The Black Woods Amy Godine,2023-11-15 The Black Woods chronicles the history of Black pioneers in New York's northern wilderness. From the late 1840s into the 1860s, they migrated to the Adirondacks to build farms and to vote. On their new-worked land, they could meet the \$250 property requirement New York's constitution imposed on Black voters in 1821, and claim the rights of citizenship. Three thousand Black New Yorkers were gifted with 120,000 acres of Adirondack land by Gerrit Smith, an upstate abolitionist and heir to an immense land fortune. Smith's suffrage-seeking plan was endorsed by Frederick Douglass and most leading Black abolitionists. The antislavery reformer John Brown was such an advocate that in 1849 he moved his family to Timbuctoo, a new Black Adirondack settlement in the woods. Smith's plan was prescient, anticipating Black suffrage reform, affirmative action, environmental distributive justice, and community-based racial equity more than a century before these were points of public policy. But when the response to Smith's offer fell radically short of his high hopes, Smith's zeal cooled. Timbuctoo, Freeman's Home, Blacksville and other settlements were forgotten. History would marginalize this Black community for 150 years. In *The Black Woods*, Amy Godine recovers a robust history of Black pioneers who carved from the wilderness a future for their families and their civic rights. Her immersive story returns the Black pioneers and their descendants to their rightful place at the center of this history. With stirring accounts of racial justice, and no shortage of heroes, *The Black Woods* amplifies the unique significance of the Adirondacks in the American imagination.

American Yachts in Naval Service Kenneth Howard Goldman,2020-11-09 Before there was a U.S. Navy, several Colonial navies were all-volunteer--both the crews and the vessels. From its beginnings through World War II, the Navy has relied on civilian sailors and their fast vessels to fill out its ranks of small combatants. Beginning with the birth of the yacht in the Netherlands in the 17th century, this illustrated history traces the development of yacht racing, the advent of combustion-engine power and the contribution privately owned vessels have made to national defense. Vessels conscripted during the Civil War served both the Union and Confederacy--sometimes changing sides after capture. The first USS *Wanderer* saw the slave trade from both sides of the law. Aboard the USS *Sylph*, Oscar-winning actor Ernest Borgnine fought the Third Reich's U-boats under sail. USS *Sea Cloud* made history as the first racially integrated ship in the Navy, three years before President Truman desegregated the military.

Boko Haram and the War on Terror Caroline Varin,2016-08-15 A comprehensive analysis of the rise of Boko Haram from a small religious cult to a major terrorist group, placing them within the context of Nigerian politics and the international War on Terror. In 2009, Nigerian security forces stormed a religious cult by the name of Boko Haram, killing its leader and thousands of followers. Six years later, Boko Haram is an enemy to reckon with, boasting 15,000 members and taking credit for 20,000 deaths. This book looks at the successful rise of this terrorist group, probing the religious and political environment that enabled a relatively small cult to threaten a nation. The study draws on the author's fieldwork in Nigeria, where she had access to officials, activists, psychologists, and military personnel. Written in a clear and accessible manner, it offers a micro-to-macro investigation of the Boko Haram as a phenomenon. It also provides readers with an understanding of the regional dynamics that obstructed political and military cooperation among neighboring countries, enabling Boko Haram's success. This book traces the group's religious origins in the early 2000s and documents its violent political claims in Nigeria and across the border in Northern Cameroon, Niger, and Chad. Finally, it examines the impact of the international War on Terror and presents a comparative study of other contemporary terrorism movements and their networks.

Secrets Angus MacKenzie,1999-04-22 This eye-opening expose, the result of fifteen years of investigative work, uncovers the CIA's systematic efforts over several decades to suppress and censor information. Angus Mackenzie, an award-winning journalist, filed and won a lawsuit against the CIA under the Freedom of Information Act, and in the process became an expert on government censorship and domestic spying. Mackenzie lays bare a complex narrative of intrigue among federal agencies and their senior staff, including the Department of Defense, the executive branch, and the CIA. From cover-ups and secrecy oaths, to scandals over leaks and exposure, to the government's often insidious attempts to monitor and control public access to information, Mackenzie tracks the evolution of a policy of suppression, repression, spying, and harassment.

Exploring key agenda-building drivers that exposed the torture-intelligence nexus and presenting detailed case studies of key media events from the UK and USA, this insightful volume exposes dominant political discourses on the torture-for-intelligence policy. A rigorous exposition of the power-knowledge relationships constituting the torture-intelligence nexus, which re-evaluates agenda-building models in the digital age and assesses the strength of the public sphere across the Third, Fourth and Fifth Estates, Torture, Intelligence and Sousveillance in the War on Terror will appeal to scholars across the social sciences with interests in media and communication, sociology and social theory, politics and political communication, international relations, and journalism.
