Adaptation and Resilience Bonnie G. Colby, George B. Frisvold, 2012-06-25 In America's arid southwest, climate change will occur in the context of already-keen competition for water for agriculture, urban growth, electricity generation, water-based recreation, and environmental protections. This book explores the challenges that climate change and variability pose for water and energy managers and users, communities, and policy makers in the arid Southwest and demonstrates the application of economic methods to address these challenges. It provides valuable tools for both those interested in resource management and climate change, and those seeking to understand how economic methods can be used to analyze contemporary social problems and craft appropriate responses. The book considers both adaptation to long-term climate change and more immediate issues of water and electricity management in the face of inter-annual climate variability and drought. Thus, no matter what one's perspective on long-run climate change projections, the book provides useful lessons for some of the region's most pressing resource management problems.

The True Exotic Colors of Indonesia (English Edition) Martha Tilaar Puspita Martha, 2013-05-30 Indonesia is a country endowed with a wealth of colorful cultures and flora and fauna. The land provides endless source of inspiration for anyone to create work and etch traces of significance on the mother land. Martha Tilaar is one of these people. Through her journey in cosmetics for the past 42 years, she has made her contribution by pioneering in the opening of a chapter in the history of in the creation of Indonesian

makeup color trend. Through this book Martha shares with her fellow Indonesians her stories and journey in creating and processing Indonesian color trend. She describes here how the archipelago has inspired her in creating color trend for Indonesian women. She explicitly looks back to the 80s when Indonesian cosmetics were not yet well received by the Indonesians. This condition bothered her and in 1987 she resolutely produced the very first Sariayu color trend named “Twilight at Sriwedari”. This initial collection received recognition and acknowledgement from various beauty observers and experts as the pioneer in Indonesian color trend that has to date been consistently created annually based on the Indonesian culture and nature. The history of the journey and the inspirations behind the birth of the color trend are told by Martha Tilaar in such a way that makes each page of the book captivating and full of meaning. The Political Economy of Federalism in India M. Govinda Rao, Nirvikar Singh, 2006-12-18 This is a comprehensive work on India's fiscal federalism. The book surveys and analyses the evolution of fiscal federalism from the angle of political economy and brings to bear analytical skills of a very high order to assess and relate the political and administrative dimensions of India's federal system to fiscal federal issues. The authors present a synthesized framework, combining both economic and political elements in a political economy prism such as the Centre-State relations with not only the political perspectives but also the economic ones with the belief that only such a framework can provide a useful guide to implementable reform of policies.

China's Power and Asian Security Mingjiang Li,Kalyan M. Kemburi,2014-11-27 One of the most significant factors for contemporary international relations is the growth of China's economic, military, and political power. Indeed, few analysts would dispute the observation that China's power has strongly influenced the structure of the international system, major-power strategic relations, international security, the patterns of trans-border economic activities, and most importantly, the political and security dynamics in Asia in the twenty-first century. This book maps the growth of China's political, economic, and military capabilities and its impact on the security order in Asia over the coming decades. While updating the emerging power dimensions and prevailing discourse, it provides a nuanced

analysis of whether the growth of Chinese power is resulting in Beijing becoming more assertive, or even aggressive, in its behavior and pursuit of national interests. It also examines how the key Asian countries perceive and react to the growth of China's power and how US rebalancing would play out in the context of Beijing's political, economic, and military power. China's Power and Asian Security will be of huge interest to student and scholars of Asian politics, Chinese politics, security studies and international security and international relations more generally.

China's Asymmetric Statecraft Yuxing Huang, 2023-02-15 What does China's regional diplomacy tell us about its geopolitical position and ambitions? Yuxing Huang argues that in an environment of numerous regional competitors and alignments, China practises asymmetric statecraft toward its many weaker neighbours. In the South China Sea, it maintains a uniform strategy toward Vietnam, the Philippines, and Malaysia. Whereas in South Asia, it employs selective strategies to maintain the status quo with India and to enhance Pakistan's position. This perceptive interpretation of the different narratives and paradigms that constitute China's foreign policy alerts us to the potential future of its diplomatic endeavours in a dramatically changing international environment.

