**Why Do We Quote?** Ruth Finnegan, 2011-03-01 Quoting is all around us. But do we really know what it means? How do people actually quote today, and how did our present systems come about? This book brings together a down-to-earth account of contemporary quoting with an examination of the comparative and historical background that lies behind it and the characteristic way that quoting links past and present, the far and the near. Drawing from anthropology, cultural history, folklore, cultural studies, sociolinguistics, literary studies and the ethnography of speaking, Ruth Finnegan 's fascinating study sets our present conventions into crosscultural and historical perspective. She traces the curious history of quotation marks, examines the long tradition of quotation collections with their remarkable recycling across the centuries, and explores the uses of quotation in literary, visual and oral traditions. The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation, allusion, authorship, originality and plagiarism .

*The Media and the War on Terrorism* Stephen Hess, Marvin Kalb, 2003-07-16 These candid conversations capture the difficulties of reporting during crisis and war, particularly the tension between government and the press. The participants include distinguished journalists—American and foreign, print and broadcast—and prominent public officials, past and present. They illuminate the struggle to balance free speech and the right to know with the need to protect sensitive information in the national interest. As the Information Age collides with the War on Terrorism, that challenge becomes even more critical and daunting. We are very careful in what we talk about publicly. We do not want to paint a picture for the bad guys. So we don't talk very much at all about what we're going to do going forward.—Victoria Clarke, Department of Defense This was a war that was very different. It was conducted primarily by about 200 to 250 special forces soldiers on the ground. There were no reporters with those soldiers until after the fall of Kandahar, until the war was essentially over. There were no eyes and ears, and that's the way the Pentagon wants it.—John McWethy, ABC News I covered Capitol Hill for a very long time and was always astounded by the nonpolitical motivation of a lot of people that are up there who really do want to make

the world better, want to make the U.S. better. So don't come away believing that because there are political implications that there are always political motivations.—Candy Crowley, CNN There is a feeling among the community, Muslim Americans, and also overseas that we might become the new enemy. But so far nobody knows whether it is just because of the war or if it's going to last.—Hafez Al-Mirazi, Al-Jazeera Cosponsored with the Shorenstein Center on the Press, Politics and Public Policy at the Kennedy School, Harvard University.

**Battletech Technical Readout 3150** Catalyst Game Labs,2015-09-02 War has spread across the Inner Sphere, shattering and shifting alliances both old and new. As the Clans once more close in on humanity's homeworld of Terra, the walls of Fortress have come down, revealing the return of Devlin Stone. Desperate for any edge, the Great Houses, Clans, and Periphery states of the Inner Sphere have unleashed a flood of new war machines, rushing them into battle on every front.

**Baltimore** Matthew A. Crenson,2019-10-01 Peering into the city's 300-odd neighborhoods, this fascinating account holds up a mirror to Baltimore, asking whites in particular to reexamine the past and accept due responsibility for future racial progress.

**A Brotherhood of Liberty** Dennis Patrick Halpin,2019-05-01 In A Brotherhood of Liberty, Dennis Patrick Halpin shifts the focus of the black freedom struggle from the Deep South to argue that Baltimore is key to understanding the trajectory of civil rights in the late nineteenth and early twentieth centuries. In the 1870s and early 1880s, a dynamic group of black political leaders migrated to Baltimore from rural Virginia and Maryland. These activists, mostly former slaves who subsequently trained in the ministry, pushed Baltimore to fulfill Reconstruction's promise of racial equality. In doing so, they were part of a larger effort among African Americans to create new forms of black politics by founding churches, starting businesses, establishing community centers, and creating newspapers. Black Baltimoreans successfully challenged Jim Crow regulations on public transit, in the courts, in the voting booth, and on the streets of residential neighborhoods. They formed some of the nation's earliest civil rights organizations, including the United Mutual Brotherhood of Liberty, to define their own freedom in the period after the Civil War. Halpin shows how black Baltimoreans' successes prompted segregationists to reformulate their tactics. He examines how segregationists countered activists' victories by using Progressive Era concerns over urban order and corruption to criminalize and disenfranchise African Americans. Indeed, he argues the Progressive Era was crucial in establishing the racialized carceral state of the twentieth-century United States. Tracing the civil rights victories scored by black Baltimoreans that inspired activists throughout the nation and subsequent generations, A Brotherhood of Liberty highlights the strategies that can continue to be useful today, as well as the challenges that may be faced.

**Limba Stories and Story-Telling** Ruth Finnegan,2018-05-16 The Limba are rice farmers living in the hills of northern Sierra Leone who have, until recently, been somewhat despised by their neighbours. Yet they possess a subtle and fascinating literature, as illustrated by this detailed study of their stories, collected and translated by Dr. Finnegan. Their literary and artistic value emerges clearly when the significance of their

'oral' character is realized. The introductory chapters full consider such points as the importance of the actual delivery, the part played by the story-teller, and the changing forms arising from the originality of individual narrators. The book throws light on the general study of oral composition and performance as well as on the literary spirit of a previously unstudied West African people.

**South Pacific Oral Traditions** Ruth H. Finnegan, Margaret Orbell, 1995 Exploring the oral traditions of the South Pacific, this work demonstrates that oral media and native cultural forms are vital throughout the South Pacific. It appeals to scholars concerned with the relationships between verbal art, social change, gender, power, and social organization.

*Participating in the Knowledge Society* R. Finnegan, 2005-09-27 In current debates about the 'knowledge society' and the organization of 'research', the spotlight is most often on the universities. This interdisciplinary and transhistorical volume focuses on the less often-recognized work of independent researchers creating and participating in knowledge outside the academy, from seventeenth-century north-country astronomers to Victorian naturalists to today's think tanks, community historians and new forms of researching and publishing through the internet. These intriguing cases raise challenging issues about the location, definition, and validation of 'research', about active participation in knowledge-generation, and about the perhaps changing boundaries of university today.

**The Betrayal Of The Negro** Rayford W. Logan, 1997-03-22 Between the end of Reconstruction in 1877 and the end of World War I in 1918, African Americans experienced their nadir. The Betrayal of the Negro (originally published as The Negro in American Life and Thought: The Nadir, 1877-1901 and subsequently expanded) is the only full-scale account to document with encyclopedic research this neglected phase in American history. The author examines every aspect of our country's post-Reconstruction retreat from equality: the economic factors, the Supreme Court decisions, Booker T. Washington and his Era of Compromise, and, in a unique and disturbing survey, the racist caricatures that dominated the most liberal newspapers and magazines of the day. Dispassionate and insightful, Logan unfolds a narrative of national betrayal as harrowing as it is heartbreaking.

*Badenheim Nineteen-thirty-nine* Aharon Apelfeld, 1980 A tale of Europe in the days just before the war. It tells of a small group of Jewish holiday makers in the resort of Badenheim in the Spring of 1939. Hitler's war looms, but Badenheim and its summer residents go about life as normal.
