Using Internet Primary Sources to Teach Critical Thinking Skills in World Languages Kent Norsworthy, Grete

Pasch, 2000-11-30 Language teachers, social studies teachers, and school library media specialists will find this resource invaluable for providing lessons and activities in critical thinking for students in grades 7-12. It is filled with over 200 primary source Internet sites covering the Chinese, French, German, Spanish, Japanese, Russian, and Latin languages. Each Web site will help reinforce language skills while providing students with interactive lessons on the unique culture of the peoples who speak the language. The next best thing to visiting the country itself! For each of the 56 primary Web sites, a site summary is given describing its contents and usefulness to teachers and school library media specialists. Site subjects may include: a country's radio or news program; the history of a country and its visual arts, including museums; foods eaten by the people who speak this language and recipes on how to prepare them; ceremonies, customs, and sports enjoyed; geography of the countries who speak this language; and sites to help practice the language itself. Following are a list of questions and activities which students can prepare orally or in written form, and at least four more related Web sites are provided for further study. Using this book will not only help students increase their language skills, but it will also open up the entire culture, to enable students to experience it just as if they were visiting!

Directory of Web Sites Graham Bennett, 1999 Overloaded with the mass of information on the Internet? Frustrated by how difficult it is to find what you really want? Now you don't need to spend hours browsing around the Internet or grappling with the huge number of hits from an Internet search engine: the Directory of Web Sites will take you straight to the best educational sites on the Internet. From archaeology to zoology, from dance to technology, the Directory provides information more than 5,500 carefully selected Web sites that represent the best of what the Internet has to offer. The sites are grouped by subject; each one features a full description; and the text is complemented throughout by screenshots and fact boxes. As well, sites have been selected purely on educational merit: all sites with overtly commercial content and influence from Internet providers have been excluded.

Regulatory Governance in the Pesticide Sector in Mexico OECD, 2021-09-22 A clear, efficient, and modern regulatory framework for pesticides is essential for addressing their impacts on human health and the environment, supporting a life-cycle approach to their management, and ensuring crop protection and a sustainable agricultural industry. This report identifies the gaps, barriers, implementation flaws and inefficiencies that affect the regulatory framework of pesticides in Mexico.

Corruption in Argentina Natalia A. Volosin, 2019-08-20 The book provides an institutional, historical, and sectorial analysis of Argentina's structural corruption. Looking back over the last 200 years, the book demonstrates that Argentina has historically addressed corruption through ineffective debates between public-private biases or a cultural-criminal approach reinforced by modernization theory, neither of which have helped tackle the problem. Instead, Volosin proposes meaningful institutional reforms to reduce opportunities for corruption and to increase monitoring incentives and capabilities. The book argues that political economy hindrances for reform are as significant as reform itself and shows that in times of crisis or scandal, the need to move quickly to satisfy citizen demands forces politicians to promote unplanned changes that lack real teeth. Moreover, the machine's reach over most public and private actors precludes regime-undermining reform, which is precisely what is needed to meaningfully attack entrenched structural corruption. In order to combat serious deficits in the public procurement regime, Volosin recommends a micro-sectorial analysis of government procurement, supported by an innovative human rights strategy to help measure and disclose corruption's hidden social cost, raise awareness, integrate vulnerability criteria into the fight against corruption, and employ local, regional, and international litigation and monitoring tools to compel the political branches to perform structural change. This innovative exploration into corruption in Argentina will be of interest to researchers working on public policy, administrative law, anticorruption studies, law and development, and governance both in Argentina, and beyond.

Marco Polo's Journey to China (Revised Edition) Diana Childress, 2013-01-01 Can one book really change the world? A handwritten manuscript by Marco Polo in 1288 did. Polo, son of a wealthy Italian merchant, wrote about his incredible experiences traveling to China with his father and uncle on a trade expedition, and also about his adventures as an envoy of Kublai Khan, the ruler of most of China. Polo's book became a bestseller in Europe in the fourteenth century. It was copied over and over by hand, translated into fourteen languages, and became one of the first books to be printed after the invention of moveable type. The tales inspired others—including Christopher Columbus in the fifteenth century—to seek new sea routes for trade. Polo's adventures—and manuscript—are one of world history's most pivotal moments.

The Life and Times of Marco Polo Susan Zannos, 2005-03 Marco Polo, the first European to travel to China and return to write about his adventures, was born in Venice in 1254. Marco's father had left on a journey to Asia before the boy was born. Marco did not see his father and uncle, Niccolo and Maffeo Polo, until fifteen years later. In 1271 the three Polos left Venice and headed for the court of Kublai Khan in eastern China. The journey took them more than three years—they arrived in 1275. Marco Polo became a favorite of the Great Khan, and was sent on important missions all over the Mongol Empire. Marco and his father and uncle served Kublai Khan for 17 years. When they returned to Venice in 1295, Marco became the captain of a merchant ship and was captured and imprisoned in Genoa. While in prison he and another prisoner who was a writer of romances wrote the story of Marco Polo's adventures.

