*Free Rein to Kill* Madeline Kisha, Paula Andrasko, 2005-06 *Free Rein to Kill* chronicles the heart-wrenching true story of an elderly patient who was admitted to the hospital with an impacted bowel and involuntarily euthanized after being incorrectly diagnosed with end-stage cancer. Coauthors Maddie Kisha and Paula Andrasko allege that the Florida doctors caring for their father, Paul Joseph Vertucci, Sr., neglected his impacted bowel and inaccurately diagnosed end-stage cancer, claiming that the disease had metastasized and was therefore incurable. Released with in-home hospice care, his daughters' determination and love were not enough to save him—Vertucci eventually died from morphine-related complications. Kisha and Andrasko contend that their father was involuntarily euthanized due to the ramifications of the Florida Wrongful Death Act—alleging that the state legislation gives doctors, hospitals and insurance companies free rein to kill. The authors bring the controversial subject of euthanasia to the forefront as they recount the rich and loving relationship they shared with their beloved father.

*At Home on an Unruly Planet* Madeline Ostrander, 2022-08-02 One of Kirkus Reviews' 100 Best Nonfiction Books of 2022 A gold Nautilus Book Award winner, Ecology & Environment From rural Alaska to coastal Florida, a vivid account of Americans working to protect the places they call home in an era of climate crisis How do we find a sense of home and rootedness in a time of unprecedented upheaval? What happens when the seasons and rhythms in which we have built our lives go off-kilter? Once a distant forecast, climate change is now reaching into the familiar, threatening our basic safety and forcing us to reexamine who we are and how we live. In *At Home on an Unruly Planet*, science journalist Madeline Ostrander reflects on this crisis not as an abstract scientific or political problem but as a palpable force that is now affecting all of us at home. She offers vivid accounts of people fighting to protect places they love from increasingly dangerous circumstances. A firefighter works to rebuild her town after catastrophic western wildfires. A Florida preservationist strives to protect one of North America's most historic cities from rising seas. An urban farmer struggles to transform a California city plagued by fossil fuel disasters. An Alaskan community heads for higher ground as its land erodes. Ostrander pairs deeply reported stories of hard-won optimism with lyrical essays on the strengths we need in an era of crisis. The book is required reading for anyone who wants to make a home in the twenty-first century.

**The Supreme Court of Florida** Neil Skene, 2017-08-08 “A fascinating judicial study. The importance of the modern high court’s docket is so thoroughly and expertly chronicled in this book: reapportionment, courtroom cameras, personal injury, family law, environmental law, capital punishment, criminal justice, and equal justice under law.”—Thomas E. Baker, coauthor of *Appellate Courts: Structures, Functions, Processes, and Personnel* “A highly readable portrait of a crucial time in the history of the state high court. It brings to life the jurists and lawyers who contributed so much to contemporary Florida law.”—Mary Ziegler, author of *After Roe: The Lost History of the Abortion Debate* “A richly sourced, thoroughly researched, and entertaining account of one of the most significant eras in the history of what is arguably the most important (and least reported) branch of Florida government. Tells not only how the court’s decisions impact people’s lives but also how the personalities and life experience of new justices lead to evolutions in the law.”—Martin A. Dyckman, author of *A Most Disorderly Court: Scandal and Reform in the Florida Judiciary* “Necessary reading for anyone interested in law and politics in Florida. Makes historical figures come alive.”—Jon L. Mills, author of *Privacy in the New Media Age* This third volume in the history of the Florida Supreme Court describes the court during its most tumultuous years. Amid the upheaval of the civil rights movement, the Vietnam War, and Watergate, the story begins with reform in the Florida court system. It includes the court’s first black justice, Joseph Hatchett; Governor Reubin Askew’s new system for merit selection of justices; and revision of Article V, the section of the state constitution dealing with the judiciary. Neil Skene details landmark court decisions; the introduction of cameras in court; changes to media law, personal injury law, and family and divorce law; privacy rights; gay rights; death penalty cases; and the appointment of the first female justice, Rosemary Barkett. Shining a light on the often invisible work that informs the law, Skene recognizes lawyers and lower-court judges whose arguments and opinions have shaped court rulings. He integrates firsthand stories from justices with documents, articles, and cases. The result is an absorbing portrayal of a judicial institution adapting to a turbulent time of deep political and social change.

