**The Lucky Star** Ivan Caryll Lenoir, Lenoir Ivan Caryll Charles H Brookfield and Helen, 2021-06-08 To prolong the inevitable, a king attempts to preserve a painter's life when he discovers, through his astrological chart, that their fates are suddenly intertwined. The monarch is forced to keep him alive for his own personal reasons. King Ouf is a powerful leader with a weakness for astrology, myths and superstition. During a reading, it is revealed that he is spiritually linked to a traveling painter named Lazuli. If any harm comes to Lazuli, the same fate will befall the king. Therefore, King Ouf declares that when he dies, his astrologer Siroco must also be killed. In an attempt at self-preservation, both men work tirelessly to keep Lazuli alive. Originally composed by Brookfield and Caryll, *The Lucky Star* was later revised by Helen Lenoir. It's a witty comedy known for its intricate plot and memorable music. Following its debut, the opera ran for more than 140 performances at London's Savoy Theatre. With an eye-catching new cover, and professionally typeset manuscript, this edition of *The Lucky Star* is both modern and readable.

**Japanese Popular Culture and Contents Tourism** Philip A. Seaton, Takayoshi Yamamura, 2018-02-02 Contents tourism is tourism induced by the contents (narratives, characters, locations and other creative elements) of films, novels, games, manga, anime, television dramas and other forms of popular culture. Amidst the boom in global interest in Japanese popular culture, the utilization of popular culture to induce tourism domestically and internationally has been central to the Cool Japan strategy and, since 2005, government policy for local community revitalization. This book presents four main case studies of contents tourism: the phenomenon of anime pilgrimage to sites

appearing in animated film; the travel behaviours and pop-spiritualism of female history fans to heritage sites; the collaboration between local community, fans and copyright holders that underpinned an anime-induced tourism boom in a small town north of Tokyo; and the large-scale economic impacts of tourism induced by NHK's annual samurai period drama (Taiga Drama). It is the first major collection of articles published in English about media-induced tourism in Japan using the contents tourism approach. This book will be of particular interest to students and researchers of media and tourism studies in Asia. This book was previously published as a special issue of Japan Forum.

**Cross-Cultural Management and Quality Performance** Yomi Babatunde,Sui Pheng Low,2015-01-13 This book explores China's global competitiveness in the building of infrastructures with a particular interest in the resource-rich African countries. The book begins with a comprehensive literature review on total quality management (TQM) and national culture, followed by reviews of the construction industries in China and Nigeria. This provides better understanding of the linkages between TQM, based on the International Organization for Standardization's ISO 9000 quality management systems (QMS), and national culture, based on Emeritus Professor Geert Hofstede's national cultural dimensions. Premised on the culture-specificity and bi-directionality relationships between TQM and national culture, this book investigates the construction

industries in China and Nigeria including their strengths, weaknesses, opportunities, and threats (SWOT) as well as an appraisal of their historical and emerging relationships. In its conceptual approach, this book presents different models in the lead up to its primary theoretical contribution of a quality management assessment model (QMAM) that was adopted during the study's field work. The book also presents relevant lessons relating to cross cultural management and quality performance not only to the Nigerians but also other foreign players in Nigeria's construction industry.

Remembering Roadside America John A. Jakle,Keith A. Sculle,2011-09-30 The use of cars and trucks over the past century has remade American geography—pushing big cities ever outward toward suburbanization, spurring the growth of some small towns while hastening the decline of others, and spawning a new kind of commercial landscape marked by gas stations, drive-in restaurants, motels, tourist attractions, and countless other retail entities that express our national love affair with the open road. By its very nature, this landscape is ever changing, indeed ephemeral. What is new quickly becomes old and is soon forgotten. In this absorbing book,

John Jakle and Keith Sculle ponder how “Roadside America” might be remembered, especially since so little physical evidence of its earliest years survives. In straightforward and lively prose, supplemented by copious illustrations—historic and modern photographs, advertising postcards, cartoons, roadmaps—they survey the ways in which automobility has transformed life in the United States. Asking how we might best commemorate and preserve this part of our past—which has been so vital economically and politically, so significant to the cultural aspirations of ordinary Americans, yet so often ignored by scholars who dismiss it as kitsch—they propose the development of an actual outdoor museum that would treat seriously the themes of our roadside history. Certainly, museums have been created for frontier pioneering, the rise of commercial agriculture, and the coming of water- and steam-powered industrialization and transportation, especially the railroad. Is now not the time, the authors ask, for a museum forcefully exploring the automobile’s emergence and the changes it has brought to place and landscape? Such a museum need not deny the nostalgic appeal of roadsides past, but if done properly, it could also tell us much about what the authors describe as “the most important kind of place yet devised in the American experience.” John A. Jakle is Emeritus Professor of Geography at the University of Illinois, Urbana-Champaign. Keith A. Sculle is the former head of research and education at the Illinois Historic Preservation Agency. They have coauthored such books as *America’s Main Street Hotels: Transiency and Community in the Early Automobile Age*; *Motoring: The Highway Experience in America*; *Fast Food: Roadside Restaurants in the Automobile Age*; and *The Gas Station in America*.