Global History of Accounting, Financial Reporting and Public Policy Gary J. Previts, Peter Walton, Peter Wolnizer, 2011-07-12 Addresses Global Accounting History developments, focusing upon financial reporting, and related institutional aspects of disclosures for accountability and decision making purposes. Law in Peace Negotiations Morten Bergsmo, Pablo Kalmanovitz, 2010-07-23

From Tribal Village to Global Village Alison Brysk, 2000 This book examines the rise of human rights movements in five Latin American countries—Ecuador, Mexico, Brazil, Nicaragua, and Bolivia—among the hemisphere's most isolated and powerless people,

Latin American Indians. It describes the impact of the Indian rights movement on world politics, from reforming the United Nations to evicting foreign oil companies, and analyzes the impact of these human rights experiences for all of Latin America's indigenous citizens and native people throughout the world.

The Politics of Legislative Debates Hanna Back, Marc Debus, Jorge M. Fernandes, 2021-09-02 Legislative debates make democracy and representation work. Political actors engage in legislative debates to make their voice heard to voters. Parties use debates to shore up their brand. This book makes the most comprehensive study of legislative debates thus far, looking at the politics of legislative debates in 33 liberal democracies in Europe, North America and Latin America, Africa, Asia, and Oceania. The book begins with theoretical chapters focused on the key concepts in the study of legislative debates. Michael Laver, Slapin and Proksch, and Taylor examine the politics of legislative debates in parliamentary and presidential democracies. Subsequently, Goplerud makes a critical review of the methodological challenges in the study of legislative debates. Schwalbach and Rauh further discuss the difficulties in the comparative empirical study of debates. Country-chapters offer a wealth of original material organized around structured sections. Each chapter begins with a details discussion of the institutional design, focusing on the electoral system, legislative organization, and party parties, to which a section on the formal and informal rules of legislative debates ensues. Next, each country chapter focuses on analyzing the determinants of floor access, with a particular emphasis on the role of gender, seniority, legislative party positions, among others. In the concluding chapter, the editors explore comparative patterns and point out to multiple research avenues opened by this edited volume. The Oxford Politics of Institutions series is designed to provide in-depth coverage of research on a specific political institution. Each volume includes a mix of theoretical contributions, state-of-the-art research review chapters, comparative empirical chapters, country case study chapters, and chapters aimed at practitioners. Typically, the majority of chapters in each volume comprises of country studies written by country experts. Volumes in the series are aimed at political scientists, students in political science programmes, social scientists more generally, and policy practitioners. Series editors: Shane Martin, Anthony King Chair in Comparative Government and Head of the Department of Government, University of Essex; and Sona N. Golder, Professor of Politics, Department of Political Science, Pennsylvania State University.

Property Hotspots in Spain Ajay Ahuja, 2004 The author provides quality information for the growing number of UK investors in Spanish property. The text identifies the best areas in which to buy for specific needs and investment goals - whether retirement, worker, holiday or business investors.

Teaching the Silk Road Jacqueline M. Moore, Rebecca Woodward Wendelken, 2012-02-01 Advocating a global as opposed to a Eurocentric perspective in the college classroom, discusses why and how to teach about China's Silk Road. The romance of the Silk Road journey, with its exotic locales and luxury goods, still excites the popular imagination. But study of the trade routes between China and central Asia that flourished from about 200 BCE to the 1500s can also greatly enhance contemporary higher education curricula. Indeed, with people, plants, animals, ideas, and beliefs traversing it, the Silk Road is both a metaphor of globalization and an early example of it. Teaching the Silk Road highlights the reasons to incorporate this material into a variety of courses and shares resources to facilitate that process. It is intended for those who are not Silk Road or Asian specialists but who wish to embrace a global history and civilizations perspective in teaching, as opposed to the more traditional approach that focuses on cultures in isolation. The book explores both classroom and experiential learning and is intentionally interdisciplinary. Each essay focuses on pedagogical strategies or themes that teachers can use to bring the Silk Road into the classroom. "Based on years of experience, the authors of Teaching the Silk Road offer sound strategies for both stand-alone courses on aspects of the route and mainstreaming what has been uncovered in three decades of research into existing courses in a variety of disciplines." "H-Net Reviews (H-Asia)" "This collection of essays and personal reflections allows the reader to listen in on a relaxed conversation on teaching the topic of the Silk Road. It offers a nice blueprint for integrating the Silk Road into new or existing curricula." "J. Michael Farmer, author of The Talent of Shu: Qiao Zhou and the Intellectual World of Early Medieval Sichuan
