**Mercenaries in Medieval and Renaissance Europe** Hunt Janin,Ursula Carlson,2014-01-10 In medieval and Renaissance Europe, mercenaries--professional soldiers who fought for money or other rewards--played violent, colorful, international roles in warfare, but they have received relatively little scholarly attention. In this book a large number of vignettes portray their activities in Western Europe over a period of nearly 900 years, from the Merovingian mercenaries of 752 through the Thirty Years' War, which ended in 1648. Intended as an introduction to the subject and drawing heavily on contemporary first-person accounts, the book creates a vivid but balanced mosaic of the many thousands of mercenaries who were hired to fight for various employers.

**Admirals of the World** William Stewart,2014-11-26 This work provides biographies of more than 500 men and women who have served as admiral, vice admiral, or rear admiral. While officers from the U.S., British, French and Japanese navies make up the bulk of the work, officers from 22 countries, including Australia, Canada, Germany, India, Italy, the Netherlands, Russia, and Spain, are also included. The main criterion for inclusion is that each person must have actively served in the rank of at least rear admiral, but not necessarily in enemy action. This effectively rules out people who were granted the rank on retirement, as a courtesy title or posthumously. The book also includes lists of admirals organized by nationality and by year of birth.

*Admiral Albert Hastings Markham* Frank Jastrzembski,2020-02-19 The story of a 19th-century adventurer who battled pirates, hunted buffalo, sailed the Arctic, and was “one of the most arresting figures of his time” (The Globe). Few men have lived such an extraordinary life as Admiral Albert Hastings Markham. Besides dedicating five decades of his career to Britain’s Royal Navy, Markham was a voracious reader, prolific writer, keen naturalist, and daring explorer. He battled Chinese pirates during the Second Opium War and Taiping Rebellion; chased down Australian blackbirding ships in the South Pacific; trekked to within 400 miles of the North Pole; hunted buffalo and visited Indian reservations in the United States; observed a bloody war in South America; canoed Canada’s remote Hayes River; and explored the icy waters of Baffin Bay and the Arctic Ocean archipelago of Novaya Zemlya. At the time of his death in 1918, The Globe declared that Markham had been “one of the most arresting figures of his time.” While Markham’s life was filled with adventure, it was also marred by tragedy. Regrettably, Markham is best remembered for his role in the sinking of HMS Victoria in 1893. This one incident has tarnished his legacy until now. This book follows Markham through his adventures and misfortunes—and reassesses the life of this forgotten yet fascinating admiral.

*The Industrial Revolution in America [3 volumes]* Kevin Hillstrom,Laurie Collier Hillstrom,2007-02-22 This three-volume set concludes ABC-CLIO's groundbreaking series on the Industrial Revolution as it played out in the United States, offering volumes on the communications industry and the agriculture and meatpacking industries—plus a concluding overview volume on the causes, courses, and interconnections among the industries that brought such dramatic change to our lives. The concluding three-volume set in ABC-CLIO's landmark Industrial Revolution in America series offers vivid reminders of how this economic renaissance changed virtually every facet of American life. Communications takes readers from the telegraph to the telephone and beyond, showing how improvements in communication (aided by better transportation) helped create a truly national marketplace. Agriculture and Meatpacking details the shift of agriculture from family farms and local trade to mass production and agribusiness, sparking the development of a full range of farm machinery and spawning the rise of a new metropolis practically overnight. The concluding Overview/Comparison volume looks at the Industrial Revolution as a whole—revealing the impact of various industries on each other and gauging the revolution's broader social and political legacy in the United States and around the world.

*Road to Manzikert* Brian Todd Carey,Joshua B. Allfree,John Cairns,2012-03-19 “Take[s] us through 500 years of conflict from Justinian through the rise of Islam to the coming of the Turks . . . good chapters on Islamic warfare.”—Balkan Military History In August 1071, the Byzantine Emperor Romanus IV Diogenese led out a powerful army in an attempt to roll back Seljuk Turkish incursions into the Anatolian heartland of the Empire. Outmaneuvered by the Turkish sultan, Alp Arslan, Romanus was forced to give battle with only half his troops near Manzikert. By the end of that fateful day much of the Byzantine army was dead, the rest scattered in flight and the Emperor himself a captive. As a result, the Anatolian heart was torn out of the empire and it was critically weakened, while Turkish power expanded rapidly, eventually leading to Byzantine appeals for help from Western Europe, prompting the First Crusade. This book sets the battle in the context of the military history of the Byzantine Empire and the Islamic World (Arab and Seljuk Turkish) up to the pivotal engagement at Manzikert in 1071, with special emphasis on the origins, course and outcome of this battle. The composition, weapons and tactics of the very different opposing armies are analyzed. The final chapter is dedicated to assessing the impact of Manzikert on the Byzantine Empire’s strategic position in Anatolia and to the battle’s role as a causus belli for the Crusades. Dozens of maps and battle diagrams support the clear text, making this an invaluable study of a crucial period of military history. “A gripping story of desertion, defection and betrayal amongst the Byzantine troops and of the fleet and ferocious Seljuk steppe warriors.”—Today’s Zaman

