Unequal Profession Meera E Deo,2019-02-05 A study of the experiences of women of color law school faculty and the effect of race and gender on legal education. This book is the first formal, empirical investigation into the law faculty experience using a distinctly intersectional lens, examining both the personal and professional lives of law faculty members. Comparing the professional and personal experiences of women of color professors with white women, white men, and men of color faculty from assistant professor through dean emeritus, Unequal Profession explores how the race and gender of individual legal academics affects not only their individual and collective experience, but also legal education as a whole. Drawing on quantitative and qualitative empirical data, Meera E. Deo reveals how race and gender intersect to create profound implications for women of color law faculty members, presenting unique challenges as well as opportunities to improve educational and professional outcomes in legal education. Deo shares the powerful stories of law faculty who find themselves confronting intersectional discrimination and implicit bias in the form of silencing, mansplaining, and the presumption of incompetence, to name a few. Through hiring, teaching, colleague interaction, and tenure and promotion, Deo brings the experiences of diverse faculty to life and proposes several mechanisms to increase diversity within legal academia and to improve the experience of all faculty members. Praise for Unequal Profession “Fascinating, shocking, and infuriating, Meera Deo’s careful qualitative research exposes the institutional practices and cultural norms that maintain a separate and unequal race-gender order even within the privileged ranks of tenure-track law professors. With riveting quotes from faculty across a range of institutional and social positions, Unequal Profession powerfully reminds us that we must do better. I saw my own career in this book—and you might, too.” —Angela P. Harris, University of California, Davis “A powerful account of inequality in legal academia. Quantitative data and compelling narratives bring to life the challenges and roadblocks in gaining not just entry and tenure but also respect for the voices of minority women within the academy. There are no easy remedies, but reading this book is a good place to start for lawyers and law professors to understand what minority women face and which practices can increase the odds of success.” —Bryant G. Garth, University of California, Irvine “Unequal Profession should be mandatory reading for everyone in legal academia By providing concrete evidence of systemic discrimination, Meera Deo illuminates a long-standing problem needing to be remedied.” —Sarah Deer, University of Kansas

Everyday Antiracism Mica Pollock,2008 Which acts by educators are racist and which are antiracist? How can an educator constructively discuss complex issues of race with students and colleagues? In Everyday Antiracism, leading educators deal with the most challenging questions about race in school, offering invaluable and effective advice. Contributors including Beverly Daniel Tatum, Sonia Nieto, and Pedro Noguera describe concrete ways to analyze classroom interactions that may or may not be racial, deal with racial inequality and diversity, and teach to high standards across racial lines. Topics range from using racial incidents as teachable moments and responding to the n-word to valuing students' home worlds, dealing daily with achievement gaps, and helping parents fight ethnic and racial misconceptions about their children. Questions following each essay prompt readers to examine and discuss everyday issues of race and opportunity in their own classrooms and schools. For educators and parents determined to move beyond frustrations about race, Everyday Antiracism is an essential tool.

Shaw had a breakdown, but he's getting himself back together. He has a single room, a job on a decaying London barge, and an on-off affair with a doctor's daughter called Victoria, who claims to have seen her first corpse at age thirteen. It's not ideal, but it's a life. Or it would be if Shaw hadn't got himself involved in a conspiracy theory that, on dark nights by the river, seems less and less theoretical... Meanwhile, Victoria is up in the Midlands, renovating her dead mother's house, trying to make new friends. But what, exactly, happened to her mother? Why has the local waitress disappeared into a shallow pool in a field behind the house? And why is the town so obsessed with that old Victorian morality tale, The Water Babies? As Shaw and Victoria struggle to maintain their relationship, the sunken lands are rising up again, unnoticed in the shadows around them.

Representation and Resistance Jaspal Kaur Singh,2008 Representation and Resistance: South Asian and African Women's Texts at Home and in the Diaspora compares colonial and national constructions of gender identity in Western-educated African and South Asian women's texts. Jaspal Kaur Singh argues that, while some writers conceptualize women's equality in terms of educational and professional opportunity, sexual liberation, and individualism, others recognize the limitations of a paradigm of liberation that focuses only on individual freedom. Certain diasporic artists and writers assert that transformation of gender identity construction occurs, but only in transnational cultural spaces of the first world-spaces which have emerged in an era of rampant globalization and market liberalism. In particular, Singh advocates the inclusion of texts from women of different classes, religions, and castes, both in the Global North and in the South.

