Tipping Points Liz Wheeler,2019-08-06 NATIONAL BESTSELLER Terrific. – BEN SHAPIRO Outstanding. – DANA LOESCH The Left is on the attack, and the war for our country is at a crucial tipping point. Liberals know they're within reach of radically transforming America. They don't like the U.S. Constitution. They're allergic to Americans' "gun culture." They find our faith and our devotion to family distasteful. And our commitment to liberty positively sends them into a panic. As soon as the Democrats get power anywhere, they stand ready to throw our God-given rights under the bus of political correctness, transgender insanity, and socialism (the economic system that always promises equality and utopia, but somehow always delivers resentment, poverty, and decay). So how can we tip the momentum back in our favor? How can we fight effectively for freedom, the U.S. Constitution, limited government, faith and family, and the survival of the American Republic? Liz

Wheeler to the rescue! The popular host of One America News Network's Tipping Point with Liz Wheeler is a brilliant and highly effective debater who shows how we can go on the rhetorical attack against the Left—and win—with a multi-technique program for catching the Left in their inconsistencies and under-handed schemes and skewering them for their bold-faced lies. In Tipping Points: How to Topple the Left's House of Cards, Liz Wheeler identifies the five "Tipping Points" where liberals are poised to win, trains you in her proven debating techniques, and deputizes you to take up arms in the fight for our nation's heart and soul. It's training you need right now, today. Our country is at a tipping point. And make no mistake—if the Left isn't defeated, they're taking down America.

G20 Governance for a Globalized World John J. Kirton, 2016-04-15 This book offers the most thorough, detailed inside story of the preparation, negotiation, performance, and achievements of G20 gatherings from their start at the finance level in 1999 through their rise to become leader-level summits in response to the great global financial crisis in 2008. Follow the moves of America's George Bush and Barack Obama, Britain's Gordon Brown and David Cameron, Canada's Stephen Harper, Germany's Angela Merkel, and other key leaders as they struggle to contain the worst global recession since the Great Depression of the 1930s. This book provides a full chapter-long account of each of the first four G20 summits from Washington to Toronto with summaries of the ensuing summits. It uses international relations theory to build and apply a model of systemic hub governance to back its central claim to show convincingly that G20 performance has grown to successfully govern an increasingly interconnected, complex, crisis-ridden, globalized twenty-first century world.

Global Financial Crisis Chiara Oldani, Professor John J. Kirton, Professor Paolo Savona, 2013-03-28 Out of the debate over the effectiveness of the policy responses to the 2008 global financial crisis as well as over the innovativeness of global governance comes this collection by leading academics and practitioners who explore the dynamics of economic crisis and impact. Edited by Paolo Savona, John J. Kirton, and Chiara Oldani **Global Financial Crisis: Global Impact and Solutions** examines the nature of the recent crisis, its consequences in major regions and countries, the innovations in the ideas, instruments and institutions that constitute national and regional policy responses, building on the G8's response at its L'Aquila Summit. Experts from Africa, North America, Asia and Europe examine the implications of those responses for international cooperation, coordination and institutional change in global economic governance, and identify ways to reform and even replace the architecture created in the mid 20th century in order to meet the global challenges of the 21st.

Art in England Sara N. James, 2016-10-31 Art in England fills a void in the

scholarship of both English and medieval art by offering the first single volume overview of artistic movements in Medieval and Early Renaissance England. Grounded in history and using the chronology of the reign of monarchs as a structure, it is contextual and comprehensive, revealing unobserved threads of continuity, patterns of intention and unique qualities that run through English art of the medieval millennium. By placing the English movement in a European context, this book brings to light many ingenious innovations that focused studies tend not to recognize and offers a fresh look at the movement as a whole. The media studied include architecture and related sculpture, both ecclesiastical and secular; tomb monuments; murals, panel paintings, altarpieces, and portraits; manuscript illuminations; textiles; and art by English artists and by foreign artists commissioned by English patrons.

Critical Disability Theory Richard Francis Devlin, Dianne Pothier, 2006
People with disabilities in Canada experience and inhabit a system of deep structural, economic, social, political, legal, and cultural inequality - a regime of dis-citizenship. Despite the widespread belief that Canada is a country of liberty, equality, and inclusion, many persons with disabilities experience social exclusion and marginalization. They are socially constructed as second-class citizens. Critical Disability Theory inquires into the possibilities and parameters of a critical theory of disability. Its essays argue that accommodating equality for the disabled is not fundamentally a question of medicine or health, nor is it just an issue of sensitivity or compassion. Rather, it is a question of politics, of power and powerlessness. Conventional understandings of disability are dependent upon assumptions that characterize disability as misfortune and by implication privilege the normal over the abnormal. Consequently, it is presumed that societal organization based upon able-bodied and -minded norms is inevitable and the best we can do is show sympathy or pity. This book argues that we need new ways to think about the nature of disability, a new understanding of participatory citizenship that encompasses the disabled, new policies to respond to their needs, and a new vision of their entitlements. Twenty-four scholars from a variety of disciplines come together here to identify the problems with traditional approaches to disability and to provide new directions. The essays range from focused empirical and experiential studies of different disabilities, to policy analyses, legal interrogations, and philosophical reconsiderations. The result will be of interest to policy

makers, professionals, academics, non-governmental organizations, and grass-roots activists.

