Dance Across the USA Jonathan Givens,2017-12-09 Dance Across the USA is a collection of dancers from all over America, helping to showcase what is beautiful and inspiring in this country. Covering 22,264 miles, 163 Dancers, 90 consecutive days, 56 locations, & 50 states, Master Photographer Jonathan Givens created this project to show what really makes up America. Diversity that exists both in the physical landscape, and in the dancers who make America their home.The photographs in this book are real. The dancers actually did what you see, in the places shown. The skies are real, the landscape is real, even the dirty feet, are real. There is no digital compositing here, nor are there any trampolines or wires. Using only Canon cameras and flashes, Jonathan quite literally went to the ends of the nation, to work with dancers ranging from 5 to 61. Professionals and amateurs, students and teachers, boys and girls, cat lovers and dog lovers, everyone and anyone was welcome. Over 3000 dancers applied to be a part of the project, and those selected for the book reflect not only the range of what makes up dance in America, but they also showed a love for this country and its wonders.Dance Across the USA is a fun, beautiful, and inspirational look at America & both its places and its people. It is our differences and our diversity that combine to make us all Americans. From the sandy Florida beaches to the rugged Washington coast, the glaciers of Alaska to Death Valley in California, diversity is the hallmark of what literally makes up America. That diversity is reflected in our citizens, and our dancers. Join Jonathan and the Mighty Buford, as they make this historic journey, that no one has ever been crazy enough to try before.

Understanding Crime Trends National Research Council,Division of Behavioral and Social Sciences and Education,Committee on Law and Justice,Committee on Understanding Crime Trends,2009-01-05 Changes over time in the levels and patterns of crime have significant consequences that affect not only the criminal justice system but also other critical policy sectors. Yet compared with such areas as health status, housing, and employment, the nation lacks timely information and comprehensive research on crime trends. Descriptive information and explanatory research on crime trends across the nation that are not only accurate, but also timely, are pressing needs in the nation's crime-control efforts. In April 2007, the National Research Council held a two-day workshop to address key substantive and methodological issues underlying the study of crime trends and to lay the groundwork for a proposed multiyear NRC panel study of these issues. Six papers were commissioned from leading researchers and discussed at the workshop by experts in sociology, criminology, law, economics, and statistics. The authors revised their papers based on the discussants' comments, and the papers were then reviewed again externally. The six final workshop papers are the basis of this volume, which represents some of the most serious thinking and research on crime trends currently available.