**Adaptive Strategies for Water Heritage** Carola Hein,2019-10-18 This Open Access book, building on research initiated by scholars from the Leiden-Delft-Erasmus Centre for Global Heritage and Development (CHGD) and ICOMOS Netherlands, presents multidisciplinary research that connects water to heritage. Through twenty-one chapters it explores landscapes, cities, engineering structures and buildings from around the world. It describes how people have actively shaped the course, form and function of water for human settlement and the development of civilizations, establishing socio-economic structures, policies and cultures; a rich world of narratives, laws and practices; and an extensive network of infrastructure, buildings and urban form. The book is organized in five thematic sections that link practices of the past to the design of the present and visions of the future: part I discusses drinking water management; part II addresses water use in agriculture; part III explores water management for land reclamation and defense; part IV examines river and coastal planning; and part V focuses on port cities and waterfront regeneration. Today, the many complex systems of the past are necessarily the basis for new systems that both preserve the past and manage water today: policy makers and designers can work together to recognize and build on the traditional knowledge and skills that old structure embody. This book argues that there is a need for a common agenda and an integrated policy that addresses the preservation, transformation and adaptive reuse of historic water-related structures. Throughout, it imagines how such efforts will help us develop sustainable futures for cities, landscapes and bodies of water.

*Lost Enlightenment* S. Frederick Starr,2015-06-02 The forgotten story of Central Asia's enlightenment—its rise, fall, and enduring legacy In this sweeping and richly illustrated history, S. Frederick Starr tells the fascinating but largely unknown story of Central Asia's medieval enlightenment through the eventful lives and astonishing accomplishments of its greatest minds—remarkable figures who built a bridge to the modern world. Because nearly all of these figures wrote in Arabic, they were long assumed to have been Arabs. In fact, they were from Central Asia—drawn from the Persianate and Turkic peoples of a region that today extends from Kazakhstan southward through Afghanistan, and from the easternmost province of Iran through Xinjiang, China. Lost Enlightenment recounts how, between the years 800 and 1200, Central Asia led the world in trade and economic development, the size and sophistication of its cities, the refinement of its arts, and, above all, in the advancement of knowledge in many fields. Central Asians achieved signal breakthroughs in astronomy, mathematics, geology, medicine, chemistry, music, social science, philosophy, and theology, among other subjects. They gave algebra its name, calculated the earth's diameter with unprecedented precision, wrote the books that later defined European medicine, and penned some of the world's greatest poetry. One scholar, working in Afghanistan, even predicted the existence of North and South America—five centuries before Columbus. Rarely in history has a more impressive group of polymaths appeared at one place and time. No wonder that their writings influenced European culture from the time of St. Thomas Aquinas down to

the scientific revolution, and had a similarly deep impact in India and much of Asia. Lost Enlightenment chronicles this forgotten age of achievement, seeks to explain its rise, and explores the competing theories about the cause of its eventual demise. Informed by the latest scholarship yet written in a lively and accessible style, this is a book that will surprise general readers and specialists alike.

**Finding Pieces of the Puzzle** Ronald A. N. Kydd, 2011-06-10 Climate change. Radical politics. National debt. Globalization. What do Christians have to say to the big questions we all face? Whatever they try to say, they will be seriously handicapped if they do not know their own story. Finding Pieces of the Puzzle will fill the knowledge gap. It breaks away from the usual manner in which history is written. Here is a sweeping overview of the story of Christianity that takes the reader to parts of the world seldom visited, that watches as the message of Christ encounters cultures as different as ninth century Persia and sixteenth century Kongo. The story is carried from the first to the twenty-first century by a series of mini-biographies--a young woman facing martyrdom, a boy from a little French town who becomes Pope and launches an army, an African-American who uses a successful international trade network to combat slavery. The glory, the confusion, the shame, the holiness of Christianity are all here. As the pieces are slipped into place, the puzzle begins to make sense. Watching Christians of the past face their challenges helps us understand who modern Christians really are.