**Florida without Borders** Judy A. Hayden, Sharon Kay Masters, Kim Vaz, 2020-11-09 *Florida without Borders: Women at the Intersections of the Local and Global* highlights the problems facing women around the world by featuring papers that explore women’s activism across borders regarding gender and human rights, issues regarding women and poverty, globalization, economic value of immigrant labor, militarism and human trafficking. Also discussed are the opportunities and obstacles women face when they act to counter the negative impact of these forces. This anthology is a collection of essays by feminist scholars and students who examine discourses on border crossings, political and cultural censorship, gendered codes of conduct, prescribed behavior for women and the activism that emerges to address identity formation, to advance contested meanings and to build coalitions. Throughout the essays, the authors investigate the concepts of the gendered body in the context of global activism, the uses of women’s bodies in domestic, military, and sexual service, and the breaching of the body’s borders and boundaries in the project of feminist social change.

*It's Complicated* Danah Boyd, 2014-02-25 Surveys the online social habits of American teens and analyzes the role technology and social media plays in their lives, examining common misconceptions about such topics as identity, privacy, danger, and bullying.

*Black and White* Timothy Thomas Fortune, 1884 In discussing the political and industrial problems of the South, I base my conclusions upon a personal knowledge of the condition of classes in the South, as well as upon the ample data furnished by writers who have pursued, in their way, the question before me. That the colored people of the country will yet achieve an honorable status in the national industries of thought and activity, I believe, and try to make plain. In discussion of the land and labor problem I but pursue the theories advocated by more able and experienced men, in the attempt to show that the laboring classes of any country pay all the taxes, in the last analysis, and that they are systematically victimized by legislators, corporations and syndicates.

*Cork Dork* Bianca Bosker, 2017-03-28 INSTANT NEW YORK TIMES BESTSELLER AND A NEW YORK TIMES CRITICS' PICK “Thrilling . . . [told] with gonzo élan . . . When the sommelier and blogger Madeline Puckette writes that this book is the Kitchen Confidential of the wine world, she’s not wrong, though Bill Buford’s *Heat* is probably a shade closer.” —Jennifer Senior, *The New York Times* Professional journalist and amateur drinker Bianca Bosker didn’t know much about wine—until she discovered an alternate universe where taste reigns supreme, a world of elite sommeliers who dedicate their lives to the pursuit of flavor. Astounded by their fervor and seemingly superhuman sensory powers, she set out to uncover what drove their obsession, and whether she, too, could become a “cork dork.” With boundless curiosity, humor, and a healthy dose of skepticism, Bosker takes the reader inside underground tasting groups, exclusive New York City restaurants, California mass-market wine factories, and even a neuroscientist’s fMRI machine as she attempts to answer the most nagging question of all: what’s the big deal about wine? What she learns will change the way you drink wine—and, perhaps, the way you live—forever. “Think: Eat, Pray, Love meets Somm.” —theSkimm “As informative as it is, well, intoxicating.” —Fortune

**Digital Punishment** Sarah Esther Lageson, 2020 Data-driven criminal justice operations creates millions of criminal records each year in the United States. Documenting everything from a police stop to a prison sentence, these records take on a digital life of their own as they are collected and posted by police, courts, and prisons, and then re-posted on social media, online news and mugshot galleries, and bought and sold by data brokers as an increasingly valuable data commodity. The result is digital punishment, where mere suspicion or a brush with the law can have lasting consequences. This analysis describes the transformation of criminal records into millions of data points, the commodification of this data into a valuable digital resource, and the impact of this shift on people, society, and public policy. The consequences of digital punishment, as described in hundreds of interviews detailed in this book, lead people to purposefully opt out of society as they cope with privacy and due process violations--

**Bad Therapy** Abigail Shrier, 2024-02-27 From the author of Irreversible Damage, an investigation into how mental health overdiagnosis is harming, not helping, children 'A pacy, no-holds barred attack on mental health professionals and parenting experts ... thought-provoking' Financial Times 'A message that parents, teachers, mental health professionals and policymakers need to hear' New Statesman In virtually every way that can be measured, Gen Z's mental health is worse than that of previous generations. Youth suicide rates are climbing, antidepressant prescriptions for children are common, and the proliferation of mental health diagnoses has not helped the staggering number of kids who are lonely, lost, sad and fearful of growing up. What's gone wrong? In Bad Therapy, bestselling investigative journalist Abigail Shrier argues that the problem isn't the kids - it's the mental health experts. Drawing on hundreds of interviews with child psychologists, parents, teachers and young people themselves, Shrier explores the ways the mental health industry has transformed the way we teach, treat, discipline and even talk to our kids. She reveals that most of the therapeutic approaches have serious side effects and few proven benefits: for instance, talk therapy can induce rumination, trapping children in cycles of anxiety and depression; while 'gentle parenting' can encourage emotional turbulence - even violence - in children as they lash out, desperate for an adult to be in charge. Mental health care can be lifesaving when properly applied to children with severe needs, but for the typical child, the cure can be worse than the disease. Bad Therapy is a must-read for anyone questioning why our efforts to support our kids have backfired - and what it will take for parents to lead a turnaround.