Madeleine L'Engle Aaron Rosenberg,2005-12-15 Best known for her young adult novel *A Wrinkle in Time*, and fiction that merges fantasy, science, and theology, Madeleine L'Engle received the National Humanities Medal twelve days before her eighty-sixth birthday. This engaging biography offers a glimpse into the life and work of one of America's favorite authors who inspires readers with characters who make a real effort to learn and grow, and are rewarded for the pain they've suffered. In it we learn her work methods, and that her goal in writing a book is to ask questions, hoping her book will help find the answers.

International Handbook on Informal Governance Thomas Christiansen,Christine Neuhold,2012-01-01 ÒThis volume provides a welcome overview of the diverse ways in which informal practices and norms shape policy in national states, the European Union, and international relations. The wide range of cases that feature in the volume point to the normative and substantive importance of informality. This volume is a valuable contribution to a fascinating and under-researched topic.Õ Ð Gary Marks, University of North Carolina-Chapel Hill, US and VU Amsterdam, The Netherlands Acknowledging that governance relies not only on formal rules and institutions but to a significant degree also on informal practices and arrangements, this unique Handbook examines and analyses a wide variety of theoretical, conceptual and normative perspectives on informal governance. The insights arising from this focus on

informal governance are discussed from various disciplinary perspectives, within different policy domains, and in a number of regional and global contexts. This Handbook is an important contribution that will put informal governance firmly on the map of academic scholarship with its review of the range of the different uses and effects of informal arrangements across the globe. Bringing together multidisciplinary contributions on informal governance arrangements, this Handbook will appeal to postgraduate students in political science and scholars within the field of political science and global governance.

Fragrant Mandy Aftel, 2014-10-16 Winner of the 2016 Perfumed Plume Award The "Alice Waters of American natural perfume" (indieperfume.com) and author of the Art of Flavor celebrates our most potent sense, through five rock stars of the fragrant world Mandy Aftel is widely acclaimed as a trailblazer in natural perfumery. Over two decades of sourcing the finest aromatic ingredients from all over the world and creating artisanal fragrances, she has been an evangelist for the transformative power of scent. In *Fragrant*, through five major players in the epic of aroma, she explores the profound connection between our sense of smell and the appetites that move us, give us pleasure, make us fully alive. Cinnamon, queen of the Spice Route, touches our hunger for the unknown, the exotic, the luxurious. Mint, homegrown the world over, speaks to our affinity for the familiar, the native, the authentic. Frankincense, an ancient incense ingredient, taps into our longing for transcendence, while ambergris embodies our unquenchable curiosity. And exquisite jasmine exemplifies our yearning for beauty, both evanescent and enduring. In addition to providing a riveting initiation into the history, natural history, and philosophy of scent, *Fragrant* imparts the essentials of

scent literacy and includes recipes for easy-to-make fragrances and edible, drinkable, and useful concoctions that reveal the imaginative possibilities of creating with—and reveling in—aroma. Vintage line drawings make for a volume that will be a treasured gift as well as a great read.

Moving Health Sovereignty in Africa Andrew F. Cooper, Hany Besada, 2016-04-15 Today's era of intense globalization has unleashed dynamic movements of people, pathogens, and pests that overwhelm the static territorial jurisdictions on which the governance provided by sovereign states and their formal intergovernmental institutions is based. This world of movement calls for new ideas and institutions to govern people's health, above all in Africa, where the movements and health challenges are the most acute. This book insightfully explores these challenges in ways that put the perspectives of Africans themselves at centre stage. It begins with the long central and still compelling African health challenge of combating the pandemic of HIV/AIDS. It then examines the global governance responses by the major multilateral organizations of the World Bank and the World Trade Organization and the newer informal flexible democratically oriented ones of the Group of Eight. It also addresses the compounding health challenge created by climate change to assess both its intensifying impact on Africa and how all international institutions have largely failed to link climate and health in their governance response. It concludes with several recommendations about the innovative ideas and institutions that offer a way to closing the great global governance gaps and thus improving Africans' health and that of citizens beyond.