Tiger Girls Minglu Chen, 2012-03-29 The existing scholarship on women in China suggests that gender inequality still exists against the background of the country's reform and opening in recent years. However, the situation of women in enterprise ownership and leadership seems to indicate that despite such notions of disadvantage amongst women, some of them are playing a more active and significant role in China's economic development. Based on a series of interviews with female enterprise owners, wives of

enterprise owners and women managers conducted in diverse locations in three different provinces of China, *Tiger Girls* examines the deeper realities of women entrepreneurs in China, and by extension the role of leading women in the workforce. By analyzing information on these women's personal experiences, careers and families, this book investigates their status at work and at home, as well as their connections with local politics. The research results suggest that although traces of gender inequality can still be found in these women's lives, they appear to be actively engaged in the business establishment and operation and gradually casting off the leash of domestic responsibilities. This book will be of interest to students and scholars of Chinese Studies, Chinese Business, Chinese Economics and Asian Studies. Minglu Chen is ARC Postdoctoral Fellow in the Department of Government and International Relations at Sydney University, Australia.

US-China Global Maritime Relations Nong Hong, 2023-12-01 This book explores the U.S.-China maritime relationship, examining the development and implementation of the maritime strategies of both the United States and China. Delving into the U.S.-China maritime relationship within the global context, the book investigates six key maritime regions: the South China Sea, the Northeast Asia waters (the East China Sea, the Yellow Sea), the Indian Ocean, the South Pacific Ocean, as well as the Arctic and Antarctic regions. Its observations form a comprehensive exploration of these regions and their significance in shaping the dynamics between the two nations, and this analysis reveals that an expanded view is necessary to discover and clearly display the role that these maritime regions currently—and could potentially—play in overarching U.S.-China relations. Examining both

the ongoing conflicts and opportunities for cooperation in the global maritime domain between the United States and China, this book will be a valuable resource to students and scholars of international relations, Chinese and U.S. politics, strategic studies, and maritime studies.

Thinking Its Presence Dorothy J. Wang, 2013-12-04 When will American poetry and poetics stop viewing poetry by racialized persons as a secondary subject within the field? Dorothy J. Wang makes an impassioned case that now is the time. *Thinking Its Presence* calls for a radical rethinking of how American poetry is being read today, offering its own reading as a roadmap. While focusing on the work of five contemporary Asian American poets—Li-Young Lee, Marilyn Chin, John Yau, Mei-mei Berssenbrugge, and Pamela Lu—the book contends that aesthetic forms are inseparable from social, political, and historical contexts in the writing and reception of all poetry. Wang questions the tendency of critics and academics alike to occlude the role of race in their discussions of the American poetic tradition and casts a harsh light on the double standard they apply in reading poems by poets who are racial minorities. This is the first sustained study of the formal properties in Asian American poetry across a range of aesthetic styles, from traditional lyric to avant-garde. Wang argues with conviction that critics should read minority poetry with the same attention to language and form that they bring to their analyses of writing by white poets.

The End of China's Non-Intervention Policy in Africa Obert Hodzi, 2018-10-22 This book gives a compelling analysis and explanation of shifts in China's non-intervention policy in Africa. Systematically connecting the neoclassical realist theoretical logic with an empirical

analysis of China's intervention in African civil wars, the volume highlights a methodical interlink between theoretical and empirical analysis that takes into consideration the changing status of rising powers in the global system and its effect on their intervention behaviour. Based on field research and expert interviews, it provides a rigorous analysis of China's emergent intervention behaviour in some key African conflicts in Libya, South Sudan and Mali and broadens the study of external interventions in civil wars to include the intervention behaviour of non-Western rising powers.

Federal Register ,2012-11

Powerful Patriots Jessica Chen Weiss,2014 What role do nationalism and popular protest play in China's foreign relations? Chinese authorities permitted anti-American demonstrations in 1999 but repressed them in 2001 during two crises in U.S.-China relations. Anti-Japanese protests were tolerated in 1985, 2005, and 2012 but banned in 1990 and 1996. Protests over Taiwan, the issue of greatest concern to Chinese nationalists, have never been allowed. To explain this variation, *Powerful Patriots* identifies the diplomatic as well as domestic factors that drive protest management in authoritarian states. Because nationalist protests are costly to repress and may turn against the government, allowing protests demonstrates resolve and makes compromise more costly in diplomatic relations. Repressing protests, by contrast, sends a credible signal of reassurance, facilitating diplomatic flexibility. *Powerful Patriots* traces China's management of dozens of nationalist protests and their consequences between 1985 and 2012. --

Bending History Martin S. Indyk,Kenneth G. Lieberthal,Michael E.

