial publication. UCLG represents and defends the interests of local governments on the world stage, regardless of the size of the communities they serve. Headquartered in Barcelona, the organization's stated mission is: To be the united voice and world advocate of democratic local self-government, promoting its values, objectives and interests, through cooperation between local governments, and within the wider international community.

African Asylum at a Crossroads Iris

Berger,Tricia Redeker Hepner,Benjamin N.

Lawrance,Joanna T. Tague,Meredith

Terretta,2015-05-15 African Asylum at a Crossroads: Activism, Expert Testimony, and Refugee Rights examines the emerging trend of requests for expert opinions in asylum hearings or refugee status determinations. This is the first book to explore the role of court-based expertise in relation to African asylum cases and the first to establish a rigorous analytical framework for interpreting the effects of this new reliance on expert testimony. Over the past two decades, courts in Western countries and beyond have begun demanding expert reports tailored to the experience of the individual claimant. As courts increasingly draw upon such testimony in their deliberations, expertise in matters of asylum and refugee status is emerging as an academic area

with its own standards, protocols, and guidelines. This deeply thoughtful book explores these developments and their effects on both asylum seekers and the experts whose influence may determine their fate. Contributors: Iris Berger, Carol Bohmer, John Campbell, Katherine Luongo, E. Ann McDougall, Karen Musalo, Tricia Redeker Hepner, Amy Shuman, Joanna T. Tague, Meredith Terretta, and Charlotte Walker-Said.
