Forced Conversion in Christianity, Judaism and Islam Mercedes García-Arenal, Yonatan Glazer-Eytan, 2019-10-21 Forced Conversion in Christianity, Judaism and Islam explores the legal and theological grounds through which Christians, Jews, and Muslims sanctioned and reacted to forcible conversion in premodern Iberia and related settings.

Violencia y Derechos Humanos Cristina Gómez Johnson, 2020-04-13 Esta compilación de ensayos, *Violencia y Derechos Humanos: México, Colombia y El Salvador*, es el resultado del trabajo de un grupo de investigadoras preocupadas por la violencia y las violaciones de los derechos humanos en diferentes espacios geográficos del subcontinente. Las autoras abordan los problemas que tienen presencia en las agendas sociopolíticas actuales de la zona, desde una perspectiva histórica, por un lado, y sociopolítica por otro. La intención es crear un marco histórico-teórico que combinado con una perspectiva social recopile testimonios de los afectados, explicando a su vez las razones estructurales de esta situación. La contextualización de los fenómenos analizados resulta útil para comprender la situación actual. La historia dota de profundidad a los acontecimientos descritos en los textos que integran este libro, y la recopilación de testimonios complementan este recorrido.

Killing the American Dream Pilar Marrero, 2012-10-02 As the US deports record numbers of illegal immigrants and local and state governments scramble to pass laws resembling dystopian police states where anyone can be questioned and neighbors are encouraged to report on one another, violent anti-immigration rhetoric is growing across the nation. Against this tide of hysteria, Pilar Marrero reveals how damaging this rise in malice toward immigrants is not only to the individuals, but to our country as a whole. Marrero explores the rise in hate groups and violence targeting the foreign-born from the 1986 Immigration Act to the increasing legislative madness of laws like Arizona's SB1070 which allows law officers to demand documentation from any individual with reasonable suspicion of citizenship, essentially encouraging states and municipalities to form their own self-contained nation-states devoid of immigrants. Assessing the current status quo of immigration, Marrero reveals the economic drain these ardent anti-immigration policies have as they deplete the nation of an educated work force, undermine efforts to stabilize tax bases and social security, and turn the American Dream from a time honored hallmark of the nation into an unattainable fantasy for all immigrants of the present and future.

The Book of Unknown Americans Cristina Henríquez, 2014-06-03 A stunning novel of hopes and dreams, guilt and love—a book that offers a resonant new definition of what it means to be American and illuminates the lives behind the current debates about Latino immigration (The New York Times Book Review). When fifteen-year-old Maribel Rivera sustains a terrible injury, the Riveras leave behind a comfortable life in Mexico and risk everything to come to the United States so that Maribel can have the care she needs. Once they arrive, it's not long before Maribel attracts the attention of Mayor Toro, the son of one of their new neighbors, who sees a kindred spirit in this beautiful, damaged outsider. Their love story sets in motion events that will have profound repercussions for everyone involved. Here Henríquez seamlessly interweaves the story of these star-crossed lovers, and of the Rivera and Toro families, with the testimonials of men and women who have come to the United States from all over Latin America.

Derivative Lives Virginia Newhall Rademacher, 2022-07-14 The title of this book, *Derivative Lives*, alludes to the challenge of finding one's way within the contemporary market of virtually limitless information and claims to veracity. Amid this profusion of options, it is easy to feel lost in spaces of uncertainty where biographical truth teeters between the real and the imaginative. The title thus also points to the prolific market of biographical novels that openly and intentionally play in the speculative space between the real and the fictional. Drawing on theories of risk and uncertainty, *Derivative Lives* considers the surge in biofiction in Spain and globally, relating literary expression to concepts such as circumstantiality, derivatives, speculation, and game studies.

A Tale of Two Eagles Craig A. Deare, 2017-03-13 The United States and Mexico share a history shaped in the 19th century by numerous US forces interventions into Mexican territory and US expropriation of considerable swaths of Mexican territory. However, in spite of structural impediments and a history of resentment by Mexico of US intervention into its affairs and territory, the levels of cooperation and understanding slowly began to improve following a series of international and domestic factors. The decline of the former Soviet Union and the fall of the Berlin Wall at a global level, coupled with major political and economic challenges and reforms within Mexico are a starting point from which to assess the evolution of the bilateral defense relationship between the United States and Mexico. The American and Mexican militaries have evolved differently over the past 100 years and they each have very different responsibilities, mission sets, orientations, and capabilities. Yet in recent years, the Mexican armed forces have cooperated more closely with their US counterparts. This may be due to explicit direction coming from senior levels of the Mexican government and to operational requirements of the armed forces themselves as they seek to increase their capability and capacity to confront the growing levels in drug trafficking related violence. Today, both countries are dealing with the effects of this increased violence and insecurity in Mexico. Relying primarily on one-on-one interviews with senior practitioners and analysts on both sides of the border, the text examines the evolution of the U.S.-Mexican bilateral defense relationship to better understand how and why this unique relationship has improved, in fits and starts, over the past 25 years. It offers a new understanding of how defense policymakers from each respective country perceive the other, as well as how the lack of trust and understanding between the two neighbors has delayed greater cooperation.

Francoist Repression and Incarceration in Contemporary Spanish Culture Maureen Tobin Stanley, 2022-10-10 This book examines the cultural articulation of Spanish History (and histories (remembered, meaningful experiences). It analyzes how real people and fictional characters experience the rupture of post-war repression, as their vindicating collective memory counters the authoritarian narrative and laws that demonized and criminalized them. The book, that breaks the persistent cycle of denial of Francoist malfeasance, is a resource for scholars and students who research the representation of Spain's dictatorship, its aftermath and the recovery of postdictatorial memory.