**CHANGE!** Scott Myers-Lipton, 2022-02-23 CHANGE! A Guide to Teaching Social Action is for faculty, staff, and students who are interested in developing a college course or co-curricular experience using social action. Social action occurs when everyday people band together to develop their power in order to change policy. What distinguishes a social action class from other social change courses is that students are actively involved in enacting a policy change of their choice, thus providing students with a first-hand experience of democracy and power. As part of the social action class, students can start a new campaign, keep a campaign going from the previous semester, reactivate a campaign from a previous year, or join a community campaign. The goal of this book is to train the next generation of democratic citizens and participants. The hope is that if teaching social action is mainstreamed in higher education, students will be able to do democracy more effectively, and help to preserve it at the same time. More specifically, the book provides an overview of the history of college social action, explores what needs to be considered before starting a social action class, explains how students choose their campaigns and launch them, and how students plan, implement, and evaluate their campaigns.

**E-Business-Controlling im Marketing und Vertriebsprozess** Sven Braun, 2003-03-06 Inhaltsangabe: Problemstellung: Während das Internet und mit ihm auch E-Business immer mehr zur Reife kommt, stecken die netzgerechten Controllingsysteme noch in den Anfängen. Und das, obwohl es gerade im E-Business darauf ankommt, strategische Entscheidungen schnell zu treffen. Falls sich das Management aber auf die traditionellen Controllingsysteme und -instrumente verlässt, läuft es Gefahr auf Grund der unzureichenden Informationen die falschen Entscheidungen zu treffen. Diese Diplom-Arbeit zeigt die Hauptunterschiede von E-Business-Controlling zu herkömmlichen Controlling-Verfahren auf und erklärt anhand der praxisnah gewählten Fallstudie des mittelständigen Fahrradlieferanten Tourmalet GmbH wie die Umsetzung in der Praxis erfolgen kann. Dabei werden sowohl auf einfache Möglichkeiten wie Logfile-Analysen und Cookie-Auswertungen als auch auf die neusten Möglichkeiten, die sich aus der Verknüpfung von Data Warehouse, OLAP-, sowie verschiedener Report- und Auswertungs-Anwendungen ergeben, eingegangen. Durch die richtige Anwendung des E-Business-Controlling liefern die entsprechenden Anwendungen bereits vorkonsolidierte und berechnete Werte. Dadurch bekommt der Controller mehr Zeit für Analysen, denn er ist weniger mit der Datenbeschaffung beschäftigt. Zahlreiche Darstellungen, Beispiele und detaillierte Abkürzungs- und Fremdwörterverzeichnisse runden die Arbeit ab. Inhaltsverzeichnis: Inhaltsverzeichnis: 1. Quicklet on West with the Night by Beryl Markham (CliffNotes-like Summary) Laura Brestovansky, 2012-02-24 ABOUT THE BOOK I've always been interested in women in history, particularly those of the 20th century. Somehow, though, I had never heard of Beryl Markham until I came across her book, "West With the Night," about a year or so ago. The cover's engaging portrait of Markham, looking patrician and quite beautiful in her aviator helmet, immediately drew my attention. As I began to read the account of her life, I was quickly hooked by her fascinating description of life in British East Africa (today known as Kenya) in the early 1900s: Imagine taking off in a two-seater plane and narrowly avoiding a zebra. My impression was confirmed the more I read: Markham was clearly a woman who lived in a completely different world than I do in 21st century America: She bred championship racehorses. She flew planes into remote parts of Africa. And she managed to write about it without a hint of boasting. Her writing is simple and honest. No less a writer than Ernest Hemingway, a friend of Markham's, praised the book as "bloody wonderful" in a letter to Maxwell Perkins, as cited on the back cover of the 1983 edition of West with the Night). Markham's account showed me that life is meant to be lived to the full. Taking risks and trying new things is what gives life its savor. Telling other's about one's adventures allows them to savor them too. MEET THE AUTHOR Laura Brestovansky has more than 20 years of writing/editing/proofreading experience, including blogs, e-books, articles, brochures, press releases and more. Currently, she is also the public relations liaison for Caregivers Professional Resources (www.cprmich.com), whose duties include writing the CPR Airway blog. She has written on a number of topics, including health care, home improvement, travel, religion and social issues. She graduated with honors from Eastern Michigan University, majoring in journalism and political science. When she's not on the computer (whether writing, editing or surfing), she's spending time with her husband and three children, possibly biking or hiking with them or watching a classic movie. EXCERPT FROM THE BOOK West With the Night is Beryl Markham's memoir of her life in British East Africa (Kenya). She was a racehorse breeder, bush pilot and the first woman to fly across the Atlantic from east to west. The book begins with Markham's review of an old flight logbook, which sets the scene for the entire book -- British East Africa in the 1930s. Once setting the scene she recounts her journey to deliver oxygen to a sick minor: "-- a job to be done at an uncomfortable hour with sleep in my eyes and a half a grumble on my lips." While the flight itself is routine, Markham flies with the knowledge that a friend and fellow pilot is missing in the Serengeti.

