Grand Port Marina Carter, Mark S. Hall, 2010 This book relates unknown and neglected aspects of an infamous conflict. [It] attempts to unravel one of the greatest mysteries of the battle--the identity, role and fate of the 'black pilots'. One man, in particular, ably served the British Navy only to meet a tragic fate and would, years later, lead Captain Nesbit J. Willoughby on a quest for redemption *Untold stories* aims to restore the voices of the forgotten--P. 4 of cover.

Coaching e gestão do conhecimento pessoal o bibliotecário como agente de desenvolvimento humano Leonardo Fernandes Souto, 2018-08-13 ...Esta obra de Leonardo Fernandes Souto inicia-se tratando dos meios pelos quais se faz a Gestão do Conhecimento Pessoal, ou seja, como se planeja, organiza, mobiliza e controla os resultados do seu próprio conhecimento pessoal desenvolvido, mas já se pode supor, a partir das considerações de Polanyi, que esta tanto é melhor quanto mais se evolui no desenvolver da consciência e da apreensão da realidade, do indivíduo encontrar e saber trilhar os caminhos com os quais defronta-se em seu cotidiano. E aí entram técnicas como o coaching, descritas no livro. Ou seja, o coaching torna-se de imensa valia para a gestão do conhecimento pessoal do indivíduo, seja aplicado às organizações, a outros ambientes, enfim, à sua própria vida. O coaching faz valer também a importância da relação com o outro, no sentido de estimular o indivíduo na busca do seu caminho. O livro é fortemente recomendado, especialmente para os bibliotecários, mas também para qualquer outro profissional interessado em buscar respostas para o seu desenvolvimento pessoal...

O estágio curricular e a docência compartilhada Maria da Assunção Calderano, 2017-01-01 O estágio curricular docente tem se constituído tema importante para os que se dedicam à formação de professores, uma vez que os desafios nele encontrados e dele decorrentes revelam os problemas centrais que afetam tanto a formação quanto o trabalho docente. Tais desafios, por sua vez, mediante o nível de esforço analítico empreendido, abrigam luzes a partir das quais se visualizam indícios, possibilidades de superação, identificadas por práticas orgânicas, de novo tipo. As reflexões aqui trazidas emergiram de processos investigativos teóricos e empíricos e advêm de uma prática docente sistemática. A pesquisa de campo envolveu 449 pessoas – 19 professores de uma universidade brasileira, 274 estagiários de 12 cursos de licenciatura desenvolvidos nesta universidade e 156 profissionais da escola básica ocupantes dos cargos de professor, diretor e coordenador pedagógico. Dedicou-se atenção especial aos papéis desenvolvidos pelo professor supervisor de estágio que atua na escola e pelo estagiário. Foram considerados também os problemas, a avaliação, as sugestões apontadas e as experiências relevantes ocorridas nesse âmbito da formação. Tais enfoques foram tratados por todos os participantes da investigação. A partir da abordagem filosófica do Realismo Crítico de Roy Bhaskar, procedeu-se a análise aprofundada das respostas,

o que permitiu mapear as práticas de estágio, identificar as concepções que as sustentam e localizar as estruturas e os mecanismos que lhes dão suporte. Além dos aportes dos especialistas na área da formação docente, foram consideradas as contribuições advindas de teses, dissertações e artigos acadêmicos sobre o estágio curricular, publicados no Brasil nos últimos 15 anos.

The Challenges of Education in Brazil Colin Brock, Simon Schwartzman, 2004-05-10 Education in Brazil has changed intensely over the last several years. Access to basic education is nearly universal, secondary education has been expanding very rapidly, and so too has higher education at both the undergraduate and graduate levels. However, serious issues remain related to quality, equity and inappropriate use of resources. Some of these problems are related to the fact that Brazil started to develop its education institutions very late, and did not build strong teaching and academic professions that could provide the necessary support for education policies committed to equity, quality and efficiency. This book, written by leading experts, is the first English-language text to provide a comprehensive analysis of the challenges facing Brazilian education at all levels, including issues such as the quality of basic education, the establishment of standards for higher education, the experiences of technical and vocational schools, teacher education, regulation and financing of public and private higher education, and the growing role of graduate education and research.