Fandom as Methodology Catherine Grant,Kate Random Love,2019-12-03 An illustrated exploration of fandom that combines academic essays with artist pages and experimental texts. Fandom as Methodology examines fandom as a set of practices for approaching and writing about art. The collection includes experimental texts, autobiography, fiction, and new academic perspectives on fandom in and as art. Key to the idea of “fandom as methodology” is a focus on the potential for fandom in art to create oppositional spaces, communities, and practices, particularly from queer perspectives, but also through transnational, feminist and artist-of-color fandoms. The book provides a range of examples of artists and writers working in this vein, as well as academic essays that explore the ways in which fandom can be theorized as a methodology for art practice and art history. Fandom as Methodology proposes that many artists and art writers already draw on affective strategies found in fandom. With the current focus in many areas of art history, art writing, and performance studies around affective engagement with artworks and imaginative potentials, fandom is a key methodology that has yet to be explored. Interwoven into the academic essays are lavishly designed artist pages in which artists offer an introduction to their use of fandom as methodology. Contributors Taylor J. Acosta, Catherine Grant, Dominic Johnson, Kate Random Love, Maud Lavin, Owen G. Parry, Alice Butler, SooJin Lee, Jenny Lin, Judy Batalion, Ika Willis. Artists featured in the artist pages Jeremy Deller, Ego Aghaiwe Sowinski, Anna Bunting-Branch, Maria Fusco, Cathy Lomax, Kamau Amu Patton, Holly Pester, Dawn Mellor, Michelle Williams Gamaker, The Women of Colour Index Reading Group, Liv Wynter, Zhiyuan Yang

Actors and Dynamics in the Syrian Conflict's Middle Phase Jasmine K. Gani,Raymond Hinnebusch,2022-03-18 This volume covers the middle time period of the Syrian uprising, roughly from 2012 when Syria's peaceful protest began to mutate into a violent insurgency and civil war until roughly 2018 when the conflict took on features of a frozen conflict. The middle period was important as one of key junctures or turning points when the struggle could have reached rather different outcomes. Non-violent protest failed to drive democratization and turned into violent insurrection but revolution from below also failed as did regime counter-insurgency, leaving protracted civil war the default outcome. Second, the consequences of civil war became evident with six themes: failing statehood coexisted with regime resilience; rebel governance emerged as a viable challenge to the regime; social forces were sharply polarized; external actors exacerbated internal divisions; a predatory war economy emerged; and intense violence led to massive displacement of the population. Taking an innovative and interdisciplinary approach that seeks to capture the full complexity of the phenomenon, this book contributes significantly to our understanding of the Syrian conflict, therefore it will be of interest to academics, students, journalists and policy-makers interested in the Syrian civil war.

Security of India's Ports, Coast and Maritime Trade Dr. Mohit Nayal,2021-06-01 India's rise as a global power in the 21st century will be backed with a strong blue economy. The high volumetric trade activities through its coastal region, mainly due to its geostrategic location and efficient links with the vast potential market in the hinterland and other landlocked states, provides it unmatched leverage. Among such promising enterprising, attracting global investments and trade, the non-conventional security threats within the Indian Ocean region and India's ports and coast cannot be ignored. Therefore, to address these challenges, the law at the seas formulated by various global organisations and other national and international regulatory mechanisms become essential for all those directly or indirectly involved in India's maritime security. Over the years, many state coastal security agencies have evolved with specific potential and restrictions, which creates a certain conditionality of the existing non-conventional security challenges and maritime conflicts with its neighbours. The successful use of security-related technology to outpace such non-conventional threats creates a demand for further bolstering such technologies for India's advantage. Besides, these prevailing threats to the ports and coastal region, the environmental security challenges also directly impact humans and cannot be undermined. The book covers all these facets in detail, identifying the specific fault lines and makes recommendations to address the non-conventional security challenges of India's ports, coast and maritime trade. The book will be of interest to policymakers, academicians, practitioners, scholars, and all those individuals and institutes interested in India's Ports, Coastal and Maritime Security.

Poverty and Shared Prosperity 2018 World Bank,2018-12-10 The World Bank Group has two overarching goals: End extreme poverty by 2030 and promote shared prosperity by boosting the incomes of the bottom 40 percent of the population in each economy. As this year's Poverty and Shared Prosperity report documents, the world continues to make progress toward these goals. In 2015, approximately one-tenth of the world's population lived in extreme poverty, and the incomes of the bottom 40 percent rose in 77 percent of economies studied. But success cannot be taken for granted. Poverty remains high in Sub-Saharan Africa, as well as in fragile and conflict-affected states. At the same time, most of the world's poor now live in middle-income countries, which tend to have higher national poverty lines. This year's report tracks poverty comparisons at two higher poverty thresholds—\$3.20 and \$5.50 per day—which are typical of standards in lower- and upper-middle-income countries. In addition, the report introduces a societal poverty line based on each economy's median income or consumption. Poverty and Shared Prosperity 2018: Piecing

Together the Poverty Puzzle also recognizes that poverty is not only about income and consumption—and it introduces a multidimensional poverty measure that adds other factors, such as access to education, electricity, drinking water, and sanitation. It also explores how inequality within households could affect the global profile of the poor. All these additional pieces enrich our understanding of the poverty puzzle, bringing us closer to solving it. For more information, please visit worldbank.org/PSP
