Sport Heritage Gregory Ramshaw, 2017-10-02 Sport has become an important avenue in how we interpret, remember, and maintain our heritage. Whether it is being applied in tourism marketing and development, employed as a vehicle for social cohesion, or utilized as a way of articulating personal and collective identities, sport heritage is a vital topic in understanding what we value about the sporting past now what we wish to pass on to future generations. This edited collection brings together many new and exciting international approaches to sport heritage. Each of the chapters in this collection provides a thought-provoking sport heritage case study that would be of interest to students and researchers in history, geography, anthropology, and marketing, as well as industry practitioners working at sporting events, at sports-based heritage attractions such as museums and halls of fame, and at sports stadia and sports facilities. In addition, this collection would also be of interest to those readers with a more general interest in sport heritage and the sporting past. This book was published as a special issue of the Journal of Heritage Tourism.

Reading the Visual Tony Schirato, 2020-07-29 From the body to the ever-present lens, the world is increasingly preoccupied with the visual. What exactly is the visual' and how can we interpret the multitude of images that bombard us every day? *Reading the Visual* takes as its starting point a tacit familiarity with the visual, and shows how we see even ordinary objects through the frameworks and filters of culture and personal experience. It explains how to analyse the mechanisms, conventions, contexts and uses of the visual in western cultures to make sense of visual objects of all kinds. Drawing on a range of theorists including John Berger, Foucault, Bourdieu and Crary, the authors outline our relationship to the visual, tracing changes to literacies, genres and pleasures affecting ways of seeing from the Enlightenment to the advent of virtual technology. *Reading the Visual* is an

invaluable introduction to visual culture for readers across the humanities and social sciences. Eloquently written, admirably clear, passionately argued, Schirato and Webb have given us one of the best textbooks on the emergent field of visual culture. Smart, clear and relevant examples challenge readers to question their visual environments and become critics and creators themselves.' Professor Sean Cubitt, University of Waikato This is a splendid book. It is both intellectually sophisticated and written in an extremely accessible manner.' Professor Jim McGuigan, Loughborough University This book treats the interpretation and value of visual artefacts with depth, while remaining highly accessible. It is very readable: written in a lively and engaging style with examples that are refreshing and up-to-date.' Professor Guy Julier, Leeds Metropolitan University

Essays in Postfoundationalist Theology Jacobus Wentzel Van Huyssteen, 1997 This collection of essays boldly addresses many of the challenges faced by Christian theology in the context of contemporary postmodern thought. Handling abstract topics in a remarkably clear and concise way, J. Wentzel van Huyssteen presses the case for a postfoundationalist theology as a viable third option beyond the extremes of foundationalism and nonfoundationalism. Van Huyssteen discusses themes related to rationality, epistemology, and philosophy of science. In the process he critically engages the work of such thinkers as Wolfhart Pannenberg, Nancey Murphy, Jerome Stone, and Gerd Theissen. The result is a convincing argument that only a truly accessible and philosophically credible notion of interdisciplinarity will be able to pave the way for a plausible public theology that can play an important intellectual role in our fragmented culture today.

Heritage Peter Howard, 2003-06-16 Heritage and its preservation is a major concern around the world. In order to establish identities, as well as attracting visitors, the natural and cultural heritage is protected, conserved, managed and interpreted, by families, by cities, by nation states and at

international level. Environmental and cultural heritage is now accepted as a major feature in business location, as the demand for quality of life becomes insistent. This major movement has resulted in the development of Heritage as a field of study, both on its own, and as elements within many other disciplines, such as geography, art history, archaeology, ecology and tourism management. While the techniques of conservation remains within specialist disciplines, Peter Howard offers a textbook for students approaching heritage as a combined field of study for the first time. The fields of heritage under review range from the nature trail to the cathedral, and from the family album to the national park, viewed at a variety of levels, including family and local heritage as well as the national and international dimensions. Heritage is seen as a demand led activity, with interested stakeholders being academics, governments, owners, school-children, pilgrims and the media as well as the ubiquitous tourist. There is a process by which some things are selected as heritage, but others are ignored, and it is the practical management of this process which is the focus to which the text constantly returns.

Animal Attractions Elizabeth Hanson, 2018-06-05 On a rainy day in May 1988, a lowland gorilla named Willie B. stepped outdoors for the first time in twenty-seven years, into a new landscape immersion exhibit. Born in Africa, Willie B. had been captured by an animal collector and sold to a zoo. During the decades he spent in a cage, zoos stopped collecting animals from the wild and Americans changed the ways they wished to view animals in the zoo. Zoos developed new displays to simulate landscapes like the Amazon River basin and African forests. Exhibits similar to animals' natural habitats began to replace old-fashioned animal houses. But such displays are only the most recent effort of zoos to present their audiences with an authentic experience of nature. Since the first zoological park opened in the United States in Philadelphia in 1874, zoos have promised their visitors

a journey into the natural world. And for more than a century they have been popular places for education and recreation: every year more than 130 million Americans go to zoos to look at the animals and enjoy a day outdoors. The first book-length history of American zoos, *Animal Attractions* examines the meaning of nature in the city by looking at the ways zoos have assembled and displayed their animal collections. Situated literally and culturally in the American middle landscape, zoos are concrete expressions of longstanding tensions between wildness and civilization, science and popular culture, education and entertainment. In their efforts to promote nature appreciation, they reveal much about how our culture envisions the natural world and the human place in it and how these ideas have changed.

The Race to the Top Tomas Larsson, 2001 Larsson takes the reader on a fast-paced, worldwide journey that extends from the slums of Rio to the brothels of Bangkok and shows what access to global markets means for those struggling to get ahead in the world.