A State of Injustice Robert N. Moles, 2004-01-01 Most people presume that the legal system works pretty well at dispensing justice. Alarming, this is not always the case. This book examines various cases where forensic investigations were later found to be flawed. On each of these occasions the misdiagnosis of the cause of death had a profound impact on whether or not a criminal investigation ensued. Each case provides compelling and disturbing reading.

Fourth Generation Evaluation Egon G. Guba, Yvonna S. Lincoln, 1989 Publisher's description: Fourth Generation Evaluation represents a monumental shift in evaluation practice. Guba and Lincoln point to the inherent problems faced by previous generations of evaluators--politics, ethical dilemmas, imperfections and gaps, inconclusive deductions--and lay the blame for failure and nonutilization at the feet of the unquestioned reliance on the scientific/positivist paradigm of research. Fourth Generation Evaluation, a more informed and sophisticated approach, moves beyond science to include the myriad human, political, social, cultural, and contextual elements that are involved. Based upon relativism, a unity between knower and known, and a subjective epistemology, the authors show how fourth generation evaluation unites the evaluator and the stakeholders in an interaction that creates the product of the evaluation. Differing from previously existing generations, this new approach moves evaluation to a new level, whose key dynamic is negotiation. The constructivist paradigm is espoused by the authors and shown to offer multiple advantages, including empowerment and enfranchisement of stakeholders, as well as an action orientation that defines a course to be followed. Not merely a treatise on evaluation theory, Guba and Lincoln also comprehensively describe the differences between the positivist and constructivist paradigms of research, and provide a practical plan of the steps and processes in conducting a fourth generation evaluation.

Francophone Perspectives of Learning Through Work Laurent Filliettaz, Stephen Billett, 2015-07-09 This book generates a comprehensive account of ways in which practice-based learning has been conceptualized in the Francophone context. Learning for occupations, and the educational and practice-based experiences supporting it are the subject of increased interest and attention globally. Governments, professional bodies, workplaces and workers are now looking for experiences that support the initial and ongoing development of occupational capacities. Consequently, more

attention is being given to workplaces as sites for this learning. This focus on learning through work has long been emphasised in the Francophone world, which has developed distinct traditions and conceptions of associations between work and learning. These include ergonomics and professional didactics. Yet, whilst being accepted and of long standing in the Francophone world, these conceptions and traditions, and the practices supporting them are little known about or understood in the Anglophone world, which is the dominant medium for scientific and educational discussion. This book addresses this problem through drawing on accounts from France, Switzerland and Canada that make accessible and elaborate these traditions, conceptions and practices through examples of their applications to occupationally related learning. These accounts offer variations and culturally-specific developments of these traditions, but collectively emphasize a preoccupation with how both work and learning need to be understood through situated considerations of persons enacting their work practice. In this way, they offer noteworthy and worthwhile contributions to contemporary global considerations of learning through work.

Pedagogy of the City Paulo Freire, 1993 An important look at education and the urban poor, and a continuation of the experiments in education of Pedagogy of the Oppressed. Freire describes the everyday struggles, political as well as administrative, fought in the urban schools of Sao Paulo during Freire's recent 10-year tenure as minister of education.

Kew Gardens Virginia Woolf, 2021-10-21 Doesn't one always think of the past, in a garden with men and women lying under the trees? Aren't they one's past, all that remains of it, those men and women, those ghosts lying under the trees... one's happiness, one's reality? A family of four is walking around Kew Gardens in London, lost in their thoughts. The husband thinks of the girl who turned down his marriage proposal in this very garden many years ago. When asking his wife if it upsets her that he's thinking about this other woman, she reasons that one's past is like ghosts lying under the trees. Only Virginia Woolf can write a short story about completely ordinary things and people and make you long for more. With exquisite prose, she invites you along as she examines the beauty of normal summer's day. Adeline Virginia Woolf (1882-1941) was an English writer who, despite growing up in a progressive household, was not allowed an education. When she and her sister moved in with their brothers in a rough London neighborhood, they joined the infamous The Bloomsbury Group, which debated philosophy, art and politics. Woolf's most famous novels include 'Mrs Dalloway' (1925) and 'To the Lighthouse' (1927).