The Spectacular Generic Cori Hayden, 2022-12-26 In *The Spectacular Generic*, Cori Hayden examines how generic drugs have transformed public health politics and everyday experiences of pharmaceutical consumption in Latin America. Focusing on the Mexican pharmacy chain Farmacias Similares and its proprietor, Víctor González Torres, Hayden shows how generics have become potent commodities in a postpatent world. In the early 2000s, González Torres, a.k.a. "Dr. Simi," capitalized on the creation of new markets for generic medicines, selling cheaper copies of leading-brand drugs across Latin America. But Dr. Simi has not simply competed with the transnationals; his enterprise has also come to compete with the Mexican state, reorganizing the provision of medicine and basic health care for millions of people. Hayden juxtaposes this story with Dr. Simi's less successful efforts in Argentina, where he confronted a radically different configuration of pharmaceutical politics. Building from these diverging trajectories, Hayden illuminates the politics of generic substitution as a question that goes beyond substituting one drug for another. Generic politics can radically reshape the relations among consumers, states, and pharmaceutical markets, even as they have yet to resolve the problems of cost and access.

The Poetics of Fire Victor M. Valle, 2023-11-15 In *The Poetics of Fire*, Pulitzer prize-winning journalist and Chicano author Victor M. Valle posits the chile as a metaphor for understanding the shared cultural histories of ChicanX and LatinX peoples from preconquest Mesoamerica to twentieth-century New Mexico. Valle uses the chile as a decolonizing lens through which to analyze preconquest Mesoamerican cosmology, early European exploration, and the forced conversion of Native peoples to Catholicism as well as European and Mesoamerican perspectives on food and place. Assembling a rich collection of source material, Valle highlights the fiery fruit's overarching importance as evidenced by the ubiquity of references to the plant over several centuries in literature, art, official documents, and more to offer a new eco-aesthetic reading—a reframing of culinary history

from a pluralistic, non-Western perspective.

Why Don't the Poor Rise Up? Ajamu Nangwaya, Michael Truscello, 2017-07-17 Each of these essays is a sharpened weapon for the battles looming large on the horizon. -George Ciccariello-Maher, author of *Building the Commune* Combining the most creative thought from the global North and South, *Why Don't the Poor Rise Up?* promises to be an indispensable resource for understanding why the new revolutionary movement of the 21st century will emerge from the ranks of the most marginalized by capitalism and colonialism. -Ajamu Baraka, editor of *Black Agenda Report* Even mainstream media like the *New York Times* and *The Economist* have recently posed the question: Why don't the poor rise up?, uneasily amazed that capitalism hasn't met with greater resistance. In the context of unparalleled global wealth disparity, ecological catastrophe, and myriad forms of structural oppression, this vibrant collection offers a reassessment of contemporary obstacles to mass mobilization, as well as examples from around the world of poor people overcoming those obstacles in inspiring and instructive new ways. With contributions from Idle No More cofounder Alex Wilson, noted Italian theorist Franco Bifo Berardi, and nineteen other scholars and activists from around the world, *Why Don't the Poor Rise Up?* presents a truly global range of perspectives that explore the question of revolution, its objective and subjective prerequisites, and its increasing likelihood in our time. Ajamu Nangwaya, Ph.D., is an educator at Seneca College with over twenty-five years of experience in community organizing and advocacy. Michael Truscello, Ph.D., is an educator at Mount Royal University and author of the forthcoming book *The Infrastructure Society*.

Green affections Maribel Cámara, 2013-10-22 Includes Author voice. *Green Affections* is a childhood story with a particular gender perspective, for the narrator is a girl, Sonia Amalia, called Amazonia. When narrating, the girl recreates the story making it into fiction, since memory is not only what we remember but what we believe we remember. Her own life is the material from where she builds the novel. Her senses refresh everything surrounding her: the vivid color of the jungle, its own humid aromas, the softness of the water, the life song of the town and its surroundings and, above all, the food that nourishes Amazonia's days.

Maribel's Year Michelle Sterling, 2023-07-25 Celebrate the special connection between father and daughter in this gorgeously evocative picture book, recounting the year a little girl and her mother spend in America while waiting for her father to join them from the Philippines. From acclaimed author Michelle Sterling and illustrator Sarah Gonzales, a poignant story perfect for fans of Joanna Ho, Linda Sue Park, and Matt De La Peña. New country, new school, new friends. A lot can happen in a single year. But one thing's for certain: Maribel won't forget her Papa, even when he's 8,000 miles away in the Philippines. After all, Papa is all around. He is the memory of feeding koi fish in their pond every morning. He is the constellation map as Maribel dreams of showing him her new world. He is the packages and letters sent back and forth. He is everywhere except the place he's

wanted the most. But the bond between Maribel and Papa transcends oceans. So as the snow melts and turns to rain, as flowers blossom and welcome sun-kissed days, and as the leaves start to change and snow begins to fall once more, can Maribel wait just a little bit longer?

Query Processing over Graph-structured Data on the Web M. Acosta Deibe, 2018-10-12 In the last years, Linked Data initiatives have encouraged the publication of large graph-structured datasets using the Resource Description Framework (RDF). Due to the constant growth of RDF data on the web, more flexible data management infrastructures must be able to efficiently and effectively exploit the vast amount of knowledge accessible on the web. This book presents flexible query processing strategies over RDF graphs on the web using the SPARQL query language. In this work, we show how query engines can change plans on-the-fly with adaptive techniques to cope with unpredictable conditions and to reduce execution time. Furthermore, this work investigates the application of crowdsourcing in query processing, where engines are able to contact humans to enhance the quality of query answers. The theoretical and empirical results presented in this book indicate that flexible techniques allow for querying RDF data sources efficiently and effectively.