Cooperstown To Dyersville Charles Fruehling Springwood, 2019-03-13 By what magic is a simple geographical space such as a city or town transformed into cultural significance, into a place people travel to, enshrine, mythologize, and consume? What stardust falls upon the ground and in the public's mind that moves us to worship a piece of property that was once an unremarkable field or vacant lot? This book, written with the passion of both baseball fan and cultural anthropologist, unravels the mysteries of Cooperstown, New York-home of the Baseball Hall of Fame-and Dyersville, Iowa-site of the baseball field made enormous by the Hollywood movie Field of Dreams. Charles Springwood provides insight into the postmodern culture of the United States in which tourist sites and American heritages are culturally produced and consumed, by studying the people who visit them. The results of his interviews with visitors to these sites speak to issues of youth, innocence,

family, domesticity, nation, and the hegemonic practices of the leisure class. The book provides a reading of America steeped in narratives of pastoralism and nostalgia. Behind it all (the curtain behind which the great wizard sits) is the corporate mind creating an atmosphere of false histories and reconstructed pasts. Springwood pulls the reader's heart in two directions, seeking to honor the beautiful myth of baseball's pastoralism through two sacred geographical sites while also seeking to expose the underpinnings of myth-making to a gentle but constant light.

The Media and Globalization Terhi Rantanen, 2005 In this provocative book Terhi Rantanen challenges conventional ways of thinking about globalization and shows how it cannot be understood without studying the role of the media. Rantanen begins with an accessible overview of globalization and the pivotal role of the media.

Sport Tourism Brent W. Ritchie, Daryl Adair, 2004-07-26 This book examines the economic, social and environmental impacts and issues associated with the development of sport tourism globally, including the lack of research and coordination between industry and government. The book suggests the need for a more balanced analysis of the impacts and issues associated with future sport tourism development.

Sport, Cultures, and Identities in South Africa John Nauright, 1997-01-01 The meanings attached to sports in South African societies, past and present, are explored in this book, which focuses particularly on the part played by the prominent team sports of rugby, soccer and cricket in the creation of social divisions and unities over the course of South African history. In the past, only white South Africans could represent South Africa in international sport. Now, formerly white-dominated sports have been promoted as unifying forces for a nation in the process of forging a new national identity. The book considers the history and changing meanings attached to particular sports

in the old and new South Africas, and how sport is being used and abused today.

Media Policy and Globalization Paula Chakravartty, 2006-06-15 This volume takes a fresh look at media and communications policy and provides a comprehensive account of issues that are central to the study of the field. It moves beyond the 'specifics' of regulation, by examining policy areas that have proved to be of common concern for societies across different socio-economic realities. It also seeks to address profound gaps in the study of policy by demonstrating the centrality of historical, social and political context in debates that may appear solely technical or economic. Media Policy and Globalization covers the institutional changes in the communications policy arena by examining the changing role of the state, technology and the market and the role of civil society. It discusses actual policy areas in broadcasting, telecommunications and the information society, and examines the often-overlooked normative dimensions of communications policy.

Indian Mujahideen Shishir Gupta, 2012-03-12 Recent acts of terror have exploded the myth that Indian youth is insulated from the global terrorism phenomenon and had little time for extremism. The communal riots post the 1992 incident, the rise of the Students Islamic Movement of India (SIMI) and the mutation of a section of aspiring Muslim youth into terrorists with the help of forces across the border. The story of home-grown jihadists would have been skewed had it not been for the testimonies of David Coleman Headley and Sarfaraz Nawaz on the involvement of the Pakistan Inter-Services Intelligence, top Lashkar-e-Taiba leadership, the Al Qaida and the Karachi project, whose demon child the Indian Mujahideen is. This book is the first-ever attempt to link up jihadists all over India and trace their linkages with terrorists based in countries like Pakistan, Nepal, Sri Lanka, Bangladesh, United Arab Emirates, Oman, Yemen and Saudi Arabia.

Machine Models of Music Stephan M. Schwanauer, David A. Levitt, 1993 Machine Models of Music

Zoos in Postmodernism Stephen Spotte, 2006 The putative mission of zoos - education and conservation - yield doubtful results, education because its information relies on description and exposition instead of narrative, conservation because only a few large, showy vertebrates receive the most effort. By controlling reproduction and restricting evolution, zoos reduce animals to artifacts - unattached ecological fragments - and ultimately revoke their ontological status as part of the natural world. Spotte's argument assumes manifestations that impinge on contemporary theories of art, film,

literature, photography, and science, the whole anchored securely by the twin poles of semiotics and simulation. This willingness to grapple with high-level theory - and to take intellectual risks - sets Zoos in Postmodernism apart from other treatments of zoos in contemporary western literature.--BOOK JACKET.

Twerp Mark Goldblatt,2014-05-13 It's not like I meant for him to get hurt. . . . Julian Twerski isn't a bully. He's just made a big mistake. So when he returns to school after a weeklong suspension, his English teacher offers him a deal: if he keeps a journal and writes about the terrible incident that got him and his friends suspended, he can get out of writing a report on Shakespeare. Julian jumps at the chance. And so begins his account of life in sixth grade--blowing up homemade fireworks, writing a love letter for his best friend (with disastrous results), and worrying whether he's still the fastest kid in school. Lurking in the background, though, is the one story he can't bring himself to tell, the one story his teacher most wants to hear. Inspired by Mark Goldblatt's own childhood growing up in 1960s Queens, Twerp shines with humor and heart. This remarkably powerful story will have readers laughing and crying right along with these flawed but unforgettable characters.