A Contemporary History of the U.S. Army Nurse Corps, This book focuses on an organization, the U.S. Army Nurse Corps, which the author has been privileged to be affiliated with - in one way or another - for the greatest part of her adult life. As an active duty officer, the author had first-hand knowledge about the Army Nurse Corps inner workings and spent the last years of her Army career (from 1992) researching and writing the Corps history. One of her goals in researching and writing this history was to intrigue and provide a sense of gratification for the reader. After the conclusion of the Vietnam War, several wide-ranging and significant changes exerted myriad effects on the Army Nurse Corps. The most influential of these phenomena included the dismantling of the Selective Service System, the reorganization of the Army, the launch of the Health Services Command (HSC), the opening of the Academy of Health Sciences, the transformation of the Office of the Army Surgeon General, the inauguration of improvements in the Army Reserve and National Guard, and the evolution in the roles and status of women.

Religion and Healing in America Linda L. Barnes, Susan S. Sered, 2005 Americans have long been aware of the phenomenon loosely known as faith healing. During the 1990s the American cultural landscape changed and religious healing became a commonplace feature in our society. This is a look at this new reality.

**Protecting Water Resources with Smart Growth**, 2004 Protecting Water Resources with Smart Growth is intended for audiences such as communities, local governments, state and regional planners already familiar with smart growth and are now seeking more ideas on how to protect their water resources. The document is a compilation of 75 policies designed to protect water resources and implement smart growth. The majority of these policies (46) are oriented to the watershed, or regional level; the other 29 are targeted for specific development sites.

**Refuge beyond Reach** David Scott FitzGerald, 2019-03-14 Media pundits, politicians, and the public are often skeptical or ambivalent about granting asylum. They fear that asylum-seekers will impose economic and cultural costs and pose security threats to nationals. Consequently, governments of rich, democratic countries attempt to limit who can approach their borders, which often leads to refugees breaking immigration laws. In Refuge beyond Reach, David Scott FitzGerald traces how rich democracies have deliberately and systematically shut down most legal paths to safety. Drawing on official government documents, information obtained via WikiLeaks, and interviews with asylum seekers, he finds that for ninety-nine percent of refugees, the only way to find safety in one of the prosperous democracies of the Global North is to reach its territory and then ask for asylum. FitzGerald shows how the US, Canada, Europe, and Australia comply with the letter of law while violating the spirit of those laws through a range of deterrence methods-first designed to keep out Jews fleeing the Nazis-that have now evolved into a pervasive global system of remote control. While some of the most draconian remote control practices continue in secret, Fitzgerald identifies some pressure points and finds that a diffuse humanitarian obligation to help those in need is more difficult for governments to evade than the law alone. Refuge beyond Reach addresses one of the world's most pressing challenges-how to manage flows of refugees and other types of migrants-and helps to identify the conditions under which individuals can access the protection of their universal rights.

Modernism and Mourning Patricia Rae, 2007 The essays in Modernism and Mourning examine the work of mourning in modernist literature, or more precisely, its propensity for resisting this work. Drawing from recent developments in the theory and cultural history of mourning, its contributors explore the various ways in which modernist writers repudiate Freud's famous injunction to mourners to work through their grief, endorsing instead a resistant, or melancholic mourning that shapes both their themes and their radical experiments with form. The emerging picture of the pervasive influence of melancholic mourning in modernist literature casts new light on longstanding critical arguments, especially those about the politics of modernism. It also makes clear the pertinence of this literature to the present day, in which the catastrophic losses of 9/11, of retaliatory war, of racially motivated genocide, of the AIDS epidemic, have made the work of mourning a subject of widespread interest and debate. Patricia Rae is Head of the Department of English at Queen's University.