O'Hanlon,2013-09-04 By the time of Barack Obama's inauguration as the 44th president of the United States, he had already developed an ambitious foreign policy vision. By his own account, he sought to bend the arc of history toward greater justice, freedom, and peace; within a year he was awarded the Nobel Peace Prize, largely for that promise. In *Bending History*, Martin Indyk, Kenneth Lieberthal, and Michael O'Hanlon measure Obama not only against the record of his predecessors and the immediate challenges of the day, but also against his own soaring rhetoric and inspiring goals. *Bending History* assesses the considerable accomplishments as well as the failures and seeks to explain what has happened. Obama's best work has been on major and pressing foreign policy challenges—counterterrorism policy, including the daring raid that eliminated Osama bin Laden; the reset with Russia; managing the increasingly significant relationship with China; and handling the rogue states of Iran and North Korea. Policy on resolving the Israeli-Palestinian conflict, however, has reflected serious flaws in both strategy and execution. Afghanistan policy has been plagued by inconsistent messaging and teamwork. On important softer security issues—from energy and climate policy to problems in Africa and Mexico—the record is mixed. As for his early aspiration to reshape the international order, according greater roles and responsibilities to rising powers, Obama's efforts have been well-conceived but of limited effectiveness. On issues of secondary importance, Obama has been disciplined in avoiding fruitless disputes (as with Chavez in Venezuela and Castro in Cuba) and insisting that others take the lead (as with Qaddafi in Libya). Notwithstanding several missteps, he has generally managed well the complex challenges of the Arab awakenings, striving to strike the right balance between U.S. values and interests. The

authors see Obama's foreign policy to date as a triumph of discipline and realism over ideology. He has been neither the transformative beacon his devotees have wanted, nor the weak apologist for America that his critics allege. They conclude that his grand strategy for promoting American interests in a tumultuous world may only now be emerging, and may yet be curtailed by conflict with Iran. Most of all, they argue that he or his successor will have to embrace U.S. economic renewal as the core foreign policy and national security challenge of the future.

Principles of Macroeconomics Fred M. Gottheil, 1999 This text conveys the principles of microeconomics in a conversational style through a series of extended examples that students should relate and respond to. Students are discouraged from simply memorizing facts and are engaged in active learning. The book maintains a focus on presenting basic concepts in depth and developing the analysis step-by-step, rather than covering hundreds of topics superficially.

Plate en Politiek S.D. van der Merwe, 2019-07-31 Populere Afrikaanse musiekkunstenaars het sover goed gedoen in post-apartheid Suid-Afrika en geniet die entoesiastiese ondersteuning van lojale volgelinge. Hierdie ondersteuning word aangevuur deur 'n komplekse stel emosies wat verband hou daarmee en om Afrikaans te weese; in 'n kultureel pluralistiese samelewing. In Plate en Politiek ondersoek Van der Merwe die interaksie tussen populere musiek en die ontvouing van 'n Afrikaanse kultuurpolitiek vanaf die begin van die twintigste eeu tot die hede. Dit sluit 'n soektog in na die eerste

opgeneemde Afrikaanse liedere en dokumenteer die daaropvolgende fases van musiekontwikkeling wat die agentskap van ordinere mense - kunstenaar en luisteraar - weerspieel teen die agtergrond van fundamentele sosiale en politieke verandering. Dit besin oor beide die musiekhoofstroom en meer alternatiewe musiek, en ontbloot onder andere, historiese voorbeelde van die akkommodering van, en verset teen, die meesternarratief van die Afrikanernasionalistiese ideologie, pogings van kulturele entrepreneurs om beheer uit te oefen oor populere Afrikaanse kultuur, klassespanning, blywende rasse-eksklusiwiteit, protes en sensuur, en die post'apartheid oproeping van Afrikaner nostalgie en wit slagofferskap. Uiteindelik bied Plate en Politiek 'n on-onderbroke weergawe van , en 'n kritiese blik op, meer as 'n eeu van opgeneemde Afrikaanse musiek.
