More Than Asphalt, Concrete, and Steel ,1997 The Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) encourages the mainstreaming of environmental, cultural, and social considerations in every aspect of transportation planning and development. ISTEA has paved the way for non-traditional projects by creating flexible funding. This unprecedented tool enables state and local decision makers to look beyond traditional highway and transit agendas. It empowers them to spend highway dollars on the most appropriate transportation solutions for their needs. They have chosen transportation activities ranging from renovating an historic bridge to realigning a main street to redesigning an entire transportation system. This booklet presents some of their exemplary environmental projects and processes.

The Last Dance for Grace Crystal Mangum,Gail Mangum Mangum,2008-06 As a single mother, trying to go to college and raise her children, Crystal Gail Mangum, believing her options were limited, made a choice to become an exotic dancer to earn money. This decision, which she now views as the biggest mistake in her life, led her to one night in 2006 appear before a group of Duke University lacrosse players at a house party. Daniel Boone's Window Matthew Wimberley,2021-09-08 *Daniel Boone's Window*, a new book of poetry by Matthew Wimberley, meditates on the past and future of contemporary Appalachia through explorations of both mythologized and actual landscapes. In poems that confront a region indelibly shaped by environmental turmoil, economic erasure, and the weight of an outside world intent on destroying it, *Daniel Boone's Window* works to reclaim and reckon with the realities and complexities of Appalachia. Wimberley's poetry seeks to dispel monolithic narratives of the region by capturing the rugged and the beautiful, approaching place with wonderment that subverts stereotype and blame.

Reaching People Under 40 while Keeping People over 60 Edward H Hammett,2007-02-01 Many established churches are facing a number of challenges in today's increasingly secular culture. Such a shift in many communities creates a challenge of church growth and church health when it seems that satisfying the needs of one group creates barriers to reaching another group. So many are asking, How do you keep people over sixty years of age, who often hold church culture values-while at the same time reach people under forty, who often hold postmodern values? If a church is interested in growing, this situation becomes a major challenge. *Reaching People under 40 while Keeping People over 60* looks at the church as it seeks to function in a new world. It looks at the differences in the generations and at postmodernism - not just a generational difference but a global change. Most importantly, *Reaching People under 40 while Keeping People over 60* looks at what a church can do in this new age to help the church survive - and thrive! Foreword by Bill Easum. A TCP Leadership Series title.

The Rise and Fall of the Branchhead Boys Rob Christensen,2019 Louisiana had the Longs, Virginia had the Byrds, Georgia had the Talmadges, and North Carolina had the Scotts. In this history of North Carolina's most influential political family, Rob Christensen tells the story of the Scotts and how they dominated Tar Heel politics. Three generations of Scotts--W. Kerr Scott, Robert Scott, and Meg Scott Phipps--held statewide office. Despite stereotypes about rural white southerners, the Scotts led a populist and progressive movement strongly supported by rural North Carolinians--the so-called Branchhead Boys, the rural grassroots voters who lived at the heads of tributaries throughout the heart of North Carolina. Though the Scotts held power in various government positions in North Carolina for generations, they were instrumental in their own downfall. From Kerr Scott's regression into reactionary race politics to Meg Scott Phipps's corruption trial and subsequent prison sentence, the Scott family lost favor in their home state, their influence dimmed and their legacy in question. Weaving together interviews from dozens of political luminaries and deep archival research, Christensen offers an engaging and definitive historical account of not only the Scott family's legacy but also how race and populism informed North Carolina politics during the twentieth century.

Teaching with Poverty in Mind Eric Jensen,2010-06-16 In *Teaching with Poverty in Mind: What Being Poor Does to Kids' Brains and What Schools Can Do About It*, veteran educator and brain expert Eric Jensen takes an unflinching look at how poverty hurts children, families, and communities across the United States and demonstrates how schools can improve the academic achievement and life readiness of economically disadvantaged students. Jensen argues that although chronic exposure to poverty can result in detrimental changes to the brain, the brain's very ability to adapt from experience means that poor children can also experience emotional, social, and academic success. A brain that is susceptible to adverse environmental effects is equally susceptible to the positive effects of rich, balanced learning environments and caring relationships that build students' resilience, self-esteem, and character. Drawing from research, experience, and real school success stories, *Teaching with Poverty in Mind* reveals * What poverty is and how it affects students in school; * What drives change both at the macro level (within schools and districts) and at the micro level (inside a student's brain); * Effective strategies from those who have succeeded and ways to replicate those best practices at your own school; and * How to engage the resources necessary to make change happen. Too often, we talk about change while maintaining a culture of excuses. We can do better. Although no magic bullet can offset the grave challenges faced daily by disadvantaged children, this timely resource shines a spotlight on what matters most, providing an inspiring and practical guide for enriching the minds and lives of all your

students.