The Handbook of Mites of Economic Plants Vincenzo Vacante, 2015-12-21 Mites pose a serious problem to plants worldwide, attacking crops and spreading disease. When mites damage crops of economic importance the impacts can be felt globally. Mites are among the most diverse and successful of invertebrates, with over 45,000 described species, with many more thousands to be discovered. They are responsible for

a significant portion of the losses of crops for food, fibre, industry and other purposes, and require expensive and often controversial pest control measures. Understanding these mites is vital for entomologists, pest researchers, agronomists and food producers. Knowledge of mite pests helps to inform control strategies and optimize the production of economic plants and the agrarian economy. This encyclopedia provides a thorough coverage of the mites and the problems they cause to crops, yet it is easily searchable, organised by mite species and subdivided into helpful headings. It takes a worldwide view of the issue of mites injurious to economic plants, describing mites prevalent in different regions and discussing control methods appropriate in different environments. This book provides an encyclopaedic reference to the major mites, described by family in terms of their internal and external morphology, bio-ecology and family systematics. Methods of mite collection and laboratory study is described, as well as species diagnostic characteristics, worldwide distribution, host plants, identification by the type of damage they cause and control strategies, including chemical and biological intervention and integrated pest management measures. Mites of the following families are included: (Eriophyoidea, Tarsonemidae, Tuckerellidae, Tenuipalpidae, Tetranychidae, Acaridae, Penthaleidae). Mites of Economic Plants is an important resource for students of entomology and crop production, and as a thorough reference guide for researchers and field workers involved with mites, crop damage and food production.

*„Einfach mal was anderes wollen!“ Ein Marketingratgeber zum Umgang mit Variety Seeking im Konsumentenverhalten* Annika Dölle,2015-03 „Einfach mal was anderes wollen!“ – Dieses Abwechslungsbedürfnis hat großen Einfluss auf das Verhalten einiger Konsumenten. Denn, um dieses Bedürfnis zu befriedigen, vollziehen auch zufriedene Konsumenten einen Produkt- und/oder Markenwechsel. Dieses Verhalten wird als „Variety Seeking“ bezeichnet. Das Phänomen kann den Übergang von Kundenzufriedenheit zu Kundenbindung unterbrechen. Die Zufriedenheit der Konsumenten ist also im Fall von Variety Seekern eine notwendige, aber keine hinreichende Bedingung für Kundenbindung. Nur wie kann ein Unternehmen dennoch Variety Seeker binden? Durch die Befriedigung ihres Abwechslungsbedürfnisses! Die aktuelle Literatur zu dieser Thematik fungiert jedoch nicht als praxisnaher Marketingratgeber. Hier liegt ein großes Versäumnis, denn gerade der negative Zusammenhang zwischen Variety Seeking und der Kundenbindung ist von höchster Relevanz für den Unternehmenserfolg. Das Buch ist ein erster Schritt, um dieses Versäumnis zu reduzieren. Es schlägt eine Brücke zwischen den bisherigen theoretischen Implikationen und einer praktischen Umsetzung. Dies wird durch eine detaillierte Produkt und- Zielgruppenanalyse und vor allem durch die ausführliche Überprüfung von stimulierenden Marketingmaßnahmen gewährleistet. Die Überprüfung wird an den erfolgreichen Vorgehensweisen der Marken „Jägermeister“ und „AXE“ verdeutlicht. Das Ende des Buches besteht aus einem differenzierten Erkenntniszuwachs, der explizit die Sichtweise von Marketingabteilungen berücksichtigt.

*Markenstärkenmessung unter besonderer Berücksichtigung von Konsumentenheterogenität* Lars Köster,2007-12-27 Lars Köster entwickelt ein Modell zur Messung der Markenstärke bei heterogenen Bedürfnissen und Verhaltensformen von Konsumenten. Es liefert Informationen über die Existenz unterschiedlicher Marktsegmente und die Möglichkeiten ihrer gezielten Ansprache, außerdem zeigt es die segmentspezifischen Treiber und ihre individuellen Ausprägungen auf.
