The Lost Frontier Rod Miller, 2015-05-01 This collection of short, action-filled stories of the Old West goes beyond the tales everyone knows of the OK Corral and the Dead Man's Hand to focus on the gunfights, massacres, and daring deeds that are the stars of local historians but not featured in

general histories of the old west. These events, while less well known, offer new territory for the Wild West buff to explore. Each chapter in this book tells a story that deserves to be remembered—either because of its importance, its intrigue, or just because it’s interesting. From cowboys and Indians to explorers and electricity to warfare and gunfights to royalty and rogues, the stories here cover a frontier West your education may have missed.

You Are Not American Amanda Frost, 2021-01-26 Shortlisted for the Mark Lynton History Prize

Citizenship is invaluable, yet our status as citizens is always at risk—even for those born on US soil. Over the last two centuries, the US government has revoked citizenship to cast out its unwanted, suppress dissent, and deny civil rights to all considered “un-American”—whether due to their race, ethnicity, marriage partner, or beliefs. Drawing on the narratives of those who have struggled to be treated as full members of “We the People,” law professor Amanda Frost exposes a hidden history of discrimination and xenophobia that continues to this day. The Supreme Court’s rejection of Black citizenship in *Dred Scott* was among the first and most notorious examples of citizenship stripping, but the phenomenon did not end there. Women who married noncitizens, persecuted racial groups, labor leaders, and political activists were all denied their citizenship, and sometimes deported, by a government that wanted to redefine the meaning of “American.” Today, US citizens living near the southern border are regularly denied passports, thousands are detained and deported by mistake, and the Trump administration is investigating the citizenship of 700,000 naturalized citizens. Even elected leaders such as Barack Obama and Kamala Harris are not immune from false claims that they are not citizens eligible to hold office. *You Are Not American* grapples with what it means to be American and the issues surrounding membership, identity, belonging, and exclusion that still occupy and divide the nation in the twenty-first century.

Transnational Crime and Global Security [2 volumes] Philip L. Reichel,Ryan Randa,2018-01-12 This two-volume work offers a comprehensive examination of the distressing topics of transnational crime and the implications for global security. National security is a key concern for individual nations, regions, and the global community, yet globalism has led to the perfusion of transnational crime such that it now poses a serious threat to the national security of governments around the world. Whether attention is concentrated on a particular type of transnational crime or on broader concerns of transnational crime generally, the security issues related to preventing and combatting transnational crime remain of top-priority concern for many governments. Transnational Crime and Global Security has been carefully curated to provide students, scholars, professionals, and consultants of criminal justice and security studies with comprehensive information about and in-depth analysis of contemporary issues in transnational crime and global security. The first volume covers such core topics as cybercrime, human trafficking, and money laundering and also contains infrequently covered but nevertheless important topics including environmental crime, the weaponization of infectious diseases, and outlaw motorcycle gangs. The second volume is unique in its coverage of security issues related to such topics as the return of foreign terrorist fighters, using big data to reinforce security, and how to focus efforts that encourage security cooperation.

Dressed for War Nina Edwards, 2014-10-27 Men in khaki and grey squatting in the trenches, women at work, gender bending in goggles and overalls over their trousers, a girl at the Paris theatre in pleated, beaded silk, a bangle on her forearm made from copper fuse wire from the Somme. What people wear matters. Copiously illustrated, this book is the story of what people on both sides wore on the front line and on the home front through the seismic years of World War I. Nina Edwards, reveals fresh aspects of the war through the prism of the smallest details of personal dress, of clothes, hair and accessories, both in uniform and civilian wear. She explores how, during a period of extraordinary

upheaval and rapid change, a particular preference for a type of razor blade or perfume, say, or the just-so adjustment to the tilt of a hat, offer insights into the individual experience of men, women and children during the course of World War I.
