**Chicana Movidas** Dionne Espinoza, María Eugenia Coterá, Maylei Blackwell, 2018-06-01 With contributions from a wide array of scholars and activists, including leading Chicana feminists from the period, this groundbreaking anthology is the first collection of scholarly essays and testimonios that focuses on Chicana organizing, activism, and leadership in the movement years. The essays in *Chicana Movidas: New Narratives of Activism and Feminism in the Movement Era* demonstrate how Chicanas enacted a new kind of politics at the intersection of race, class, gender, and sexuality, and developed innovative concepts, tactics, and methodologies that in turn generated new theories, art forms, organizational spaces, and strategies of alliance. These are the technologies of resistance documented in *Chicana Movidas*, a volume that brings together critical biographies of Chicana activists and their bodies of work; essays that focus on understudied organizations, mobilizations, regions, and subjects; examinations of emergent Chicana archives and the politics of collection; and scholarly approaches that challenge the temporal, political, heteronormative, and spatial limits of established Chicano movement narratives. Charting the rise of a field of knowledge that crosses the boundaries of Chicano studies, feminist theory, and queer theory, *Chicana Movidas: New Narratives of Activism and Feminism in the Movement Era* offers a transgenerational perspective on the intellectual and political legacies of early Chicana feminism.

*Northern Roots* Valerie Bradley-Holliday, 2009-08-17 What does Sampson Noll, a desperate run-away slave who hit his master over the head with a wagon stave have in common with Charlotte Preston, a young woman, who was in the first graduating class at Northern State Normal School? The first part of the answer is that both of these individuals lived in a region known as the U.P., the Upper Peninsula of Michigan. The second part is that both these individuals were Americans of African descent. What would bring Mr. Noll, Ms. Preston, and other individuals of African descent to an isolated area of the United States where winter snowfalls can reach 200 inches and temperatures can be so cold that they can cause fog to freeze? Can you imagine entering an unfamiliar isolated region during a May passage riding in a steamboat across the choppy waters of the Straits of Mackinac to get to the land mass known as the Upper Peninsula? And once you managed to cross into this region of the United States, enduring early spring to fall's end, you now have to deal with mosquitoes, no-see-ums, deer flies, stable flies, black flies, wood ticks, and deer ticks. As the months progress, you have to face bitter cold winters with no kinship support (unless your family came with you) to comfort you, and with only your hopes, dreams, and self reliance to sustain you. A variety of individuals of African descent did just that and settled in the Upper Peninsula. Coming from a perspective of the main opportunities that drew most people to the area, this book discusses people from their areas of interest and employment: lumber, mining, hunting, fishing, education, and sports. In the end, the book reveals what these individuals have inspired by their incredible tenacity.

**Education Reform in the American States** Jerry McBeath, Maria Elena

Reyes, Mary Ehrlander, 2008-04-01 Education Reform in the American States is a timely evaluation of the accountability movement in American public education, culminating in the No Child Left Behind Act, federal legislation of 2002. The authors treat the current accountability movement, placing it in historical context and addressing the evolution in public education policymaking from the overwhelming emphasis on state and local discretion to increasing federal oversight and mandates related to federal funding. They provide case studies of the educational accountability movements in nine states and analyze the factors and forces which explain progress in achievement levels as measured on standardized tests and the states' prospects for meeting their NCLB targets. The book and the individual case studies acknowledge the merits of NCLB while exposing several significant flaws and unintended harmful consequences of the act, particularly its incentives for states to lower their standards in order to meet annual yearly progress targets and its threat to withdraw federal funds from districts with the highest percentage of disadvantaged students. The audience for this study includes local, state and federal education policy makers; administrators and instructors in schools of education and other teaching programs, educators; and the general public.

**Home-School Connections in a Multicultural Society** Maria Luiza

Dantas, Patrick C. Manyak, 2011-02-09 Educators everywhere confront critical issues related to families, schooling, and teaching in diverse settings. Directly addressing this reality, Home-School Connections in a Multicultural Society shows pre-service and practicing teachers how to recognize and build on the rich resources for enhancing school learning that exist within culturally and linguistically diverse families. Combining engaging cases and relevant key concepts with thought-provoking pedagogical features, this valuable resource for educators at all levels: Provides detailed portraits of diverse families that highlight their unique cultural practices related to schooling and the challenges that their children face in school settings Introduces key sociocultural and ethnographic concepts, in ways that are both accessible and challenging, and applies these concepts as lenses through which to examine the portraits Shows how teachers and researchers have worked with diverse families to build positive relationships and develop learning activities that incorporate children's unique experiences and resources Disrupting deficit assumptions about the experiences and knowledge that culturally and linguistically diverse children acquire in their homes and communities, this book engages readers in grappling deeply and personally with the chapters' meanings and implications, and in envisioning their own practical ways to learn from and with families and children.

Finding a Million-Star Hotel Bob Mizon,2016-07-04 Bob Mizon, one of the world's best known campaigners against the veil of light pollution that has taken away the starry sky from most of the world's population, takes readers to a hundred places in the UK and the USA where the wonders of the night sky might still be enjoyed in perfect or near-perfect night skies. Visiting small hotels and simple campsites, and savoring vast dark-sky reserves where the night sky is actively protected, The Million-Star Hotel celebrates the black skies of yesteryear – which may become a reality for more and more of us as modern technology reins in lighting and puts it only where needed. How can you prepare for your stay beneath the stars? What astronomy can you do during the daytime? What kind of equipment will you need? Questions such as these are answered, and if town dwellers return inspired – and, Bob hopes, also inspired to look with fresh eyes at their own local lighting – there is enough information here for them to equip themselves for some urban astronomy too.

**The Decade Volcanoes and Us** B. J. Deming,2020-12-24 What are the Decade Volcanoes, and are they going to kill us? There's no quick and easy answer to that question, other than dangerous and maybe. This book helps you get started on your own investigations into these beautiful but hazardous fire mountains. It explains what the 1990s Decade Volcano program was and why it got started. Then you'll meet the sixteen volcanoes (seventeen, actually, but they made the two Russian volcanoes a single entry). Besides basic facts, written in plain English by an informed layperson, there are also links to videos and to much authoritative online background material and monitoring websites. If technical details are your thing, you'll find an extensive reference section at the end of the book.
